

12 Volt
Eclipse™

Comfort and convenience with the push of a button

Quality • Value • Performance • Style

**Automatic rain dump • Retrofittable
Self leveling • Adjustable pitch**

The extraordinary 12 Volt Carefree Eclipse redefines power awning ease and convenience. Just push the button to extend the Eclipse to a full 8' extension. The Eclipse stays secure even when only partially extended. Push and hold the button to retract the Eclipse and it rolls up tight against the coach. There are no locks or latches. The motor itself locks the roller securely during travel for absolute protection against billowing.

The Eclipse features exclusive **Instant Pitch Adjustment**—Six pitch adjustment settings on each arm allow for more shade and rain release versatility. The arm design allows for the highest head clearance of any vertical arm awning. A rain-dump feature releases water on a flat-pitch canopy. The Eclipse automatically self-levels while retracting.

The Eclipse is unmatched in style, beauty, strength and selection. Requires a flat, unobstructed mounting area of 70 x 4.5 from the awning rail down.

Adjustable pitch Choose from six settings for maximum shade and rain release. The Eclipse has the highest head clearance of any vertical arm awning.

Self-leveling No need to level the awning before rolling it up, it rolls back to your last setting. The rain-dump feature releases water on a flat pitch canopy.

Retrofittable You can either buy the complete Eclipse awning or upgrade your existing Carefree or Dometic/A&E roller assembly. Just switch out the arm set!

Convenience options for your Eclipse

Direct Response™ Electronics

Innovative **Direct Response Electronics** includes the Motion Detection System and Easy-to-Use Controls. The system senses canopy movement and the Eclipse automatically retracts when it senses continuous movement. Choose from three sensitivity settings: Low, medium or high.

Eclipse Wireless Remote

Operate your Eclipse awning from almost anywhere around your campsite with push-button Remote Control convenience. NOTE: Your Eclipse must have **Direct Response Electronics** before purchasing the **Wireless Remote Control** option.

Powered awnings aren't just for the big rigs anymore!

12 Volt

Travel'r™

Ideal for motorhomes, 5th wheels and travel trailers. Easy, push-button operation.

Now available with adjustable pitch settings

Buy the Travel'r as a complete new awning OR upgrade your current manual Carefree or Dometic/A&E patio awning to push button operation.

Great looks and proven reliability:

Now your Travel Trailer or 5th Wheel can have the same ease and convenience as a big motorhome. The Travel'r incorporates some of the proven design features used on Carefree's popular 12V Eclipse at an economical price. It features integrated styling and mounts flush to the RV to help the arms blend into the sidewall for great looks. The truss-support design provides superior strength and maximum head clearance for easy access to your patio area. Like the Eclipse, the Travel'r features effortless operation and peace-of-mind that the awning won't billow.

Direct Response Electronics for Travel'r

Automatically retracts your awning when canopy movement exceeds the predetermined threshold, protecting your awning when you're not around.

Available in three models:

Flat pitch model is ideal for motorhomes and travel trailers with low awning rails or (if upgrading) patio awnings mounted over a slideout room. This model also incorporates Carefree's exclusive Rain-Dump feature that automatically releases pooled water. Requires a flat mounting area of 67 x 3.5 from awning rail down.

Steep pitch model is ideal for taller motorhomes and 5th wheels with high awning rails. A steep pitch provides more shade and a more compact arm length, perfect for mounting at the goose neck area of 5th wheels, where longer arms won't fit (for example, Eclipse and flat pitch/adjustable pitch Travel'r arm sets). With a steep pitch there's never a worry about water pooling on your canopy. Requires a flat mounting area of 59.5 x 3.5 from awning rail down, and 15" of door clearance.

Adjustable pitch model is ideal when you want the instant pitch adjustment not found on the flat pitch or steep pitch models. You decide which pitch is best for your needs at each campsite. Requires a flat mounting area of 67 x 3.5 from awning rail down.

See the following page for Eclipse & Travel'r part numbers and pricing ▶

CAREFREE'S UNIGUARD™

Give your coach a sleek, integrated look

Notice how the Uniguard on the Eclipse and Window Awning integrates with the SlideOut Kover III for a sleek, clean and finished look.

