Low-Profile, Auto Satellite Antennas for DIRECTV®, DISH® and BELL TV™

Just push a button to automatically lock on all your favorite satellite TV channels. Sleek, low-profile dome no taller than a standard A/C unit. Built-in tuner provides independent, positive satellite ID to allow use with a variety of receivers for DIRECTV, DISH and Bell TV. Dual output LNB for viewing different channels from the same satellite on 2 different TVs when using a second receiver. In motion models provide continuous satellite TV reception while on-the-go. Compatible with HD programming for DISH and Bell TV.

Get Unmatched Signal Reception with The ROVER™ Full Sized Dome Antenna!

One-touch, automatic satellite acquisition in a full sized dome for the best possible reception during inclement weather. Simple installation with no external power or controller cable required. Easily replace your older satellite antenna without the need to re-wire your RV. Works with a variety of satellite receivers for DirecTV, DISH and Bell TV. Dual LNB for viewing different channels, from the same satellite, on 2 different TVs when using a second receiver. Ideal for stationary satellite TV reception when 2" of extra roof clearance is not needed.

Vuqube® FLEX Portable Automatic Satellite Antenna

Experience satellite TV without boundaries! The ultra-portable VuQube FLEX satellite antenna lets you take your favorite TV programs anywhere. Just push a button to automatically lock-on the satellite(s) for the service provider of your choice. Works with a variety of receivers for DIRECTV, DISH and Bell TV for greater flexibility. Simple coaxial only cable connection with no external power cable required. Move anywhere to get a clear line of sight to the satellite(s). Add a second receiver to watch different channels off the same satellite on 2 different TVs.

LADDER BRACKET
Use to secure any model VuQube antenna to your rear ladder. Quick release with security lock. No cables included.

FLEX INSTALL KIT
The MB410 Flex Install Kit allows semi-permanent installation of VuQube models VQ2000 and VQ3000 on the rear ladder of your RV, and includes everything required to hard wire your RV for the VuQube.
DIGITAL HDTV ANTENNAS

Upgrade to the latest antenna technology and get maximum reception of the new digital TV signals. The sleek, aerodynamic JACK® antenna is fixed at 11 1/4” high eliminating the need to crank up or down and is always ready for travel. An amplified, ultra high gain antenna provides the best digital TV reception available for your RV with superior reception of both VHF and UHF signals and a much broader reception range. The built-in SureLock® Digital TV Signal Finder lets you pinpoint the local TV towers before scanning for channels for simple, fool-proof antenna pointing. Full 360° rotation allows for precise antenna pointing with no “dead spot” commonly found with other antenna mounts. An LED light on the head confirms power to the built-in amplifier via the supplied wall mount power injector switch. At just 11.25”H x 16”W x 12.5”L, the JACK® is up to 70% smaller than other antennas and provides superior reception of the new digital TV signals. Available in black or white.

87581 Jack Antenna, White #OA8200 1
87582 Jack Antenna, Black #OA8201 1

REPLACEMENT HEAD FOR SENSAR®

Sensar® is a registered trademark of Winegard® Company. Jack® is a product of King Controls® and is not affiliated with nor manufactured by Winegard® Company. Replace your old Sensar® antenna with the JACK® replacement head for better digital TV reception. Includes custom bracket for simple retrofit to your current antenna mast using the existing mounting pins. Broader reception range helps to receive signals found in the “dead spot” or 35° of rotation not reached by the existing mount. The amplified antenna can be powered by your existing antenna power supply or used with the included power injector. A universal mounting bracket is also included for installation on a pole or railing for residential use. At just 2.25”H x 16”W x 12.5”L, the JACK® replacement head is 70% smaller with improved wind resistance and weighs 25% less than the existing antenna head.

87264 Replacement Head, White #OA-8000 10

MOUNTING PLATE

Use when replacing existing antenna to cover all pre-existing screw holes for a simple water-tight seal.

87711 Mounting Plate #MB8000 10

ANTENNA POWER INJECTOR SWITCH

Twelve volt DC power supply for amplified antenna with flush wall mount plate. Inputs for TV antenna and cable with built-in selector switch. F-type connectors for 2 TV outputs.

87583 Power Supply, White #PB1000 1
87584 Power Supply, Black #PB1001 1

SURELOCK® DIGITAL TV SIGNAL FINDER

Use the SureLock® to pinpoint the location of local TV towers before doing a channel scan for simple, fool-proof antenna pointing. Greatly reduces set-up time and frustration by eliminating the need for multiple channel scans in different directions. Simple plug-n-play design connects to any available TV antenna output or may be installed inline between the antenna and TV. Rotate the antenna until the maximum number of LED’s are illuminated in the signal meter, then run a channel scan. Variable gain control feature lets you adjust sensitivity for optimal resolution in both strong and weak signal areas. For use with any over-the-air TV antenna. 3”H x 3”W x 1”D.

