2018 **RIDGELINE**

### Hit the ground running.

With its impressive performance, the temptation to hit the road has never been more powerful. So start planning your next adventure, because the Ridgeline is raring to go.

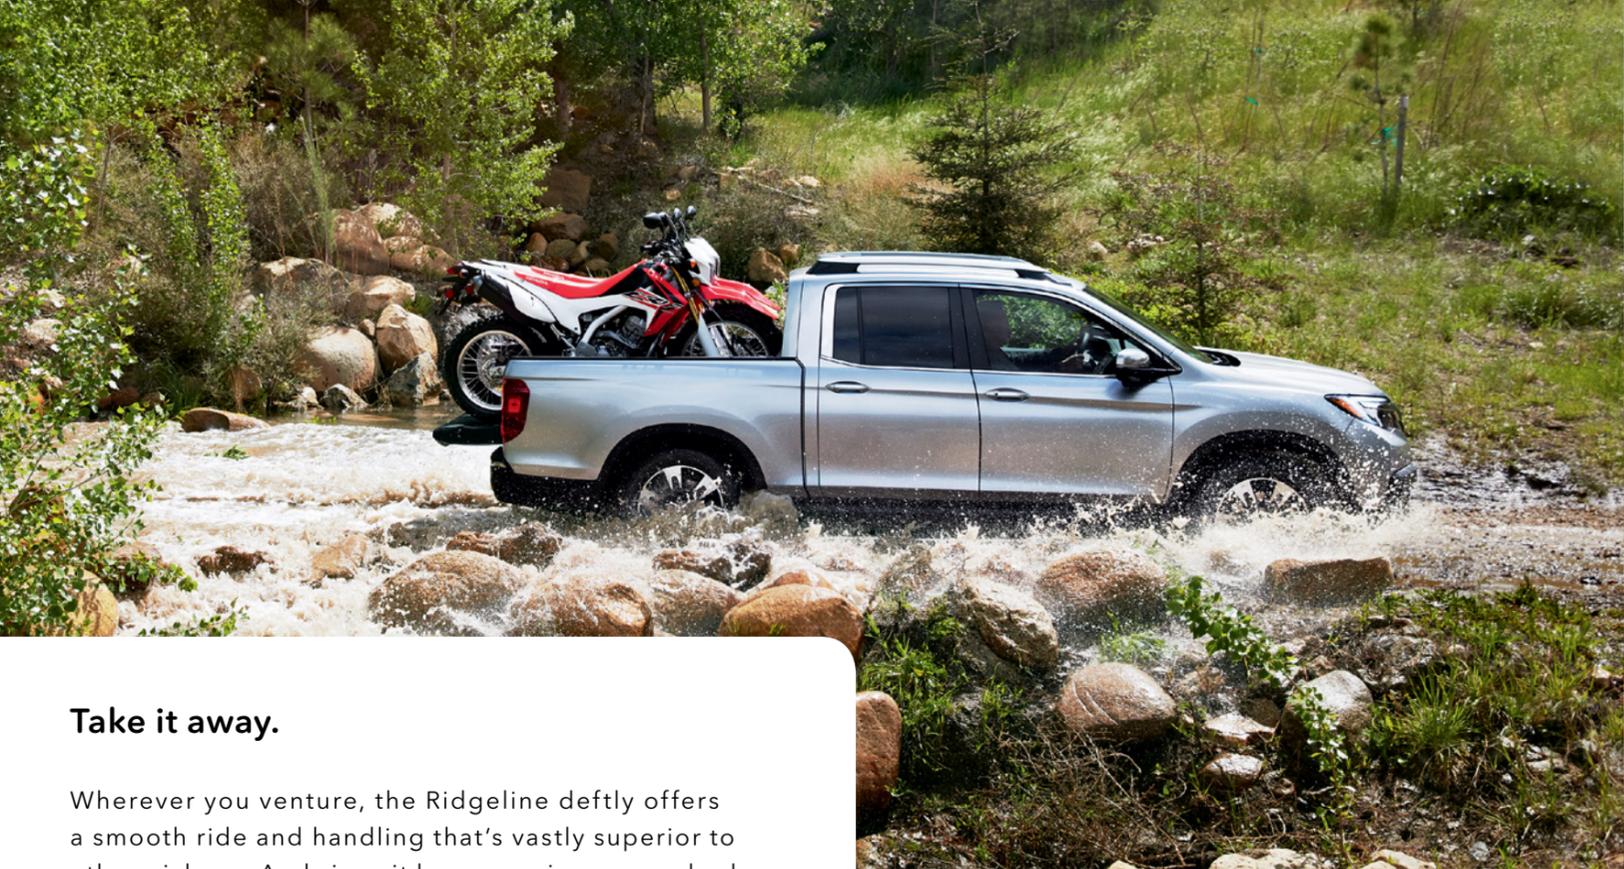

#### Power Play

Whether you're traveling up a mountain road or heading down a dirt path, the powerful 3.5-liter, i-VTEC® V-6 engine with direct injection and 6-speed automatic transmission delivers the performance you need for the journey. Producing 280 hp<sup>1</sup> and 262 lb-ft of torque,<sup>1</sup> the Ridgeline still received a remarkable 25-mpg highway rating\*.

Follow [@HondaRidgeline](#) on Facebook to see the Ridgeline in action.

Ridgeline RTL-E (above) shown in Modern Steel Metallic. Ridgeline AWD RTL-T (left) shown in Lunar Silver Metallic with accessory roof rails and running boards.

Honda reminds you to properly secure cargo items. \*18 city/25 highway/21 combined mpg rating for AWD models. Based on 2018 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.

## Take it away.

Wherever you venture, the Ridgeline deftly offers a smooth ride and handling that's vastly superior to other pickups. And since it has a spacious cargo bed, you can take your toys with you.\*

### Unibody Design

Unlike its competitors, the Ridgeline has a unibody design, so the body panels and chassis are a single molded unit. This superior design uses different strengths of steel throughout, giving it an extremely rigid structure coupled with lighter weight for impressive fuel efficiency.†