Uniguard is an upgrade option to Carefree's proven no-leak Alumaguard. It's designed to streamline and coordinate the look of Carefree's Eclipse, Travel'r, SideOut Kover III and SL Window Awnings. Uniguard works with all fabric styles and is a special order item.

Upgrade your current Carefree or Dometic/A&E patio awning to the 12V Eclipse or Travel'r

By upgrading your current patio awning you can save hundreds of dollars by keeping your existing awning roller tube and fabric. All you have to do is remove the springs and change out the arms!

To order your Eclipse or Travel'r Arm Set, skip the roller section below and find your part number in the box at the bottom of this page.

Both the Eclipse and the Travel'r feature integrated styling and mount flush to help the arms blend into the sidewall for great looks and smooth styling.

Vinyl Roller Assembly for 12V Eclipse™, 12V Travel'r™ or Pioneer™ Awnings (Order arm set separately.)

Quick, easy manual operation

Manual Operation

No springs or travel locks to unlock. Just crank it out.

Pioneer manual upgrade kit

Replace your springs and convert your existing Carefree Spirit, Fiesta or Simplicity awning to easy operation.

Billow Proof • No locks to fuss with • Crank mechanism ensures taut canopy
Single track slider • Simple operation • Light weight

Buy as a complete awning:

The Carefree Pioneer manual awning is the easiest full size patio awning to operate. No need to worry about unlocking travel locks or spring mechanisms with this awning. To open the Pioneer, simply turn the hand crank. Once it's fully open, slide the single track slider arm up to the roller and tighten the rafter knobs. Now you can raise the roller with the lift handles to any desired pitch. It's that simple.

For an exceptionally taut canopy, backwind the crank to make your canopy as tight as a drum. There's never a need to re-tension your canopy. In breezy conditions, the worm gear mechanism will not allow your roller to unwind. When finished using your awning, lower the roller tube, loosen the rafter knobs and slide the rafter arms to the closed position. Just turn the hand

crank in the opposite direction until the roller is tight against the coach and you're ready for travel. That's it. There's no locks or straps to fuss with to prevent billowing in transit. The crank assembly automatically locks the roller in place. Available in all fabric styles and colors including Carefree's patented no leak Alumaguard or Uniguard.

Or convert your existing Carefree awning . . .

Change your existing 1997 or newer Carefree Spirit, Fiesta or Simplicity patio awning to simple manual crank operation. If your current awning fabric and roller are in good condition, purchase the Pioneer Manual Upgrade Kit. Your springs will be replaced with the crank mechanism. The **87484** or **87525** conversion kit includes a telescoping crank handle. Available in white or black finish to match any arm color.

Simplicity Plus™

Quality • Value • Performance • Style

Economical strength and stability

Single Track Slider eliminates binding for smooth sliding action.

The Simplicity Plus roller is heavy-duty aluminum.

“Quick Snap” arm strap is an easy and effective arm lock.

Vinyl Awnings that are easy to set up and easy on the budget!

The **Simplicity Plus** is the perfect choice if you’ve just purchased a used RV (or if you’ve just purchased a new RV and budget is a concern). Nothing is spared on looks, strength or dependability. The Simplicity Plus is all you’ll ever need if you don’t mind giving up a few of the features and options you’ll find on premium awnings like the Spirit

FX or Fiesta. It features an extremely durable vinyl canopy with vinyl weatherguard, the strongest hardware arm channels available and a heavy-duty aluminum roll bar. Choose from satin or white universal arms. Solid, strong, attractive and durable—That’s Carefree’s Simplicity Plus.

Simplicity Plus™ Vinyl Roller Assembly (Order arm set separately).

Easy to set up and easy to store

You should insist on a Campout over any other bag awning . . .

The Campout stores in a durable vinyl bag and a hook and loop fastener strap holds the rolled up canopy securely in place inside the zippered bag. One person can set up the Campout, but it's easier with two.

No other bag awning has self-contained hardware or such a wide choice of sizes and colors.

Campout's easy set up – Self-storing arms and braces simply fold into the lead bar. Flip-lock levers make arm and brace adjustment quick and easy. Only the Campout Awning offers such ease of setup.

Campout's durable construction – Heavy-duty aluminum channels, sturdy hardware and rugged vinyl fabric make the Campout the strongest bag awning available.

Campout's best looks – The Campout is available in a wide range of vinyl colors to perfectly match your trailer! The storage bag is white.