87572 SureLock Signal Finder #SL1000 40

THE CHOICE IS CRYSTAL CLEAR, GET DISH HD!

The DISH® Advantage:
• Your favorite shows and sporting events in crystal clear HD
• Custom search screen appears on your TV when you connect
• Pay-As-You-Go programming (only pay for months used)
• Add to current DISH account for just $7/mo.
• Record and pause live TV with optional DVR upgrade.

It’s Never Been this Easy!
Just power-up your DISH® receiver to automatically lock on in just minutes!

TAILGATER® AUTOMATIC PORTABLE
The first truly automatic satellite antenna with fully integrated antenna and receiver software for effortless set-up. Provides automatic satellite acquisition with no separate control or power source required. Just connect the Tailgater to your DISH ViP211k HD receiver via the supplied 50’ coaxial cable and in minutes your watching your favorite DISH channels in crystal clear HD. There’s no easier way to get HD satellite TV reception. A customized, on-screen menu automatically appears on your TV when connected. Simply select your state and scan, and within minutes your locked in to all your favorite channels in crystal clear HD.

TAILGATER® CAB MOUNT PLATE
Use with MB350 mounting plate to temporarily attach Tailgater to the side of your RV when camping.

TAILGATER® WINDOW MOUNT
Quickly attach Tailgater or VuQube to car or truck window for temporary mounting. Use with MB350 mounting plate to temporarily attach Tailgater to the side of your RV when camping.

TAILGATER® WINDOW MOUNT
Quickly attach Tailgater or VuQube to car or truck window for temporary mounting. Use with MB350 mounting plate to temporarily attach Tailgater to the side of your RV when camping.

ITALY™ - AUTOMATIC SATELLITE SYSTEM
Permanently mounted on the roof of your RV, the Relay automatic satellite system is ready to go when you pull into your campsite. Just turn your receiver and TV on to automatically display a custom set-up screen on your TV. Then use your DISH satellite receiver’s remote control to select your state and scan. Dual LNB design lets you connect an additional DISH receiver to view independent channels from the same satellite on a second TV. Requires customer supplied DISH receiver model ViP211, 411 or ViP211k.

19178 Tailgater Automatic Portable (Not for sale in Canada) #VQ2500 1

19287 King-Dome Dish HD - White #KD5500 1
19288 King-Dome Dish HD - Black #KD5500B 1

DISH® HDTV RECEIVER
The single tuner Solo ViP211k HD receiver is the most versatile satellite receiver for RV use. While it is compatible with a variety of satellite antennas, it includes custom software for the KD5500 Relay and VQ2500 Tailgater antennas. The compact design (1.9”H x 13.2”W x 10.2”D) requires minimal cabinet space and runs cooler than other receivers. A built-in digital over-the-air tuner provides a seamless program guide for both satellite and local OTA channels without switching the TV input. Add to your existing DISH home account for just $7/mo. or choose pay-as-you-go service to purchase service in 30 day increments with no contracts or commitments. DVR ready – just connect your own external hard drive and pay a one-time nominal fee to enjoy DVR features with no recurring monthly DVR fee. Record, pause and re-wind live satellite and over-the-air programs. Includes HDMI cable and universal IR remote to control the receiver, TV and 2 other devices.

Programming is available in the contiguous United States only.

Must have HD TV to view HD programming. DISH is a registered trademark of DISH Network L.L.C.
KING-DOME®AIR: ONE ANTENNA FOR ALL YOUR DIGITAL HDTV VIEWING!

Enjoy all your favorite digital satellite and high definition over-the-air local channels from a single antenna. There's nothing to raise or lower – the King-Dome Air is always ready to travel when you are. Works with HD programming for DISH Network® and Bell TV as well as standard digital programming for DirecTV®, DISH Network and Bell TV and most receivers.

- Automatic
- Latest DVB technology for positive satellite ID
- Combine with existing OTA antenna for improved digital TV reception

**Service Provider Compatibility:**
- DIRECTV SD 101˚, 119˚ • DISH SD 110˚, 119˚
- DISH HD 61˚, 72˚, 77˚, 110˚, 119˚, 129˚ • Bell SD 91˚ • Bell HD 82˚, 91˚

**KING-DOME®AIR AUTOMATIC**

Automatically locks on satellites while parked. Just push a button and within minutes you have all your favorite channels at your fingertips. Built-in DVB technology makes this antenna compatible with a variety of receivers and service providers including DISH Network, DirecTV and Bell TV. HD compatible for DISH Network and Bell TV satellite services with automatic satellite switching when changing channels. Roof mounted design requires no set-up at your campsite and is always ready for use or travel.

**Stationary Auto, 12**:
- 10315 White #KD-2200 1
- 10317 Black #KD-2200-B 1

**KING-DOME®AIR IN-MOTION**

Enjoy live satellite TV while heading down the highway. Get up-to-the-minute news, weather and sports or watch a blockbuster movie while on the way to your next destination. With the King-Dome® Air In-Motion antenna you get reliable, crystal clear satellite TV reception while parked or driving. You also get the most HD channels available via satellite and off-air from a single antenna for the ultimate HDTV experience. When driving into your campsite, you’ll know you have an unobstructed view to the satellite before you even let the jacks down.

**In-Motion, 12**:
- 10316 White #KD-3200 1
- 10322 Black #KD-3200-B 1
- 15105 In-Motion Upgrade 9704 & KD2200 Series #9743 1

**VUQUBE® - REMOTE CONTROLLED PORTABLE SATELLITE ANTENNA**

Ideal for DirecTV® or Bell TV customers wanting quick and easy access to programming from a single satellite location. Ultra-portable design is much easier to use than traditional portable dishes and offers a simple, one person set-up. NEW improved wireless transmitter provides reliable antenna control up to 100’ away. Easily elevate and rotate the dish from inside your RV using the wireless remote control. A digital display shows antenna elevation and rotation. Self leveling feature offers fast, reliable operation with no need for tripod or other leveling accessory. The VuQube® is powered by your satellite receiver via the supplied 50’ coaxial cable with no additional power or control cables required. Includes tamper proof security ring for theft protection. Supports 1 receiver.

16746 VuQube Remote Controlled, with Auto-switching #VQ-1000 1

**WINEGARD TRAV’LER® AUTOMATIC MULTI-SATELLITE TV ANTENNAS**

*Must order both models (mount and reflector/LNB) for complete unit.

**NEW!**

**The ULTIMATE Antenna for Canada**

- 75 cm dish.
- Receive programming from virtually anywhere!
- Views all satellites at the same time for maximum programming reception.
- For Stationary use only.

Satellite TV in your RV is as easy, flexible and enjoyable as it is in your home with Winegard TRAV’LER automatic multisatellite antennas. View multiple satellites simultaneously to provide you with the most comprehensive viewing experience available. You don’t have to settle for a different system anymore. Enjoy the same system on the road that you have at home.

Made with Shaw Direct approved and certified reflectors, these fully automatic antennas provide the highest signal strength on the market while providing the lowest stow height.

If HD is important to you, TRAV’LER antennas are HD-Ready and do not require any add on accessories other than a HD receiver and HDTV, sold separately. TRAV’LERs are compatible on all RVs.

80209 TRAV’LER Mount with Software Upgrade (Canada only) #SK-7003 1

80210 Shaw Direct Reflector and new LNB (Canada only) #SKA-733 1
Automatic Multi-Satellite TV Antennas

TRAV’LER DIRECTV® SLIMLINE KU/KA
Get everything DIRECTV has to offer with the TRAV’LER Slimline!
This antenna receives programming from all 5 DIRECTV satellites at the same time for maximum HD and standard DIRECTV coverage. Receives both KU-band satellites (101°, 110° and 119°) and KA-band satellites (99° and 103°) signals simultaneously. 44"L x 34"W. 53 lbs. Stationary viewing.
86829 TRAV’LER DIRECTV
86829 Trav’ler DirecTV Slimline KA/KU #SK-3005

TRAV’LER DISH®
Premier reflector from DISH used for home systems. Receives all DISH® standard and HD programming from satellites (110°, 119° and 129°) simultaneously. Also receives all Bell TV standard and HD programming from satellites 82° and 91° simultaneously. 42"L x 26"W. 45 lbs. Stationary viewing.
86831 Trav’ler Dish 1000/Bell TV #SK-1000

TRAV’LER SHAW DIRECT*
The solution for Canadian RVers!
Fully automatic, one button on/off antenna receives signals simultaneously from Shaw Direct KU-band satellites 107.3° (English language programs) and 111.1° (French language programs and HD programming). Works great with PVRs. Order both models listed below for complete unit.
87096 LS Trav’ler Shaw Direct Mount #SK-7002
87097 LS Trav’ler Shaw Direct Reflector & LNB #SKA-722

