2017

WHAT MAKES A HYUNDAI?

Incredibly rigorous, demanding and relentless quality assurance testing programs. That's what. After all, to sell more than 5 million vehicles a year around the world, our engineers and designers need to deliver a top quality product with the perfect combination of efficiency, craftsmanship and engaging drive that is truly world-class. What you may not know is that Hyundai takes unprecedented steps, pushing beyond the old, conventional way of doing things to deliver New Thinking, so we can provide you with New Possibilities.

Better crash safety requires stronger steel. Precise handling requires stiffer steel. And fuel efficiency requires lighter steel. How do you find steel that lives up to such stringent demands? If you're Hyundai, you become the only major automaker to make it yourself. New thinking is what happens when our vehicle engineers and metallurgists work side-by-side.

But making steel is only part of the story. World-class vehicles need world-class design that pushes the industry forward. Hyundai's three design centres – in Korea, the U.S. and Europe – compete against each other for the right to bring you new vehicles. The result of that competition is remarkable aerodynamic designs that not only stand out, but also improve fuel efficiency. On the inside, our fanatical dedication to perfection delivers interior cabins that are comfortable, intuitive and ergonomic.

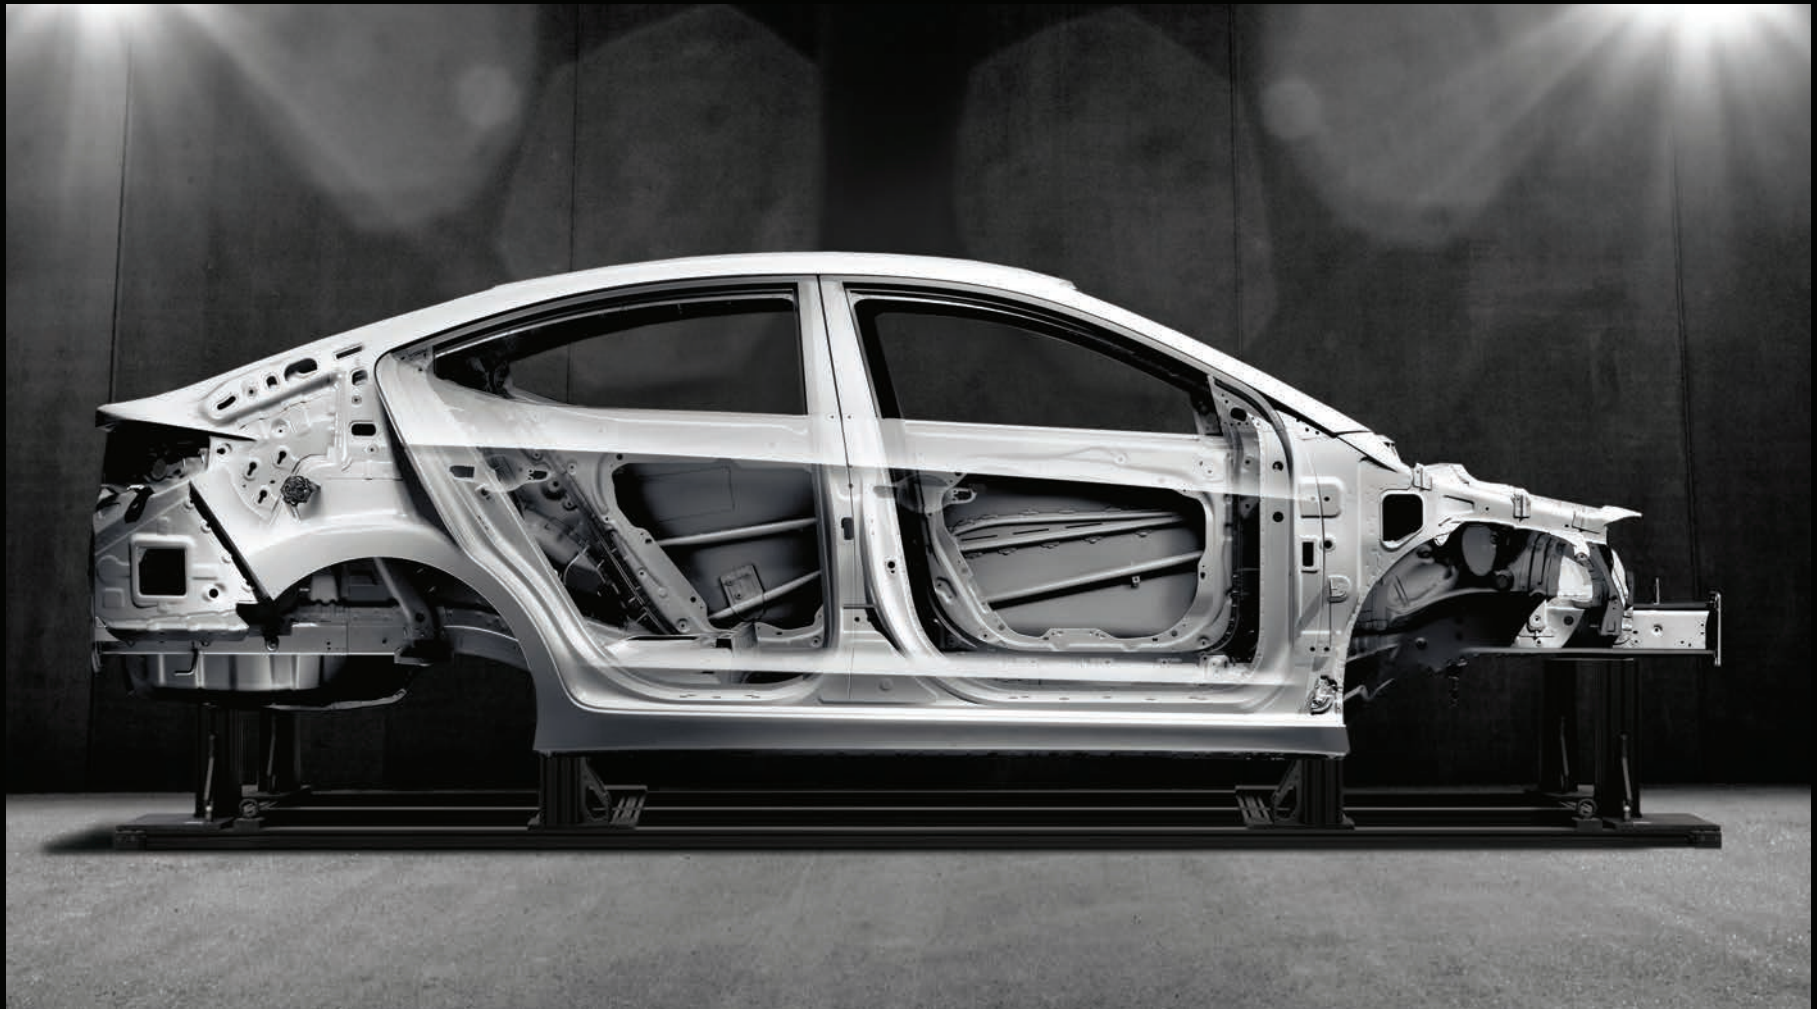

