

— INTRODUCING THE ALL-NEW 2015 —

**TLX**

**ACURA**

**TLX**

The all-new 2015 TLX represents more than the latest evolution of Acura. Rather, it's the most compelling realization yet of our driver-focused philosophy. It's power and control brought into perfect balance. It's anticipating where the driver wants to go, changing the way wheels themselves move and guide you. It's uncompromised design in the name of unrestrained feeling, putting exhilaration front and centre once again.

*IT'S THAT KIND OF THRILL*

---

# ANATOMY OF A THRILL

## SUPER HANDLING

A car should put you in touch with the road. But that's just the beginning. We believe reading the driver is just as important as reading the road. Every TLX – whether the 4-cylinder or V6 models with Precision All-Wheel Steer™† or the V6 with Super Handling All-Wheel Drive™† – anticipates what the driver intends. It then constantly monitors road conditions and driver input to help stay one step ahead. These precise, seamless adjustments bring added confidence and the promise of an immediate thrill around every corner.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

# HOW THE CURVE WAS WON

---

## SUPER HANDLING ALL-WHEEL DRIVE™†

Races are won in the curves. Now curves have met their match. The available torque-vectoring Super Handling All-Wheel Drive (SH-AWD®) system was designed not just for tricky weather, but also for superior handling on practically any road.

TLX SH-AWD® shown.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

TORQUE DISTRIBUTION

The available SH-AWD® system continuously determines the optimal level of power distribution between the front and rear wheels, as well as between the rear wheels, based on an analysis of wheel speed, steering angle, lateral G-force, and yaw rate (the rate at which the TLX rotates clockwise or counterclockwise).

SUPER HANDLING ALL-WHEEL DRIVE™† (SH-AWD®)

By continuously directing engine power to match driver input, weight distribution, available traction, and other conditions, the available SH-AWD system provides seamless power transitions and supreme control. And the new lightweight SH-AWD system in the TLX uses torque vectoring to add or subtract rotational momentum with a surgically precise nudge. The result is enhanced performance that simply can't be matched by front, rear, or conventional all-wheel-drive systems, whether out on the track, or simply turning onto your street.

Joining forces with SH-AWD, Agile Handling Assist† actively applies braking to any of the four wheels independently. This helps the TLX pivot through every corner more accurately, aiding vehicle stability, maneuverability and control.

**ACCELERATION**

As weight shifts to the rear of the TLX during hard acceleration, the SH-AWD® system transfers up to 44% of the power to the rear wheels to take advantage of available traction.

**HIGHWAY CRUISE**

In an effort to improve fuel efficiency, up to 90% of the power is sent to the front wheels when cruising in a straight line.

**CORNERING**

When cornering on dry surfaces, up to 70% of the torque is distributed to the rear. Torque vectoring allows up to 100% of the power to be distributed to the outside rear wheel, improving control and helping rotate the TLX through the turn.

**LANE CHANGE**

For increased stability during lane changes, the SH-AWD® system transfers power to the inside rear wheel.

**SLIPPERY ROAD**

Under slick conditions, SH-AWD® actively sends power to the wheel with the most traction.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

## FLIP THE SCRIPT ON PHYSICS

### PRECISION ALL-WHEEL STEER™†

Turning used to be solely the job of the front wheels. The TLX has changed that with the available Precision All-Wheel Steer system. It can adjust the toe angle of each rear wheel independently for increased agility and stability while cornering and also during braking.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

PERFORMANCE

AGILE HANDLING ASSIST†

Agile Handling Assist in every TLX actively applies braking to any of the four wheels individually. This helps the TLX rotate through every corner more accurately. It helps keep you headed right where you want to go, tracing the line through the turn. Working in concert with the Precision All-Wheel Steer system, Agile Handling Assist helps enhance vehicle stability, maneuverability, and control.

PRECISION ALL-WHEEL STEER

**BRAKING**

While braking, each rear wheel adjusts inward, increasing stability.