TRAV’LER ACCESSORIES
Communication cable 25' long extension power/communication cable. Connects directly to the existing TRAV’LER power/communication cable to allow for runs up to 50'.
S/O #CL-SK26
Roller plate designed to create solid landing area for LNB arm. Ideal for rubber roofs.
S/O #SKA-004
Mounting plate (Opt.) designed for extra support in thin roof installations.
S/O #SKA-008

**Carryout Automatic Accessories**

**TRIPOD MOUNT**

Aluminum tripod elevates your Carryout (both 19286 automatic and 87510 manual models) off the ground for protection from mud and water. Adjustable height settings from 14-1/2” to 22”. Ground anchor, 6” bungee cord and anchor loop hold the antenna securely. Assembles easily/quickly disassembles for compact storage.

**87265 Carryout Tripod Mount #TR-1518 4**

**LADDER/POLE MOUNT**

Mount your Carryout Automatic Portable antenna to the RV ladder for temporary or permanent installation. Weather resistant powder coated mount features quick disconnect, so you can remove your Carryout antenna and set it on the ground or take it with you anywhere! Extends from 19.5” – 23.5” in two inch increments for 3 setting options. Comes with wall plate with on/off switch for convenient operation from inside the coach, cable entry plate, 50’ coax and 25’ power cable without lighter adapter plug. Verify your ladder can support total weight of Carryout antenna and mount – 20 lbs. Not for use with 20004 (GM-0700).

**87239 Carryout Ladder Mount #GM-3000 1**

**POWER CONVERTER**

12V AC/DC power converter allows you to hook up your automatic Carryout to 110V when 12V is not available. Use only with appropriately sized products; do not exceed 5.8 amps.

**10002 Power Converter #55522 20**
**Carryout Automatic Accessories**

WINEGARD SATELLITE SYSTEMS

CARRYOUT® MP1™
MANUAL PORTABLE SATELLITE TV ANTENNA

Fully encloses inside durable case and features FAST and EASY set-up!

- 25' Coax cable allows optimal antenna placement and stores in base for easy stowing
- Bubble Level helps to check antenna is level for easy set up
- Elevation markings and knobs assist in elevating and locking antenna at exact angle
- Azimuth Lock Knob threads through center of top portion and base to prevent left to right movement
- Twist on/off cap provides easy way to fill top portion with water or sand for increased stability
- Compass ensures antenna is pointed to correct southern setting
- Durable Case protects dish while not in use and functions as mount during use
- • Features 2 coax inputs • Compatible with 87265 tripod mount
- • Dimensions: 17"w x 17"h x 10"d, 9 lbs. • For Stationary use only
- • Standard and HD programming for DISH and Bell TV™
- • Standard DIRECTV® programming (Does not work with 110° for HD or KA-band satellites 99°, 103°)

87510 Carryout MP1 Manual Portable Antenna #GM-MP1

TRIPOD MOUNT
Aluminum tripod elevates your Carryout (both 19286 automatic and 87510 manual models) off the ground for protection from mud and water. Adjustable height settings from 14-1/2 " to 22". Ground anchor, 6" bungee cord and anchor loop hold the antenna securely. Assembles easily /quickly disassembles for compact storage.

87265 Carryout Tripod Mount #TR-1518

SATELLITE FINDER METER
Meter with audio tone helps you align manual satellite antenna to signal. Includes coax for installing meter between satellite antenna and receiver.

82268 Satellite Finder Meter #SF-1000

SATELLITE ALIGNMENT COMPASS
Use local zip code to obtain azimuth setting from satellite receiver. Aim your dish in the direction indicated by the compass. Easy to read instructions printed on compass.

83599 Satellite Compass #SC-2000

DIGITAL SMART COMPASS
Smallest and lightest digital compass. Instant directions and due-north LCD readout. With water resistant case, compass is highly accurate and easy to use. Comes with keychain clip or lanyard. Requires lithium battery, included. Compass measures 1-1/4" x 2".

86268 LS Digital Satellite Compass #SC-8000

All Winegard Antennas made in USA.
Crank-up and Accessories

18” CRANK-UP SATELLITE DISH WITH DIGITAL MAGIC™ SENSOR

Raise, lower and rotate the 18” dish with hand crank from inside vehicle. Digital Magic™ elevation sensor makes finding the satellite faster and easier. After you park, the LCD readout inside your vehicle shows the elevation of the dish within 2 degrees, even if not parked level. 30” deployed, 8” stowed.

