

2012 EXPEDITION+MAX

Drive one.

We believe in full-sized adventure.

With seating for up to 8, Expedition and Expedition MAX are the roomiest sport utilities in the Ford family. Everyone's always welcome and there's plenty of space for their gear: up to 3,067 litres (108.3 cu. ft.) on Expedition and 3,704 litres (130.8 cu. ft.) on MAX.¹ New front park assist² helps make parking easier than ever by alerting you to large, stationary objects detected in front of the vehicle. You can also use voice commands to control your compatible phone and media player with Ford SYNC.[®] The 2012 Ford Expedition and Expedition MAX – they're perfect for life's big adventures. Drive one today.

XLT. Ingot Silver Metallic.

¹Cargo and load capacity limited by weight and weight distribution. ²Available feature.

Drive one.

2012 EXPEDITION+MAX ford.ca

Helps you keep it all in line.

The proven 5.4L V8 engine and 6-speed automatic transmission under the hood of every Expedition give you 11.3L/100 km (25 mpg) hwy,¹ 310 horsepower and 365 lb.-ft. of torque, along with the ability to tow up to 4,082 kg (9,000 lbs.).² This powertrain is also flex-fuel capable, so it runs on gasoline, E85, or any blend of the two. Standard trailer sway control monitors the motions of the vehicle and detects trailer sway, then automatically reacts by selectively braking to help you maintain control of both your Expedition and your trailer.³ Standard Control Trac[®] 4-wheel drive features a convenient 4x4 AUTO mode that senses when the vehicle is on a loose or slippery surface and automatically transfers power to the appropriate wheels for optimal traction.

11.3L/100 km (**25**MPG) HWY¹
16.4L/100 km (**17**MPG) CITY¹

XLT. Autumn Red Metallic. Available equipment including XLT Premium Package.

¹16.4L/100 km city and 11.3L/100 km hwy (17 mpg city/25 hwy). Fuel consumption ratings based on Transport Canada approved test methods. Actual fuel consumption may vary. ²When properly equipped. ³Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

Drive one.

2012 EXPEDITION+MAX ford.ca

Keeps you connected to your world.

Hands-free calls and music.

No more searching for your phone or media player. No device on your ear. With voice-activated Ford SYNC^{®1} you just touch a button on the steering wheel and say things like "Call Melissa," or "Play genre: Pop." Once paired, the system recognizes your phone and automatically transfers your contacts to support voice calling. SYNC also includes 911 Assist.[™]

Full-colour travel guide.

The voice-activated Navigation System² features a vibrant 6.5" LCD touch screen with interactive maps you can zoom and scroll. Play DVDs while Expedition is in Park, store nearly 10 gigs of your digital music and much more with this easy-to-use system.

Boundless entertainment.

Sirius[®] Satellite Radio³ comes with a 6-month prepaid subscription. Surf up to 120 channels including 100% commercial-free music, plus the best sports, news, talk and entertainment – all across Canada.

Limited. Charcoal Black leather trim. Available equipment.

¹Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. SYNC voice recognition available in English, French and Spanish. ²Available feature. ³Sirius Satellite Radio subscriptions sold after prepaid period expires. Subscriptions are governed by Sirius Customer Agreement; see sirius.ca.

Drive one.

2012 EXPEDITION+MAX ford.ca

Treats everyone well in all 3 rows.

Slip behind the wheel of Expedition and let the luxurious experience begin. Relax into its supportive leather-trimmed¹ seating with room for up to 8. Maximize your comfort with the 10-way power-adjustable driver's seat¹ and power-adjustable pedals. The 2nd-row 40/20/40 split-fold seat with CenterSlide[®] provides plenty of elbow room for 3 adults, while passengers in the back enjoy best-in-class² 3rd-row leg room. Our ultra-convenient PowerFold[®] 3rd-row seat¹ is standard on Limited and included in the XLT Premium Package. The 2012 Expedition takes care of you in all sorts of unexpected ways.

XLT. Camel leather trim. Available equipment including XLT Premium Package.

¹Available feature. ²Extended Utilities class.

Drive one.

2012 EXPEDITION+MAX ford.ca

Takes a comprehensive approach to safety.

Masters challenging moments.

Our standard AdvanceTrac® with RSC® (Roll Stability Control™) is the only electronic stability control system in the class that uses 2 gyroscopic sensors to help keep all 4 wheels firmly planted.¹ It automatically enhances vehicle control in wet or slippery conditions.

Personalizes your protection.

Dual-stage front airbags and front-seat side airbags are standard on every Expedition in addition to our Safety Canopy® System, which increases protection with a rollover sensor and 3-row side-curtain airbags.

Clears up blind spots.

Each standard sideview mirror features an integrated convex blind spot mirror that helps identify vehicles and objects nearby so you can avoid them.

Promotes smart driving.

Our exclusive MyKey™ allows you to program ignition keys with reminders to drive at appropriate speeds, keep the audio volume low and more, including limiting the vehicle's top speed and muting the audio system until front safety belts are fastened.

Sends an SOS for you.

So that you and your passengers can be easily located, our SOS Post-Crash Alert System™ will automatically flash the hazard lights and sound the horn after an airbag has deployed or a safety belt pretensioner has activated in certain collisions.²

Directly contacts 911.

Ford SYNC® with 911 Assist™ uses your paired mobile phone to call 911 in the event of a crash that results in airbag deployment or fuel pump shutoff.³ If needed, it can even give the operator an urgent message for you.

XLT. Ingot Silver Metallic. Available equipment.

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ²SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner. ³The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed.

Drive one.

2012 EXPEDITION+MAX ford.ca

Lots of ways to make it yours.

Take advantage of versatile standards to make your life easier. Slide the centre of the 2nd-row seat closer to you. Stay aware of your surroundings. And stow lots of gear on the huge, flat load floor. Add options to let more sunshine in, make loading cargo easy and so much more. Create the Expedition you want, just the way you want it.

- Power moonroof¹
- CenterSlide[®] 2nd-row seat
- Cargo Management System – MAX
- Blind spot mirrors
- 3,704 litres (130.8 cu. ft.) of cargo space – MAX
- Power liftgate¹ and power-deployable running boards¹
