THE ONE THING IT WON'T DO IS LET YOU DOWN.

You expect a lot from a pickup. Power. Strength. Hauling capacities. Advanced, yet reliable technologies. Durability. The list goes on. The longer your list, the more you'll find to appreciate about Silverado. It's the full-size pickup that delivers on your expectations again and again. Sure the credentials are impressive. The engine lineup includes a 403 horsepower Vortec™ 6.2L High Output V8. Towing capacities range all the way up to 4854 kg (10,700 lb.). Best-in-class V8 highway and city fuel efficiency for both 2WD and 4x4 models.* That's in addition to the most fuel efficient full-size pickup in Canada - Silverado Hybrid with its leading-edge Two-Mode Hybrid System.** Standard driver control technologies include the StabiliTrak® electronic stability control system. Refined cabs with a high level of

comfort, convenience and connectivity. And the backing of the best coverage in Canada.† Don't just expect more - get more, with Silverado 1500.

If you're looking for even greater power, strength and hauling capacities, take a look at Silverado 2500HD and 3500HD. Ask your dealer for the 2012 Silverado HD brochure and visit chevrolet.ca for more information.

*2012 Chevrolet Silverado, equipped with available Vortec™ 5.3L V8 engine and 6-speed automatic transmission, fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Competitive fuel consumption ratings based on WardsAuto.com 2011 Large Pickup segment and Natural Resources Canada's 2011 Fuel Consumption Guide. Your actual fuel consumption may vary. Excludes hybrids and other GM models.

**2012 Chevrolet Silverado Hybrid fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Competitive fuel consumption ratings based on WardsAuto.com 2011 Large Pickup segment and Natural Resources Canada's 2011 Fuel Consumption Guide. Your actual fuel consumption may vary. Excludes other GM models.

† Refer to page 26 for details.

Silverado 1500 Crew Cab LTZ 4x4 Short Box, shown in Silver Ice Metallic with available equipment.

WORKS HARD. WHILE YOU ENJOY SOME R&R.

Load up Silverado – it can handle it, with payload capacities that go up to 880 kg (1940 lb.). And with Silverado, it's not just how much it can carry, but also how easy it is to load, thanks to features like a low bed floor height and an available EZ Lift tailgate. Once you hit the road, the spacious Crew Cab offers up a different side of Silverado that rewards you every kilometre of the way. The best example is the LTZ Crew Cab, with its heated power 10-way front bucket seats and leather-appointed seat inserts, while cab temperature is maintained with an automatic dual-zone climate control system. And available power adjustable pedals make life easier for drivers of all different sizes. Capable, sure. Comfortable – absolutely. Enjoy some quality time – inside Silverado Crew Cab.

1. Silverado 1500 Crew Cab LTZ rear stadium-style 60/40 split folding seat, shown in Ebony.

2. Silverado 1500 Crew Cab LTZ front bucket seats with centre console, shown in Ebony with available equipment.

Silverado 1500 Extended Cab LT 4x4 Standard Box, shown in Blue Granite Metallic with available equipment.

IT'S ALL BUSINESS.

Silverado is engineered with an understanding of the way you use your truck. The purpose is clear: to help support your business on the road and off. That begins literally with the support of the three-piece modular frame. Another example of Silverado's functional engineering is the large rear doors on Extended Cabs. They open wide – 170 degrees to be precise, making it easier to get in and out. Other thoughtful features include rear seats that fold up to increase the cargo capacity inside the cab. Turn your attention to the pickup box and you'll

find a series of features that help you take full advantage of the loading capacity. The aptly named Work Truck models include an easily removable tailgate, four cargo tie-downs, stake pockets and two-tier loading capability. You can reconfigure the box into divided compartments. And you can add the available integrated Cargo Management System that employs sliding hooks mounted on the C-channel tracks on the sides and front of the box. Silverado – the pickup that knows its business.

1. With some extended cab pickups, entering the cab through the rear doors can be a bit of a squeeze. Not so with Silverado Extended Cabs. Their large doors swing 170 degrees – almost flush against the side of the pickup, making for surprisingly easy access.

