

ADDITIONAL RECOMMENDED SERVICES

COOLING SYSTEM FLUID EXCHANGE . . . \$124.95

When left unserviced, chemical deposits can restrict the flow of coolant, plug the radiator and heater core, and eventually lead to overheating. Simply changing coolant is not enough. Our Cooling System Service is a two-stage power flush designed to safely and effectively clean out any blocked passages and chemically treat the coolant to enhance its cooling properties. Perform every 2 years or 30,000 miles.

POWER STEERING SERVICE. \$115.95

Contaminated power steering fluid can begin to deteriorate and harden seals, which can cause leaks and eventually mechanical failure. Our Power Steering Service safely and effectively exchanges out old fluid and replaces it with a special high-performance fluid. The new fluid has special anti-oxidants which keep it cleaner longer, and anti-wear agents to provide smoother, quieter operation. Perform every 2 years or 30,000 miles.

GDI INDUCTION/INJECTION SERVICE . . . \$209.95

This service cleans harmful deposits from fuel injectors. It also corrects flow-pattern of fuel and maintains proper fuel to air mixture specifications. Helps prevent and may correct hesitation, misfires, loss of power & other driveability issues. Perform every year or 15,000 miles.

ADDITIONAL RECOMMENDED SERVICES

COMPLETE BRAKE FLUID EXCHANGE . . . \$149.95

The introduction of front wheel disc brakes was a major milestone in safe, reliable braking control of motor vehicles. However, operation of disc brakes creates extremely high temperatures which can cause rapid oxidation of the brake fluid. Utilizing state-of-the-art equipment, will quickly and effectively exchanges all oxidized and corrosive fluid from the entire braking system. Perform every 3 years.

BATTERY SERVICE. \$34.95

Detects, cleans, and neutralizes acid, protects against corrosion. Helps prevent terminal buildup for consistent delivery of power. Perform every year or 12,000-15,000 miles.

HEADLIGHT RESTORATION SERVICE. . . \$179.95

Climate, amount of UV (sun) exposure, salty ocean air, high mineral content in water, improper cleaning and caring for your vehicle, and other factors effect your headlights clarity. Resurfacing your lenses may improve your night visibility by as much as 95%. Maintaining your headlights and keeping them clean and clear can increase the value of your vehicle. Perform as needed.

TRANSMISSION SERVICE (MOST CARS) . . \$129.95

Our state-of-the-art machine will remove harmful deposits from critical transmission components by cleansing the transmission filter, screens, valve body and torque converter. Contaminated fluid will be removed and replaced with new transmission fluid. You will experience that "like new" feeling again with miles of trouble-free operation.

TRANSMISSION SERVICE (CVT) \$190.80

TRANSMISSION SERVICE (9-SPEED). \$498.13