We want you to feel confident because we are. We can back our vehicles with a 5-year/100,000 km Comprehensive Limited Warranty* because they have been tested across the world in the most extreme driving conditions imaginable. To deliver the durability and reliability you demand, our vehicles travel from the cold, far north of Canada's Arctic to the scorching heat of the Mojave Desert, and then are tested on Germany's world-famous Nürburgring circuit. Our expert drivers test, tune, retest, and retune Hyundai vehicles to not only endure, but to deliver a rewarding driving experience that you can count on, kilometre after kilometre.

We do this – and more – because we want to exceed your every expectation. That's the Hyundai difference.

THE SUPERSTRUCTURE™

The world's greatest engineering achievements all begin with one thing: a strong foundation. The SUPERSTRUCTURE™ is the state-of-the-art platform that lies at the core of the all-new 2017 Elantra. Building upon this ultra-rigid chassis, Hyundai engineers set out to achieve a new standard in handling precision, ride comfort, interior quietness and safety.

SUPERHANDLING

Constructed using a greater amount of Advanced High Strength Steel forged in our own steel mill**, the rigid composition of the SUPERSTRUCTURE™ enables more precise tuning of key suspension components. After all, creating a work of art requires a steady canvas. Experience improved cornering stability, precise handling performance and enhanced confidence at higher speeds.

