High Performance Appliances

Largest Capacity At The Lowest Price

PINNACLE LAUNDRY APPLIANCES specially developed for rugged RV use. Combo Washer-Dryers and Laundry separates.

The Pinnacle All-In-One Combo washes and dries in one space saving unit. It has a capacity of 14 lbs of laundry. All units carry an Energy Star™ rating and use a heavy duty 110 volt motor. Offered in both Vented and Ventless versions.

67199 Dryer White
#17-2013/W ♦1

67201 Vented Combo White
#17-2010/W ♦1

67200 Ventless Combo White
#17-2015/W ♦1

S/O Ventless Combo Platinum
#17-2015/P

67198 Washer White
#17-2012/W ♦1

Features:

- 1.9 cubic foot drum
- BIG 13" door opening
- Door opens in dry cycle
- 1000 rpm 110 volt AC motor
- Stainless steel tub and drum
- Simple intuitive controls
- Automatic detergent dispenser

- No-spin setting for Woolens
- Economy Wash cycle - Low Water Use
- Zero clearance installation on sides - one inch front and back
- 33-1/2" H. x 23-1/2" Width x 23-1/4" D.
- Energy Star™ rating
- ETL tested to UL Standard 2157 and CSA standard C22.2 No. 169

Features:

- BIG 13" door opening
- Door opens in dry cycle
- Cool Down at the end of dryer cycle
- 1000 rpm 110 volt AC motor
- Stainless steel tub and drum
- Dryer Available in 110 and 220 volts
- Energy Star™ rating
- 33-1/2" Height x 23-1/2" Width x 23-1/4" Depth

74935 Bracket f/Stackables #17-1050 1

87085 Vent Kit f/Dryer #17-1059 1

A **Stacking Kit**
(74935) 17-1050

Perfect for stacking the Dryer on top of the Washer or Combo

External Vent Kit
(87085) 17-1059

Easy to install curved louvers with 5 ft length flexible 4" diam hose

Chrome Vent Kit
(S/O) 17-1063

Chrome Plated Cowl w/Black Plastic Base and adaptor for 4" diam hose

HE Detergent
(S/O) 17-2845

High Efficiency concentrated Detergent for front loaders. 5lbs - Sufficient for 100 loads (pack of 8 boxes)

Drip Pan
(S/O) 17-2827

Protects your floor from scuffs, spills, and overflows. Height: 2-3/4" Width: 24-1/8" Depth: 24-5/8"

Stainless Steel Inlet Hose
(S/O) 17-2826

High burst pressure hose of 5 ft length Flexible and Braided (Set of 2)

SPLENDIDE® XC, COMBO WASHER-DRYER

Do all your laundry in half the space. This practical two-in-one appliance washes and dries loads weighing up to 15-lbs with just 7.5 to 15 gallons of water. With enhanced springs and shock absorbers, the Splendide combo performs like a high-end home appliance, yet is built-tough for RV and Marine travel. 'Class A' rated for superior wash results, it can handle everything from heavily soiled cottons to delicate silks and wools. The extra-large, dual-rotating drum spins up to 1200rpm and works with a powerful blower system to dry laundry faster with less fabric creasing. Laundry aids dispense automatically, and LED's clearly display the cycle progress. A super-silent brushless motor is so quiet you can relax undisturbed while the laundry gets done. The oversized, 11" wide door opening makes loading easy, and when you need it, and the 'Add-an-item' feature instantly unlocks the door during any cycle.

Features include 10 wash cycles, 3 timed dry cycles,* 4 options (low heat, extra rinse, prewash, low spin), automatic water-leveling and load-balancing, a self-cleaning lint filter, adjustable water temperatures and more. Max. capacity: 15-lb. wash/11-lb. dry. ENERGY STAR. Backed by an industry leading 1-Year Limited Warranty (extendable to 5-years).

Electrical: 120V, 60Hz, 13A
Size: 33 1/8"H x 23 "W x 22 5/8"D
Weight: 148 lbs. Water Use: 7.5-16 gal.
Listings: cULus, ENERGY STAR

Combo Washer-Dryer

- 67255** Vented Combo, White #WD2100XC ◆₁
S/O Vented, Platinum #WD2100XCP
- 67256** Ventless* Combo, Platinum #WDC7100XC ◆₄

* Ventless model is 22 1/4"D and uses 2.5 gallons of water/hr during the dry cycle. It has an additional Auto Dry cycle and is available in platinum color only.

