XTERRA[®]

Nissan. Innovation that excites.[™] NISSAN XTERRA[®]

Shouldn't you drive something you love? Absolutely. And that's what inspires our innovation. We look at every part of your drive and ask how can we make this better, smarter and more fun. So when you get in your new Xterra, you'll feel how exciting the answers can be:

Rack it. Not just a roof rack, an icon. With an available ventilated gear box, you can dry out wet gear on the roll, while available integrated off-road lights show the way home.

Lock it. With floor rails, heavy-duty sliding cleats and ten cargo hooks, Xterra's innovative Utili-track[®] cargo-carrying system puts your gear in lockdown.¹

Grade it. Whether it's steep or deep, with the PRO-4X[®] model you've got serious off-road equipment, including hill descent control and hill start assist.²

Tame it. Underneath Xterra's rugged good looks is a solid core featuring a fully boxed, full-length ladder frame. That's full-size strength on a mid-size SUV.

PRINTED IN POLAND.

LIFE. UNPAVED.

THE FEELING OF INNOVATION.

The fun begins where the pavement ends. And with a potent 261 horsepower and serious off-road capabilities, the unpaved world is yours for the taking. Gear up with a roof rack so radically versatile, it's often imitated, but never equalled. Got mud? You've got a ventilated gear box on the roof and an Easy Clean[®] cargo area in the back that just wipes down.¹ And, no matter how long the journey, NissanConnectSM puts entertainment and navigation right at hand.² So where are we heading? 2013 Nissan Xterra.

Nissan. Innovation that excites.TM

¹Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the SUV with cargo, especially on the roof, will affect the handling and stability of the vehicle. ²Certain remote functions require compatible phone, not included with vehicle. Cellular network and vehicle services provided by independent companies not within Nissan's control. Cellular network not available in all areas. Certain connected vehicle services, including but not limited to Points of Interest and Send-to-Car, may require subscription and owner consent to activate. Should service provider terminate/restrict service, service may be suspended or terminated without notice or liability to Nissan and/or its agents. Nissan not responsible for any equipment replacement or upgrades, or associated costs, that may be required for continued operation due to service changes. Standard text rates, voice minutes, roaming charges and/or data usage may apply.

PERFECT WHEN YOU NEED TO MAKE TRACKS.

No matter how you slice it, Xterra is built to deliver. A potent 4.0-liter DOHC 24-valve V6 gives you the power to climb faster and farther, while advanced friction-reducing technologies help keep it all moving smoothly. Continuously Variable Valve Timing delivers heightened efficiency and on-demand power, which is important when you're towing up to 5,000 lbs.¹ Mix it all with some serious attitude and you've got one tough machine. Go make your mark.

Nissan Xterra PRO-4X[®] shown in Brilliant Silver.

¹See Nissan Towing Guide and Owner's Manual for proper use. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the SUV with cargo, especially on the roof, will affect the handling and stability of the vehicle.

THE FEELING NO ONE'S BEEN HERE BEFORE.

Finding a little solitude is good for the soul. And Xterra equipped with 4-Wheel Drive is up for the challenge. Not only is it packed with advanced technologies ready to conquer the trail, it's also equipped with hard-core 4x4 components. From a fully boxed ladder frame to a locking rear differential, this vehicle goes where few dare follow.

Locking Rear Differential.¹ When 4-Wheel Drive just isn't enough, activate the available electronic locking rear differential. This technology delivers equal power to both rear wheels to boost traction and help keep your Xterra moving forward. Helping you reach your destination even in the gnarliest trail conditions.

Hill Start Assist.² Works on the uphill swing to help prevent rolling backward when you're starting from a stop on an incline. This system applies the brakes for a few moments, allowing you time to switch from the brake pedal to the accelerator.

Hill Descent Control.² What goes up must come down. Xterra's hill descent control automatically adjusts your speed and brake pressure to help keep you going at a controlled speed, freeing you up to concentrate on navigating difficult off-road situations.