2. Silverado Extended Cab LT interior, shown in Light Cashmere with available leather 40/20/40 split-bench front seat featuring a 9 L lockable under-seat storage space with a 12-volt power outlet, in addition to a 6 L fold-down armrest storage compartment.

Z71 PLUS PACKAGE

WHEN THE ROAD-LESS-TRAVELLED ISN'T LESS TRAVELLED ENOUGH.

Some people possess a hunger for adventure that just isn't fulfilled by highways and back roads. These true-blooded off-roaders believe that real travel begins where civilization ends. They know that not just any truck can handle the rough-and-tumble world beyond the pavement. For those people, there is no substitute for Silverado 1500 with the available Z71 Plus Package. Its rugged engineering features include Rancho® shocks, plus 18-in. bright machined aluminum wheels and terrain-grabbing

P265/65R18 On/Off Road tires. The Z71 Plus Package also has a look all its own with a body-coloured grille, complemented by a chrome mesh insert, chrome recovery hooks, plus body-coloured front lower fascia, door handles and exterior mirrors – and the true badge for off-roaders: Z71 decals. Even the cab receives a distinctive treatment with a Z71-exclusive instrument cluster and a bright sill plate. The Silverado Z71 – the exclusive territory occupied by serious off-roaders.

Silverado 1500 Extended Cab LTZ 4x4 Standard Box, shown in Victory Red with available Z71 Plus Package and other available equipment.

Silverado LT instrument panel, shown in Light Titanium with available equipment.

NOT JUST THE TECHNOLOGY YOU NEED – IT'S WHAT YOU WANT.

Silverado helps you get the most out of your truck with instrumentation that features a standard Driver Information Centre. It includes a series of service interval reminders that let you know when a particular system requires attention. You'll find features like the standard OnStar** system another source of useful information, thanks to its vehicle diagnostics feature that now enables you to access this data remotely through your iPhone® or Android™ device via RemoteLink™. Features like the available Bluetooth® hands-free phone connectivity and rear vision camera

add to the functionality. But Silverado is also dedicated to making your time spent in the cab enjoyable, not just productive. Music lovers can opt for the available Bose® premium sound system with a subwoofer – plus the incredible selection of programming through the available SiriusXM Satellite Radio™.** It's everything you want – from the truck you need.

* Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. .
 ** Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

Bluetooth® hands-free phone connectivity enables you to make, answer and end calls on compatible mobile phones, using available steering wheel-mounted controls. Standard on LTZ and Hybrid, available on WT and LT models.

† At time of printing, detailed map coverage is available for most major urban areas of the United States and certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is limited outside these areas.

1. A new navigation system with an AM/FM stereo features a large 178 mm (7-in.) full-colour touch-screen monitor. It includes an 80 GB hard drive with 50 GB reserved for media downloads. There's even a time-shifting feature that lets you pause the radio and restart for up to 20 minutes. The system also includes an enhanced DVD-based navigation system,† SiriusXM Satellite Radio™,**, a CD/DVD player, a USB port, the Bose® premium sound system and the rear vision camera. Available on Extended and Crew Cab LTZ models.
2. The available rear vision camera helps you see behind the truck, thanks to the camera positioned near the tailgate release handle. The image is displayed on the rear-view mirror or the available touch-screen navigation screen. In addition to the obvious safety benefits, the system helps when you're hooking up a trailer.
3. A USB port enables you to operate an MP3 player and access music on a flash drive – all using steering wheel-mounted controls. Standard on LTZ and Hybrid, available on LT models.

Silverado 1500 Crew Cab Short Box with XFE Fuel Economy Package, shown in Silver Ice Metallic. Silverado XFE features an aluminum block Vortec™ 5.3L V8, 6-speed automatic transmission, low-rolling resistance tires, aluminum wheels, soft tonneau cover and many other components designed to improve fuel efficiency.

XFE/HYBRID

HUNGRY FOR WORK. NOT THIRSTY.

