

Electrify Nova Scotia Rebate Program Guidelines For Electric
Vehicle Dealerships

Eligible Vehicles

New Vehicles

The rebate for new electric vehicles will apply to the same makes and models as in the federal iZEV program. Specifically, the rebate will apply to:

1. vehicles with six (6) seats or fewer, where the base model trim MSRP is less than \$45,000
 - higher priced trims of these vehicles, up to a maximum MSRP of \$55,000, will also be eligible for a rebate; and
2. vehicles with seven (7) seats or greater, where the base model MSRP is less than \$55,000
 - higher priced trims of these vehicles, up to a maximum MSRP of \$60,000, will also be eligible for a rebate.

Please see the list of [eligible vehicles](#) available from the iZEV program.

Important: Transport Canada adjusts this list from time to time and reserves the right to take models off the list at any time. Any changes to the list from Transport Canada will be effective in Nova Scotia immediately upon publication of the changes by Transport Canada.

As in the federal program, demonstrator vehicles with less than 10,000 km will be eligible as new vehicles if they would otherwise qualify for a rebate.

All vehicles must also:

1. meet all federal and provincial motor vehicle safety standards;
2. be intended for use on public streets, roads, and highways; and
3. have at least four functioning wheels and be highway capable (e.g., not a low-speed vehicle).

Note that electric motorcycles, scooters and off-road vehicles are not eligible for rebates.

Used Vehicles

The used electric vehicle rebate will apply to any year, make or model of BEV or PHEV so long as it meets the following criteria:

Rebate Amounts

The rebate amounts for eligible electric vehicles are as follows:

Vehicle Type	MSRP or Retail (if Used)	Rebate Amount
Battery Electric – 6 seats or fewer	Less than \$45,000 for base model, up to a maximum of \$55,000 for higher-priced trims	\$3,000
Battery Electric – 7 seats or greater	Less than \$55,000 for base model, up to a maximum of \$60,000 for higher-priced trims	\$3,000
Plug-in Hybrid Electric – 6 seats or fewer	Less than \$45,000 for base model, up to a maximum of \$55,000 for higher-priced trims	\$2,000
Plug-in Hybrid Electric – 7 seats or greater	Less than \$55,000 for base model, up to a maximum of \$60,000 for higher-priced trims	\$2,000
Used Battery Electric – all sizes	Retail between \$10,000 and \$55,000	\$2,000
Used Plug-in Hybrid Electric – all sizes	Retail between \$10,000 and \$55,000	\$1,000

Leased Vehicles

The rebate can be applied to eligible new vehicles leased for a minimum of one year but will be prorated based on the length of the lease. For example, a 48-month lease is eligible for the full rebate amount for the eligible vehicle in question and a 24-month lease will be eligible for half of the rebate for that vehicle.

Length of Lease	Battery Electric Vehicle	Plug-in Hybrid Electric Vehicle
48 months	\$3,000	\$2,000
36 months	\$2,250	\$1,500
24 months	\$1,500	\$1,000
12 months	\$750	\$500

Important: The Government of Nova Scotia is mandating that lessors retain their vehicle for a minimum of 12 months, or they will have to repay a prorated portion of the rebate.