### Multi-Link Rear Suspension

Why rough it? The Ridgeline has a sophisticated, fully independent suspension that provides a remarkable ride quality on both dirt road and pavement.

### i-VTM4™ AWD System

The available intelligent Variable Torque Management™ AWD system continuously monitors the speed of each individual wheel. Torque vectoring delivers improved all-weather stability allowing you to conquer virtually any road.

### Roomy Cargo Bed

The cargo bed is more than four feet wide and almost seven feet long with the tailgate down. It's also dent- and scratch-resistant and has eight 350-pound tie-down cleats, so go ahead and stow your stuff.‡

Ridgeline AWD RTL-T (above and far right) shown in Lunar Silver Metallic with accessory roof rails and running boards. Ridgeline RTL-E (right) shown in Modern Steel Metallic with accessory cargo net. \*Honda reminds you to properly secure cargo items. †19 city/26 highway/22 combined mpg rating for 2WD models. ‡18 city/25 highway/21 combined mpg rating for AWD models. Based on 2018 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.

## Roll with it.

Ascending a sandy hill. Driving up a snowy mountain pass. Navigating a rain-soaked dirt road. Neither sand nor snow nor mud shall intimidate the Ridgeline driver, because this capable truck has available technology that lets you tackle virtually any terrain with confidence.

