

## Saab Accessories

2008

# Born from jets. Flown by you.

A boundless spirit takes flight in every Saab. And, in turn, in every Saab pilot. This allows you to reach not only a cruising altitude, but a unique attitude as well. Achieve both with accessories that leave no doubt who is in command. Personalize the entire experience inside the cockpit and cargo bay, through to the fuselage and landing gear.

Cleared for takeoff.

# important words.

The Saab range of accessories is under continuous development, and we therefore reserve the right to modify our products. We also reserve the right to replace or withdraw from the collection any products in this book. Prices in effect at time of publication are subject to change. Your local Saab dealer will be pleased to provide you with further information on the complete array of Saab accessories. GM, Saab, the Saab logo, and the slogans, emblems, vehicle model names, vehicle body designs, and other marks appearing in this book are the trademarks and/or service marks of General Motors Corporation, its subsidiaries, or licensors.

## **Wheel and Tire Information**

GM Accessory larger-size wheel and Tire Performance Criteria (TPC) tire systems are designed as a system and must be used as such. Larger-size wheel and tire system may require a new spare tire, and may impact your vehicle's performance. You may experience a change in handling, stability, and braking performance, tire or road noise, and ride comfort. You may note changes or differences in tire-tread wear, steering effort, and/or fuel economy. In snow or icy conditions or during off-road use, you will experience reduced traction. Tire chains cannot be used due to insufficient clearance for the chains. These changes in vehicle performance are not covered by the GM Bumper-to-Bumper New-Vehicle Limited Warranty.

## **Compliance With Applicable Noise Laws**

The Sport Exhaust System meets the 95 dbA noise limit imposed by some states on exhaust system modifications, as measured by SAE J1169. Some states and local jurisdictions impose more stringent requirements. Be sure to check whether this installation meets the noise limits where you will register and drive your Saab.

## **Saab Accessory Warranty**

Saab Accessories permanently installed at the time of new-vehicle delivery are covered under the New-Vehicle Limited Warranty. If installed after delivery, coverage (parts and labor) is for the balance of the new-vehicle warranty or a minimum of 12 months/12,000 miles (whichever comes first). Saab Accessories not requiring installation or purchased over the counter carry a 12-month limited warranty (parts only).