STANDARD DRYER VENT KIT

UV protected, paintable louvered vent with 4" metal tail piece and recessed mounting screw holes for a clean appearance. 2 worm-driven screw clamps, 4" x 2' fire-resistant flexible all-metal duct, inside collar for finished interior look.

- 65499** Standard Dryer Vent Kit #V1422 ₁
- 65594** 4" x 25' Flex-Metal Ducting #16815 ₆

DELUXE DRYER VENT KIT

UV protected, weather-resistant vent cover with paintable white finish, integrated 4" plastic tail piece and flap/insect seal. Kit includes 2 worm-driven metal clamps, 4" x 2' fire-resistant flexible metal duct, inside collar, 9 screws. Fits models WD2100XC/XCP, WD2000S and AS66VX.

- 69234** Deluxe Dryer Vent Kit with Paintable White Vent Cover #VID403A ₁

UV protected, weather-resistant vent cover with automotive chrome finish and streamlined design. Kit includes Integrated 4" plastic tail piece and flap/insect seal, 2 worm-driven metal clamps, 4" x 2' fire-resistant flexible metal duct, inside collar, 6 screws. Fits models WD2100XC/XCP, WD2000S and AS66VX .

- 69153** Deluxe Dryer Vent Kit with Chromed Vent Cover #VID403AC ₁

DRAIN-A-WAY™ PAN

For Built-In Installations

1/2-ID drain fitting, removable facade. Screws and

Butyl tape included. Size: 1-1/2"H x 24"W. Fits models WD2100XC/ XCP, WD2000S and WDC7100XC .

- 65408** Drain Pan 23-3/4"D #PI24 ₁

SECUREFIT™ BRACKETS

Prevent the appliance from shifting side-to-side or front-to-back in RV/Marine applications. Heavy-duty galvanized brackets hook around the two front level legs and secure to the floor with included, self-tapping screws.

- 66138** SecureFit Installation Bracket Kit #MK01 ₁

Models are interchangeable with other Splendide/ Ariston models.

AQUA PRO WATER HEATER ANODE RODS LEAD-FREE

69717

69719

Lead-free

- 18% more magnesium for extended protection.
- Significantly extends the water heater tank life.

The single most important factor in tank life is the condition of its anode. Aqua Pro Magnesium Anode Rods will attract the elements that cause corrosion, protecting the tank from those elements. Simply replace your MPT drain plug with the Aqua Pro Anode Rod to protect your tank. For best results the anode rod should be replaced annually.

Magnesium Anode Rod for Suburban & MorFlo Water Heaters, Lead-Free, 9" L, 3/4" MPT:

69716 Lead-free, CD/1 #69716 1

69717 Lead-free, Bulk #69717 1

Magnesium Anode Rod for Atwood Water Heaters, Lead-Free, 4-1/2" L, 1/2" MPT:

Pilot Ignition Models

Electronic Ignition Models

ATWOOD MOBILE ELECTRIC WATER HEATERS

Manufactured of highly specialized aluminum alloys. Atwood Water Heaters have a longer life and weigh much less than competitive models. (The 6 gallon model weighs 38% less than a stainless steel model and 43% less than a glass lined model; 13" H x 13" W x 15³/₄" D; cut-out size 19³/₄" D.) Featuring a corrosion-resistant exterior and a high quality 120V/1500W incaloy heating element; the electrical system is ignition protected and meets UL specifications. With heat exchanger coil.

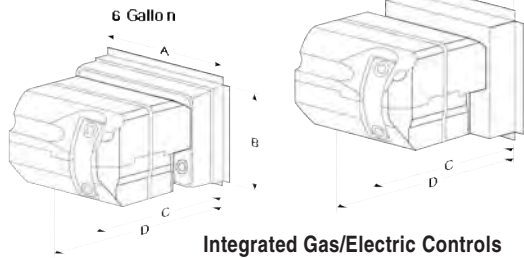

Water Heater:

- 763429** 6 Gallon #93891 1
- 763430** 11 Gallon #93882 1

Atwood access doors are painted with tough, durable paint. Doors are included with water heater.

Integrated Gas/Electric Controls

ATWOOD RV WATER HEATERS

Atwood Water Heaters feature a patented "through-tube" combustion chamber, utilizing the pilot flame to help maintain water temperature rather than losing this heat energy into the atmosphere. All units are *lightweight* and compact, with easily accessible controls for servicing.