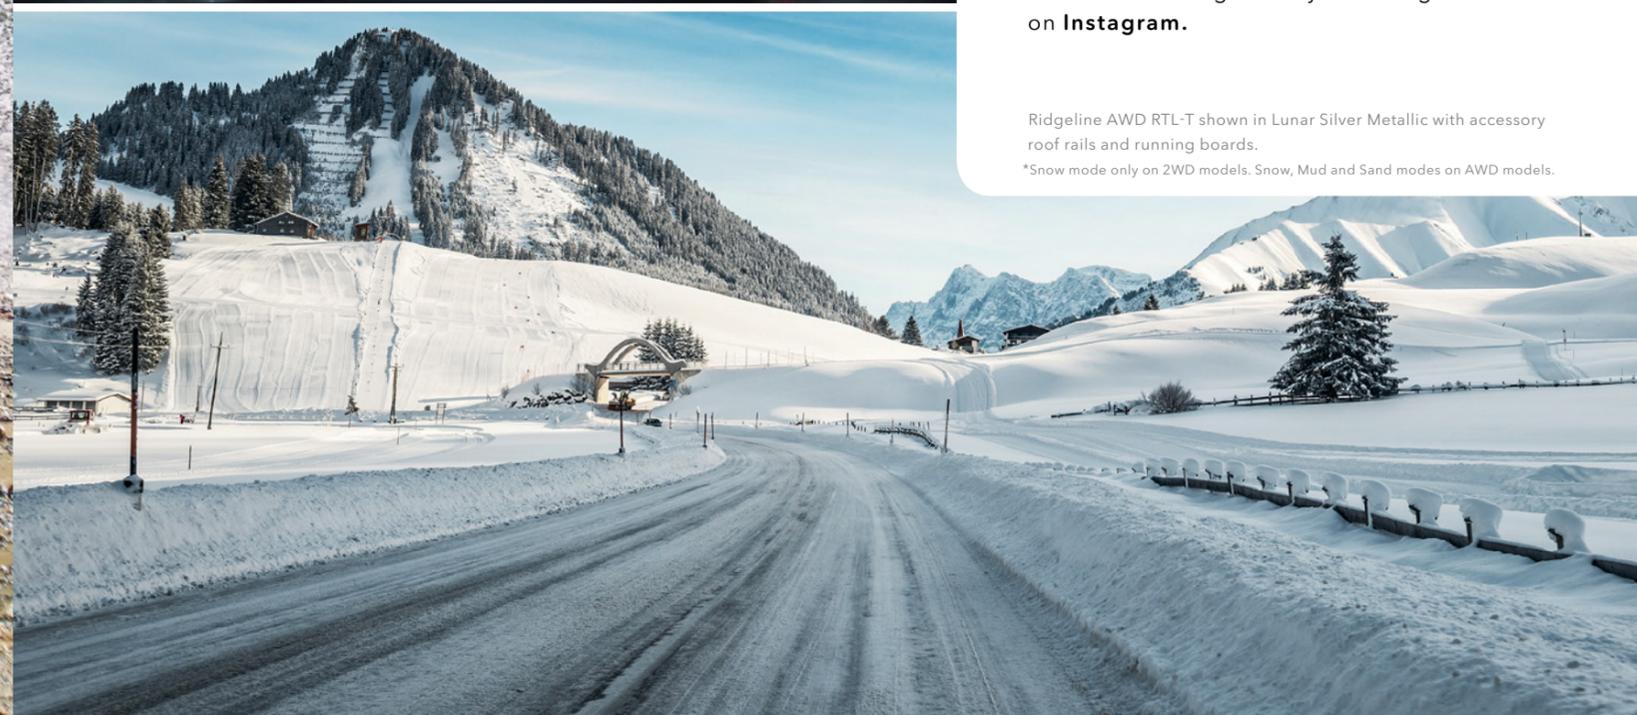

### Intelligent Traction Management

Simply push a button and select the mode that matches your driving conditions and the Ridgeline will optimize power output for that particular surface.\*

Roll with the Ridgeline by following [@Honda](#) on [Instagram](#).

Ridgeline AWD RTL-T shown in Lunar Silver Metallic with accessory roof rails and running boards.

\*Snow mode only on 2WD models. Snow, Mud and Sand modes on AWD models.

### A truckload of ingenuity.

We didn't set out to build a typical pickup truck. The world is filled with those already. Instead, we created a capable pickup with unique features that could only come from Honda. Like a dual-action tailgate, lockable In-Bed Trunk® and the only available Truck-Bed Audio System.\* A pickup with a roomy cabin that seats five comfortably and has the most passenger volume in its class. The stylish yet smart Ridgeline. It's the Honda of trucks.

Visit the I Love My Honda Hub on [automobiles.honda.com](https://www.automobiles.honda.com) to share your **#HondaLove**

Ridgeline RTL-E shown in Modern Steel Metallic with Black Leather.  
Honda reminds you to properly secure cargo items.  
\*As compared to currently available new 2017 and 2018 trucks.

## Loaded with smart thinking.

### Dual-Action Tailgate

Want easy access to the In-Bed Trunk? Swing the tailgate to the side and you can reach right in. Have something large to load? Just lower the tailgate. And the over-four-foot-wide bed, with no protruding wheelwells, lets you easily haul large, flat items such as sheets of plywood.<sup>2</sup>

### In-Bed Trunk

The Ridgeline is the only pickup with a lockable trunk. This revolutionary feature provides 7.3 cubic feet of secure, versatile storage space<sup>2</sup> with no compromise to bed utility. It has a drain for quick water removal and easy cleaning so you can use it as a cooler or a place to stow your dirty gear.

