INTRODUCING THE MAZDA MX-30 ALL ELECTRIC

[mazdausa](#)

The Mazda MX-30 is our first all-electric vehicle featuring Mazda's new electric powertrain technology, select sustainable interior materials and a dynamic driving experience designed around you. It's the perfect companion for your daily commute or wherever inspiration leads.

Embodying an evolved expression of our Kodo design, the Mazda MX-30 has been meticulously sculpted into a simple yet stunning form. It features a pillarless freestyle door system, providing a greater sense of openness and a wide range of possibilities for experiencing the vehicle.

The MX-30 brings together intricate detailing, select materials and the latest technology to create an interior that feels open and inviting. Our commitment to the environment, and to comfort and craftsmanship, is evident in the unique use of cork, recycled fabrics and other sustainable materials.

Mazda's first electric vehicle will finally arrive in the United States later this year,

SCHWARTZ TRUCK CENTER IS NOW A DUAL-TECH'S TRI-STATE DEALER

Call [STC](#) for Commercial Tow Trucks. Now offering Dual-Tech Roll Backs.

Dual-Tech is a family owned and operated manufacturer in the towing

industry. In 1989, they improved 2-car "Roll Back".

The Dual-Tech 2-Car "Roll Back" carrier is known by its users as a high quality, durable, low maintenance, and easy to operate system. Dual-Tech's motto is, "Built Stronger Than It Has to Be". They custom build 10,000 to 20,000 lb. carriers.

starting in California this fall. The 2022 MX-30 will initially be available only as a battery-powered EV, while a plug-in-hybrid version with a rotary gasoline engine will arrive later in the next year.

2021 MAZDA3 TURBO 100TH ANNIVERSARY EDITION REVIEW: MORE OF EVERYTHING THAT'S APPEALING ABOUT MAZDA

By Hotcars.com

With the additional power, will the Mazda3 become a more focused driver's car?

The current generation of the Mazda3 sedan and hatchback debuted for the 2019 model year with substantial changes to their predecessors as they show off the new platform, design and technology of the future of Mazda's products. For the 2021 model year, the introduction of the familiar 2.5L turbocharged engine expands the appeal of the compact sedan and hatchback. Featuring a 6-speed automatic transmission, and all-wheel-drive, the Mazda3 Turbo is a mature approach to a pumped-up sedan.

For today's test, the Mazda3 Turbo was specked in the gorgeous Mazda 100th Anniversary

Edition trim with a lot of attractive features. The turbocharged engine is limited to the top trims of the Mazda3 and many other Mazda products as it stands so it makes sense to show off this engine and vehicle with this delicious special edition. The 100th Edition features black, white and red leather upholstery, red carpeting and fully leather trimmed seats. The 100th Anniversary badging shows up on the headrests, key fob and wheel centers on the unique grey-finished 19" rims.

This model retails for a grand total of \$37,850. There may be no other compact sedan from a mainstream manufacturer that has an interior this enticing, and with the quality to rival brands like Lexus and Acura, the Mazda3 in this configuration truly punches above its weight class. Outside of the colorful materials and other special touches of the 100th Anniversary

toward "Project Z" development of battery-electric vehicles and accelerate production timeline.

[Hino Trucks](#) plans to produce medium- and heavy-duty

trucks with Cummins engines for sale in North America. As a result, Hino intends to offer Cummins B6.7 and L9 engines in Hino's L and XL Series models by the end of 2021.

"We are thrilled to offer Cummins' proven B6.7 and L9 engines," stated Hino's Bob Petz, senior VP of vehicle and parts sales. "The reliability, performance and durability presented with Cummins engines coupled with the award-winning Hino conventional cab will provide our customers the Ultimate Ownership Experience."

"The Cummins B6.7 and L9 have an unmatched legacy in the medium-duty space, with nearly 80 years of combined production history," said Amy Boerger, Cummins' vice president and general manager of North America On Highway. "We are confident Hino customers with Cummins engines will continue to enjoy low cost of operation ownership with our combined offering."

Hino plans to redirect engineering and other resources to accelerate the development of the battery-electric vehicle (BEV) portion of Project Z, the company's development path to zero-emission vehicles (ZEV). The company had previously announced plans to develop and produce a full range of Class 4-8 electric trucks by 2024. It is now planning to begin low volume production of the BEV models in Q4 2022, ramping up to full production by the end of 2023.

"Our industry is in the midst of a generational shift from traditional vehicles to zero-emission vehicles," noted Hino's Glenn Ellis, senior VP of Customer Experience. "This new partnership is in line with the recent shift we have seen among other OEMs who are looking to strong industry partners to help offset their growing R&D investments into new ZEVs."

Hino will begin production of the trucks at the West Virginia and the Woodstock, Canada plants in October 2021, using

COMMUNITY NEWS

SCHWARTZ MAZDA SUPPORTS LOCAL LAW ENFORCEMENT L.E.A.D. PROGRAMS

L.E.A.D. provides the leadership, resources, and management to ensure law enforcement agencies have the means to partner with our educators, community leaders, and families by providing proven and effective programs to deter youth and adults from drug use, drug related crimes, bullying and violence. They are committed to reinforcing the mutual respect, goodwill and relations between law

Edition, the interior of the Mazda3 Turbo is no different from the other Mazda3's. Interior design is attractive, the minimalist button use is executed to near perfection and the sculpted center screen with Apple CarPlay and Android Auto uses a well-integrated rotary wheel behind the shifter just like the BMW iDrive user interface. The Mazda3 interior is smart and with the 100th Anniversary Edition trimmings, every journey feels special.

IS YOUR CAR ROAD TRIP READY? EASY CHECKS - BEFORE YOU HIT THE ROAD

Ah. The Great American Road Trip. Who doesn't need this more than ever these days? It is worth cramming everyone and everything into your car for a trip to the lake or the beach and suffering yet another game of license plate bingo just to get away.

Make sure your car is road trip ready.

Contact our Service Dept directly at (732)224-7927 and ask them to look over your vehicle for peace of mind. We, at Schwartz, will take care of all your needs and answer any concerns you may have.

MAZDA TIRE PROGRAM

If you purchase 4 tires from Schwartz Mazda, you have a free tire rotation for life. Most tires come with a 24-month Road Hazard Coverage.

This includes the following:
- 100% replacement the first year
- 50% replacement the second year
- Flat tire repair coverage (up to \$20 per occurrence)

BIRTHDAY CELEBRATION

Our Branch Manager, Winnie, a BernaDoodle, celebrated her first birthday March 22nd! She invited her friends to celebrate with her! Enjoy!

engines built by Cummins at their Rocky Mount Engine Plant in North Carolina. The company plans to make the Cummins B6.7 engine available in the L Series by the end of 2021, initially offering the engine in two ratings: 240 HP and 260 HP. The B6.7 will be paired with Allison's 2000 and 3000 Series transmissions. Starting in 2022, the Cummins L9 engine will be available in Hino's XL Series model, initially in three ratings: 300 HP, 330 HP and 360 HP. The L9 can be paired with Allison's 3000 or 3500 Series transmission or an Eaton manual.

Hino and Cummins will continue to evaluate additional opportunities to collaborate on powertrain strategies in the future.