FUEL-SAVING FLEXIBILITY

Atwood water heaters operate on LP gas. In addition, there are models that operate from an electric source, with an engine coolant heat exchanger or both. With the electric option, the heater can be run either off an electrical hook-up or a generator. The heat exchanger safely transfers otherwise wasted energy from the engine cooling system of a motorized coach to the water heater during travel. When you arrive at your destination, hot water is available immediately, saving you energy, time and money.

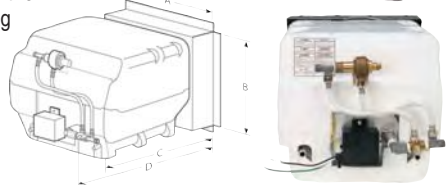

Note: we suggest adding a **60894** Pilot Relighter Kit to Pilot Light Models.

65631 and **65634** Gas/Electric models feature microprocessor technology with a dual switch panel that eliminates the need for 120-v remote switch. † **65631** depth dimen. reduced by 1/2".

ATWOOD XT WATER HEATERS

ADVANCED WATER HEATER SYSTEM FEATURING EXOTHERMAL TECHNOLOGY

The Atwood XT 10-gallon water heater provides the equivalence of a 16-gallon unit without increasing the space required. Saves weight while fitting in the same cut-out dimensions of other Atwood water heaters. Comes pre-configured with a winterization bypass kit, tee fittings, hoses and a thermostatically-controlled mixing valve with check valves in both inlets.

REPLACEMENT PARTS FOR SUBURBAN WATER HEATERS

- 60389** #110-504 or #110-509 Thermostat Gas Control with Fitting (Replaces #3200289) #110-509 1
- 61901** Thermostat Gas Control for use on SW3-P, SW4-P, SW6-P, SW6-PE, SW6PR, and SW6-PER after serial #962802561, and for SW10P after serial #95360121. 3/8" NPT Inlet 1/4" Loxit Outlet #161111 1
- 60411** Small Burner Assembly, Includes Burner with Target, Burner Support Bracket, Shutter with Screw & Nut, Pilot Bracket, Pilot Burner, Thermocouple & Tube with Fitting #520563 1
- 60412** Large Burner Assembly, Includes Burner with Target, Burner Support Bracket, Shutter w/Shutter Spring, Pilot Bracket, Pilot Burner, Thermocouple & Pilot Tube with Fitting #520564 1
- 60392** LS Large Burner with Air Shutter, Includes Burner with Target, Shutter with Shutter Spring, Burner Support Bracket & Pilot Bracket #520565 1
- 60391** 690-0756 Door Latch & Hinge Assembly, Includes Door Latch Assbly, Hinge Pin Fastener, Door Hinge Pin, Screws & Nuts #520568 1
- 60433** Temperature & Pressure Relief Valve with Test Lever, Self Closing 3/4" x 3/4" #0066100 1
- 60278** Temperature & Pressure Relief Valve with Test Lever, Self Closing 1/2" x 1/2" #0004494 1
- 50216** Thermocouple 18" #H06E018S1 10

- 69733** DSI Limit Switch #231461 1
- 61319** 3200244 DSI Thermostat #160921 1
- 60410** 1000W 120V Flanged Bolt-In Electric Element with Gasket #520570 1
- 60374** Burner Orifice #65 #180254 1
- 60375** Burner Orifice #61 #180260 1
- 66396** 1/4" Drain Valve Petcock #2 #11663 6
- 61318** 3200198 Electrode Assembly #231457 1
- 65770** SW Series - Pilot Reignitor Kit (1999-Present; Serial # after 991801501) #520821 1
- 24460** Gas Valve For DSI Water Heaters, 3/8" NPT Inlet, 3/8" NPT Outlet, Starting with Serial #92110443 (see **62011** for older models) #161071 1
- 62345** Ignition Control Module Board 3-Try (requires **61483** cover) #520741-BOARD 1
- 61483** Cover for Module Board 520741 Except V Model (for use in water heater applications only; no cover used if board is used for furnace applications) #090470 1
- 64983** Switch & Light with Plate #520764 1
- 67287** Grommet for SW4P & all water heaters #070874 1
- 67288** Module Board Cover for SW6D, SW10D, SW12D water htr's #090487 1
- 67289** Door Latch for Door Latch & Hinge Assembly 520568 #150079 1
- 67291** Valve Thermostat for SW6D #161109 1
- 67292** Pressure Relief Valve for SW6P #161157 1
- 67293** Loxit Nut for SW4P & all water heaters #171463 1
- 67294** Thermostat Switch for SW6D, SW10D, & SW12D #232282 1
- 67295** Thermostat Switch for SW6DE, SW10DE, & SW12DE #232306 1

