## Exterior

Today's factory applied paint finishes have a shiny top layer of paint called clear coat. However, constant exposure to environmental elements can threaten the shine of your vehicle's exterior finish. The Super Polysteel Professional Exterior Gloss Preserver creates a transparent layer of polymeric coating that protects and seals out the elements, producing a deep glossy shine and eliminates the need for waxing.

## Interior

The Super Polysteel® Interior Formula is a blend of polymer fluids that have special dual band, broad spectrum UVA & B ray inhibitors, leaving lasting protection. Additionally, Super Polysteel Interior Formula lays down a breathable layer of polymer protection that encapsulates individual fabric fibers and forms a barrier against spills.

Super Polysteel provides protection against the harmful effects of:
