

2014 RDX AWD Technology Package vs. 2014 BMW X3 xDrive 35i

Superior value for the money, higher EPA highway and combined fuel economy ratings¹, a spacious interior, and low cost of ownership make RDX AWD Technology Package the clear choice.

BMW X3 xDrive 35i strength: Powerful engine

RDX AWD Technology Package advantages include:

- **Superior Value:** RDX AWD Technology Package is priced (MSRP) **\$15,385 less** than BMW X3 xDrive 35i when it is comparably equipped with popular features like metallic paint, paddle shifters, leather-trimmed seats, heated front seats, rearview camera, navigation system, surround sound audio system, and satellite radio. Features like GPS-linked temperature control, Song by Voice, and SMS text message function are not offered on X3.
- **Greater Front and Rear Legroom/Shoulder Room:** RDX provides more front and rear legroom and shoulder room for greater passenger comfort, including **2.1 inches more** front-seat legroom and **1.4 inches more** front-seat shoulder room. In addition, rear-seat passengers enjoy **1.5 inches more** legroom and **1.2 inches more** shoulder room.
- **Higher Residual Values/Lower Cost of Ownership:** RDX AWD Technology Package maintains significantly higher ALG residual values after 36 and 60 months to greatly reduce its cost of ownership. IntelliChoice.com awarded the 2013 RDX AWD Technology Package a value rating of "Above Average" based on its cost-of-ownership calculations. It assigned the 2013 BMW X3 xDrive 35i a value rating of "Poor." (2014 cost of ownership data not available.)