Completed kit ready to install

DINOSAUR ELECTRONICS IGNITOR BOARD ACCESSORIES

AC/GAS ADAPTER Kit

The 4+ 6 Pin AC/Gas Adapter board controls the AC and Gas operations from the main water heater control switch. 2 diagnostic LEDs indicate the boards output functions: A Green LED indicates when the board is energizing the ignitor board for Gas operation. A Red LED indicates when board is energizing the AC Relay for 120V AC operation. Comes with: 2-tab mounting kit and the 4+6 Pin AC/Gas Adapter Board. Note: Does not include a UIB S Ignitor board needed for operation. The AC/Gas adapter kit is for Atwood®/Hydroflame® water heaters that have a circuit board that uses both a 4 and a 6 pin edge connector to control both AC and Gas operations through a single thermostat.

- 67539** AC/Gas Adapter Kit f/Atwood #AC/GAS ADAPTER KIT 1

2-TAB MOUNTING KIT

The 2-tab mounting kit allows you to mount a Dinosaur Electronic's UIB S or UIB S Post ignitor board in an Atwood®/Hydroflame® water heater without having to drill a hole to mount the board and risk drilling a hole in the water tank. It comes with an aluminum adapter plate, a clear small cover to protect the UIB S or UIB S Post ignitor board (sold separately) and mounting hardware.

- 67335** Two Tab Mounting Kit #2 TAB MOUNTING KIT 1

RV DESIGNER WATER HEATER CAM LOCK

Metal, spring-loaded latch used to secure exterior, water heater door. Genuine OEM.

UNIVERSAL THERMOSTATS**

Reliable performance in an attractive design.
Features: • Rugged Snap-Action contacts.
 • Adjustable heat anticipator. • Bi-metal thermometer. • Compatible with most 24-volt and millivolt heating & cooling systems. • Heat/Cool model includes switching subbase, and is compatible with electric heat systems. • Classic White. • Size: 3-3/4" H x 2-7/8" W x 1-1/2" D.

Universal Thermostat:

- 65640** Heating Only #01C20R200S1 6
- 65641** Heat/Cool #01C26R300S1 6

In addition to the replacement parts listed in this catalog section, your RV Dealer also has access to a wide variety of replacement parts for RV major appliances.

You can have your dealer order parts for: Atwood Water Heaters, Coleman-Mach Air Conditioners, Cooling Units for most RV refrigerators, Hydro Flame Furnaces, Powerhouse Generators, Norcold Refrigerators, Suburban Furnaces, Suburban Water Heaters, and Wedgewood Ovens and Cooktops.

When you need a part for your RV's major appliances, let your RV dealer be your parts expert.

64653

**JCJ ENTERPRISES
MUD DAUBER FURNACE SCREENS**

64656

64655

With proper use of the Mud Dauber Screen you eliminate the concern for costly repairs to the furnace as a result of fan motor loss or furnace burner blockage caused by mud daubers, wasps, mice, birds, tree frogs, spiders, etc. Install a Mud Dauber and forget these problems. This screen is sized so as not to block air flow to and from the furnace.

Mud Dauber Screen:

- 64653** Screen M200 (Fits Coleman, Suburban, Sol-Aire and Hydro-Flame) #M200 24
- 64654** Screen M300 (Fits Suburban, Duo-Therm and Durotherm) #M300 24
- 64655** Screen M500 (Note: Inspect screen semi-annually for cleanliness. Remove and clean if needed) #M500 24
- 64656** Screen M700 (Fits Suburban DD Series) #M700 6

Keeps out mud daubers and related wasps, mice, birds, etc., without blocking air flow. Heavy stainless steel—just install and forget!

