

SHELBY GT500SE SIGNATURE EDITION

Shelby American is pushing the latest generation Shelby GT500 supercar to new levels. As the first Carroll Shelby Signature Edition version for this model, the car delivers sizzling styling, razor sharp handling and an additional 40 horsepower.

To enhance performance, Shelby American integrated a new pulley and coolers for the 5.2-liter V8 to churn out 800+ horsepower on 93 octane pump gas. The car was lowered with more track-focused springs to match a new aggressive suspension tune. A new ultra-light, vented dry carbon fiber hood cuts 30 pounds off the top of the Shelby GT500SE.

The Shelby also features new wheels, tires, interior, badges, stripes and more. A host of options, including the popular widebody package are also available. Plus, the Shelby GT500SE is eligible for further upgrades by Shelby American in the future.

The sale of each GT500SE benefits the Carroll Shelby Foundation. It also includes membership in Team Shelby, the club that Carroll Shelby established in 2008. Limited to only 100 per model year, **each Shelby GT500SE receives a Shelby serial number and will be documented in the official Shelby American Registry.**

2020 Shelby GT500SE Signature Series
Starting from ^{USD}\$29,995

Please note: Pricing does not include base Mustang or shipping to Las Vegas. Some optional equipment shown