### Truck-Bed Audio System

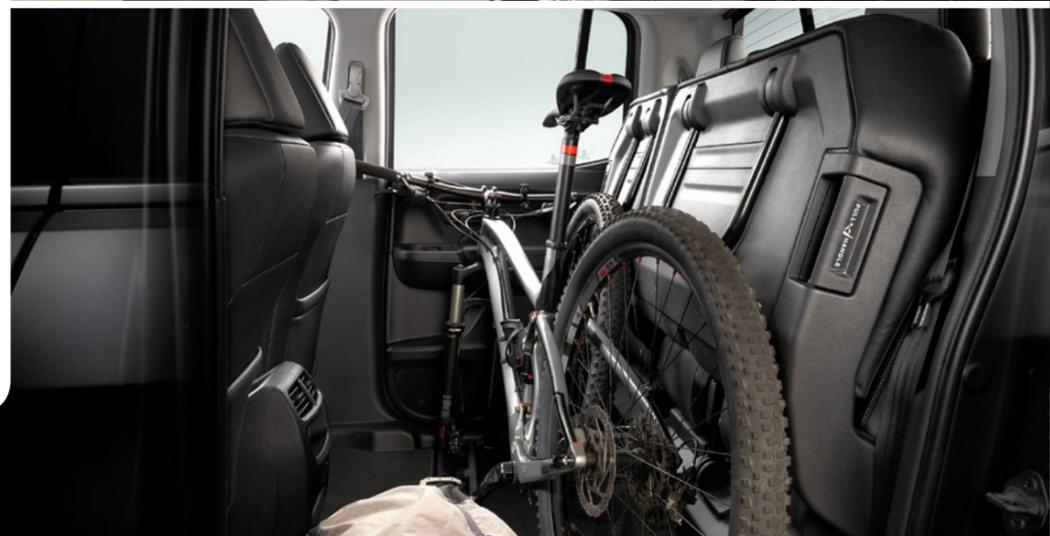

This available feature turns the entire bed into a premium audio system. Six exciters use the walls of the truck bed to pump out a truckload of sound. Since it can be operated via *Bluetooth*,<sup>3</sup> you can control music with your smartphone from a distance.\*

### Extra-Versatile Seating

The 60/40 split lift-up rear seat with underseat storage provides the ultimate in versatility. Fold the rear seat up for an ample amount of space that accommodates items four feet tall! And thanks to the flat floor, you can stow bulky cargo, like camping gear, under the seat and still have plenty of room for rear-seat passengers.

Ridgeline RTL-E (top) and Ridgeline RTL-T (lower right) shown in Obsidian Blue Pearl.

Nexus 5X is not included. \*Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked. †Honda reminds you to properly secure cargo items.

### **An intuitive interior.**

Upscale amenities abound in the spacious, comfortable cabin. You'll have an array of available technology at your fingertips, including the controls to the exclusive Truck-Bed Audio System.

### **Apple CarPlay™<sup>4</sup>**

Available Apple CarPlay integration gives access to Apple Music,<sup>®</sup> Maps, Messages and phone calls through Siri<sup>®</sup> and the Display Audio touch-screen.

### **Android Auto™<sup>5</sup>**

Android™ smartphone users can access Google Maps,<sup>™</sup> Google Now,<sup>™</sup> messages, music and other popular apps with the available Android Auto feature.

### **Remote Engine Start**

Available remote engine start lets you pre-heat or cool your Ridgeline, so you're ready to go when you reach the door.

