

## HUSKY Quest® Proportional Brake Control

### Advanced Proportional Controller Mirrors the Braking Action of the Tow Vehicle.

The easy to use Husky Quest requires no leveling and is packed with features to provide the ultimate ease in setting and adjusting for safe, smooth stops. **Features:** • Fully Digital settings for power level (gain) and sensitivity (response) makes this the easiest brake control to set and the most repeatable in use after use.

- On the fly sensitivity adjustment; 5 preset options for optimal control from the touch of a button.
- Easiest to adjust settings for full and empty loads time and again.
- Easy to read digital power scale from 5-to-99.
- Advanced inertial accelerometer instantly activates brakes.
- Advanced proportional controller mirrors braking action of the tow vehicle.
- No pendulum, no problem!
- Flexible mounting options.
- 8-brake capacity.
- Innovative vertical slide is easier to see and use than traditional horizontal slides.
- Short-proof protected.
- Lifetime Warranty.

Use appropriate wiring harness for quick brake control installation.

**BEST  
VALUE**

Quest Brake Control with Connector	31899	

## HUSKY Escort® Digital Time-Ramp Trailer Brake Control

The Husky Escort Digital Brake Control has a large digital read-out, and an easy-to-set, easy-to-adjust power setting. The Escort Digital also has an innovate vertical slide for manual braking. The display indicates the exact braking force as a percentage of full power. Its Plug-In Simple connector allows for instant connects and disconnects to your factory tow package with the use of the appropriate custom wiring harness (not included; see the Custom Wiring Harness page). You can mount the Escort Digital in any position vertically or horizontally. The Escort Digital has a 6-brake capacity, and is short-proof protected. It activates the tow vehicle brake pedal. Limited lifetime warranty. Use appropriate wiring harness for quick brake control installation.

31689

Note: 2007 to present GMC / Chevy Vehicle applications do not provide a factory connector and the brake control must be hard wired to the vehicle pigtail located under the dash. This can be accomplished by removing the connector that is furnished with the brake control and butt connecting the 4 bare wires of the Brake Control to the bare wires on the vehicle pigtail.

## HUSKY Ascent Flexible Mount Proportional Trailer Brake Control

The revolutionary Husky Ascent features flexible mounting, so you can put your brake control components where you want them. The Heads Up Display can be dash mounted, rear view mirror mounted, or wherever it's convenient for you. The separate control can be placed in a handy location within easy reach. And the Ascent's Brain mounts completely out of sight. All three components simply plug in together for the ultimate in flexibility and safety. The Ascent keeps your eyes on the road and controls within reach. Advanced proportional technology gives you ultimate control over your towing experience by mirroring the braking of the tow vehicle. The Ascent's 8 brake capacity means you get short proof protection for up to 8 trailer brakes. Plus you get on-the-fly sensitivity adjustment with 7 settings for different loads and driving conditions. The Husky Ascent is also electric over hydraulic compatible, so it works with electric over hydraulic trailer brakes. Lifetime warranty.

Description	Part #
Ascent Brake Control with Connector	31624

**PROBLEM:** Truck interiors are more "car-like" making brake control installations more difficult. Drivers have to take their eyes off the road to find/read their controller. This is because the brake control display, controls and brain center are all located in a hard to see and reach area. But who says you have to have all 3 components in one box?

**SOLUTION:** The Husky Ascent has components that can be mounted where the driver really wants them with the flexible mounting innovation. The Heads Up Display helps keep your eyes on the road. The adjustment control is within easy reach. And you don't even see the Ascent's Brain of the system, because it can mount out of sight.

Display mounting options

Control mounting options

Multiple mounting possibilities for any make/model for added safety and convenience

### ASCENT BRAIN

- Inertia activation
- Dual-axis accelerometer braking application, proportional/progressive
- Provides braking even while in reverse
- 8 brakes/4 axles brake capacity
- Flexible mounting capability; can attach to multiple surfaces.
- 360° vertical mounting range
- 10° horizontal mounting range
- Includes quick connect plug
- Small profile mounts under dash

### ASCENT MANUAL BRAKE MECHANISM

- Slide activates brake lights
- Manual slide works with either right or left hand Nite-Glow/backlit slide, separate from the brain.
- 100% power on activation

### ASCENT HEADS UP DISPLAY

- 2 digit LED braking display is small, sleek, and elegant
- Mounts separate of the Brain
- Wires route up to corner of a pillar, so display is at the dash level
- Makes it easier to see without looking toward your knee
- Wires can be hidden from view
- Display is adjustable; orient it based on the vehicle and your height

## HUSKY 7-Way Trailer End Wiring Kits

Complete 7-way trailer end wiring kits to wire a trailer. Made from heavy duty rubber, kits come in 8' and 12' lengths to accommodate all trailer lengths. Complete kit saves time and money on installation. Primary wire gauges are 10-gauge (black, white), 12-gauge (blue), 14-gauge (brown, red, green, yellow). 7-way trailer connector fits with thermo-plastic or metal 7-way car end connectors.