Campout Add-A-Room™

Add-A-Rooms increase your living space and are perfect for picnics and relaxation. Made of the same durable vinyl material as the full-size rooms.

These rooms are reversible, so sewn-in privacy panels can be located inside or outside of the room. Includes storage bag.

12V Pop-Up Camper Lift™

Just flip the switch to operate

There's no effort required to raise your camper top! Built-in limit switches stop your camper top at the desired height and the winch stops in the closed travel position when you lower it. When lowering, you can stop the Camper Lift any time to tuck in the fabric.

The camper top will not drift up or down.

Easy DIY install. Simply change out your existing manual crank. * Uses the same bolt holes as your current lift mechanism and cables. Comes with a protective black cover.

Raise your camper top in less than a minute!

12V Pop-Up Camper Lift

Item	Part#	Price
12V Camper Lift	87432	

Replaces Dutton Laison Model 880 manual crank. Uses your existing crank and lift mechanism.

*Current application replaces the DL 880 manual winch used by many manufacturers today. See your dealer for details.

SideOut Kover III™

Quality • Value • Performance • Style

Operates automatically with your slideout

The SideOut Kover III with an aluminum cover to protect the fabric is shown top. The SOK III with wind deflector is shown below.

Notice how the SideOut Kover III slideout awning integrates with the patio and window awnings for a sleek, modern unified look.

Protect your investment by covering your slide-rooms with the SideOut Kover III. This slide-out awning is a step above the rest. It works automatically with your slideroom and helps protect it from damaging and unsightly leaves, debris and water. No other slideout product performs better. The concealed, built-in cradle support prevents the roller assembly from sagging to enhance the unified, sleek, modern look of your RV. All mounting screws are completely covered and concealed to finish off the

clean look. The roller tube, bracket assemblies, wind deflector and cover are all made of extruded aluminum for long lasting durability. The deflector and covered model are available in standard white, satin and black. White comes with matching white brackets and end caps while all other colors come with black. Deflector and optional cover prevent any billowing of fabric while traveling. Choose from any of Carefree's vinyl or acrylic fabrics styles and colors to perfectly match your RV.

SideOut Kover III & SideOut Kover III with Cover (Complete — Includes awning rail)

Includes roller assembly, wind deflector (or cover), mounting hardware & awning rail. Note: Actual length of SideOut Kover III (end cap to end cap) measures approx 5" longer than the fabric width.

Operates automatically with your slideout

SideOut Kover II & SideOut Kover II LTD (Complete)

- Built-in wind deflector prevents billowing of the canopy.**
- No additional anti-billow device to install or re-adjust.**
- Helps keep leaves, dirt & debris off of your slideout.**
- Keeps your slideroom cooler and cleaner.**

The SideOut Kover II is a great-looking, top-performing slideout cover. It installs into an awning rail mounted just above your slideout. A spring loaded roller mounts to the slideout so when your slideout moves, your SideOut Kover II unrolls. Accommodates extensions up to 42". Bracket assemblies are extruded aluminum finished in white. Endcaps and hardware are white. Includes all hardware. Fabric is heavy-duty white vinyl.

Tip: Under certain conditions, water may pool on top of any brand of extended slideout cover. If you retract your slideout in steps (stop & go), the roller can take up the fabric and dump most of the water.

The SideOut Kover II features a full length aluminum wind deflector that prevents any billowing while you are traveling without having to use locks.

42 inch extension. All standard canopies have white vinyl.			SideOut Kover II with Deflector Complete - Includes Roller, Wind Deflector, Awning Rail & White Hardware		SideOut Kover II LTD (Full Case) Complete - Includes Roller, Full Case, Rail & White Hardware (while supplies last)

SideOut Kover II LTD™

All the benefits of the SideOut Kover II plus a full case

The SideOut Kover II LTD features a full length case. You get all the benefits of the SideOut Kover II plus the added benefit of having the fabric covered while traveling. The LTD model is also a great match to patio and window awnings with white Alumaguard. Bracket assemblies are extruded aluminum finished in white. Endcaps and hardware are white. Fabric is heavy-duty white vinyl. *Available while supplies last.*

The SideOut Kover II LTD features a full-length aluminum case that covers and protects the fabric while you're traveling. Like the wind deflector model, it prevents billowing without having to use locks. The case model protects your canopy from any sticks or branches in tight campgrounds.

