About the catalog:

This is a general catalog of merchandise available to thousands of independently owned and operated stores and dealerships. As a result, some items shown may not be immediately available on demand. However, the store may order items not readily available from one of our regional warehouses, provided the item is still available at that warehouse. Please note that because this catalog must be produced months in advance of its actual distribution, the possibility exists that an advertised item is not available by the regional warehouse due to sales above the anticipated demand, or to circumstances beyond our control. While we try to avoid such situations, we have no control over unexpected delivery problems, or items discontinued by the manufacturer. We reserve the right to limit quantities, correct pricing errors, and require central credit office approval for some sales.

Printed in the United States.