Description	Part #
7-Way Female Connector with 8' Cable, Red Cover	19356
7-Way Female Connector with 12' Cable, Red Cover	19430

## HUSKY Coiled Wiring Harness with Connectors

Provides convenient electrical connection between motorhome and towed vehicle. Cable expands to over 8'. Vinyl coated cable is chemical resistant and waterproof. • The 4-wire cable has four 16-ga. wires; the 6-wire cable has four 16-ga. and two 14-ga. wires. • Includes both car end connectors and mounting brackets.

Towing Cable Kit, 1/Car	Part #
4-Way Coiled	13220
4-Way Straight	13492
6-Way Coiled	13221
6-Way Straight	13491

## JR PRODUCTS DELUXE CONNECTOR CLEANER

The easy to grip wood handle makes cleaning of most molded connectors effortless. High carbon bristles. Will not rust.

## POLLAK U.S. CAR 7-WAY CONNECTOR KIT

Includes **11775** Socket and Bracket, Interlocking Connector. With 0.5" convoluted tubing and RV standard color coded leads. Forms a weather tight, non-corrosive assembly. For new installation, replacement of aftermarket or OEM's. With all hardware and installation instructions.

**11771** With 48" Harness #11-898 10

## POLLAK SEALED 7-WAY TWIST & LOCK RV CONNECTOR SOCKET

- Easy to install with a twist and lock assembly on factory installed brackets and hitches.
- Solves corrosion problems and eliminates rusting.
- Features high-impact nylon shell, stainless steel spring and rubber gasket to guarantee against moisture intrusion when closed.
- Socket lid also has a drain slot and is angled down for drainage.
- Wiring diagram on lid facilitates installation.
- Fits GM style and various Nissan models.

**16865** RV OEM Style, 7-Way Socket #11-916P (PACKAGED) 1

## OPTRONICS TRUNK & TRAILER CONNECTORS

Trailer connectors, trunk connectors and harness extensions with trailer connector on one end and trunk connector on opposite end.

**11983** 4-Way to Bare Wire, 48" Length, Clam pack #A-48TC 12

**12046** 5-Way to Bare Wire, 48" Length, Clam pack #A-485TC 12

## HUSKY MAG-FLAT MAGNETIC BRACKET

Keeps 4-wire flat out of harm's way. Attaches to any metal surface.

**15179** Mag-Flat Magnetic Bracket #178-38095 10

## 4-WAY TRUNK/ TRAILER KIT

4-pole flat type connector with leads. Molded, polarized plugs and color coded wires.

Molded 4-Way Trailer Harness:

**11260** <sup>LS</sup> 5' Loop #B6004F PKG/1 25

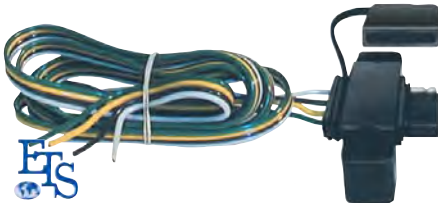

**11676** 24' Loop, includes 8 wire connectors #2506F 6

## THE BEST CONNECTION LIGHT CONNECTING KIT

Replace present stop and tail-light bulb in vehicle with this light connector kit. No splicing necessary.

**11514** Light Connect Kit #2560F 6

## ETS HEAVY DUTY VEHICLE 4-WAY FLAT CONNECTOR/BACKET/CAP

One piece molded vehicle 60" 4-way connector, bracket and weather cap is easily mounted under hitch crossbar or bumper and includes hardware kit and instructions.