**Crank-Up Dish:**
- **84170** Antenna, without Digital Magic Sensor #RM-4600
- **84171** Antenna, with Digital Magic Sensor #RM-DM46
- **84291** Combination 18” Crank-up Satellite Antenna with Omnidirectional over-the-air antenna for local channels. Without Digital Magic. (Not Pictured) #RM-4610

**DIGITAL MAGIC™ ELEVATION SENSOR**
Digital Magic elevation sensor gives the exact elevation of the antenna on an LCD readout inside the vehicle. Accurate to within 2° even when the vehicle is not level. The sensor is installed on the elevating tubes or the back of the antenna and wired to the wall plate. Includes 20’ of 3-conductor cable. Requires + 12 VDC or a 9V battery. Ideal for models 84170, 84291.

82357 Digital Magic Sensor #DM-4000

**EXTERIOR ROOF WEDGE**
Designed to level satellite TV antenna on vehicle with uneven roof. For vehicles with extremely sloped roofs, multiple wedges may be needed. For use with RM model Winegard crank-up satellite antennas.

84203 Roof Wedge, RM Series #RW-5000

**RM Series Thick Roof Kit** (not shown) for RVs with roof thickness of 5” to 6.75”.
For RM models only. Includes longer elevating shaft, directional handle and extension.

82332 Thick Roof Kit #RP-4200

**INTERIOR SATELLITE ANTENNA REPLACEMENT CRANK**
Replacement interior hand crank for manual crank-up satellite antennas.

84531 Replacement Crank Handle #RK-HAND

**INTERIOR SATELLITE ANTENNA CONTROL PARTS**
Replacement interior control parts kit for manual crank-up satellite antennas. Includes ceiling plate with directional handle, directional handle extension and hardware. Crank handle sold separately.

84530 Ceiling Control Parts Kit #RK-CEIL

**HEAVY DUTY TRIPOD MOUNT**
Sturdy powder-coated steel tripod mount with 1.66” OD mount pipe compatible with all DISH Network®, Shaw Direct and Bell TV™ antennas, plus all DIRECTV® antennas except Slimline. Fully adjustable legs allow up to a 45° angle setting for ultimate stability and expand and retract between 28” – 37” for an optimal setting. Includes handy nylon bag which attaches to leg when not in use to store 3 ground anchors, satellite alignment compass and bubble level also included. Tripod folds to 36” requiring minimal storage space. Made in the U.S.A.

87579 Multi-Satellite Tripod Mount #TR-3535

**TRIPOD MOUNT**
For use with 18” Home Satellite Dish Antenna (Not for use with Portable Dishes)
Ideal when permanent mounting is not desirable. Great for short stops, wooded areas, boat docks, decks, etc. Works with a standard 18” single satellite viewing home dish. Azimuth degree markings molded in. Includes removable legs, ground anchor, bungee cord, compass and level. Not for use with portable satellite TV antennas. 8-1/4” x 8-1/4” x 19”.

80380 **NEW!** Tripod Mount (Retail Graphics Box) #TR-2077
83598 LS Tripod Mount (Plain Box) #TR-2000

**COAXIAL CABLE**
Low loss RG-59 coaxial cable. Connectors attached.

80019 8’ Cable Kit #CX-0008
80021 25’ Cable Kit (Shown) #CX-0025

WINEGARD ANTENNAS & ACCESSORIES

SENSAR® IV
VHF/UHF/DIGITAL OVER-THE-AIR TV ANTENNA

#1 ANTENNA IN THE RV INDUSTRY FOR 25 YEARS!

Winegard has taken the powerfully performing Sensar III antenna and integrated it with the UHF enhanced Wingman® antenna for the ultimate in over-the-air TV viewing! Optimized for the new DTV spectrum, this amplified antenna receives all available VHF/UHF channels so you can enjoy watching all your favorite local programs while parked.

Raise, lower and rotate the antenna with hand crank from inside your RV. It’s easy to install and lowers to only 4” inches above the roof while traveling. Integrated Sensar head requires 46.25” L x 15.25” W, unobstructed roof space while stowed. 87512 includes amplified antenna and lift assembly, +12 VDC white power supply with on/off switch, white interior control parts and 20 feet of 75 ohm coax cable.

Sensar IV head U.S. Patent D620,483.

WINGMAN™ SENSAR ANTENNA UHF UPGRADE

87174 Wingman Antenna #RV-WING 5

• Lightweight sleek add-on attaches to existing Sensar head II or III with simple snap-on screws
• Increases UHF db gain up to 100% on DTV channels giving you more range
• Compatible with all Sensar antennas made after 1990
• Powder coated for long lasting durability in harsh environmental conditions
• Dim: (Box) 16.5”W x 14”D x 1.4”H.