Silverado has an unquestionable work ethic. But today, strength and power must be combined with fuel efficiency, since high fuel prices have a major impact on overall operating costs. And here, Silverado leaves other full-size pickups behind. In fact, Silverado XFE delivers the best V8 highway and city fuel efficiency among all full-size pickups.* That's thanks to a Vortec™ 5.3L V8 that features Active Fuel Management® and Variable Valve Timing (VVT). Other fuel-saving features include a six-speed automatic transmission with two overdrive gears, plus a 3.08:1 axle ratio and lower rolling resistance tires. Want to go even further on a tank of gas? Silverado Hybrid has the best overall fuel efficiency of any full-size pickup.** Its 10.1 L/100 km city fuel consumption rating

is a revelation for a pickup. It's all the result of one of the world's most advanced technologies – the Two-Mode Hybrid System. It can operate on a combination of Vortec™ 6.0L LIVC V8 VVT gasoline power and electric power generated by GM's Hybrid Propulsion System – or each on its own. Silverado – the pickup that fuels your work ethic.

*2012 Chevrolet Silverado, equipped with available Vortec™ 5.3L V8 engine and 6-speed automatic transmission, fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Competitive fuel consumption ratings based on WardsAuto.com 2011 Large Pickup segment and Natural Resources Canada's 2011 Fuel Consumption Guide. Your actual fuel consumption may vary. Excludes hybrids and other GM models.

**2012 Chevrolet Silverado Hybrid fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Competitive fuel consumption ratings based on WardsAuto.com 2011 Large Pickup segment and Natural Resources Canada's 2011 Fuel Consumption Guide. Your actual fuel consumption may vary. Excludes other GM models.

Silverado Hybrid Crew Cab 4x4 Short Box, shown in Silver Ice Metallic with available equipment.

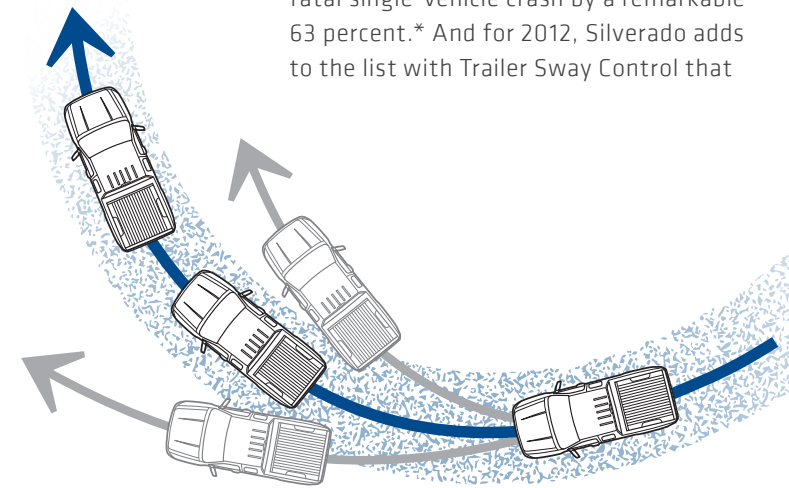

TAKE CONTROL – AND KEEP IT.

There's never such a thing as too much control. That's why Silverado continues to add new control technologies to give you even more assurance behind the wheel. The long list of integrated control technologies include StabiliTrak® with proactive roll avoidance that work with traction control, ABS, and Dynamic Rear Proportioning (DRP) to enhance driver control in a range of situations. Electronic stability control systems like StabiliTrak® are so effective, they have been proven to reduce the risk of a fatal single-vehicle crash by a remarkable 63 percent.* And for 2012, Silverado adds to the list with Trailer Sway Control that

intervenes when it detects your trailer beginning to sway – and new hill hold assist that makes it easier to get moving on an incline. Your peace of mind is further enhanced by the comprehensive occupant protection of the 360° safety system and the presence of the standard OnStar®** system that includes Automatic Crash Response. Maintain an even higher level of control – with Silverado.

*According to information published by the U.S. Department of Transportation's National Highway Traffic Safety Administration, July 2007.
 **Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. OnStar® acts as a link to existing emergency providers.

StabiliTrak® compares your steering input with the truck's actual track, intervening automatically whenever it detects a loss of lateral traction (sideslip), understeer (plowing) or oversteer (fishtailing). It helps return the truck to your intended line by incrementally applying an individual brake and if necessary, by reducing engine torque. Proactive Roll Avoidance is included, reducing the truck's tendency to roll over during emergency braking.

