

20" SLIDING DOOR ALUMINUM PARTITION

20" Sliding Door

Wider opening combined with an ultra-low threshold for easy entry

Light and Strong

Our lightest sliding door partition yet, with "X" embossing for additional strength and rigidity

Sliding Mechanisms

Triple-sliding mechanisms minimize noise, vibration and harshness

Full Seat Travel and 25° Recline

Setback design allows for 25° seat recline and full seat travel

Fast Install Time

Experience less downtime and get on the road faster

THE ALUMINUM 20" SLIDING DOOR PARTITION

Our lightest sliding door partition yet, made with premium aluminum

Extra-wide 20" opening combined with a low-profile threshold for easy access

Improved strength and rigidity with "X" embossing on all three panels

Reduced noise, vibration, and harshness with triple-sliding mechanisms

Faster installation compared to our previous partitions

Available with a polycarbonate window

Ranger Design's partitions are both lightweight and exceptionally safe, having undergone rigorous testing to comply with FMVSS standards: 201, 210, 214 & 226