US Patent D612,369

Get **MORE** from your Sensar® antenna - Instantly scans Channels

- **Works with all amplified Sensar antennas**
- **Provides real time feedback to easily find local programming**
  - Provides up to 10 dB of gain for increased performance
  - Ability to lower gain in close range areas
- **Equipped with**
  - High-Grade Digital Tuner
  - Scan/Seek/Channel Mode
  - Adjustable Amplifier
  - Audio Feedback

**Specifications**
- Dimensions: 4.5”H x 2.75”W x .76”D
- Cables/Outputs included: Antenna IN, Cable IN, TV1 OUT and TV2 OUT

Easily find all available local broadcast programming.
### DIGITAL TV ANTENNAS

**ROADSTAR™ OMNIDIRECTIONAL HDTV ANTENNA**

Omnidirectional, over-the-air HD antenna continuously receives VHF/UHF/FM signals from all directions, so you’ll never have to aim or adjust it! Built-in solid state amplifier boosts signals on average of 15dB on VHF, 20 dB on UHF. Power supply operates on 12 volt DC. 0 – 35 mile range.

83315 RoadStar HD Antenna

### HIDEAWAY® TV ANTENNA

The Hideaway bi-directional over-the-air antenna opens and closes like an umbrella; stores in weather-protected tube with rain cap when traveling. VHF/UHF/FM antenna receives signal in all directions without rotator. Includes 15’ 75 ohm cable with connectors and mounting hardware.

80005 Hideaway Antenna

### BI-DIRECTIONAL ANTENNA

Over-the-air HD TV antenna gives you better bi-directional reception than indoor antennas. Installs with a screwdriver. Lowers to the side of the RV when not in use. Includes hardware, mast and 15’ RG-59 cox. 0 – 20 mile range.

80003 TV Antenna

85414 Sensar III Antenna without Power Supply #RV-7095 1
88280 Leveling Mount (to replace a broken mount on old-style head) #RP-2000 6

WINEGARD ANTENNA TOOL

Antenna tool features a long shaft for tightening 15/16 gear housing nut for Sensar and crank-up RV satellite systems.

82263 Antenna Tool #TT-1000* 6

ELEVATING SHAFT REPLACEMENT

Elevating shaft replacement for RM crank-up models. Includes 14" elevating shaft, plastic plug, O-ring, spacer and spring. Instructions included.

80362 Elevating Shaft Replacement #RP-4400 12

ROCKER SWITCH REPLACEMENT

Rocker switch replacement for automatic satellite systems.

80364 Rocker Switch Replacement #RP-RT01 1

NEW!

CARRYOUT POWER PIGTAIL REPLACEMENT

12 VDC power pigtail internal jumper and screws. Instructions included.

80363 Carryout Power Pigtail Replacement #RP-GM12 1

NEW!

CABLE ENTRY PLATE

Molded plastic plate for weatherproof entry of multi-conductor cable. Use for dual coax systems.

80489 Cable Entry Plate #CE-2000 24

NEW!

REPLACEMENT TURRET ASSEMBLY

Replacement turret assembly for RM crank-up models with hardware, worm gear assembly, azimuth handle and extension. Instructions included.

80366 Replacement Turret Assembly #RP-RM46 1

NEW!

POWER RECEPTACLES

Twelve volt DC power supply for RoadStar or Sensar antennas in a flush mount wall plate. Includes on/off switch with LED, +12 VDC receptacle, input for cable or TV antenna, built-in splitter for second TV and second F-jack for an outside TV source such as cable.

Power Supply with Cable Outlet:
87362 Ivory #RV-7012 6
80501 NEW! Brown #RV-7032 6
89514 White #RV-7042 6

NEW!

CABLE BOOT

Only needed on Sensar I & II.

85162 Cable Boot #RP-0154 12

WINEGARD DUPLEX RECEPTACLE COVER

Weatherproof duplex electrical outlet cover to be used with any standard 117V duplex outlet.

14614 Cover, Ivory #WB-1110

SATELLITE RV RECEPTACLE

Single outdoor receptacle for 75 ohm coaxial cable satellite input. Features a thick gasket of closed cell neoprene which compresses to seal against most textured surfaces.

Molded of tough Noryl® material. Stainless steel hardware helps prevent breakage and corrosion. S. steel mounting screws included.

