Premium Capability Package w/ Active Response 4WD Package

- Air Ride Adaptive Suspension
- Ride height control and variable air springs offer cloud-like comfort whether carrying a light or heavy load
- The vehicle can raise one inch or two inches for improved ground clearance at low speed—ideal for off-road maneuvering (4WD only)
- The vehicle can also lower two inches for easy entry/egress and cargo loading
- Active Response 4WD System
- This system is designed to help the driver confidently maneuver in slick or off-road conditions, by seamlessly sending optimal torque to each wheel to help improve traction
- The system is comprised of four fully-integrated features which work together to optimize traction: AutoTrac® 2-speed transfer case, Traction Select (Drive Mode Control), StabiliTrak® (Brake-based) and Electronic Limited Slip Differential (eLSD)
- May require additional optional equipment

Floor Liner Package

- Premium front and second row all-weather floor liners
- Third row all-weather floor liner
- Cargo mat