Slideout Cover™

Easy installation, easy on the wallet

Quality • Value • Performance • Style

Great design,
great looks

The Slideout Cover's mounting brackets feature holes that match up to competitive brands for easy replacement.

The Slideout Cover combines worry-free, dependable protection, easy installation, dependable performance and elegant styling all at an affordable price.

Automatically extends with your slideroom • Built-in automatic roller lock prevents billowing • Helps keep leaves, dirt & debris off of your slideout • Keeps your slideroom cooler and cleaner

The Slideout Cover is an economical slideout awning that automatically extends with the slideout room to provide shade and protection, without breaking the bank! There's no need for manual locks or wind deflectors: Carefree's exclusive roller lock prevents billowing while in transit. The lock automatically engages when the

room is closed and automatically unlocks when the room is deployed. The roller tube and mounting brackets are made of heavy-duty extruded aluminum for years of use and piece of mind while protecting your investment. The Slideout Cover is available in standard durable white vinyl and is finished with matching white mounting brackets and endcaps. A beautiful slideout awning at an economical price. The Slideout Cover is designed to fit rooms with box measurements from 42" to 196" lengths and up to a 42" extension in 8" increments. If replacing competitive brands, the hole-pattern of the mounting brackets match up, so you don't have to drill new holes. Order roller and hardware kit separately.

Slideout Cover Roller

Order brackets and hardware separately

42 inch extension. All standard canopies have white vinyl. NOTE: Actual length of Slideout Cover (endcap to endcap) measures approx 5" longer than the fabric width.			Slideout Cover Roller Includes roller & awning rail. Order brackets & hardware separately.

SunShades™

Beat the heat, keep the view

Sometimes rear windows heat up like an oven.

SunShades are the perfect solution for RVs that have a rear bedroom window that won't take a window awning because the ladder or other obstructions block the arms.

The FullView SunShade rolls up for sun and down for shade. Unlike window awnings, it shades and covers 100% of the glass on your window so no matter what angle the sun is at, your RV stays cooler. You block the heat and keep your view.

Stockable SunShades Black spring castings and 55 inch drop.

CAREFREE VACATION'R ROOM for all brands of traditional and Carefree 12V awnings

Light weight design in a high quality room!—This light weight room is specifically designed to fit the Carefree 12V Eclipse and Travel'r as well as all brands of traditional patio awnings. Set-up is fast and easy with this one piece complete room design (front and side panels are all one piece). There are no poles, rafters or permanent fasteners to attach to your coach. Water pooling is never an issue, the water dump feature works on Carefree 12V awnings. Features include multi-setting privacy panels, ground stakes, tall skirting for the open areas under the RV and a zippered tote style storage bag.

Vacation'r Room White only

Room Size	For Awning	Part#	Price
12'	12'-13'	87513	
14'	14'-15'	87514	
16'	16'-17'	87515	
18'	18'-19'	87516	
20'	20'-21'	87517	

The front panel zips to an insert that slides into the open slot of the roller tube.

Side panels attach to the awning rail slot without having to mount permanent brackets or fasteners.

Privacy panels secure at multiple settings with a simple toggle design, so you can control how much privacy you want.

The side panel attaches to the roller tube with strap and clip system. There's no need to drill or attach permanent fasteners.

CAREFREE STANDARD ADD-A-ROOM

Best built low-cost vinyl room on the market Outperforms all other low cost vinyl rooms. It's a great value in a quality room. **Features include:** Web reinforced grommets, nickel-plated twist fasteners to secure side panels and skirting, and a storage bag. It has slightly lighter weight vinyl fabric and zippers than the LTD room. **Sewn-in privacy panels** can be held down on windy or rainy days with hook and loop fasteners. The room is completely reversible, so the privacy panels can be on the inside for convenience or outside for best rain protection. **Three foot zippered door** can be located on either end of the front panel. **Sturdy side panel support rafters** with brackets provide a strong seal, because the room does not attach to the awning canopy. There's no flimsy crutch tips to dent or damage your coach. **Option:** The popular Snapless Side Panels Upgrade Kit ([85929](#)) is available for the Standard Add-A-Room. **Fits full-size roll-up awnings** Fits most straight-sided RVs with awning rail to ground dimensions of 92"-121" tall. Fits Carefree Spirit FX, Fiesta & Simplicity, or Dometic/A&E, Carter & Faulkner models.

