

WINCH RECOVERY GEAR AND BAG.

A must for every trail-loving adventurer. The kit includes heavy-duty snatch block pulley, 30-foot recovery strap, tree trunk protector, a pair of D-rings, winch line dampener and recovery gloves — all neatly stored in a durable bag featuring the Jeep® brand logo.

WARN® WINCHES⁽¹⁾ Our extensive lineup features four winches with hawse fairleads. Each winch features a sealed water-resistant, die-cast body structure. Optional synthetic winch line is also available.

SKID PLATE. Skid plates help protect your vehicle's sway bar disconnect, tie rods and drivetrain, giving you the courage to keep moving forward on the trail. An electrocoat and powdercoat Black finish meets the tough corrosion standards the Jeep® brand is known for.

Jeep® Performance Parts are created specifically for your 4x4 Jeep brand vehicles. It's never been easier to transform your vehicle into a ride that's ready to travel to trails others only dream of reaching. Find out more at mopar.com/shop

⁽¹⁾ Heavy-duty battery, springs and shock absorbers are recommended for winch installation. Winch mount is required for mounting.

TOUGHEN UP WITH JEEP® PERFORMANCE PARTS

Serious off-roaders, we know you want to take your Jeep® brand vehicle to the next level, and these factory-engineered Jeep Performance Parts by Mopar® are designed to take you there. Forged with all the original equipment specs in mind, they are fully proven to enhance the off-road performance of Jeep brand 4x4 vehicles, helping to get you over that next obstacle and kick your off-road capability up a notch or three. From winches to axles, and suspensions to rock rails, these extreme parts have been assembled together to give hard-core Jeep brand 4x4 enthusiasts the fortitude to go wherever the going gets tough.

2-INCH LIFT KIT⁽¹⁾ Hit the trail or daily commute with our 2-Inch Lift Kit. This kit provides excellent handling both on-road and off. Accommodates 35-inch tires for added capability and a great look. Kit is completely developed by Jeep Performance Parts engineers to be the best no-compromise lift kit available for your Jeep Wrangler.

4-INCH LIFT KIT⁽¹⁾ Raise the profile of your four-door Wrangler while enjoying the look and fit of larger tires, as well as excellent on- and off-road handling. Kit includes four specially tuned high-quality springs, brake lines and control arms made by our production suppliers in the USA, four specially tuned FOX® reservoir shocks, necessary brackets and a new double cardan driveshaft and yoke. Also includes a FOX steering damper and our High Steer Conversion Kit.

MASTER EVERY TRAIL

FRONT ASSEMBLY

REAR ASSEMBLY

DANA® 60 AXLES⁽¹⁾ For the ultimate in strength, front and rear Dana 60 Axles are equipped with electric lockers. Huge one-ton truck disc brakes with dual-piston calipers, 1550 size U-Joints, WARN® premium locking hubs and heavy-duty mounting brackets are all standard. These axles will bolt in and have been engineered to work with production steering and braking systems.

CAST-ALUMINUM COVER

FULL-FORMED STEEL GUARD

DIFFERENTIAL COVER AND GUARDS⁽¹⁾ Choose from three styles to protect your differential cover and vital driveline gears. Cast-Aluminum Cover (shown), Full-Formed Steel Guard (shown) and Half-Formed Steel Guards (not shown). Each features the Jeep® brand logo.

HIGH TOP FENDER FLARES.

Maintain a low center of gravity while allowing for a 35-inch tire without a lift, or a 37-inch tire with two inches of lift. Fenders attach to the production mounting holes with no sheet metal trimming. Fender flares are available only in Black and can easily be painted. The finish matches other Black parts on your Wrangler and meets all FCA US standards.

RUBICON® X FRONT BUMPER. Maximize your maneuverability by adding this steel-reinforced, winch-capable original equipment Rubicon X Front Bumper made specifically for heavy-duty performance. Removable ends allow you to convert to a high-clearance, narrow-profile bumper. Optional winch mount is available, sold separately. Choose short configuration (shown) or long configuration (not shown).

BEADLOCK WHEEL. Features the proper 12mm offset to run a 35-inch tire with a 2-inch lift. This unique wheel allows you to install the tire in the normal bead seats or install the outer bead in the lock seat. Satin Black wheel with Silver painted forged beadlock. Size: 17 inches x 8.5 inches.

BIG BRAKE KIT. Upgrade your braking system to match larger tires and wheels. Features large 13-inch rotors, big calipers, brake lines, heavy-duty pads for the front axle, and also includes a matching Big Brake Booster and Master Cylinder. 17-inch wheels or larger are required.

COLD AIR INTAKE KIT⁽¹⁾ More power, more trail-riding glory. This kit features a low-restriction, cleanable filter to help horsepower and torque. With an aggressive sound, the intake provides performance you can hear and feel. The Cold Air Intake Kit includes all necessary mounting hardware and a filter.

⁽¹⁾Mopar Performance Parts are sold "as is" unless otherwise noted.