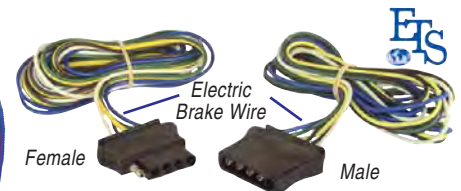

**17861** 4-Way Flat with Bracket, Packaged #CB-1860-HK 1

## ETS MOLDED CONNECTORS

Flat Type Connector with 12" Loop, Bulk

**10200** <sup>LS</sup> 3-Pole #1203 BULK 25

## ETS HEAVY DUTY 5-WAY FLAT VEHICLE/TRAILER CONNECTOR

Heavy duty 5-way flat vehicle/trailer connectors with 60" 16-gauge bonded SAE color coded wire featuring electric brake circuit blue wire for newer trailer applications.

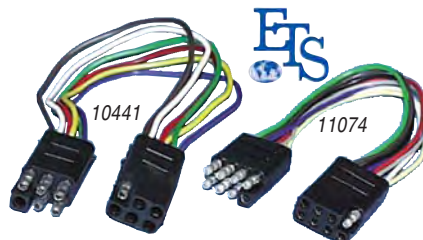

**12205** Trailer End #H6005F-MB 25

**12206** Car End #H6005F-FB 1

## ETS 4-WAY CIRCUIT TESTER, LED

4-way flat male connector circuit tester plugs into vehicle female end connector indicating whether wiring is properly operating through LEDs. The circuit tester can also verify correct installation of vehicle tail lighting converter applications.

**16413** <sup>LS</sup> Tester only #BCT4F-M PKG/1 25

Square Type Connector with 12" Loop, Bagged:

**10685** 6-Pole #B1206 PKG/1 25

## HUSKY Adapter: Multi-Tow™ 7:4

Provides 7-way RV blade or 4-wire flat towing, both from one location. Weatherproof design. Plugs into a 4-wire flat on the tow vehicle. Mounting bracket and hardware included.

Description	Part #
Multi-Tow 7:4	<b>13165</b>

## HUSKY Adapter: 7 RV to 6 & 4 Multi-Tow™

7-way RV blade to BOTH 6-round and 4-wire flat adapter with dust cover. On 13176, the center pin is auxiliary, and the universal center pin can be switched to electric brake. On 13177, the center pin is for the electric brake, and the universal center pin can be switched to auxiliary.

7-Way RV Blade to 6 Round & 4 Flat Adapter	Part #	
Center Pin Auxiliary	13176	
Center Pin Electric Brake	13177	

## HUSKY Adapter: 7 RV to 6 & 4 Multi-Tow™ with Nite-Glow

Plug-In Simple!® Adapter, 7 RV blade to 6-pole round and 4-wire flat. Center pin auxiliary on 6-pole round. Switchable to electric brake. Adapts to tow multiple trailers. Glows upon taillight activation. Helps find your connection in the dark

7-Way RV Blade to 6 Round & 4 Flat Adapter	Part #	
Multi-Tow Adapter, 7 RV to 6 Round and 4 Wire Flat with Nite Glow	15326	

## HUSKY Flex-Coil™ & LED Adapters with Nite-Glow™

Flex-Coil Adapters provide the user with increased durability and additional length that may be necessary to reach the tow vehicle's socket and the trailer/towed vehicle's plug. In addition, Flex-Coil adapters with Nite-Glow™ illuminate upon activation of the taillight function. This enable the user to find the electrical connection in the dark and show that the vehicle's trailer wiring system is functioning properly.

Description	Part #	
<b>Flex-Coil Adapter with Nite-Glow</b>		
• 3 ft. stretch. • Increased weather proofing. • Tin plated terminals. • Easy grip connectors. • Heavy-duty cable.		
7-Way RV Blade to 4-Wire Flat Nite-Glow	15181	

### Husky Flex-Coil™ Adapters with Nite-Glow™

- Nite-Glow™ illuminates on taillight function verifying continuity.
- Stretches to 8 feet. • Easy-grip, heavy-duty connectors with heavy-duty cable.

optronics

## OPTRONICS 5-7 WAY ADAPTER

Converts tow vehicle 7-way round blade connector to 5-way flat pin connector.

**12149** 5-Flat to 7-Round Adapter Wired, Clam pack #A-57WH 6

## HUSKY Plug-In Solution LED Adapters

Husky's L.E.D. vehicle-to-trailer adapter series incorporates built-in trouble-shooting. If the trailer lights are not functioning correctly, you can isolate the problem by simply looking at the adapter. If the lights on the adapter are functioning, it's a trailer-side problem. If the lights are not functioning, the problem is with the vehicle.

