UNDER THE CORVETTE Z06-INSPIRED WIDE-BODY STYLING, CORVETTE GRAND SPORT BRISTLES WITH **RACE-BRED TECHNOLOGY**. THE TRACKS ARE WIDER, FRONT AND REAR. SUSPENSION TUNING IS MORE AGGRESSIVE, WITH STIFFER SPRINGS, FIRMER DAMPERS AND LARGER STABILIZER BARS. GRAND BEGINNINGS The original Corvette Grand Sport was the product of an intense, factory effort to defeat purpose-built North American and European competitors on race tracks around the world. These special Corvettes were engineered for ultralight weight with an extensive use of aluminum.

There was a 377 cu. in. small-block V8 under the hood and stopping power was supplied by an early use of 4-wheel disc brakes. Only five prototypes – three coupes and two roadsters – were ever actually built. All five are still in existence today. The original Grand Sports showed the potential of Chevrolet to beat the world's best sports cars and now are crown jewels of Corvette collectors, worth millions of dollars apiece.

Corvette Grand Sport interior shown, with Dark Titanium/Ebony seats, available Grand Sport Heritage Package and other available features.

HEAR Great sounds are part of every Corvette. The standard sound system features 7 speakers, an MP3-compatible CD player and XM Satellite Radio™. * Options include a Bose® speaker system, an in-dash 6-disc CD changer and a DVD Navigation System with a 165 mm (6.5 in.) full-colour touch screen and voice recognition.

CONNECT Connectivity is everything. Corvette keeps you in the loop wherever you go. Corvette is the only car in its class to offer the advanced safety and convenience of OnStar® and 1 year of the Safe & Sound Plan** as standard equipment. Bluetooth® hands-free mobile phone connectivity is also available on every model.

SMELL Real sports cars wear leather. That's why you'll find supple leather seating surfaces as standard equipment on every Corvette model. There's also an available Custom Leather-wrapped Interior Package that provides rich leather coverings on the instrument panel upper, door panel uppers, console cover and sport seat surfaces.

FEEL Corvette's seats are designed to hold you firmly in place in high-g manoeuvres. The available sport seats feature power adjustable lumbar supports and side bolsters along with 6-way power adjustments for both driver and passenger.

SEE The Head-Up Display (HUD) shows speed, rpm, g-forces and more – in street or track modes. Data is projected onto the windshield so you can concentrate on what's ahead. It's standard on Z06 and ZR1 and available on all other models.

CORVETTE ENGINEERS ARE ALWAYS LOOKING FOR NEW WAYS TO BOOST **PERFORMANCE AND CONTROL.**

FOR 2010, THEY'VE INTEGRATED ELECTRONIC **LAUNCH CONTROL** ON ALL MODELS EQUIPPED WITH THE STANDARD SHORT-THROW SIX-SPEED MANUAL TRANSMISSION. THIS SYSTEM MODULATES ENGINE RPM TO LAY DOWN THE POWER MORE SMOOTHLY WHILE PROVIDING CONSISTENT ACCELERATION TIMES ON THE TEST TRACK. IF YOU PREFER CLUTCHLESS SHIFTING, A SIX-SPEED AUTOMATIC TRANSMISSION WITH STEERING-WHEEL-MOUNTED **PADDLE SHIFTERS** IS AVAILABLE. IT MATCHES ENGINE REVS WHEN YOU DOWNSHIFT, TO HELP MAXIMIZE SMOOTHNESS AND CONTROL DURING CORNERING. ALL CORVETTE MODELS FEATURE **VARIABLE-RATIO POWER STEERING**, WHICH MEANS YOU ENJOY BOTH SHARP STEERING RESPONSE AND GREAT ON-CENTRE FEEL AND STABILITY, WHILE THE STANDARD ELECTRONIC ACTIVE HANDLING SYSTEM MAKES THE MOST OF THE AVAILABLE GRIP. CORVETTE ALSO OFFERS ONE OF THE WORLD'S MOST ADVANCED SUSPENSION TECHNOLOGIES, **MAGNETIC SELECTIVE RIDE CONTROL**®, AS STANDARD EQUIPMENT ON ZR1 AND AVAILABLE ON CORVETTE COUPE AND CONVERTIBLE MODELS. IT ASSESSES ROAD AND DRIVING CONDITIONS EVERY MILLISECOND AND INSTANTLY ADJUSTS SHOCK DAMPING TO DELIVER THE BEST BLEND OF HANDLING PRECISION AND BODY CONTROL.