HEAD CURTAIN SIDE-IMPACT AIRBAGS WITH ROLLOVER SENSOR

Head curtain side-impact airbags[†] are standard on all models. They help reduce the risk of injuries to all outboard occupants in certain side impacts. When deployed in the unlikely event of a rollover, the airbags remain inflated for up to six seconds to help reduce the risk of ejection.

CAR COMPATIBILITY BRACKET

This horseshoe-shaped bracket is attached to the bottom of the front frame rail. It "grabs" the bumper of lower-profile vehicles, such as cars, reducing the risk of Silverado riding up onto the other vehicle in a collision.

PASSENGER SENSING SYSTEM

The Passenger Sensing System detects the weight of the passenger in the right front seat and automatically suppresses air bag deployment when appropriate.[†]

ULTRASONIC REAR PARKING ASSIST

When in reverse at low speeds, the available ultrasonic rear parking assist detects objects in your path up to 2.4 m (8 ft.) behind the vehicle, and activates audio warnings.

HILL HOLD ASSIST

The new standard hill hold assist feature holds the truck stationary for about a second after you release the brake on a five percent or greater incline, enabling you to begin to accelerate before the truck starts to roll backward.

TRAILER SWAY CONTROL

Silverado's standard StabiliTrak® system is integrated with the trailer sway control feature. When it detects your trailer beginning to sway, it automatically intervenes by applying individual brakes and reducing engine power.

† A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with airbags. Refer to the vehicle Owner's Manual and child safety seat instructions for more information. Airbag inflation can cause severe injury or death to anyone too close to the airbag when it deploys. Be sure every occupant is properly restrained.

