

TAKE CONTROL

There's something powerful about being behind the wheel of a ROUSH Mustang. The growl of the engine. The glow of the instruments. The tach springing to life. Close your eyes and feel the freedom of the open road in your state-of-the-art hot rod.

BODY KIT

Complete body kit includes front fascia, hood scoop, rocker moldings, quarter window louvers, chin spoiler, rear fascia and rear wing. From ROUSH Performance — the winningest Ford racers in history — comes a Ford Mustang body kit that can't be mistaken for anything else. The ROUSH front fascia, chin spoiler, and hood scoop make for a powerful and intimidating entrance, with rocker moldings that give your Mustang the appearance of a stronger, lower, wider stance. The ROUSH quarter-window louvers evoke the classic Mustang fastback, and the aggressive ROUSH rear fascia and race-inspired rear wing will make it very clear that it was a ROUSH Mustang that just passed them. OE-quality means easier installation, and the tightest, cleanest fit in the industry. Kit can be installed without the rear fascia if you do not want to modify the exhaust. Manufactured to OEM quality.

ROUSH now offers these body components prepped and painted to match factory OEM paint colors.

401421	Complete Body Kit, Unpainted
402361	Torch Red
402362	Screaming Yellow
402363	Redfire
402364	Alloy
402365	Vista Blue
402366	Performance White
402367	Legend Lime
402368	Windveil Blue
402369	Tungsten Grey
402370	Satin Silver
402371	Grabber Orange
402372	Black

- Painted Body Kit does not include louvers.
- Requires ROUSH Exhaust system 401339 because the rear fascia cutouts are for rectangular tips and the stock exhaust is round.

SIDE ROCKER PANELS

Build on the beauty and muscle of your brand-new Mustang in true ROUSH style. ROUSH Performance rocker moldings take your Mustang to a higher level of visual impact and exhilaration. Four piece kit includes all new fasteners. Direct fitment with no drilling required!

HIGH PERFORMANCE FRONT BRAKE KIT

If you’ve tuned your engine power up a notch only an advanced braking system will slow you down. This kit includes 4-piston calipers with braided brake lines, and 14” 2-piece front slotted rotors. Kit is track tested and for installation on 18” ROUSH wheels only, to maintain proper caliper clearance.

401599	2005-07 High Performance Front Brake Kit
401471	Front Brake Pads
401600	Front Left Rotor
401601	Front Right Rotor

STRUT TOWER BRACE

Decrease body flex with the ROUSH strut tower brace. Powder coated for durability. Includes all necessary hardware and installation instructions. Fits ROUSHcharged and non-ROUSHcharged engines.

402194	2005-2007 Mustang Strut Tower Brace
--------	-------------------------------------

BILLET LOWER TRAILING ARMS

Increase the functionality and performance of your suspension system with this pair of billet aluminum lower trailing arms. Track tested to give your ride a true handling upgrade.

401429	2005-2007 Mustang Billet Lower Trailing Arms
--------	--

Jack Roush, Jr. at Virginia International Speedway.

SUSPENSION KIT

- This suspension has been fully tested on the racetrack, slalom, lane change, skid pad, and on a wide variety of different road surfaces to provide the best combination of ride and handling.
- Suspension development included collecting and analyzing vehicle dynamics data using a DIVAS Data Acquisition System. This is the same system used by Ford vehicle engineers.
- Tested at over 1.0 g lateral on skid pad.
- Springs, dampeners, jounce bumpers, and anti-roll bars were designed together as a complete system.
- Very good ride quality and balance for everyday street driving.
- Lowers vehicle 1"

401296	2005-2007 ROUSH Mustang Suspension Kit

| 401291 | Right Exhaust Tip (ROUSH Fascia) |
| 402314 | Dual Off-Road Exhaust V-6 |
- * Includes polished stainless steel tips.

UNDERDRIVE PULLEYS

Reduced accessory drag results in more power. These pulleys reduce your accessories by 25%. They use a factory drive belt and will not work with ROUSHcharged vehicles.

- | | |
|--------|--|
| 401433 | 2005-2007 Mustang GT 4.6L Underdrive Pulleys |
|--------|--|

COLDER SPARK PLUGS

Prevent pre-ignition and detonation of the fuel due to the higher cylinder temperatures found in supercharged engines with these colder spark plugs! Pre-ignition is typically caused by many factors, such as an overheated spark plug tip which acts like a glow plug to ignite the charge. This puts a tremendous load on the engine and adds considerable heat, a recipe for serious damage. These ROUSH Performance Colder Plugs are one heat range colder than the stock Mustang plug and are designed specifically to handle the high boost pressure and air flow into the engine. These plugs feature a 0.045 inch gap. Sold individually.

- | | |

| 402099 | 2005-07 4.6L V-8 Kit |

INTERCOOLED ROUSHCHARGER™ KIT

The ROUSHcharger™ is also the only supercharger unit that is protected by the industry's leading warranty which covers the balance on Ford's 3 year/36,000 mile factory drivetrain backing, or one year on ROUSH components for vehicles already beyond this level.

This system has been extensively dyno tested and provides gains of 115 horsepower and 65 lb-ft of torque at the flywheel. The unit fits both manual and automatic vehicles and comes complete with all necessary hardware, brackets, fasteners and instructions with an estimated installation time of eight hours. The ROUSHcharger™ fits all 2005-2007 Mustang GT's with the 4.6L, 3-valve V8 powertrain system.

Main components include a ROUSH M90 Roots-style supercharger, intake manifold, air-to-water intercooler system, high-flow fuel injectors and induction system. In addition to this hardware, the key to maximizing performance is the upgraded ROUSH PCM calibration. ROUSHcharger™ owners must ship their PCM unit to ROUSH Performance for the necessary calibration.

- 50 State Legal: 2005-06 EO #D-418-5, 2007 EO #D-418-6
 - 115 horsepower
 - 65 lb-ft of torque
 - 5 PSI boost
 - Estimated 8-hour installation time
 - ROUSH stand-alone ECM calibration
 - Includes the industry's only 3-year / 36,000-mile drivetrain warranty that covers engine, transmission, and rear axle