**CORNERING**

While cornering, the rear wheels turn the opposite direction of the front wheels, making handling quick, agile and precise.

**LANE CHANGE**

During high-speed lane changes, the rear wheels turn the same way as the front wheels for enhanced smoothness and stability.

PRECISION ALL-WHEEL STEER™†

From the chassis and suspension to the steering feel, the TLX is tuned for full responsiveness. On front-wheel-drive models, Precision All-Wheel Steer elevates this control to a new level. When compared with traditional two-wheel steering systems, Precision All-Wheel Steer dials in more active agility at low-to-mid speeds and better stability at high speeds.

The Precision All-Wheel Steer system continuously reads vehicle sensors and driver input. It then instantly adjusts the toe angle of each rear wheel independently, like an expert skier precisely controlling both skis. That means the TLX can more gracefully follow the line the driver pursues through every curve.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

# ACCELERATED THINKING

## ENGINES

TLX offers two engine choices. Each direct-injection engine is designed with fuel efficiency in mind, with the across-the-spectrum performance boost of Variable Value Timing and Lift Electronic Control (i-VTEC®). i-VTEC increases high-rpm horsepower while keeping ample low-end torque on tap for on-demand acceleration.

The 3.5-litre i-VTEC® V6 delivers 290 horsepower\* and 267 lb.-ft. of torque.\* The 2.4-litre L4 offers 206 horsepower\* and linear torque delivery at the low end for direct feedback whenever you need it.

Variable Cylinder Management™ (VCM®) lets the V6 TLX switch to just three cylinders whenever viable, a measure designed to improve fuel efficiency. Then, when you need more power, VCM makes the transition back to all six cylinders so seamless, you'll never know it happened.

\*Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

# HARNESSING THE ONE-TWO PUNCH

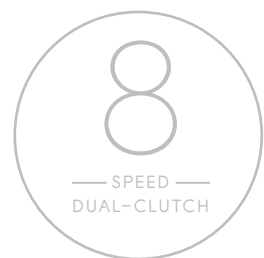

## TRANSMISSION

The TLX transmissions can rev-match downshifts for smoother performance. And both feature steering-wheel-mounted Sequential SportShift® paddle shifters for quick, manual-style gear changes.

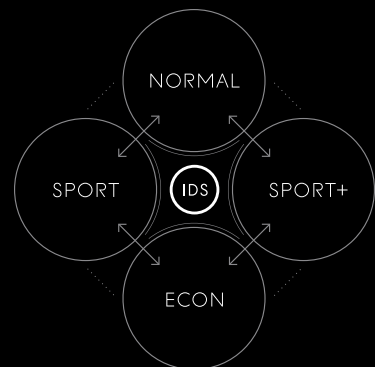

TLX models with the L4 engine feature the world's first 8-speed dual-clutch transmission (DCT) with a torque converter. DCT allows lightning-fast gear changes, as one clutch governs odd gear numbers, and the other, even. The result is direct, responsive action. A torque converter amplifies torque for more immediate response and smoother delivery.

On V6 models, the smooth-shifting, 9-speed, pushbutton automatic transmission marries performance and comfort, accommodating diverse driving scenarios with a wide range of gear ratios.

8-speed dual-clutch transmission (DCT) shown.

# THERE ARE ALWAYS FOUR WAYS HOME

## INTEGRATED DYNAMIC SYSTEM

The Integrated Dynamic System (IDS) gives you four modes: Normal, efficiency-boosting Econ, Sport, and Sport+. Sport raises shift points, dials up throttle response, stiffens the steering feel, and makes the Precision All-Wheel Steer™† and SH-AWD®† systems more aggressive, while Active Sound Control (ASC) tunes up the natural engine note. For those times when only the utmost in performance will do, Sport+ goes further, blipping the throttle and rev-matching downshifts to punctuate gear changes and help preserve the balance of the car.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

## THE PROOF IS IN THE PUNISHMENT

### TESTING

High performance is best tested at the extremes, and the TLX is designed to endure them all. From severe heat to subzero temperatures, intense body rigidity testing to aerodynamic analysis, our engineers ensure that the driver's experience is never left to chance.

