## GOLD EAGLE MARINE FORMULA STA-BIL® FUEL STABILIZER

*Ethanol Treatment*

For everyday in-season protection & improved performance: use 1 oz. in 10 gallons.  
For seasonal storage & fuel system clean-up: 1 oz. in 5 gallons.

- America's #1 Selling Marine Fuel Additive Brand! • BEST Ethanol Problem Fighter.
- More than FOUR TIMES the Fuel System Cleaner than in Regular STA-BIL. • DOUBLE the corrosion preventer than in Regular STA-BIL.
- Prevents corrosion from moisture & ethanol-induced water attraction. • Improves marine engine performance YEAR-ROUND, not just for seasonal storage.

Uses in all 2 & 4 cycle marine engines; in gasoline, gasoline/oil mixtures and ethanol blends. Treat gas cans at each fill-up. Safe to use in all marine gas tanks, all inboard and outboard boat motors, onboard generators, and personal watercraft engines. Also safe to use in all cars, motorhomes, lawnmowers, tractors, snowmobiles, motorcycles, grass trimmers, and ALL outdoor power equipment.

### Makes Maintenance Easier! PROTECT-ALL RUBBER ROOF TREATMENT with UV BLOCKER

Rubber roof treatment with UV blocker protects rubber roofs from settling dust, airborne pollutants, and the harmful UV rays of the sun. Easily applied with a damp sponge mop. An application every 2 or 3 months helps reduce roof chalking that causes white powdery streaks on the rest of the vehicle. Creates a natural, anti-static finish on the roof surface that repels water, dirt and airborne particles. Makes future cleaning and treating of the surface quicker and easier.

## POWERHOUSE

## COLD WATER PRESSURE WASHERS

### POWERHOUSE PRESSURE WASHER FEATURES

**THERMAL RELIEF VALVE** — Protects the pump from damaging heat build up while it is in bypass mode. The thermal relief valve, sensing a rise in temperature opens and discharges a small amount of heated fluid. This allows cooler water to enter the system and cool the pump. When the gun is discharged the cooler water will cause the valve to close immediately. All POWERHOUSE pressure washer models have a thermal relief valve included to protect the pump.

**TRIPLEX PUMP** — Triplex pumps are positive-displacement reciprocating pumps that are configured with three plungers. Triplex pumps are used in applications that require continuous pumping. For example, a triplex pump is a common component in large-capacity commercial car wash equipment. The plunger pump design of a triplex pump offers a reinforced seal and uses ceramic plungers for tight alignment and long life in high-pressure applications. Our pumps use clean water only and no corrosives can be used in the injection system. Triplex pumps have a brass body which resists corrosion and scale buildup.

### EASY-FILL SYSTEM ANY ROOM MOISTURE ABSORBER

360° Venting for Superior Airflow  
Ergonomic Easy-Grip Design  
Stable Anti-tip base  
Safe locking lid

The DampRid Easy-Fill System Any Room Moisture Absorber is the convenient, safe and easy to use moisture absorber that works in any room or space in your home or office. It is the perfect size for bathrooms, laundry rooms, closets, bedrooms, storage spaces and more. With its attractive appearance it can be placed in view or it is small enough to put in a closet or on a shelf. The Easy-Fill System Moisture Absorber removes excess moisture from the air – reducing humidity to a level where mold and mildew can't grow. It eliminates musty odors creating fresher, healthier indoor air.

The Easy-Fill System Any Room Moisture Absorber has an upper chamber with 360° venting to create superior airflow around the moisture absorbing formula. The lid locks firmly, preventing small children and pet from getting into the formula. It has a wide sturdy base and will not easily tip over. The lower chamber has a unique spill-proof design to prevent leakage in the event the container is accidentally knocked over.

The Any Room System uses a convenient, disposable Easy-Fill Refill pack that drops into the container without you touching the formula. The product is environmentally safe, septic safe and will not reduce moisture to a level that could harm pets, furniture or household goods. The Easy-Fill System Any Room Moisture Absorber lasts up to 60 days in a 150 to 200 square foot space depending on temperature and conditions.