Shift-on-the-Fly. Go where the wind – or whim – takes you, with a twist of a dial. The highly capable Xterra 4WD system features shift-on-the-fly 4-Wheel Drive with a 2-speed transfer case, so you can go from 2WD to 4H at speeds up to 62 mph.

Nissan Xterra PRO-4X* shown in Night Armor.

¹PRO-4X models only. ²PRO-4X models with automatic transmission only. Cargo and load capacity limited by weight and distribution. Heavy loading of the SUV with cargo, especially on the roof, will affect the handling and stability of the vehicle.

TAKING IT FROM THE TOP.

It's pure heads-up innovation. With so many choices, the iconic Xterra roof rack begs you to take every last item. From its heavy-duty integrated gear box to its long list of available accessories, the only option it doesn't offer is turning back.

Versatile in every way. Starting with 6063-grade aluminum construction and up to 150-lb. capacity. An available gear box is ventilated for wet, dirty stuff, and removable to make way for larger items. Aerodynamic crossbars open up all kinds of possibilities, and casting a mighty beam every step of the way are available off-road lights mounted right on the rack.†

Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the SUV with cargo, especially on the roof, will affect the handling and stability of the vehicle.

FIT TO BE TIED.

Bring what you will, Xterra adapts. Latch it down with multiple hooks, or use the innovative Utili-track® cargo channel system to easily secure your gear. Clean up quick with the Easy Clean® cargo area. Stash more goods in the hidden storage space. This is the definition of versatility.¹

Bring what you need. Whatever it is, Xterra is ready to make it fit. A 60/40 split rear seat and fold-flat front seat give you plenty of options, while an available first aid kit is nestled in its own nook in the back hatch, just in case. Be ready to accommodate just about anything, and never ditch a friend for a longboard again.¹

Secure your gear with ease. The Utili-track cargo channel system slides and locks into any position, giving you the means to accommodate just about any activity you can think of. Load it, lock it, start your adventure. Oversize hooks in the ceiling make securing your gear a cinch. Strap it down and get out there!¹

¹Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the SUV with cargo, especially on the roof, will affect the handling and stability of the vehicle.

DESIGNED FOR ROCKING OUT, CHECKING IN, EVEN BACKING UP.

Pump up your experience and keep up connections. With available features like a booming Rockford Fosgate sound system and Bluetooth® Hands-free Phone System,¹ Xterra has the technology to keep you rocking and talking no matter where the trail takes you. And with the new available RearView Monitor, hooking up the boat, the dirt bikes – or just nabbing that parking space in town – has never been easier.²

RearView Monitor. Whether negotiating a tight parking space or lining up to attach a trailer, Xterra's new RearView Monitor – included with the available Nissan Navigation System – is like having an extra pair of eyes where you need them most.^{2,3}

Designed exclusively for the Xterra's interior, the Rockford Fosgate audio system features nine speakers and an enclosed subwoofer for massive sound.

Go far off the beaten path, but stay in touch just by pushing a button on the steering wheel. It's voice-activated, and lets you program in up to 40 numbers with easy access.¹

¹Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use and accessory equipment of such marks by Nissan is under license. ²Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ³Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations.

NISSAN CONNECT^{SM 1}

YOUR MUSIC YOUR WORLD

ANY WAY YOU WANT IT.

Why settle for just the radio? By putting the latest technologies right at your fingertips, Xterra gives you all you need for hours of endless entertainment. Rock on.

Streaming audio via Bluetooth.* Want to let your passengers play DJ? Just connect a Bluetooth®-enabled audio device to stream music wirelessly, from any seat in the cabin.²

Pandora® radio capability. Looking for something new? Explore music based on your hand-picked favorites using Pandora® radio capability. Connect your Pandora®-equipped iPhone® through the audio system to listen to Pandora® free internet radio and use the 'thumbs up' or 'thumbs down' icons to rate songs – all right in the display.

iPod®/USB input. Wouldn't you like to be able to listen to your own playlists or podcasts? With the available iPod®/USB input, you can. Plug in your iPod® or other portable MP3 player through the USB port and control it through Xterra's audio controls.³

ALWAYS UP TO DATE.