## A LIGHTER, LEANER STATE OF BEING

### MASS AND FLOW

Testing 40% scale models in the wind tunnel, and materials and components in the lab, we have meticulously shaped and trimmed the TLX to reduce drag, lift, turbulence and rolling resistance. Weight has been reduced wherever possible. Lighter, tougher metals like aluminum, magnesium, and ultra-high-strength steel have been used, improving rigidity and power-to-weight ratio, and helping the TLX fulfill its super-handling promise.

GT

## RACE READY

### RACING HERITAGE

We're back on the track with the TLX GT race car, a phenomenal sedan that shares more than 400 production engine parts with the TLX, including the engine block and heads, crankshaft, direct-injection fuel system, and valvetrain components. Whether on the track or on the street, we apply the same passion to creating vehicles that deliver super-handling performance that is technically audacious, reassuringly precise, and utterly thrilling.

---

DESIGN

# TRIGGER ROAD ENVY

---

## SCULPTED LINES

Heart-stopping exhilaration is wrought from more than engineering. The TLX leads the way with a sophisticated new design language demanding short overhangs, sculpted lines and a wide, athletic stance. With an unmistakable presence, it leaves a bold impression, while standing still or in motion.

DESIGN

# WELCOME TO THE ILLUMINATED LIFE

---

## JEWEL EYE LED HEADLIGHTS

Acura's Jewel Eye™ LED headlights use ten separate LED lamps to mimic natural sunlight, helping to reduce fatigue at night. The intense, focused beam of light can help you see what others don't, and makes colors appear more vivid.

INTERIOR

# PITCH- PERFECT SILENCE

## QUIET INTERIOR

Inside the TLX you'll find a haven of calm and quiet. Active Sound Control senses unwanted mechanical noise and emits opposing frequencies to help cancel out the slightest rumble. Acoustically damped and thoroughly insulated with precisely sealing expanding foam, triple-sealed doors, and hydraulic engine mounts, the TLX helps you maintain a positively sheltered existence.

---

INTERIOR

# HEARD LOUD AND CLEAR

---

## ELS PREMIUM AUDIO

Surround yourself with studio-quality sound. For lovers of audio performance, we offer the available 10-speaker ELS Surround® Premium Audio System developed by seven-time Grammy Award®-winning recording engineer Elliot Scheiner. As the TLX took shape, Elliot worked closely with Acura engineers to tune the system to precisely match its interior space and preserve the integrity of the sound.

# A CAR THAT ANSWERS YOUR QUESTIONS

## SIRI EYES FREE†,‡

Long-press the voice control button on the steering wheel to initiate Siri® Eyes Free. With a compatible iPhone®, you can make and receive calls, select and play music, audibly send and receive text messages, access Maps, and get directions—everything you can do with Siri on your connected iPhone.

## NAVIGATION SCREEN†

Close to your line of vision is a wide, eight-inch colour screen that can combine audio, information, and available navigation functions\*. Its intuitive, high-resolution display puts virtually all the information you could need front and centre, where functions are easily controlled by voice or from the interface dial.

## ON-DEMAND MULTI-USE DISPLAY™†

An intuitive touch screen combines all the controls you need. The striking, seven-inch, colour On-Demand Multi-Use Display™ touch screen puts the audio system, climate and your choice of programmed shortcuts at your fingertips, all with feedback you can feel. You can even use voice and steering-wheel-mounted controls without taking your hands off the wheel.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

‡Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply including roaming charges and/or other amounts charged by your wireless carrier.

\*Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

# EASE OF EVERYTHING

## ACURALINK™†,\*

Today it is not enough just to be connected. You need an intelligent way to keep it all straight. Beyond conventional navigation, the available AcuraLink system connects you to the data and media you want.