Description	Part #
<b>LED Adapter</b>	
7-Way RV Blade to 4-Wire Flat (Includes function testing LED's!)	15174

## HUSKY Plug-In Solution 4-Wire Flat to 5-Wire Flat Adapter

Adapts vehicles with 4-wire flat to trailers with surge brakes and/or 5-wire flat connection.

Description	Part #
4-Wire Flat to 5-Wire Flat	15175

## HUSKY Connector Adapters

Take the guesswork and frustration out of vehicle-to-trailer wiring with Husky Connector Adapters.

## HUSKY Plug-In Fifth Wheel Wiring Harness

Quickly wire your fifth wheel trailer with the Husky Plug-In Fifth Wheel Wiring Harness. The modular system plugs together to accommodate most vehicle and trailer combinations. It's easy: just select the correct wiring kit, locate the factory OEM tail-light wiring harness on the tow vehicle, unplug the wiring harness and simply plug in the Husky connector. This unit will be pre-wired to provide Right Turn, Left Turn, and Tail-Light function. 10' L wire for fifth wheel installations for all wires; includes 12 gauge wires for electric brakes and auxiliary power lead.

Description	Part #
<b>5th Wheel Wiring Harness</b> Fits Chevy/GMC Pickup 1500, 2500/3500 00-11 w/Tow Pkg	<b>13100</b>

**NEW!**

## Husky Harness Adapter: Dodge / Chrysler / Jeep OEM Quick-Install™ Wiring Kit

- Allows for Dodge trucks to adapt to the Quick-Install™ 7 RV Blade.
- Reinforced lid opens 180 degrees to prevent breaking.
- Ultimate weatherproofing.

## TOWDADDY™ WIRING HARNESSES

TowDaddy™ Wiring Harnesses help quickly wire your towed vehicle for towing. They connect both tail and brake lights in addition to amber turn signals (unlike most other methods) keeping your towed vehicle legal. They eliminate the need to install or replace additional lightbulbs. They also eliminate the need for a brake light relay kit or a "stop switch" kit. Your car is also "prewired" for a supplemental brake system. OEM kits come with vehicle specific connectors. The universal kit fits all vehicles, but requires some connections.

Check [www.towdaddy.com](http://www.towdaddy.com) for new applications.

## HUSKY FIFTH WHEEL HARNESSES

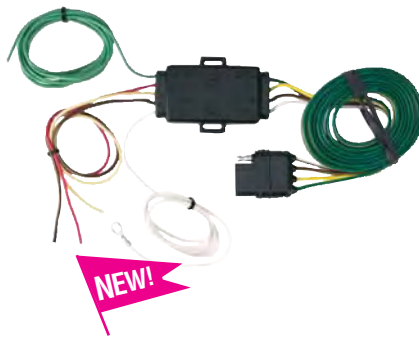

Easily route towing electrical functions into the truck bed while retaining electrical functions at the rear of the vehicle.

## Husky Fifth Wheel Harnesses

Easily route towing electrical functions into the truck bed for 5th wheel trailers, while retaining electrical functions at the rear of the vehicle.

Description	Part #
Chev/GMC/Ford/Dodge/Nissan/Toyota 1500 / 2500 / 3500 Pickups 2000-12; F-150 / 250 / 350 2008-12; Ram 1500 (w/ tow package) 2010-12; Ram 2500 / 3500 (w/ tow package) 2010; Titan 2004-12; Tundra (w/ tow package) 2010-12.	30342
Dodge Ram 1500/2500/3500 2000-2009 (with factory r RV Blade).	30345
Chevy/GMC/Ford/Dodge/Nissan/Toyota 1500 / 2500 / 3500 Pickups 2000-11; F-150 / 250 / 350 2008-12; Ram 1500 (w/ factory 7 RV Blade) 2010-11; Titan 2004-10; Tundra (w/ tow package) 2010-11.	30392

## Husky LED Compatible Taillight Converter

- 72" length.
- Electronic Taillight Converter adapts tow vehicles taillight system to the trailer's.
- Powers up to 2.1 amps per output.
- Double-molded weatherproof design, includes dust cover.
- Converter mounts in trunk out of harm's way.
- Corrosion resistant terminals.
- Compatible with LED lights on vehicle.

Description	Part #
Husky LED Compatible Taillight Converter	30428

## HUSKY Power Tail-Light Converters

These units completely isolate the tow vehicle from trailer malfunctions. Power is taken directly from the battery for isolation and brighter trailer tail-lights. Each unit can power up to 3 sets of stop/turn signals (8.0 amps) on the trailer. For vehicles equipped with independent bulb turn signals and brake lights or common bulb systems.

