ALUMINUM RIMS

These heavy duty high capacity aluminum rims greatly improve

the look of your trailer and also reduce the dead weight that you are pulling around with steel wheels. They will never rust, will make your trailer stand out amongst all others and look great for years to come.

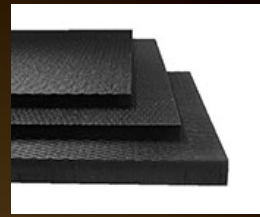

SMOKED PLEXIGLASS

This is an attractive option on Spectrum Combo trailers

that adds looks to your trailer and closes off the interior for winter hauling.

VULCANIZED RUBBER FLOOR MATS

These heavy duty floor mats are durable and strong enough to

protect your flooring, and most importantly the cargo inside. Interior rubber floor mats also help reduce noise and vibration, which helps keep the livestock calm during travel. Lastly the rigid surface provides increased traction.