82163 Single Satellite Receptacle, White #WA-1024

WINEGARD TV ANTENNAS

HIDEAWAY TV ANTENNA HA-0130

UHF/VHF/FM travel antenna picks up stations in all directions without rotor. Opens and closes like an umbrella, stores inside weatherproof tube for travel. Ideal for RVs, boats, mobile homes. Includes weatherproof housing with rain cap, shielded antenna cable with connectors, back-of-set UHF/VHF band separator, and hardware.

80005 Hideaway Antenna #HA-0130

WINEGARD DUAL ELECTRONICS AM/FM ANTENNA - FLEXIBLE MAST

These Dual AM/FM antennas offer a flexible mast for durability, 180° swivel base for increased mounting options, and a 52” cable.

• Angled mounting options allow you to install the antenna in the most convenient locations.
• Corrosion resistant for the marine environment.

Antenna, Flexible mast:
15333 Black #MAR16B
15335 White #MAR16W

WINEGARD ROOF WEDGE

Leaving mounting kit, for use on slanted roofs.

Provides a level surface for proper installation of RD-4610 manual system & Sensar® RV antennas.

80416 Roof Wedge #RW-2000

DUAL ELECTRONICS AM/FM ANTENNA - FLEXIBLE WIRE

This Dual AM/FM antenna includes a 40" long flexible wire with plug.

15336 Antenna, Black #MAW40

RV DESIGNER TV HOOK-UP KIT

Includes exterior jack, interior wall plate and 6' hook-up cable. Gold connectors for high quality signal. Pk/1 set.

84637 White #T201

RV DESIGNER INTERIOR TV-HOOK UP CABLE

6' cable with screw-on connectors for permanent TV/video hook ups. Gold connectors for high quality signal. Pk/1.

Grade RG59 Cable:
84628 6' #T173

Satellite Grade RG6 TV Cable:
85324 6' #T273

REPLACEMENT PART FOR BRAUND ANTENNAS

WORM AND WORM GEAR KIT

Replacement gear set for Skyliner, Starliner, and Galaxy Antennas. Will not fit the Concord.

84657 Worm and Worm Gear Kit #11901
**RV DESIGNER FLAT CABLE HOOK-UP**

Use flat cable through window sill, door jamb, for fast and easy installation of your satellite or cable TV hook-up. No more drilling! 8” long.

- **85322** Flat TV Cable #T265 1

**RV DESIGNER CABLE SPLICE**

Join 2 TV/video cables for longer length. Gold for high quality signal. Pk/1.

- **84632** Cable Splice #T187 1

**RV DESIGNER CABLE CONVERTER – TWIST ON TO PUSH ON**

Converts screw on connectors to push on for easy connect/disconnect. No tools required. Gold for high quality signal. Pk/2.

- **84629** Cable Converter #T181 1

**WINEGARD CONNECTORS**

**COAX CONNECTORS**

- **88993** Bag/12 F-59 Coax Connectors #FC-5910 12
- **80012** Cable Adapter #FS-8100 18

**RG-6 COAX CONNECTORS**

Used with RG-6 coax cable in satellite installations. RG-6 cable is slightly thicker than the standard RG-59, so it requires these connectors.

- **84661** Package of 2 RG-6 Connectors #FC-5602 12

**JR PRODUCTS INTERIOR TV CABLES**

- **6’ RG59 INTERIOR TV CABLE**
  
  Comes with push-on connections for easier installation and removal. Not recommended for HD/Satellite TV installations.
  
  - **45245** 6’ RG59 Interior Cable, Packaged #47405 1

- **6’ RG6 INTERIOR HD/SATELLITE CABLE**
  
  Screw on application with F-Style connections. Complete with weatherproof boots installed.
  
  - **45246** 6’ RG6 Interior Cable, Packaged #47425 18

**JR PRODUCTS FLAT COAX CABLE**

This unit is used to make interior/exterior connections without drilling an access hole or installing a permanent exterior plate. Simply place through any door or window and make the needed connections. This unit is not recommended for HD/Satellite use.