Description	Part #
<b>HUSKY POWER TAIL-LIGHT CONVERTER (RELAY SYSTEM)</b>	
Provides isolation needed to bypass sensitive vehicle electronics. Can power up to 8.0 amps per output.	
Power Tail-Light Converter	13162
<b>HUSKY SHORT-PROOF POWER TAIL-LIGHT CONVERTER</b>	
Recommended universal converter application. Short circuit protected. Can power up to 8.0 amps per output. Protects tow vehicle electronics and itself from wiring shorts. Self-resetting.	
Short-Proof Converter	13163

## HUSKY Electronic Tail-Light Converters

Electronic tail-light converters adapt an independent bulb tail-light system of the tow vehicle to the common bulb tail-light system of the trailer. Each unit can power 2.1 amps per stop/turn signal.

Description	Part #
<b>HUSKY TAIL-LIGHT CONVERTER, 48"</b>	
Recommended for repairing damaged tail-light converter.	
48" Converter	<b>13186</b>
<b>HUSKY VEHICLE TOWING VEHICLE TAIL-LIGHT ISOLATING KIT</b>	
Permanently installs on towed vehicle near tail-lights.	
Tail-Light Converter/Isolator, 23' L	<b>13189</b>

## HUSKY Premium Tail Light Isolators

Provides a safe and convenient way to use factory lights on towed vehicles while protecting sensitive electronics from voltage feedback.

- Permanently installs on tow vehicle, near tail lights.
- Heavy duty, 30-amp rating.
- Aluminum heat sink prevents diode failure caused by overheating.
- Easy installation: includes connectors and adhesive mounting pad.

Description	Part #
Husky Tail Light Isolator (Diode), 1/Card	<b>39869</b>
Husky Tail Light Isolators (Diodes), 2/Card	<b>39870</b>
Husky Tail Light Isolators (Diodes), 3/Card	<b>39871</b>
Husky Tail Light Isolators (Diodes), 25/Box	<b>39868</b>
<b>Premium Parking Light Isolator</b>	
Allows use of towed vehicle's lights. Prevents feedback between RV and car. If the towed vehicle's lights are turned on while still plugged into the motorhome, the motorhome will draw from the towed vehicle to supply power to all of the park lights. This will place a heavy load on the towed vehicle's wiring, and can result in severe electrical system damage. Using the Husky Parking Light Isolator will prevent this, while still allowing the motorhome to power the towed vehicle's park/tail lights. • Permanently installs on tow vehicle near tail lights. • Heavy duty, 30-amp rating. • Aluminum heat sink prevents diode failure caused by overheating. • Easy installation: includes connectors and adhesive mounting pad.	
Parking Light Diode, 1/Card	<b>39867</b>
<b>Tail Light Isolator Wiring Kit</b>	
Recommended installation kit for Husky Premium Taillight Isolators. • Use the towed vehicle's light system for towing. • Permanently installs on towed vehicle. • 26' of 16 gauge ribbon wire with 4-way flat connector. • Includes wire, connectors and installation hardware. <i>Diode kits sold separately.</i>	
Wiring Kit for Isolator, 1/Card	<b>13984</b>
<b>Tail Light Isolator Wiring Kit with Bulbs</b>	
Isolated, internal light system for towing. Eliminates cutting into factory wires. • Use this kit in place of tail light isolators. • Permanently installs on towed vehicle. • Fits most vehicles with clearance in taillight housing. • 26' of 16 gauge ribbon wire with 4-way flat connector. • Easy installation includes wires, connectors, bulbs, sockets, installation hardware and instructions.	
Tail Light Wiring Kit, 1/Card	<b>13985</b>
<b>Tow Bar Wire Harness</b>	
Recommended for all tow bars. 80" long with 4-pin flat connectors. • Permanently installs on tow bar. • Easy installation. • Includes wire ties.	
Tow Bar Wiring Harness, 1/Card	<b>13986</b>
<b>Tow Bar Wiring Kit</b>	
Recommended installation kit for Husky Premium Tail Light Isolators. • Permanently installs on towed vehicle. • Includes 26' of 16 gauge wire. • Easy installation includes, cables, connectors and installation hardware.	
Tow Bar Wiring Kit, 1/Card	<b>13987</b>