- 65656** Screen M800 (Fits Atwood Hydroflame 2004) #M-800 24

ATWOOD EVEREST STAR II FURNACE

Weighing in at just 23 pounds and using only 1.10 cu. ft. of space, the Everest Star II can produce 12,000 or 16,000 BTU's per hour of input heat. The compactness of the furnace optimizes space utilization and furnace placement flexibility. This furnace may be front-or side-ducted. It can also be installed with front-and one side-duct. Features include an electric shut-off on the gas valve, a blower assembly that increases air delivery by 60% over its predecessor, and electronic ignition. The LP gas furnaces are powered by 12 Volts DC. All models have a shipping weight of 25 lbs. and are 11-3/8" H x 8-3/8" W x 20-1/2" L. 35 sq. in. return air. *Order thermostat separately.*

Electronic Ignition Everest Star II Furnaces:

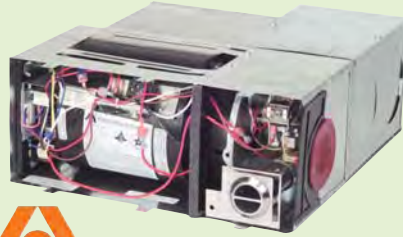

- 64308** 12,000 BTU, Front Air Discharge, without Thermostat #36551 1
- 61438** 16,000 BTU, Front plus Two Side Ducts, without Thermostat #36566 1
- 61608** Replacement Burner for 79-II & 80-II #36043 1

OLYMPIAN LP GAS CONNECTORS - FOR GAS HEATERS

90° Connector Elbow with full 360° swivel. 3/8" SAE male with 3/8" male connector.

- 50577** 90° 3/8" Elbow Swivel Connector #57633 24

ATWOOD 2-STAGE EXCALIBUR LP GAS FURNACE WITH DIGITAL THERMOSTAT

DESIGNED TO BE ENERGY EFFICIENT

Unique 2-Stage System — Set the temperature, turn the thermostat on "automatic" and let the furnace take over! During cold start-ups, the furnace operates on High Burn, High Fan for quick, quiet warm up. Then, when the temperature is reached, the furnace automatically switches to Low Burn, Low Fan to maintain the comfortable environment you want.

Self Diagnostic Capability — This furnace is designed for long life but if you ever need service, it's made easier with built in self-diagnostics. A flashing LED indicates low or improper voltage input, ignition failure, switches, etc. for possible time and money savings.

Advanced Digital Thermostat — Provides 13 heating/cooling functions. It can even control the furnace and the roof top air conditioner.

2-STAGE FURNACES COME WITH ATWOOD'S DIGITAL THERMOSTAT

13-functions at the tip of your fingers. For 2-stage furnaces and rooftop air conditioners.

ATWOOD EXCALIBUR IV FURNACE

Atwood's 8500 Series LP gas RV furnaces are designed to be quiet and efficient, featuring a burner and blower assembly that minimizes turbulence and increases airflow. The compact size, low profile, lightweight construction and vertical installation option enhance the space utilization possibilities and furnace placement flexibility of the 8500 series furnaces. A flexible adapter kit makes bottom discharge installation easy for both new and replacement applications. Capacities range from 16,000 to 34,000 BTU's which come in one standard size. 12 Volt DC power, electronic ignition. 16-1/2" W x 7-3/8" H x 18" L; 65 sq. in. return air. Cutout size: 17" x 7-1/2". *Door and thermostat not included; order separately.*

OLYMPIAN WAVE CATALYTIC SAFETY HEATERS

The ideal heaters for either your primary or secondary heating source, Olympian Wave Catalytic Heaters operate on low pressure L/P gas and can be wall mounted or used as portables. The built-in automatic Piezo electric spark starter will last for 20,000 starts and is self-generating. No electrical connections or battery drain. No flame, no flue or chimney, no fan or blower, no noise; just dependable, penetrating soft infrared heat.

WAVE-3 3000 BTU CATALYTIC HEATER

Operates at altitudes up to 12,000' on LP fuel. 1600-2800 BTU adjustable output. 1/8 lb./hr. fuel consumption. 3/8" SAE flare gas connection. 110 square feet of heated comfort (approx.) Piezo spark ignition. Size: 11-3/4" H x 10-1/4" W x 3-1/2" D. Weight: 6 lbs. Use configurations:

- Wall mount vertical/horizontal;
- Portable leg stands.

WAVE-6 6000 BTU CATALYTIC HEATER

The most popular size heater. The 6000 BTU will produce enough heat to warm an 18' trailer or motorhome (230 square feet, depending on outside temperatures and insulation). The unvented propane heater can be installed vertically, horizontally, or made portable with optional leg stands **62425**. The double platinum catalyst ensures long life and superior efficiency. 3-year mfr. warranty, piezo electric starter and 100% safety shut-off valve. Adjustable: 3200 - 6000 BTUs. Fuel consumption: 1/4 lb. per hour maximum. 17 1/8" H x 12 13/16" W x 4" D.