SUPERQUIET

Enhanced interior soundproofing is another benefit of the SUPERSTRUCTURE™. A thoroughly-engineered structural design, increased steel rigidity, and extended application of soundproofing materials all help to keep outside noises where they belong. Whether you are navigating dense city traffic or cruising Canada's wide-open highways, enjoy greatly reduced noise and vibration levels.

SUPERSAFETY

Over half of the SUPERSTRUCTURE™ is comprised of Advanced High Strength Steel for exceptional stiffness and strength. The body of the all-new 2017 Elantra also features extended application of structural adhesives to reinforce critical areas. In the event of a collision, the SUPERSTRUCTURE™ helps protect occupants inside the vehicle by absorbing harmful energy and redirecting it away from the passenger compartment.

THE NEW STANDARD FOR GROUNDBREAKING

The all-new 2017 Elantra is a groundbreaking vehicle, designed to bring new levels of sophistication to compact car customers. Our engineers set out to achieve a new standard for rigidity with a structure heavily composed of our Advanced High Strength Steel – the SUPERSTRUCTURE™ – which delivers a new level of ride comfort with smooth and precise handling and enhanced safety. Advanced technology such as the available Autonomous Emergency Braking system with Pedestrian Detection and the class-exclusive standard heated front seats^o are just further examples of our New Thinking, providing you with New Possibilities.

STRIKING NEW STYLE

The completely redesigned 2017 Elantra delivers an athletic presence from every angle. Its prominent hexagonal front grille dominates an edgier front end and is framed by striking headlights. Front bumper air vents and the available LED daytime running lights provide more aggressive styling cues, while the rear bumper creates a sportier stance. Available High Intensity Discharge (HID) headlights with Adaptive Cornering System (ACS) not only provide sophisticated styling, but also offer optimized illumination for the bends and curves on your path.

STAY CONNECTED AND COMFORTABLE

The interior of the all-new 2017 Elantra has been completely reimagined with an intuitive design filled with advanced technology and a wealth of comfort features. Always stay connected with the available Bluetooth® hands-free phone system and Android Auto™ technology seamlessly integrating select apps from your phone. Enjoy added comfort and convenience with three segment firsts: standard heated front seats, an available Driver's Integrated Memory System that will store seating and mirror preferences for two driver settings, and an available hands-free SmartTrunk®. Plus, you don't have to go to the top trim for features like the available heated steering wheel, heated rear seats or even the available 7.0" touch-screen audio system with rearview camera.

2017

COMFORT AND CONVENIENCE
HIGHLIGHTS

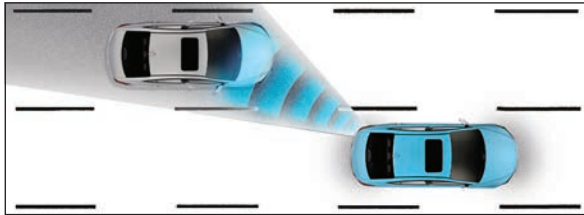

SUPER HANDLING

Powering the all-new 2017 Elantra is a 2.0L Atkinson 4-cylinder engine, which delivers 147 horsepower and exceptional fuel efficiency. Experience improved ride comfort and responsive handling thanks to the new rear suspension geometry and increased rigidity of the SUPERSTRUCTURE™.

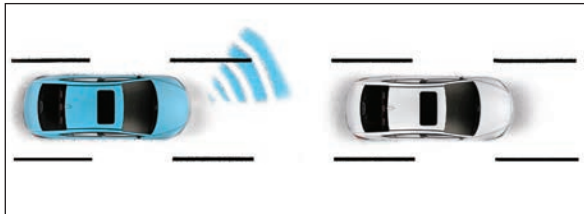

AUTONOMOUS EMERGENCY BRAKING WITH PEDESTRIAN DETECTION²

This available safety innovation uses a forward camera and radar sensors to detect rapidly closing speeds to the vehicle ahead or pedestrians in your path. If a potential forward collision is detected, audible and visual warning notifications alert the driver. If the driver does not react to avoid the impact, the system can provide full braking assistance at speeds under 80 kilometres per hour (vehicle detection) or 64 kilometres per hour (pedestrian detection).