Standard Add-A-Room Complete — Includes Front and Side Panels.
 • Fits full size awnings. RVs with awning rail to ground height of 92" - 121".

CAREFREE BREEZEWAY SCREEN ROOM

Don't need a room to sleep in? Do you just want to use your patio area for meals and relaxing without flies and mosquitoes? The Breezeway Screen Room is the perfect solution when night time privacy isn't an issue.
 • Heavy-duty screen fabric and zippers for years of use. • Sturdy side panel support rafters with brackets provide a better, stronger seal—the room does not attach to the awning canopy. • 3' zippered door can be located on either end of the front panel. • Grommets reinforced with webbing, nickel-plated twist fasteners to secure side panels and skirting. • Storage bag. • Tall 35" white vinyl skirting with sliding eyelets for flexible attachment to coach. **Option:** Popular Snapless Side Panels Upgrade Kit ([85929](#)) is available for the Breezeway Room. Fits most straight-sided RVs with awning rail to ground dimensions of 92"-125" tall. Fits Carefree Spirit, Fiesta, Simplicity or Dometic/A&E, Carter and Faulkner models.

Outback Awning™ & Room™ *Shade your cargo deck*

Quality • Value • Performance • Style

Expand & enhance ALL your usable space! Easy set-up
• Bimini top design • Sturdy

The **Outback Awning's** unique design allows you to open or close the cargo ramp without taking down the awning. The center bow reduces water pooling and keeps the awning taut.

Easy Set-Up: The canopy zips easily to the awning rail during set-up and the arms fold down and attach to the coach for travel. The Outback's heavy-duty cable leveling system* holds up to 1500 lbs! *Cables included with awning.

The Outback Awning's galvanized steel frame keeps the awning secure. The canopy is heavy-duty reinforced white vinyl. Optional checkered flag fabric for racing enthusiasts. Storage bag included.

Automatic Awning Support™

Works with all awning brands

Works automatically with your manual patio awning roller! Simply roll up your awning and the patented action receives the roller and gently supports it, eliminating all the weight and natural sag in the middle of the roller. Unroll your awning and the cradle releases the roller and pivots away from the canopy, ready to accept the roller again when you put the awning away.

The Automatic Awning Support is a standard feature of the Carefree Rafter VI, Rafter VI GS, Rafter VII and Rafter VII GS.

SunBlocker™ & SideBlocker™

Quality • Value • Performance • Style

**Shade the area under your awning with a 6' drop
Keeps you cool & comfortable • Cuts the sun's glare**

SideBlockers add all-around protection and daytime privacy

SideBlocker blocks the glaring sun from the front or rear opening of your awning.

Set-up is easy. The loop end fits over the small bracket by the awning rail, while

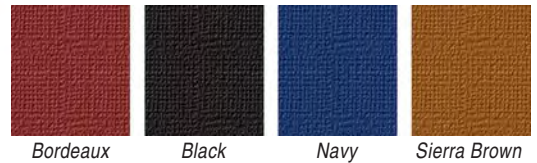

the other end secures to the roller tube. Stakes and cords included. Sets up on either end of your awning. **SideBlocker – One size fits all** on any conventional 8' projection awning. 6' drop.

Don't put up with the heat and glare of early morning or late afternoon sun. The SunBlocker's weather resistant open-weave fabric cuts almost 85% of the light to keep you cool and comfortable – but it doesn't block your view! Fabric construction is a woven 100% polyester with a durable vinyl coating. It slips quickly and easily into the open slot on most awning roller tubes. Stakes and cords included.

SunBlocker Sizes: 6' drop by 10', 15' & 17' lengths.

Designer Awning Mats™

**The strongest, most durable mats available
Dirt and water filters through • Hemmed all around**

The most rugged and beautiful mat on the market; colored vinyl strands and reinforcement fibers are loomed into a woven fabric, then compacted and bonded for exceptional strength and durability. They fold up small for storage. Constructed with reinforced brass grommets for staking mat to the ground.

Awning Mats™ – Designer Awning Mat *While supplies last*

Size	Bordeaux	Harbor Blue	Sierra Brown	Teal/Jade	Price
