ULTIMATE VERSATILITY

It used to be that if you wanted a car with great handling, you had to sacrifice practicality. Enter the 2014 Elantra GT. Innovative storage options give you freedom to fit everything you need to take your active lifestyle on the road. But the practical side of the Elantra GT is only half the story. It also offers great styling, a spacious interior, exceptional fuel economy, and incredible handling with features like Driver Selectable Steering (DSS) which allows you to customize your driving experience between Sport, Normal and Comfort steering modes.

CONFIDENT BEAUTY

The Elantra GT makes a bold impression with its unique European, sporty design. The sculpted hood creases sweep around its striking projector headlights, while muscular wheel arches frame the available 17" alloys with chrome accents. Flanking the front is Hyundai's signature hexagonal grille which is available in stunning dark chrome on SE models, while wraparound taillights form sleek character lines along the tail. Adding to the innovative design is an available hidden back-up camera. One look and it's clear, this car was designed to leave a lasting impression.

UNLIMITED EXCITEMENT

The Elantra GT doesn't just turn heads, it was also engineered to deliver a fun, sporty driving experience. With a new 2.0L Gasoline Direct Injection (GDI) engine, the Elantra GT is able to precisely control the injection of fuel for improved power and fuel efficiency – delivering 173 hp with 7.3L/100km combined fuel economy*. SAFETY WHEN YOU NEED IT

The 2014 Elantra GT is equipped with an exceptional level of standard safety features. A combination of seven airbags¹ surround the cabin to help protect the front and rear passengers, including a driver knee airbag for added driver safety. Four-wheel disc brakes with an Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD) and Brake Assist all work together to give you the ability to stop with confidence, while an integrated Vehicle Stability Management system works to optimally manage Electronic Stability Control (ESC), and Traction Control System (TCS)² for improved handling in all kinds of weather conditions.

All standard features, for when you need safety the most.

BLUETOOTH® CONNECTIVITY.

The available Hands-free phone system allows you to keep your hands focused on driving, while keeping in touch with friends and family.

PROXIMITY KEY WITH PUSH-BUTTON START.