It can reroute you based on current traffic conditions, stream your favorite web content through Aha™†,\* and provide you with 24-hour concierge service that helps with anything from reading reviews to ordering

last-minute concert tickets. Its expansive technology keeps you more in touch with everything in the cloud and the world beneath it.

### CONNECT

You can be in sync with your car even when you're apart. The Acura Connect app acts as a remote and gives you vital vehicle stats. Flash your lights, lock and unlock your car, or check tire pressure, fuel level, and more remotely. It also gives you information and 24/7 live concierge services, and can even send destinations right to your car.

LIVE LINK CONCIERGE

VIRTUAL DASHBOARD

VEHICLE STATUS

REMOTE

OWNER'S MANUAL

MESSAGES

DEALER LOCATOR

### NAVIGATE

Search more than 16 million continuously updated points of interest and send destinations from your devices to your car. AcuraLink Real-Time Traffic™\*\* with street and freeway conditions and Traffic Rerouting™ make the commute as effortless as possible.

NAVIGATION SYSTEM WITH 3D VIEW

LOCAL SEARCH

ACURALINK REAL-TIME TRAFFIC™

TRAFFIC REROUTING™

SEND TO CAR

### INTEGRATE

Stay in the loop while you drive. Aha™ integrates your favourite web content between your phone and car, like weather updates and Yelp reviews.

TEXT MESSAGE FUNCTION

ACURALINK™ STREAMS APP FEATURING AHA™ COMPATIBILITY: WEATHER, YELP, AND MORE

SAFETY ASSIST

### PROTECT

Enhanced Roadside Assistance and Stolen Vehicle Locator are available 24/7. Drive with peace of mind knowing features such as AcuraLink™ Assist and Automatic Collision Notification can help in a serious situation, even pinpointing your exact location and dispatching emergency personnel if needed‡.

AUTOMATIC COLLISION NOTIFICATION

STOLEN VEHICLE LOCATOR

ACURALINK ASSIST

ENHANCED ROADSIDE ASSISTANCE

### REMOTE SMART ENTRY

A car that really knows you. In addition to granting keyless remote engine start, your personal key fob remembers your settings for seat and mirror adjustments, and seats and cabin temperature, and allows you to pre-heat and pre-cool your TLX. All at a range of up to 800m.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

\*Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply including roaming charges and/or other amounts charged by your wireless carrier. AcuraLink requires a subscription. One year complimentary subscription to AcuraLink Standard, AcuraLink Connect, and AcuraLink Premium included, after which fees, taxes and other charges will apply to continue AcuraLink subscription. Ask your dealer for full terms and conditions.

‡Vehicle or the compatible smartphone tethered via the vehicle's Bluetooth® connection needs to have cellular reception.

\*\*Real-Time Traffic™ is only available in 13 of Canada's largest metropolitan areas and is dependent upon data location reporting of connected vehicles.

# IT HAS YOUR BACK, YOUR FRONT, AND YOUR SIDES

## ACURAWATCH™

AcuraWatch™ forms a network of sensing technologies hard at work in the TLX. These advanced driver assistance features constantly gather information and offer warnings, and some features can even take action when necessary. All to help prevent, avoid, or minimize threats.

### 1 FORWARD COLLISION WARNING (FCW)†,\* SYSTEM

This available system is designed to trigger an audible alert if it determines you are in danger of a collision with a vehicle detected ahead.

### 2 ADAPTIVE CRUISE CONTROL (ACC) WITH LOW-SPEED FOLLOW†

This available radar-based system gives you the ability to keep a set speed and a set interval from a car detected directly in front of you, and is designed to even bring the TLX to a complete, full stop in traffic.

### 3 COLLISION MITIGATION BRAKING SYSTEM™ (CMBS®)†

To help reduce the likelihood or severity of a frontal impact, the available CMBS is engineered to lightly brake and tug at your seat belt if you don't slow down when it senses you're at risk of a collision. If it still senses an imminent collision, CMBS is designed to tighten the belts further and brake firmly.

