TAKE EVERY ROAD IN STYLE.

THE FEELING OF INNOVATION.

What if a car could get your heart racing before you even got behind the wheel? Or if it could be as powerful as it is beautiful? When creating the Altima Coupe, we didn't just subtract two doors, we started with a clean sheet. The result is stunning. With a shorter, more agile wheelbase and a lower, sportier ride height, the coupe goes beyond a styling statement. It's pure coupe performance for a drive you'll fall in love with every time you start the engine.

Nissan. Innovation that excites.™

THE FEELING OF AN INSTANT CONNECTION.

From perfectly placed controls to body-hugging bucket seats, your Altima Coupe's interior puts you at the center of everything. While advanced technologies keep you in touch and entertained through every thrilling mile.

Nissan Altima 2.5 S Coupe shown in Red Leather with optional equipment.

Nissan Navigation System. Stay on track with turn-by-turn Voice Guidance and avoid nasty bottlenecks with NavTraffic while NavWeather helps you stay on top of changing conditions. Wherever your life takes you, count on the available satellite-based Nissan Navigation System to keep you one step ahead.^{1,2}

RearView Monitor. Backing up in a crowded parking lot? Get a clearer picture of what's directly behind you with the available RearView Monitor.³

Nissan Intelligent Key® with Push Button Ignition. Forget fumbling to find your keys. Just leave the keys in your pocket or purse, walk up to your Altima and tap a button on the door to unlock it. Then press the standard Push Button Ignition and go.

iPod®/USB Interface. How great would it be to connect your iPod® or other portable MP3 player and listen to your own playlists or podcasts? Now you can with this available feature. Even control your iPod® through Altima's stereo controls.^{4,5}

Bose® Audio System. With the available 9-speaker Bose® audio system at your disposal, you'll actually feel like you're at the concert. The 4.3" display shows what song is up next on your MP3 CDs and even lets you browse through your folders.

Bluetooth® Hands-free Phone System. Make or receive calls with a touch of a button on the steering wheel with the available Bluetooth® system. All while your phone stays tucked away.⁶

AMPING UP THE EVERYDAY.

Altima Coupe's low ride height and short wheelbase give it a sporty stance and an agile, responsive ride. So you can drive it like what it is – a true coupe.

Engine. Go for fun. The high-energy 175-hp 4-cylinder engine gives you friction-reducing technology like molybdenum-coated pistons and microfinished components. What's that all mean? You can have responsive, velvety smooth performance while still achieving an impressive 32 MPG highway.¹

Continuously Variable Transmission (CVT). Altima Coupe's virtually gearless CVT transmission is a game-changer. Its super-smooth action creates the sensation of riding a continuous wave of power.

Z[®]-inspired suspension. It's nice to have a legend to borrow from. Your Coupe's Z[®]-inspired suspension features a lightweight multi-link design for a quick response that keeps you directly in touch with the road while still providing a level ride through the twisty stuff.

Vehicle-speed-sensitive steering. Light when navigating a parking lot, more weighted when tackling the turns. That's a win-win. More boost at low speeds makes maneuvering easier, and less boost at higher speeds helps give you a secure, confident feel.

Vehicle Dynamic Control (VDC)/Traction Control System (TCS).

A slick spot in a corner can have you suddenly going in a direction you didn't want. VDC monitors steering and braking in comparison to the vehicle's actual path and reduces engine power and/or applies appropriate brake pressure to specific wheels to help keep you on your steered path.² When the Traction Control System senses drive-wheel spin, it responds by reducing throttle or applying brake pressure to help maintain traction.

Standard Anti-lock Braking System (ABS)/Electronic Brake force Distribution (EBD). The standard ABS pumps the brakes faster than you possibly can in panic-braking situations. This helps prevent wheel lockup, so you can continue to steer around obstacles while continuing to brake heavily. When you have a car full of passengers, EBD senses the extra weight and sends additional force to the rear brakes for even greater confidence behind the wheel.