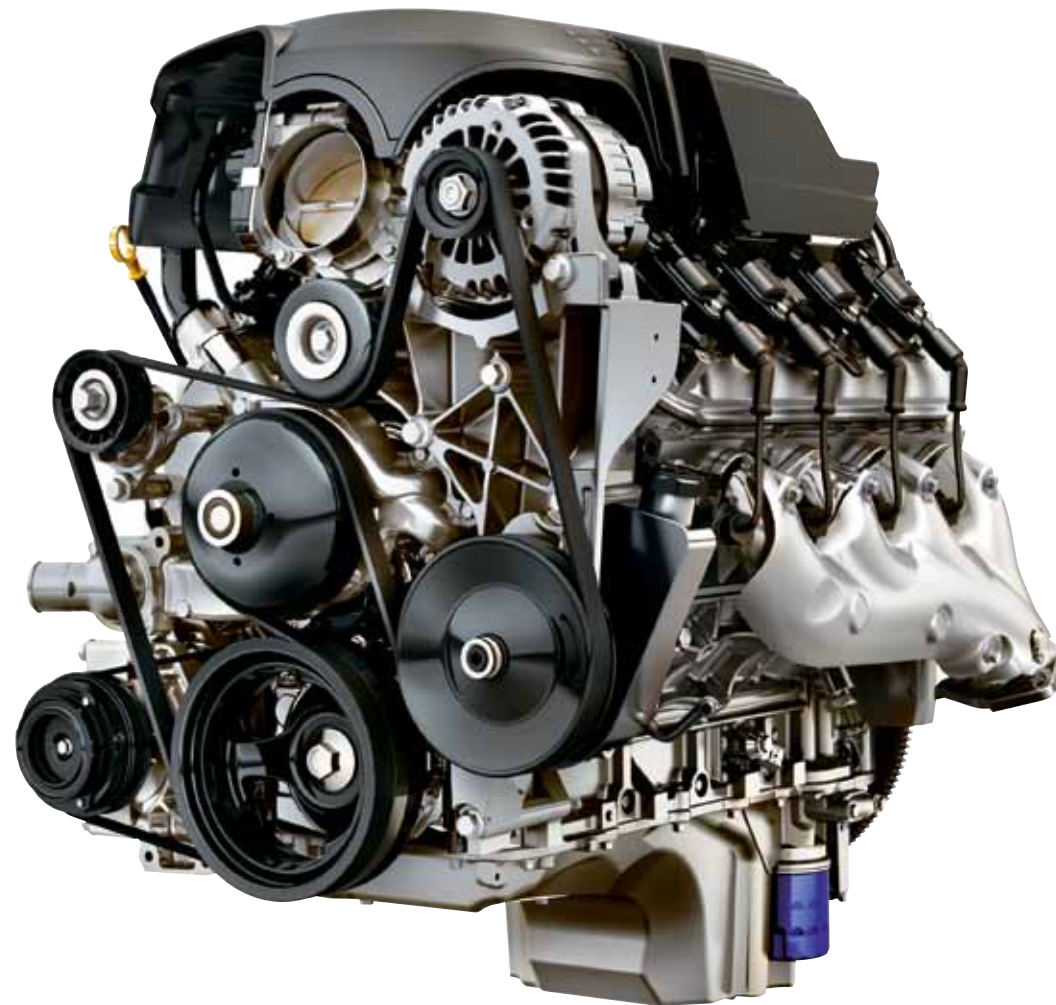

TAKE IT TO THE MAX.

Silverado offers a range of Vortec™ engines, from a fuel-efficient V6 through three V8s, plus a Hybrid. For its combination of power and fuel efficiency, the Vortec™ 5.3L V8 with Active Fuel Management® and Variable Valve Timing (VVT) remains the most popular choice. It generates 326 horsepower and 348 lb.-ft. of torque, enabling towing capacities of up to 4536 kg (10,000 lb.). For maximum power and towing capacity, you can upgrade to the available Vortec™ 6.2L V8 that produces 403 horsepower and 417 lb.-ft. of torque. Add the available MAX Trailering Package which includes this engine and the towing

capacity increases up to 4854 kg (10,700 lb.). Silverado is purpose-built for towing, with specific technologies developed to answer the dynamics of trailering – technologies like the standard trailer sway control, Tow/Haul mode and grade braking on six-speed automatic transmissions that automatically downshifts to slow you down, without having to ride the brakes. Power and towing capabilities taken to the max – with Silverado.

Need even greater power and towing capacity? Ask your dealer for the 2012 Silverado HD brochure and visit chevrolet.ca

ENGINE AND TRANSMISSION AVAILABILITY

Engine	Vortec™ 4.3L V6	Vortec™ 4.8L V8	Vortec™ 5.3L V8	Vortec™ 6.2L V8	Vortec™ 6.0L V8
	195 hp @ 4600 rpm 260 lb.-ft. of torque @ 2800 rpm	302 hp @ 5600 rpm 305 lb.-ft. of torque @ 4600 rpm	326 hp @ 5300 rpm 348 lb.-ft. of torque @ 4400 rpm	403 hp @ 5700 rpm 417 lb.-ft. of torque @ 4300 rpm	332 hp @ 5100 rpm 367 lb.-ft. of torque @ 4100 rpm
Transmission	4-speed automatic with overdrive, Tow/Haul mode and 2nd gear start	4-speed automatic with overdrive, Tow/Haul mode and 2nd gear start	6-speed automatic with 2 overdrive gears, Tow/Haul mode, driver shift control and grade braking	6-speed automatic with 2 overdrive gears, Tow/Haul mode, driver shift control and grade braking	Hybrid specific 4-speed automatic with overdrive and electronically variable propulsion system
Features and Applications	This powertrain is limited to WT trim versions of Regular Cab and 2WD Extended Cab Standard Box models	This powertrain is standard on most base 1500 models. The engine features Variable Valve Timing (VVT) and is capable of running on regular unleaded fuel or up to 85% ethanol (E85)	Featuring outstanding performance with remarkable fuel economy, this popular powertrain is available on most models and is standard with LTZ trim. It is E85 compatible and features Active Fuel Management® and Variable Valve Timing. An aluminum block version is available in selected applications	With phenomenal performance, this powertrain is the logical choice for the MAX Trailering Package. It features an aluminum block, Variable Valve Timing and E85 compatibility. It is available in Extended Cab Standard Box and Crew Cab LT and LTZ	This powertrain is exclusive to the Hybrid model and features Active Fuel Management® for improved fuel efficiency when running in Hybrid mode 2 as well as Late Intake Valve Closing (LIVC) to facilitate frequent stops and re-starts

ACTIVE FUEL MANAGEMENT®

The Vortec™ 5.3L and 6.0L V8 engines feature a technological advancement called Active Fuel Management®. This ingenious system seamlessly deactivates four of the engine's cylinders when less power is needed – essentially turning the V8 into a V4. Simply depressing the acceleration restores full V8 power in milliseconds.