- **45247** Flat Coax Cable #47435 24
TV & PHONE ACCESSORIES

WINEGARD
82-CHANNEL TWO-WAY SPLITTER
Two-way line splitter in cast metal housing with ground connection. For coupling or dividing signals on 75 ohm coaxial line. May be mounted outside when boots are used over connectors. All connections are “F” type suitable.
80008 2-Way Splitter #SP-1002 1

JR PRODUCTS
TV/CABLE CONNECTORS

TV CABLE CONVERTER
This converter fits any F-Style coax end and makes the coax a push-on style connection. Not recommended for HD/Satellite connections.
45235 Cable Converter, Pk/2 #47245 24

TV CABLE SPLICE
Used to connect additional coax cable together.
45237 TV Cable Splice, Packaged #47265 24

TWIST-ON COAX END
Easy installation for quick repairs. Installs by stripping the coax outside covering and inside wire coating. Not recommended for HD/Satellite installations.
45236 RG59 Coax End, Pk/2 #47255 24
45238 RG6 Twist-On Coax Cable End, Packaged #47275 24

HD/SATELLITE COMPRESSION FITTING
This is a professional installation compression fitting. Completely weatherproof and recommended for use on HD/Satellite installations. Use of a professional JR Products compression tool is needed for installation (Mfr#47201).
45239 RG59 Fitting, Pk/2 #47285 24
45240 RG6 Fitting, Pk/2 #47295 24

4-WAY: Digital, Satellite grade.

85723 4-Way TV Line Splitter, Digital, Clamshell Pack #T195

WINEGARD ROOF-THRU-PLATE

Roof-through plate for RVs. Allows weatherproof entry of coaxial cable. Has 75-ohm “F” connector on each side.

80492 Roof Plate Jack #RJ-1010

RV DESIGNER WEATHERPROOF TV JACK

Use for outdoor cable TV connection. Flip-up cover protects connector from water, etc. Gold connector for high quality signal. 2" x 2". Screws included.

84620 White, Pk/1 #T114

WINEGARD WIRELESS
tv OUTDOOR RECEPTACLES

Outdoor receptacles for all RVs where TV, telephone and other appliances will be used outside the vehicle. Outlet covers feature a thick gasket of closed cell neoprene which compresses to seal against most textured surfaces. Molded of tough Noryl® material, equipped with stainless steel hardware to prevent breakage and corrosion. Stainless steel mounting screws included.

CABLE/TV RECEPTACLE

Cable/TV receptacle with two F-jacks for 75 ohm coaxial cable on TV output and cable input. Uses standard coax connectors.

82164 Cable /TV Receptacle, Ivory #WA-1110

TELEPHONE/TV RECEPTACLE

Receptacle with one F-jack and one modular telephone plug. F-jack accepts standard coax connectors; telephone jack has modular output and crew connections on input.

TV/Telephone Receptacle:

82165 White #WT-1120
86733 Ivory #WT-1110

POWER SUPPLY WITH CABLE TV OUTLET for Winegard Antennas

12VDC on/off power supply switch in flush mount wall plate with 2-way splitter, 75 ohm coax cable connection, on/off indicator light and a 12VDC receptacle. Includes 75 ohm input jack for an outside TV signal. Wall plate and power supply are designed as a 1-piece molded unit, and for added protection, feature a fused, printed circuit board.

Power Supply with Cable Outlet:

87362 Ivory #RV-7012
89514 White #RV-7042

WINEGARD TV ANTENNA/ SATELLITE WALL PLATE POWER SUPPLY

Combination TV antenna/satellite wall plate power supply with cable input jack and built-in two set splitter. Equipped for input of satellite signal from external jack. White only. 1 per pack.

82266 Combination TV/Satellite Wall Plate, White #RV-7542

WINEGARD COAX-TYPE 12V TV OUTLET

Combination coaxial TV and convenient 12-V outlet. Fits standard electrical box or mounts directly on wall (if code permits). Ivory.

80047 12-V TV Outlet #TG-7321

JR PRODUCTS PLATES

CABLE/CABLE PLATE

Dual cable TV plugs. Flush mounted panel built of durable plastic that resists rust, UV and discoloring. One piece unit with cable plug covers built in makes this the perfect addition for use where satellite and cable TV are available.

27804 Cable/Cable Plate, Polar White, Pkg. #543-B-2-A

PHONE/CABLE PLATE

One piece phone/cable plate is constructed of durable plastic that won’t rust, fade or discolor. Access covers are constructed as part of the plate. Easy installation or replacement anywhere a cable TV and phone hook up is needed.

27803 Phone/Cable Plate, Polar White, Pkg. #543-A-2-A

**NEW! 17535 AM/FM/DVD/iPod Ready, Stereo, Black #AWM975**

JENSEN LCD TV’s MADE FOR RV’S
Enjoy your favorite TV shows or movies in dazzling picture clarity and superior sound quality on the only LCD TVs designed specifically for RV use. Built to withstand rugged road conditions, extreme temperatures, vibrations and voltage variations. The subframe consists of a reinforced internal structure and integrated mounting points. Single-piece metal chassis houses all internal components and does not rely on the plastic cosmetic cabinet as a mounting point, offering increased strength and stability for mobile environments.