### 4 LANE DEPARTURE WARNING (LDW)†,\* SYSTEM

A small camera mounted at the top of the windshield is designed to track lane markings on the road and then determine when the driver is making an unintended departure from a detected lane. This available system provides visual alerts on the driver's instrument panel along with an audible warning.

### 5 LANE KEEPING ASSIST SYSTEM (LKAS)†,\*

The available LKAS is engineered to gently correct your steering when you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

### 6 ROAD DEPARTURE MITIGATION†,\*

With new camera technology, available Road Departure Mitigation can sense more than just lane markings, it has the ability to detect parked cars, pedestrians, mailboxes, and other objects. It is designed to help steer and even apply the brakes when necessary to keep the car from leaving the road.

### 7 BLIND SPOT INFORMATION (BSI)† SYSTEM

Using ultrasonic sensors in the rear bumper, the available BSI system is designed to illuminate an indicator light to let you know a vehicle has been detected in your blind spot, and alerts you with an audible signal if you try to change lanes.

### 8 MULTI-ANGLE REARVIEW CAMERA† WITH DYNAMIC GUIDELINES

As the TLX is put in reverse, the multi-angle rearview camera provides a choice of three views, including top down and wide angles, to help you see where you're going.

### 9 REAR CROSS TRAFFIC MONITOR†

Using the blind spot information sensors to detect cars as the TLX is put in reverse, the available Rear Cross Traffic Monitor is designed to sound a warning and display a visual warning on the rearview camera display if a vehicle is detected.

†None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

\*System operation may be affected by extreme interior heat.

TECHNOLOGY

# PROTECTION AT THE FOREFRONT

## ADVANCED COMPATIBILITY ENGINEERING

Using a network of connected structural elements, the Advanced Compatibility Engineering™ (ACE™) body structure distributes frontal crash energy more evenly throughout the vehicle. This not only helps reduce the forces transferred to the passenger compartment, it also helps disperse the forces transferred to the other vehicle in an impact. In addition to ACE, the front door areas are composed as a single piece of hot-stamped, ultra-high-strength steel. It's just one of many ways the TLX body is designed to help absorb and redirect energy to protect its occupants.

<b>ENGINE</b>	
Engine	2.4-litre, 16-valve, Direct Injection DOHC, i-VTEC® L4
Horsepower	206 hp @ 6800 rpm
Torque	182 lb.-ft. @ 4500 rpm
Displacement	2356 cc
Bore and stroke	87 x 99 mm
Emissions	Tier 2 Bin 5
Compression ratio	11.6:1
Direct fuel injection system	
Recommended fuel	Premium unleaded
<small>Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.</small>	

<b>DRIVETRAIN</b>
8-speed dual-clutch transmission with Sequential SportShift® paddle shifters
Drive-by-Wire Throttle System™
Front-wheel drive
Integrated Dynamic System (IDS)

<b>SAFETY</b>
Advanced Compatibility Engineering™ (ACE™) body structure
Anti-lock Braking System (ABS)§ with Electronic Brake-force Distribution (EBD) and Brake Assist
Driver’s side knee airbag
Dual-stage, multiple-threshold front airbags (SRS)
Smartvent™ side airbags
Side curtain airbags
Immobilizer Theft-Deterrent System
Lower Anchors and Tethers for Children (LATCH) child-seat mounting system
Tire repair kit
Tire Pressure Monitoring System‡ (TPMS) with location and pressure indicators
Vehicle Stability Assist (VSA®)§ with Traction Control

<b>CHASSIS</b>
17" x 7.5" alloy wheels
Agile Handling Assist
Amplitude Reactive Dampers
MacPherson strut front suspension
Multi-link rear suspension
Power-assisted, ventilated front disc brakes
Power-assisted, solid rear disc brakes
Precision All-Wheel Steer™ system§
Tires: P225/55 R17
Electric power-assisted rack-and-pinion steering (EPS)