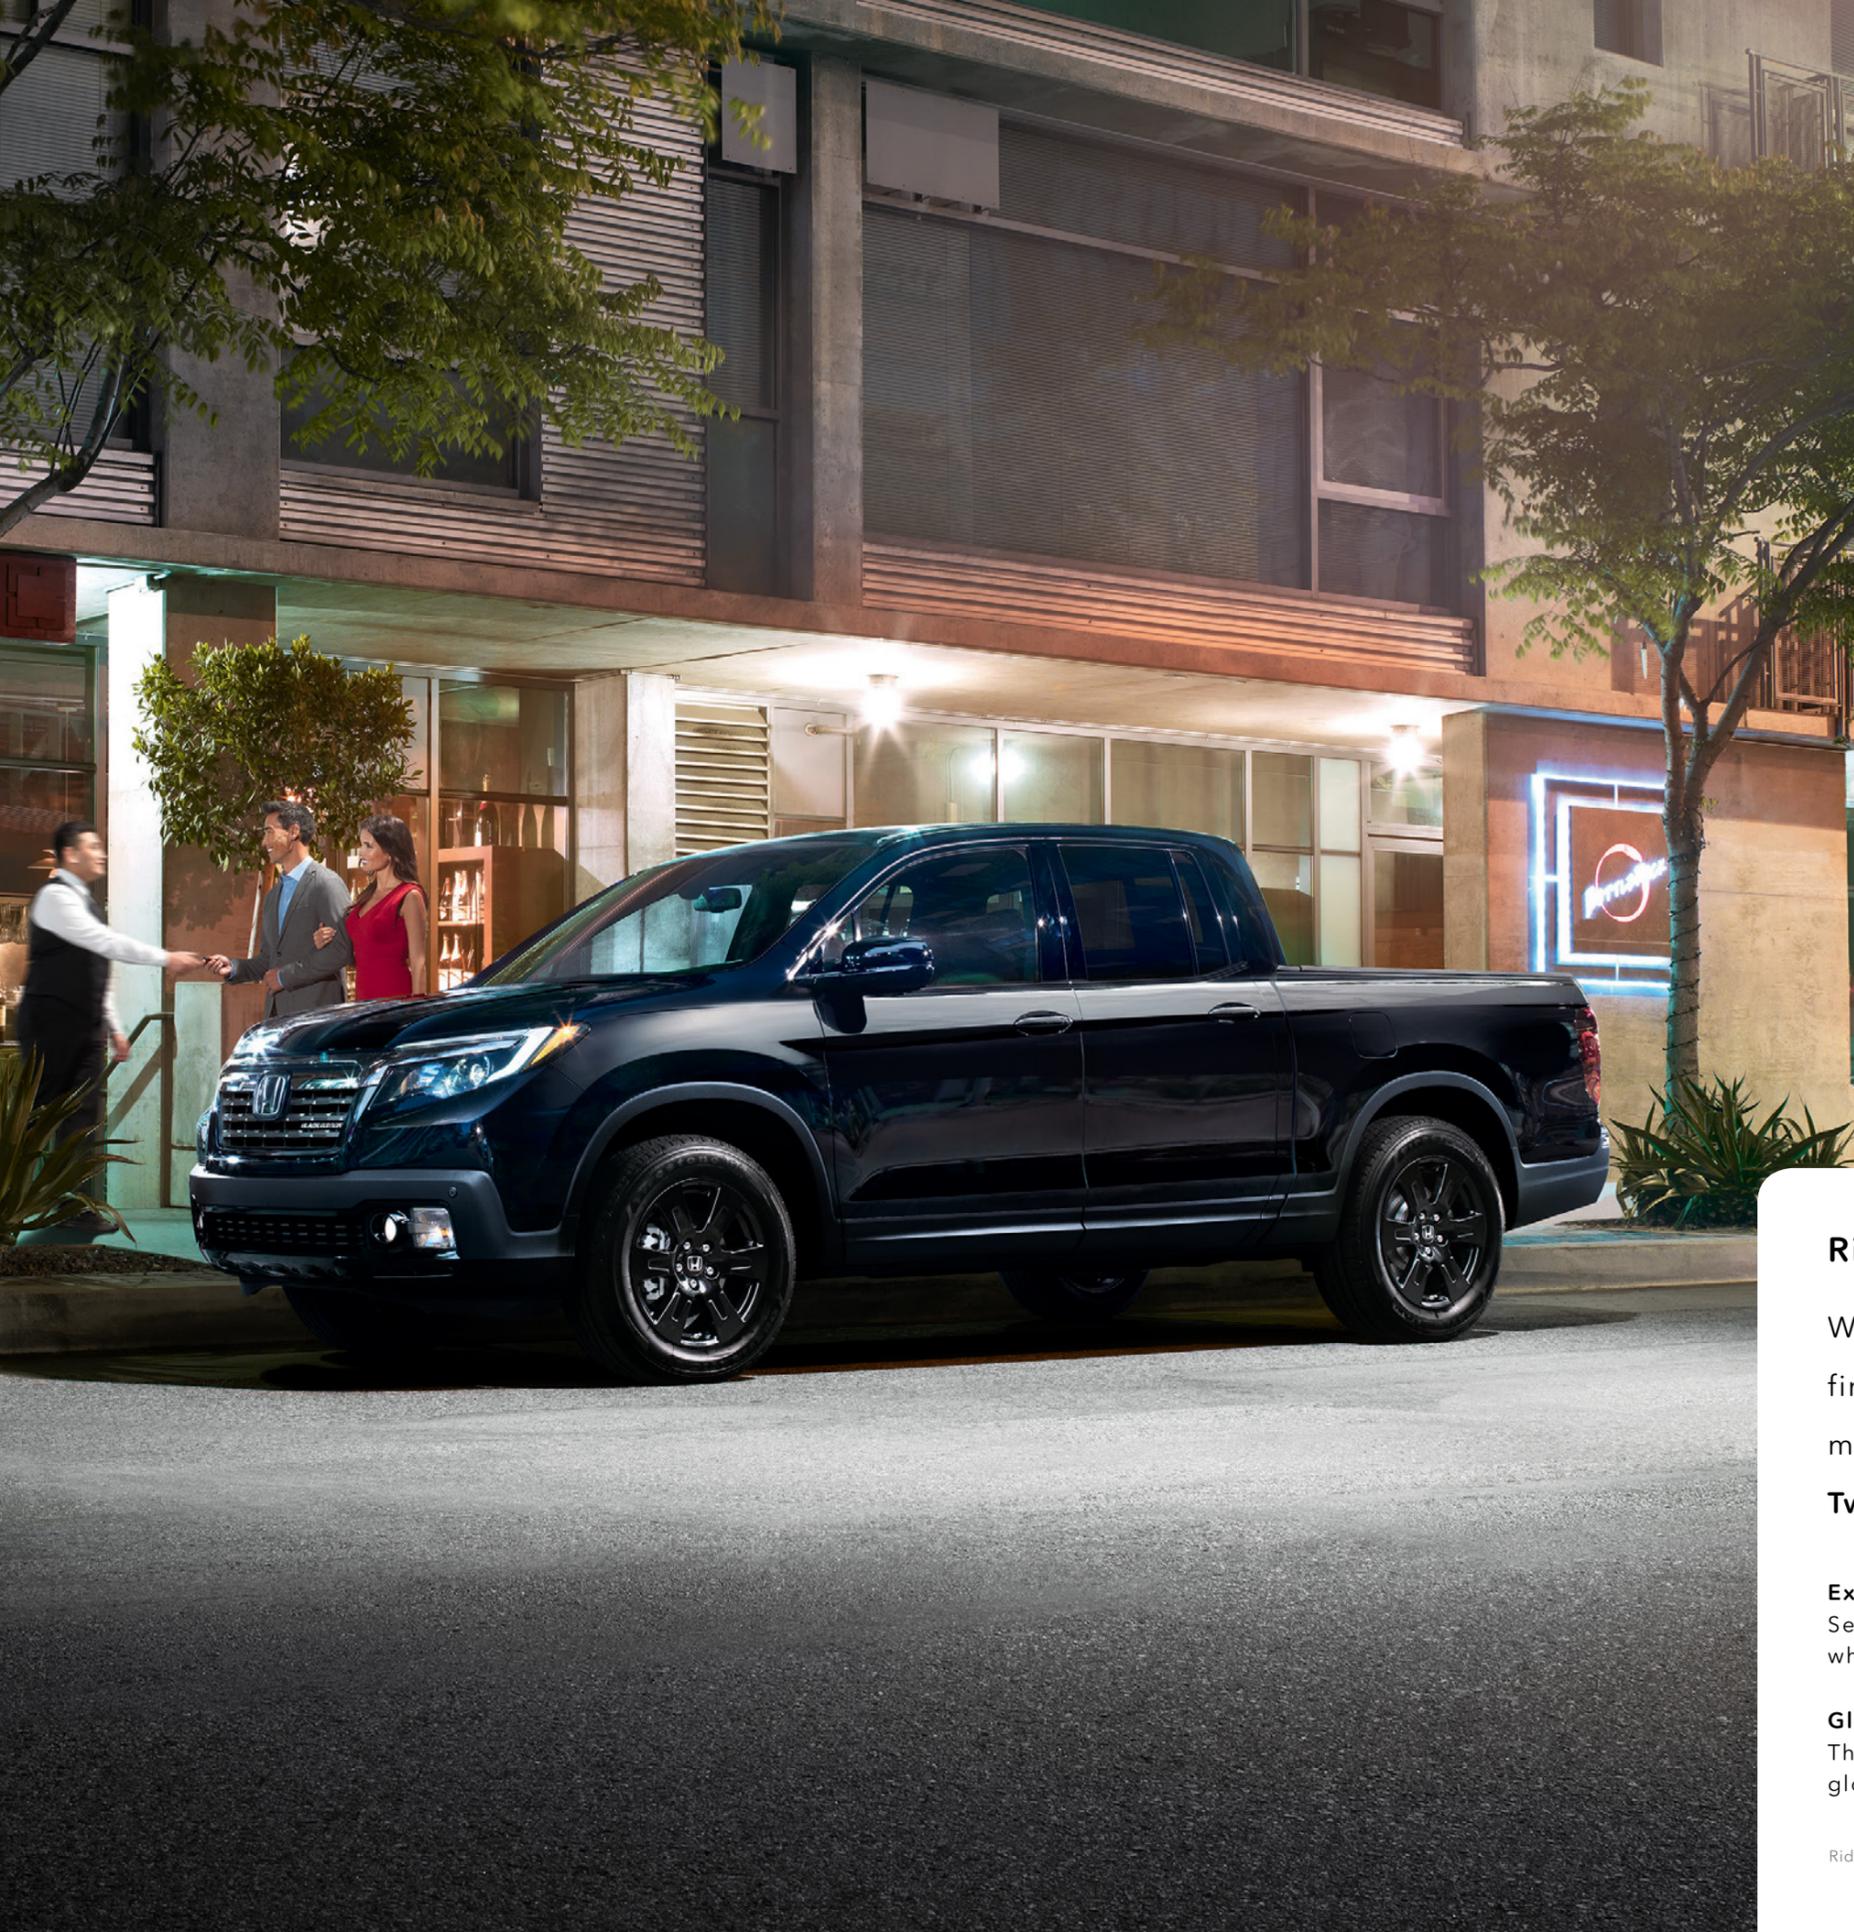

### **Tri-Zone Automatic Climate Control**

The driver, front passenger and rear passengers can enjoy the temperature they prefer (Sport and above).

### **Heated Steering Wheel**

Want toasty fingertips? A switch on the lower left of the steering wheel activates the heating element (RTL-E, Black Edition).

## Ridgeline Black Edition: Top of the 'line.

What happens when you take a sophisticated pickup and give it special features and finishing touches? You get the super-sleek Ridgeline Black Edition. It just might be the most refined pickup ever. Share what you love about the Ridgeline using **#HondaLove** on **Twitter**, with **@Honda**.

### **Exclusive Black and Red Interior**

Seats are black perforated with a red under-fabric while red stitching throughout completes the look.