BLIND SPOT DETECTION³

The available Blind Spot Detection system uses radar to detect when a vehicle is in the driver's blind spot and provides both an audible and visual alert to help keep you safe as you move down the road.

LANE DEPARTURE WARNING SYSTEM WITH LANE KEEPING ASSISTANCE⁵

Drift outside your lane without signaling and this available system is designed to inform you with audible and visual cues. If no correction is made, the Lane Keeping Assistance component will engage and apply corrective steering assistance.

REAR CROSS-TRAFFIC ALERT⁴

Activated during reverse driving, the available Rear Cross-Traffic Alert system uses radar to help identify and warn the driver of vehicles approaching from the side, even before they come into view of the available rearview camera.

ADAPTIVE CRUISE CONTROL⁶

For added safety, the available Adaptive Cruise Control (ACC) system automatically and continuously adjusts your pre-set driving speed to maintain a pre-determined distance from the vehicle ahead. For added comfort in stop-and-go traffic, ACC will even bring the vehicle to a complete stop and then accelerate again, without driver input.

SUPER SAFETY

In addition to the strengthened SUPERSTRUCTURE™ that delivers enhanced driving dynamics and occupant protection, the 2017 Elantra offers a wide array of cutting-edge safety technologies. To help keep you safe, seven standard airbags¹ provide added protection in the event of a collision. Available active driver assistance tools like Autonomous Emergency Braking with Pedestrian Detection² and the Lane Departure Warning System with Lane Keeping Assistance⁵ also help you continually monitor your driving environment. These are just a few of the technologies offered.

L STANDARD EQUIPMENT INCLUDES:

147 hp, 2.0L 4-cylinder engine
 6-speed manual transmission
 15" steel wheels with covers
 Airbags (7): Driver's knee (1), front impact (2), front seat-mounted side impact (2), front/rear side curtains (2)
 Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD)
 Vehicle Stability Management (VSM), Electronic Stability Control (ESC) with Traction Control System (TCS)
 Motor Driven Power Steering (MDPS)
 Tilt-and-telescopic steering wheel
 Heated front seats
 Remote keyless entry system

Driver and front passenger seat height adjuster
 Power windows with driver's auto down
 Dual power-adjustable heated side mirrors
 Projection headlights
 AM/FM/MP3 audio system with 6 speakers
 iPod®/USB/auxiliary connectivity
 3.5" Segment LCD instrument panel display
 60/40 split-folding rear seats
 Outside temperature display
 Low windshield-wiper fluid level warning light
 Passenger seatback pocket

LE INCLUDES L STANDARD EQUIPMENT PLUS:

Manual air conditioning
 6-speed automatic transmission with SHIFTRONIC® manual mode
 Bluetooth® hands-free phone system

Steering wheel-mounted audio and telephone controls
 Hood insulator
 Drive Mode Select (DMS)

GL INCLUDES LE STANDARD EQUIPMENT PLUS:

16" alloy wheels
 Heated steering wheel
 Leather-wrapped steering wheel and gearshift knob
 Blind Spot Detection (BSD) and Rear Cross-Traffic Alert (RCTA)
 7" touch-screen display with rearview camera
 LED daytime running lights
 LED side mirror turn signal repeaters
 Cruise control

Automatic headlights
 Power windows with driver's auto up/down with pinch protection
 3.5" Mono TFT LCD instrument panel display
 Illuminated vanity mirrors with extensions
 SiriusXM™ Satellite Radio
 Android Auto™

GLS INCLUDES GL STANDARD EQUIPMENT PLUS:

17" alloy wheels
 4-wheel disc brakes
 Power tilt-and-slide sunroof
 Proximity keyless entry with push-button ignition
 Hands-free Smart Trunk

Dual-zone automatic climate control with windshield defogger
 Heated rear seats
 Front door handle approach lights
 Rear seat centre armrest with cupholder

LIMITED INCLUDES GLS STANDARD EQUIPMENT PLUS:

Leather seating surfaces
 8-way power-adjustable driver's seat
 Driver's Integrated Memory System (IMS) and outside mirrors
 8.0" touch-screen navigation system
 4.2" colour instrument panel display
 LED brake lights
 Infinity® AM/FM/SiriusXM™ audio system with 8 speakers and external amplifier