<b>EXTERIOR</b>
Acoustic front windshield
Body-coloured front splash guards
Front windshield de-icer
Heated power-adjusting side mirrors with driver recognition, reverse gear tilt-down and integrated LED turn indicators
Jewel Eye™ LED headlights
Power moonroof with tilt feature, auto-open/close, auto-reverse, key-off operation and sliding shade
Variable intermittent windshield wipers

<b>CAPACITIES</b>	
Cargo volume	405 litres
Fuel tank capacity	65 litres
Passenger volume	2642 litres
Washer fluid tank capacity	5.4 litres

<b>FUEL ECONOMY</b>

Perforated Premium Milano leather-trimmed interior
Power folding side mirrors
Rain-sensing windshield wipers
Remote engine starter

<b>V6 TECHNOLOGY PACKAGE</b> (Adds to or replaces Technology Package features)
3.5-litre, 24-valve, Direct Injection SOHC, i-VTEC® aluminum-alloy V6 engine
Horsepower: 290 hp @ 6200 rpm
Torque: 267 lb.-ft. @ 4500 rpm
Displacement: 3471 cc
Compression ratio: 11.5:1
Bore and stroke: 89 x 93 mm
Variable Cylinder Management® (VCM®)
9-speed automatic transmission (AT) with Sequential SportShift® paddle shifters
18" x 7.5" alloy wheels
Tires: P225/50 R18
Electronic gear selector
8-way power adjustable front passenger’s seat
<small>Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.</small>

<b>V6 ELITE PACKAGE</b> (Adds to or replaces V6 Technology Package features)
Adaptive Cruise Control (ACC) with Low-Speed Follow§
Auto-dimming side mirrors
Collision Mitigation Braking System™§ (CMBS®) with Heads Up Warning
Headlamp washers
LED fog lights
Parking sensors
Perimeter/approach puddle lights
Road Departure Mitigation (RDM™) system§.††
Ventilated front seats

<b>TLX SH-AWD®</b> (Adds to or replaces TLX features)
3.5-litre, 24-valve, Direct Injection SOHC, i-VTEC® aluminum-alloy V6 engine
Horsepower: 290 hp @ 6200 rpm
Torque: 267 lb.-ft. @ 4500 rpm
Displacement: 3471 cc
Compression ratio: 11.5:1
Bore and stroke: 89 x 93 mm
Variable Cylinder Management® (VCM®)
9-speed automatic transmission (AT) with Sequential SportShift® paddle shifters
18" x 7.5" alloy wheels
Tires: P225/50 R18
Engine idle stop-start feature
Multi-Information Display (MID) with colour TFT display
Super Handling All-Wheel Drive™§ (SH-AWD®) (replaces Precision All-Wheel Steer™§ system)
Electronic gear selector
8-way power adjustable front passenger’s seat
<small>Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.</small>

<b>SH-AWD® TECHNOLOGY PACKAGE</b> (Adds to or replaces TLX SH-AWD® features)
Acura Navigation System with Voice Recognition™§.†† and 8" display
Acura/ELS Surround® Premium Audio System with AM/FM/SiriusXM™† tuner, MP3/Windows Media® Audio compatibility, in-dash CD player, DTS,® Dolby® Pro Logic™ II and 10 speakers including subwoofer
AcuraLink™§.**.△ connectivity system
Blind Spot Information (BSI) system§
Cross Traffic Monitor system§
Forward Collision Warning (FCW) system§.††
Hard disk drive (HDD) media storage
Heated rear seats
Heated steering wheel
Keyless Access System for rear doors
Lane Departure Warning (LDW) system§.††
Lane Keeping Assist System§.†† (LKAS)
Perforated Premium Milano leather-trimmed interior
Power folding side mirrors
Rain-sensing windshield wipers
Remote engine starter

<b>SH-AWD® ELITE PACKAGE</b> (Adds to or replaces SH-AWD® Technology Package features)
Adaptive Cruise Control (ACC) with Low-Speed Follow§
Auto-dimming side mirrors
Collision Mitigation Braking System™§ (CMBS®) with Heads Up Warning
Headlamp washers
LED fog lights
Parking sensors
Perimeter/approach puddle lights
Road Departure Mitigation (RDM™) system§.††
Ventilated front seats

§None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle’s owner’s manual.