Navigate your way through the concrete canyons, or call up some friends. The NissanConnectSM system is compatible with Google® services and can even help you find that new restaurant. Now that's smart.^{1,4}

Nissan Navigation System. Xterra's available 5.8-inch touch-screen display offers NavTraffic and NavWeather for real-time advisories to keep you on the move. Plus over five million points of interest, so you'll always have something new to discover.^{4,5}

Points of Interest powered by Google.* Find that new restaurant in a snap. NissanConnect's compatibility with Google® Points of Interest lets you search for a location, even without knowing the name or category. Once you find it, select it and you're on your way.¹

Google® Send-To-Car. NissanConnect's compatibility with Google® Send-To-Car lets you send any address to your Nissan Navigation System using your favorite connected device, like a smartphone or computer. When you start the truck and connect to the network, the directions will be delivered and loaded into your navigation system.^{1,4}

Hands-free text messaging assistant. Now you can receive and respond to text messages without ever touching your phone. With a press of a button, have your text messages read to you and answer with pre-loaded responses, all via voice recognition.⁶

AVOID BEING BETWEEN A ROCK AND A HARD PLACE.

Nissan looks at safety from all perspectives. That's why Xterra is not only agile and responsive in its handling, our innovative advanced technology helps anticipate trouble before you do. And, its incredibly strong structure and Zone Body construction, plus an advanced air bag system, combine to help protect you.

Standard Vehicle Dynamic Control (VDC) helps you stay on your steered path. If your vehicle begins to oversteer (fishtail) or understeer (plow forward), VDC (sometimes known as Stability Control) compensates by reducing engine power and/or applying appropriate brake pressure to specific wheels.¹

Standard Anti-lock Braking System (ABS) rapidly pumps the brakes during hard braking to help prevent your wheels from locking, helping you maintain steering control.

Brake Override Technology. Like every Nissan since 2005, Xterra comes standard with Brake Override Technology. It's designed to help slow down your vehicle and bring it to a safe stop in an emergency by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.

6
STANDARD AIR BAGS²

Air Bag Technology.² Nissan's Advanced Air Bag System (AABS) includes standard dual-stage supplemental front air bags that incorporate seat belt sensors and an occupant-classification sensor. The inflation rate of these dual-stage air bags adjusts depending on crash severity and seat belt usage. If the front passenger seat is empty, a sensor will deactivate the bag. In addition, front seat-mounted side-impact supplemental air bags are built into the seats, so they move with you as you adjust your seating position.² Up above are standard roof-mounted curtain supplemental air bags, offering enhanced head protection for both rows of outboard occupants.²

Ready with a rollover sensor. In the unlikely event of a rollover, Xterra is poised to respond. All models have a sensor that detects an impending rollover and deploys both curtain air bags.²

Zone Body construction helps absorb crash energy to protect the occupant compartment if the unavoidable happens. It includes front and rear crumple zones, energy-absorbing frame side-members and crossmembers, a reinforced body structure and bumper heights designed for compatibility with other vehicles. All to help lessen the effects of an impact and protect your family.

snug kids™ Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissan vehicles. The result: An industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids

¹VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. ²Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See your Owner's Manual for more details. Inflated air bags shown for illustration purposes only, actual coverage area may differ. Air bags deflate after deployment.

Scan this QR code with your smartphone to see a video on how Snug Kids helps you find the right CRS for your Xterra. Or go to bit.ly/NissanSnugKids

**GENUINE NISSAN ACCESSORIES.
IMPRESS. CONNECT. PROTECT. ORGANIZE.**

Every Genuine Nissan Accessory is: custom-fit, custom-designed and durability-tested; backed by Nissan's 3-year/36,000-mile limited warranty; and can be financed when installed by dealer at time of purchase.¹

- A. Roof Rail Crossbars²**
You'll really get attached to them.
- B. Hood Protector**
Keeps bugs and dirt from driving you buggy.
- C. All-season Floor Mats**
You've seen the bottom of your shoes.