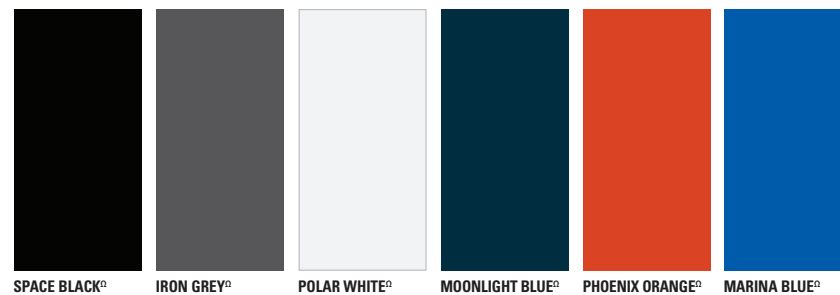

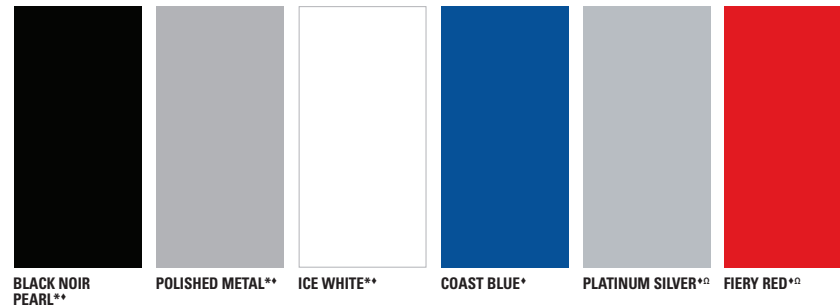

Rear parking assistance sensors
 Chrome window-belt moulding
 Chrome door handles
 Chrome grille
 Deluxe sliding front centre armrest
 Auto-dimming inside rearview mirror with Homelink®

ULTIMATE PACKAGE INCLUDES LIMITED STANDARD EQUIPMENT PLUS:

Autonomous Emergency Braking (AEB) with Pedestrian Detection
 Adaptive Cruise Control (ACC) with stop-and-go capability

Lane Departure Warning System (LDWS) with Lane Keeping Assistance (LKA)
 High Intensity Discharge (HID) headlights with Adaptive Cornering System (ACS)

EXTERIOR COLOURS

*Available on L model. **Available on LE model. **aAvailable on GL, GLS, Limited and Ultimate models.

INTERIOR COLOURS

BLACK CLOTH
 Standard on L, LE, GL and GLS models

BLACK LEATHER
 Standard on Limited and Ultimate models

GREY LEATHER
 Available on Limited and Ultimate models (Space Black, Moonlight Blue and Polar White exterior colours only)

BEIGE LEATHER
 Available on Limited and Ultimate models (Fiery Red exterior colour only)

Choice of interior colour depends upon model and/or exterior colour selection. Due to the print production process, the colours shown throughout this brochure may vary slightly from the actual hue. Textures may not be exactly as shown. Visit hyundaicanada.com or see your dealer for details.

You will see that a number of our vehicles have received multiple awards from the most reputable third-party organizations, so you can take their word when it comes to the quality, design and safety of our vehicles. This quality is equally matched by the quality of our warranty. We stand confidently behind our products to give you the ultimate peace of mind with a 5-year/100,000 km Comprehensive Limited Warranty*, one of the best-backed warranties in Canada. We also provide a 5-year/Unlimited km Roadside Assistance Program** featuring flat tire changing, lockout service and more. Just one toll-free call away, 24 hours a day.

THERE'S NO SUBSTITUTE FOR
PEACE OF MIND

ACCESSORIES

WHEEL LOCKS – CLOSED STYLE

Help protect your valuable wheels and tires from theft with a set of Hyundai wheel lock nuts.

ACCESSORY FRAME

An accessory frame makes it quick and easy to attach hitch-mounted cargo equipment, such as bikes and ski racks. Frame not intended for towing.

TRUNK LIP PROTECTOR

Help protect the paintwork on your rear bumper from scuffs and scrapes when loading and unloading cargo.