WAVE-8 8000 BTU CATALYTIC HEATER

Designed specifically for trailers or RVs. Produces enough heat to warm a 23' coach (290 square feet, depending on outside temperatures and insulation). Can be installed vertically, horizontally, or made portable with optional leg stands **62425**. The double platinum catalyst ensures long life and superior efficiency. 3-year mfr. warranty, piezo electric starter and 100% safety shut-off valve. Adjustable output: 4200 - 8000 BTUs. Weight: 14 lbs. Fuel consumption: 1/3 lb. per hour maximum. 21 1/2" H x 15" W x 4" D.

Olympian Heaters (Not available in Canada):

62230 3000 BTU Heater #57331 6

62231 6000 BTU Heater #57341 3

62232 8000 BTU Heater #57351 3

Dinosaur Electronics

Use the new style 6 pin connector

Or use the old style Edge connector

DINOSAUR ELECTONICS FAN 50 PLUS PINS

The FAN 50 Plus Pins is designed to replace the new Suburban® Fan Control boards and the Atwood® / HydroFlame® Fan Control boards as well as the Dinosaur Fan Control boards which have been available since 1994. This board can also be used to upgrade older furnaces to add the Fan Control feature. The basic purpose of a Fan Control Ignitor Board is to shut the fan motor off if the board fails to sense a flame after the third ignition try. Thus, battery drain is reduced and the needless blowing of cold air is eliminated. The FAN 50 Plus Pins, after shutting the fan motor off, will wait for 1 hour and repeat the whole sequence again before permanent shut down. *For 12V DC Furnaces ONLY! The "Fan Control" feature MUST BE USED for proper operation of this board.*

Features: • Jumper selectable operation. • Works in 12V DC furnaces*. • Microcontrolled. • 3.35" x 4.25". • Diagnostic LED. *Note: Fan control boards should not be used in DuoTherm® 900 series furnaces that have the thermostat in the ground circuit.

66584 Ignitor Board, Fan 50 Plus Pins #FAN 50 PLUS PINS 1

Dinosaur Electronics

DINOSAUR UNIVERSAL IGNITER BOARDS

The key features of the Dinosaur boards are:
 • **FUSE PROTECTION**- A replaceable fuse on the board protects the board's 12V circuits from short-circuit damage. • **DUAL SENSE**- Flame sense works through high voltage connector and edge connector simultaneously. • **EXTERNAL SENSE**-Connector on the board for external sense wire. • **DIAGNOSTIC-AID LED** on board is green to show power to board, red to indicate power to gas valve. • **VOLTAGE REGULATOR**-Cleans up the 12V supply power.

Available with spade (shown) or post high-voltage connector. Two sizes to choose from. Cover sold separately. Note: Do not use cover in furnaces. It will melt.

BROAN BIG HEAT® PORTABLE HEATER

This portable, electric heater is the perfect solution to instant heat, with a full 1500 watts and a reliable, ceramic heating element to ensure fast warm-up. It will keep you comfortable in nearly any situation—the garage, workshop or on the job.

- Rugged steel construction, durable finish with integrated carrying handle and rounded bumpers to protect surfaces.
- Instant, automatic safety shut-off if tipped over on its front or back.
- Overheat protection shuts off the heater and activates the "caution" light if excess heat is detected.
- Efficient, ceramic heating elements with full 1500 watts for fast warm-up, 1200 watt setting maintains warmth using less electricity.
- High, low, or fan only settings with quiet operation.
- Built-in thermostat to hold the comfort level you select.
- 6' cord with safety flanged plug.
- 5-7/8" x 6" x 5 1/4". • UL approved.

- 60231 Big Heat® Portable Heater #6201 6

FAN-TASTIC VENT

New design!

12volt only
12-VOLT "ENDLESS BREEZE" FAN

A new practical application for your favorite pet!

Endless Breeze is a high volume 12-volt fan with a 12" blade and operates at three speeds. Air movement of up to 1000-CMF (cubic feet per minute) is a major breakthrough in 12-volt portable fans. Standing only 14" H on retractable legs, and less than 3" thick, it travels and stores easily. Weights under 5 lbs. Endless Breeze can be powered by any 12-volt power source such as automobile lighter outlets or by connecting jumpers to any 12-volt battery. Maximum draw is less than 3 amps/hour. Comes with a 6' cord. Operates efficiently up to 14' from its power source.

- 12931 12-V Box Fan #1100WH 1

SEE SECTION "H" FOR MORE FAN-TASTIC VENT PRODUCTS
