

Faulkner Recliners and folding chairs

Faulkner Furniture's designers focus on you, to be sure you have the comfort you expect. Our "zero gravity" recliners provide an affordable, easy-to-carry, easy-to-store ergonomic line of fashionable comfort.

Comfortable

Faulkner recliners are engineered to provide you the deep comfort you're looking for in your folding furniture. The unique high-tension elastic cord system provides flexible support, while ergonomically contoured padded or wood armrests follow every move of the seat. Faulkner's easy-to use lever lock system lets you select the reclining angle you like, from sitting up to the zero-gravity position. The padded headrest is removable and adjustable. And the fabrics are designed for comfort too. You can ease into a padded outdoor recliner's high density foam for extra comfort that is soft to the touch, covered with 100% colorfast, UV-resistant poly/cotton with polyester lining in the back for extra support. Or choose Faulkner's open mesh weave fabrics that let air circulate, made of tough polyester strands which are UV and weather resistant, and washable. The mesh recliners are ideal for the pool environment and will not retain water. And Faulkner's indoor line features the industry's first memory-foam folding recliner. Holding it all together is Faulkner's aesthetically pleasing frame made from sturdy powder-coated steel tubing that folds compactly for storage or travel.

Faulkner—the best choice in folding furniture.

Faulkner Furniture is committed to bring you the best in relaxation, with the best combination of comfortable furniture and convenient accessories.
