

# Crosstour

2015

FINALLY, THE CAR YOU NEED AND THE  
CAR YOU WANT ARE ONE AND THE SAME.

Crosstour 4WD EX-L V-6 shown in Mountain Air Metallic.

SOMETHING  
DEPENDABLE.  
SOMETHING  
FUN.

Choose both. Packed with Honda's latest technological innovations, the 2015 Crosstour is as reliable as it is exhilarating.

Crosstour 4WD EX-L V-6 shown in Basque Red Pearl II.

#### RESPONSIVE TRACTION

When the weather takes a turn, the available Real Time 4WD™ system takes charge. The system can detect a loss of traction and automatically send power to the rear wheels to help you grip the road and stay on course.

#### CONFIDENT CORNERING

Front shocks utilize a rebound spring within the shock tube that enhances front tire contact with the road when cornering. Combined with a double wishbone front and multi-link rear suspension, the Crosstour offers an exceptionally stable ride.

#### SMOOTH HANDLING

Honda engineers designed the Crosstour with a high, commanding presence, yet a low center of gravity. The results can be felt in how well the Crosstour handles.

# POWER MEETS EFFICIENCY.

The 2015 Crosstour is as aggressive as it looks, and more efficient than you'd think. The distinctively streamlined shape houses your choice of a 2.4-liter i-VTEC® 4-cylinder engine or a 3.5-liter i-VTEC V-6.

## VARIABLE CYLINDER MANAGEMENT™ (VCM®)

The V-6 engine's cylinders activate and deactivate based on power demands. This lets the engine run in 3-cylinder mode longer - maximizing fuel efficiency<sup>1</sup> - while still providing seamless transitions to all 6 cylinders when more muscle is needed.

## 278-HP i-VTEC V-6

Delivering 278 hp and 252 lb-ft of torque\*, this engine is designed to deliver outstanding performance at any speed. Paired with a 6-speed automatic transmission, both efficiency and performance prevail.

# NO COMPROMISE.

The Crosstour is packed with innovative technology. Some designed to help you navigate the road; some to help you enjoy the ride.

Crosstour EX-L V-6 shown with Black Leather and available Honda Satellite-Linked Navigation System.<sup>TM2</sup>

\*Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

## TOUCH-SCREEN CONTROLS

With the available audio touch-screen display, you can access information and media options while looking straight ahead.\* (EX-L and V-6 models)

## QUICK DIRECTIONS

The available Honda Satellite-Linked Navigation System<sup>2</sup> with voice recognition is at your command. (Navigation-equipped models)

## POWERFUL AUDIO

Find new music on Pandora,<sup>®3</sup> or enjoy personal favorites using the USB Audio Interface.<sup>4</sup> It all sounds amazing through a 360-watt, 7-speaker audio system. (EX-L and V-6 models)

#### PASSENGER-SIDE VISIBILITY

Signal right, and Honda LaneWatch™<sup>5</sup> delivers a view to your i-MID that is nearly four times greater than what you would see using the passenger-side mirror alone. (EX-L and V-6 models)

#### COLLISION WARNINGS

The Forward Collision Warning (FCW)<sup>7</sup> system can sense the presence of vehicles in front of you and issues alerts if it calculates that you are at risk of a collision. (EX-L models)

#### LANE-DRIFT ALERTS

The Lane Departure Warning (LDW)<sup>6</sup> system can track lane markings on the road and alert you when it detects you moving into a different lane without signaling. (EX-L models)

#### BACK-UP HELP

Shift into reverse, and the standard rearview camera<sup>8</sup> helps you back up. On EX-L and V-6 models, a multi-angle rearview camera lets you choose wide-angle and overhead views, too.

# LUXURY WITH UTILITY.

The Crosstour's unique exterior styling will draw you in, and its swank interior will keep you. It's here that a versatile crossover meets the luxury sports car you deserve.

Crosstour EX-L V-6 shown in Black Leather with available Honda Satellite-Linked Navigation System.\*

## CUSTOMIZED COMFORT

The driver's seat has 2-position memory (EX-L models), and available dual-zone climate control lets you and your front passenger select your own temperature settings.

## FLEXIBLE SPACE

The Crosstour boasts 51.3 cubic feet of cargo space<sup>9</sup> with the 60/40 split rear seatback folded down.

## PREMIUM REFINEMENTS

Heated front seats and a leather-trimmed steering wheel and shift knob punctuate a flawlessly designed interior (EX-L models).

## UNEXPECTED EXTRAS

A water-resistant hidden removable utility box keeps valuables out of sight, and reversible floor panels protect the rear carpeting.

# SAFETY FEATURES COME STANDARD.

Our engineers design systems that not only help protect you, but also help you avoid collisions altogether. Honda brings you these advanced safety features standard.

## ACTIVE SAFETY

### REARVIEW CAMERA<sup>8</sup>

All Crosstour models come with a rearview camera to help you see more of what's around you when you're in reverse. EX-L and V-6 models offer a multi-angle rearview camera with wide-angle and overhead views, as well.

### VEHICLE STABILITY ASSIST™ (VSA)

During oversteer or understeer, VSA\* can brake individual wheels and/or reduce engine power to help restore your intended course.

### ANTI-LOCK BRAKING SYSTEM (ABS)

Pulses the brakes to help prevent wheel lockup and retain steering control during hard braking.

### BRAKE ASSIST

Helps apply full braking force in some emergency situations.

### ELECTRONIC BRAKE DISTRIBUTION (EBD)

Helps balance braking forces, depending on how much load each wheel is bearing.

### TIRE PRESSURE MONITORING SYSTEM (TPMS)<sup>10</sup>

Monitors pressure in all four tires and alerts the driver when air pressure in any tire becomes significantly low.

## PASSIVE SAFETY

### ADVANCED COMPATIBILITY ENGINEERING™ (ACE™) BODY STRUCTURE

A Honda-exclusive design that enhances occupant protection and crash compatibility in frontal collisions. By dispersing crash energy more evenly throughout the front of the vehicle, less force is transmitted to the passenger compartment.

### DUAL-STAGE FRONT AIRBAGS (SRS)

Capable of inflating at different rates depending on crash severity, seat-belt usage and/or other factors†

### FRONT SIDE AIRBAGS WITH PASSENGER-SIDE OCCUPANT POSITION DETECTION SYSTEM (OPDS)

OPDS prevents deployment if a child or small statured passenger is out of position and in the airbag's path of deployment‡

### SIDE CURTAIN AIRBAGS WITH ROLLOVER SENSOR

Can reduce the likelihood of injuries in a collision by providing not only side-impact protection, but also protection in the event of a rollover‡

### DRIVER'S AND FRONT PASSENGER'S ACTIVE HEAD RESTRAINTS

Help reduce the likelihood of whiplash injuries. Move up and forward in a sufficient rear collision.

\*VSA is not a substitute for safe driving. It cannot correct the vehicle's course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver. †Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.