†Only available in certain areas. Includes a no-charge trial of three months.

††System operation may be affected by extreme interior heat.

‡For optimal tire wear and performance, tire pressure should be checked regularly with a gauge.

Do not rely solely on the monitor system.

\*Estimated fuel economy based on Government of Canada’s new 5-cycle testing method.

Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>

\*\*Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

\*\*\*HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).

△Subscription required. One year complimentary subscription to AcuraLink Standard, AcuraLink Connect, and AcuraLink Premium included, after which fees, taxes and other charges will apply in order to continue subscription. Ask your dealer for full terms and conditions.

TLX COLOUR AND TRIM

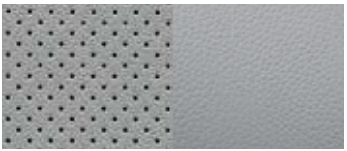

Our colour and trim range is an extension of our commitment to craftsmanship and elegance. A palette of timeless exterior colours is complemented by equally refined interior options and a superior grade of leather trims. These are the finishing touches that elevate your relationship with your Acura, and the road, at every turn.

At Acura, when innovation and performance meet purpose, remarkable things can be achieved. Through our commitment and continued involvement with events and organizations across Canada, we seek to create engaging and inspiring experiences for our customers and our community.

Because at Acura we believe exhilaration goes beyond the driver's seat.

Acura is honoured to be the Canadian broadcast sponsor of golf's most historic and time-honoured tournament. The Masters is golf's first major open of the season and is famous for its ceremonial "Green Jacket" winner's presentation.

Mobile Clinics  
Presented by Acura

Acura is proud to be the official vehicle sponsor of the CN Future Links Mobile Golf Clinics. Close to 70,000 junior golfers are expected to participate in the clinics facilitated by the ten provincial golf associations, each of which are provided a current model year MDX from Acura.

Driving a luxury vehicle should go beyond engineering and amenities. That's why Acura is committed to ensuring your ownership experience is equally luxurious. New Acura owners benefit from four-year 24-hour Roadside Assistance, which includes Dispatch Emergency Roadside Service, Emergency Lockout Service and Traffic Accident Services. See your Acura Retailer for details.

#### WARRANTY

Your new Acura vehicle comes with the following warranties: Major Component – 5-year/100,000-km limited warranty • Vehicle – 4-year/80,000-km Distributor's limited warranty • Rust Perforation – 5-year unlimited-distance warranty • Surface Corrosion – 4-year/80,000-km • Accessories – 4-year/80,000-km limited warranty (when installed by an authorized Acura Retailer at time of new vehicle delivery). Regular maintenance items and parts are subject to normal wear and replacement, and are not covered by warranty. Certain other items are excluded and certain conditions apply. See your Acura Retailer for details.

#### ACURA PLUS

Extend your worry-free ownership experience by purchasing additional coverage. Choose from Acura's flexible selection of Mechanical Coverage that extends up to 8 years or 200,000 km, whichever comes first. See your Acura Retailer for details.

#### LEASING AND FINANCING

Owning your Acura is easy. See your Acura Retailer for complete details on Conventional Financing.\*

\*A genuine service of Acura Financial Services. Conditions, restrictions and prepayment requirements might apply O.A.C.

None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) or refer to the vehicle's owner's manual.

Acura reserves the right to terminate or change any of the services and/or features at any time, for any reason. Certain features require registration and may transmit to Acura and/or its providers a vehicle's location, operating conditions or other information that may be tied to the vehicle identification number (VIN) and can be combined to create a track of a vehicle. For Acura's data use and privacy policy, see [www.acura.ca/owners/acuralink](http://www.acura.ca/owners/acuralink).
