

2012 TRANSIT CONNECT

7.4L/100 km (38MPG) HWY¹
9.6L/100 km (29MPG) CITY¹

Equal parts capability and practicality.

The 2012 Ford Transit Connect is the perfect blend of efficiency and versatility. Combining the manoeuvrability and efficiency of a large car with the cargo space and durability of a van, it's quite possibly the perfect commercial vehicle. Transit Connect is Built Ford Tough[®] with a payload rating of up to 721 kg (1,589 lbs.),² more than 3,650 L (129 cu. ft.) of cargo space when properly equipped, and best-in-class fuel efficiency of 7.4L/100 km hwy¹ and 9.6L/100 km city. It's right-sized and purpose-built to work hard, park easily and go a long way. And it does it all while conveying a professional image for you and your business. Day in and day out.

XLT Van. Frozen White. Ford Custom Graphics by Original Wraps,[™] Inc.³ Available equipment.

¹Class is Small Cargo Vans. 9.6L city/7.4 hwy (29/38 mpg) for Wagon, 9.9L city/7.4 hwy (29/38 mpg) for Van. Fuel consumption ratings based on Transport Canada approved test methods. Actual fuel consumption may vary. ²When properly equipped. Van GVWR is 2,270 kg (5,005 lbs.). Load rating represents maximum allowable weight of people, cargo and body equipment combined, and is reduced by the weight of the optional equipment. ³Ford Licensed Accessory. See your local Ford of Canada Dealer for additional details. Vehicles throughout this PDF may be shown with optional and aftermarket upfit equipment.

2012 TRANSIT CONNECT ford.ca

Get in. Get out. Get it done.

With Transit Connect, manoeuvring through heavy traffic, parallel parking, and even loading and unloading cargo are no problem. Designed with a low load height of under 600 mm (2'), it makes getting things in and out as simple as possible. And, at 2.01 m (6'8") tall, it easily negotiates low-clearance areas. But don't let its compact size fool you, it's a truck built to take on whatever you can throw at it. Add in an 11.8-m (39') curb-to-curb turning diameter for working in tight places, and you have everything you need to get the job done, and quickly get on to the next one.

Your warehouse is right behind your seat.

Behind the surprisingly comfortable front seats, you'll find up to 3,670 L (129.6 cu. ft.) of cargo space. You can easily carry items up to 2.1 m long, 1.3 m wide and more than 1.3 m tall. The flat load floor and near-vertical walls help you make the best use of all that space to transport larger loads. And Transit Connect comes with a sliding side door on both the driver and passenger sides, plus swing-out rear doors with a 180° or an available 255° hinge angle. Combined with low side and rear load heights, it feels like a warehouse on wheels.

Your new world: order. Transit Connect comes loaded with storage areas. The front overhead storage shelf has a retaining net, perfect for items you need to keep close, and the centre console offers dual storage bins to handle receipts, invoices and coins. There's also additional space in the door pockets and a dash-top compartment.

**MOBILITY
MOTORING**

Upfits for accessibility. Transit Connect is an outstanding mobility choice. Aftermarket upfits¹ at Ford QVM Modifiers can equip yours with a fully automatic wheelchair lift, raised roof, wheelchair restraint system, power assist seat, hand controls and more. Visit the Mobility section on ford.ca for additional information.

XLT Van. Frozen White. Available equipment.

¹See your Ford of Canada Dealer for more information.

2012 TRANSIT CONNECT ford.ca

Keeps you connected to your world.

Hands-free calls and music.

No more searching for your phone or media player. No device on your ear. With voice-activated Ford SYNC,^{®1} you just touch a button on the steering wheel and say things like "Call Kevin," or "Play artist: Toby Keith." Once paired, the system recognizes your phone and automatically transfers your contacts to support voice calling.

XLT Premium Wagon. Grey cloth trim. Available equipment.

¹Available feature. Late availability. Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. SYNC voice recognition available in English, French and Spanish.

2012 TRANSIT CONNECT ford.ca

Room for the whole crew.

Transit Connect Wagon is perfect for a busy company. There's plenty of room for 5 with the standard 2nd-row 60/40 split-fold seat, and you can carry up to 2,220 L (78.4 cu. ft.) of cargo behind it, or up to 3,361 L (118.7 cu. ft.) when folded. With XLT Premium, you also get an enhanced rear cargo area including a storage pocket in the passenger door, rear-quarter flip-open windows and more. It all adds up to one very accommodating ride.

AdvanceTrac® with RSC® (Roll Stability Control™) automatically determines how to apply individual brakes and modify engine power to help keep all 4 wheels firmly planted in uncertain driving conditions! Standard on both Wagons and Vans, it also features a vehicle-roll motion sensor that measures the roll rate 100 times a second.

More than tough enough.

Transit Connect proves tough things, not just good things, come in small packages. While compact, Transit Connect is rugged and durable, built with high-strength steel and a reinforced body shell. Designed to withstand hard, on-the-job duty, it's certified to Ford Light Commercial Vehicle Durability Standards, with testing to 240,000 customer-equivalent km. Transit Connect is engineered for conditions that are tougher than most drivers will ever see, so you can get right to work. No matter how hard the job.

XLT Premium Wagon. Dark Blue. Available equipment.

Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

2012 **TRANSIT CONNECT** ford.ca

It can easily work even harder.

Transit Connect is already a hard worker right from the factory, but it can do even more with custom aftermarket upfits. Durable bulkhead partitions and flexible storage systems make the most of the one thing that sets it apart: versatility. Tailored specifically for you, your Transit Connect will make you even more productive.

The available modifications or upfits include: Wire, steel and solid bulkheads; racks and bins shelving units; interior cargo packages; drawer storage cabinets; refrigeration units, catering and food service packages; rooftop ladder racks; utility carriers; window security screens and more. The suppliers listed below are participants in either Ford of Canada's Pool Account or Ship-Thru Programs and can help make your Transit Connect the perfect vehicle for your business needs. Please contact your local Ford of Canada Dealer for complete details.

Your truck. Your way.

Transit Connect comes well appointed, with standard air conditioning and spotter mirrors, but there are many ways to make it your own. The available Reverse Sensing System and rear view camera make parking a breeze. Whatever your needs, the options are available to make your workday easy, secure and efficient.

- Spotter mirrors
- Rear view camera¹
- Air conditioning
- Airbags
- Reverse Sensing System¹

¹Available feature.

Create a more meaningful driving experience: Connect with Ford Custom Accessories for authentic personalization possibilities. The cost of select accessories – ordered and paid for at the time you buy or lease your Transit Connect – can be rolled into your monthly payment. And coverage for select accessories falls under the New Vehicle Limited Warranty. See your Ford of Canada Dealer for details.

XLT Van customized with smoked hood and side window deflectors, front and rear moulded splash guards, keyless entry keypad, professional crossbars by THULE^{®1} and Ford Custom Graphics by Original Wraps,[™] Inc.¹

- All-weather floor mats
- Ladder tilt by THULE¹
- Remote start systems
- Rear window grilles

¹Ford Licensed Accessory.