### **Gloss Black Highlights**

The wheels, window trim and grille all receive a sharp, gloss black finish.

### **Interior Ambient Lighting**

Subtle red LED lighting illuminates the footwells, door pulls and the center front beverage holders.

### **Display Audio Touch-Screen**

Red backlighting illuminates the screen for an extra-sophisticated touch.

Ridgeline Black Edition shown in Crystal Black Pearl.

## We've got your back.

A full suite of safety and driver-assistive technologies are available to help protect you and your passengers.

### Collision Mitigation Braking System™<sup>6</sup>

This innovative offering can help bring your Ridgeline to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.\*

### Lane Keeping Assist System (LKAS)<sup>7</sup>

With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep the Ridgeline centered in a detected lane.\*

### Adaptive Cruise Control (ACC)<sup>8</sup>

ACC helps you maintain a set following interval behind detected vehicles for highway driving.\*

### Auto High-Beam Headlights

For improved nighttime visibility, a camera detects other vehicles and automatically turns on and off the high beams.\*

### Multi-Angle Rearview Camera<sup>9</sup>

Back up with confidence thanks to the multi-angle rearview camera with guidelines, standard on every Ridgeline.

### Road Departure Mitigation System<sup>10</sup>

This system can determine if you cross over detected lanes without signaling, can provide steering assistance to help you stay in your lane or provide braking to help keep from leaving the roadway entirely.\*