BLOCK HEATER

Engineered for your Hyundai, a block heater will help ensure fast starts and reduce engine wear in extreme weather.

HYUNDAI WARM-UP SYSTEM

Keep the inside of your car warm in winter months without using a drop of fuel! The Hyundai Warm-up System includes an interior cabin heater, a block heater, a fully programmable display unit, as well as an integrated battery charger.

REMOTE ENGINE STARTER

Leaving the house on winter mornings doesn't have to be an unpleasant experience. Equip your Hyundai with a remote engine starter and get on the road in comfort. Complete with a factory style remote, this feature is fully integrated with your vehicle alarm system.

PREMIUM ALL-WEATHER FLOOR LINERS

Premium all-weather floor liners were designed to cover the interior carpet, providing maximum protection against the elements that other mats cannot offer. Their unique and durable design features a non-slip surface for added comfort and a long-lasting premium look. Remove carpet mats prior to installation.

PREMIUM HYUNDAI PLATE FRAME

Made from durable solid T304 stainless steel, this premium Hyundai license plate frame comes in a mirror-polished bright finish with detailed black Hyundai graphics encapsulated in a nameplate and clear coated for exterior protection with an enhanced look.

TM®The Hyundai names, logos, product names, feature names, images and slogans are trademarks owned by Hyundai Auto Canada Corp.. Specifications, features, illustrations, accessories, materials and equipment and all other information shown in this brochure is based on the latest information available at the time of publication. Although descriptions are believed to be correct, accuracy cannot be guaranteed. Hyundai Auto Canada Corp. reserves the right to make any changes or modifications at any time, without notice or obligation, including, without limitation, in colour, specifications, features, accessories, materials, equipment and models. Some vehicles are shown with optional equipment. All Hyundai warranties have no deductible. ^AFuel economy figures are based on manufacturer testing and are used for comparison purposes only. Actual fuel efficiency may vary based on driving conditions and the addition of certain vehicle accessories. ^HHyundai's Comprehensive Limited Warranty coverage covers most vehicle components against defects in workmanship under normal use and maintenance conditions. ¹¹Hyundai's 24-Hour Roadside Assistance Program is a limited service and does not cover certain costs or expenses. Roadside Assistance is not a warranty. ¹²Claim based on Global Automakers of Canada segmentation for the compact car segment. ¹The Supplemental Restraint (Airbag) System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which must still be worn at all times. Children under the age of 13 should be securely restrained in the rear seat. NEVER place a child seat in the front seat of a Hyundai vehicle. ²Autonomous Emergency Braking (AEB) is designed to detect vehicles that are directly in front of the Elantra. AEB will not detect all vehicles and objects. AEB may not work on winding or hilly roads, during certain weather conditions such as rain, snow, fog and any other times of limited visibility. AEB initiates full braking at speeds between 8 and 80 km/h (vehicle detection) or 8 to 64 km/h (pedestrian detection). AEB will not detect all pedestrians under certain conditions. See Owner's Manual for detailed descriptions of example condition in which AEB may not detect a pedestrian. AEB is not a substitute for safe driving. Always check your surroundings when driving. See Owner's Manual for further details and limitations. ³Never rely completely on Blind Spot Detection (BSD) and be sure to use proper lane changing procedures. BSD will not detect every object or vehicle and will not prevent accidents. Always look over your shoulder and use your mirrors to confirm clearance. See Owner's Manual for further details and limitations. ⁴Never rely exclusively on the Rear Cross-Traffic Alert. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. Vehicle must be in reverse and has to be traveling at 10 km/h or less. See Owner's Manual for further details and limitations. ⁵The Lane Departure Warning System with Lane Keeping Assistance operates above approximately 69 km/h and only when the lane markings are clearly visible on the road and detected by the system. It will not prevent loss of control. See Owner's Manual for further details and limitations. ⁶Adaptive Cruise Control (ACC) with stop/start capability is not a collision avoidance or warning device. ACC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. Driver remains responsible to slow or stop the vehicle to avoid a collision. Acceleration after the vehicle comes to a complete stop will only occur when the vehicle has been stopped for less than three seconds. See Owner's Manual for further details and limitations. iPod® is a registered trademark of Apple, Inc.. HomeLink® is a registered trademark of Johnson Controls, Inc..