Silverado 1500 Crew Cab LT 4x4 Short Box, shown in Black with available equipment.

SILVERADO 1500 ENGINEERING

THE BEST OF THREE WORLDS.

Good things come in threes. Take Silverado's three-piece frame: By using a modular design, the Silverado maximizes the strength vs. weight ratio. The frame provides additional reinforcement where it's really needed, such as to support the steering gear, front suspension and powertrain. In other places, a different frame profile is used to minimize weight. That's in addition to the weight-reduction

provided by the hydroforming process that's used to shape many of the frame's components. Those weight savings translate into better fuel efficiency and higher payload capacities. And all the pieces come together in a frame that delivers uncompromised torsional rigidity, which not only supports loads, it also produces a very smooth and quiet ride. Silverado's frame – a true trifecta.

FRAME

With Silverado's tremendously strong frame, form follows function. Every part of the frame is engineered for the specific demands placed on it. For example, a hydroformed, fully boxed section is used in the front for added strength to support the front suspension and engine. A fully boxed section fabricated from high-strength steel extends back along the frame under the load to the spare tire cross member, where it becomes a C-channel. The frame achieves extraordinary torsional rigidity without adding unnecessary weight. This helps boost payload capacity and contributes to road isolation as well as ride quality.

FRONT AND REAR SUSPENSIONS

A coil-over-shock front suspension and rack-and-pinion steering, combined with a wide track, significantly enhances ride and handling. The configuration provides excellent on-centre feel and stability. The rear shocks are also positioned to optimize ride quality. Better yet, the smooth ride is achieved without sacrificing hauling capabilities.

SUSPENSION CHOICES

Silverado suspension systems include:

- Z83 Solid Smooth Ride with 46 mm twin-tube front and rear shock absorbers and a 32 mm front stabilizer bar
- Z85 Handling/Trailering, with increased capacity from its 46 mm rear monotube shocks and a 34 mm front stabilizer bar
- Z60 High-Performance employs monotube shocks and a sporty lowered ride height
- Z71 Off-Road with 46 mm monotube shock absorbers, off-road jounce bumpers and a heavy-duty front stabilizer; also includes a high capacity air cleaner, skid plates, locking differential and Z71 decals.

QUIET RIDE

Reducing noise and vibration was a real priority in the development of Silverado. The truck's aerodynamic shape helped to accomplish this objective. And it is enhanced by hydraulic engine mounts on the Vortec™ 5.3L and 6.2L V8 engines, as well as the optimized exhaust and induction tuning, in addition to acoustic mats on the front and back of the cab.

HYDRA-MATIC AUTOMATIC TRANSMISSIONS

The Hydra-Matic 6-speed automatic transmission uses an advanced 32-bit control module to optimize the shift schedule, balancing power delivery and fuel efficiency. It is standard on models equipped with a Vortec™ 5.3L or 6.2L V8 engine and it includes tap-up/tap-down driver shift controls. The standard Hydra-Matic 4-speed electronically controlled automatic transmissions optimize the shift sequence, based on driver input. Overdrive gears and Tow/Haul mode are included on both transmissions. And these smooth, quiet transmissions require minimal maintenance. The Dexron V™ transmission fluid is validated to "fill for life," meaning the original fluid is designed to last for the service life of the truck under normal driving conditions.*

AUTOMATIC LOCKING REAR DIFFERENTIAL

The automatic locking rear differential adds traction, especially in slippery conditions. It intervenes when rear wheel slippage is detected at lower speeds. If one rear wheel slips, the locking rear axle provides full lockup automatically for maximum drive power to both rear wheels. Standard on LTZ and Hybrid models and available on all other models.

AUTOTRAC™ 4x4 SYSTEM

The Autotrac™ system adapts precisely to changing road conditions. The system features a lightweight transfer case assembly, optimized low-range gears and more reliable contact-less sensors. In addition to the traditional 2HI, 4HI, Neutral and 4LO modes, there's an Auto 4x4 setting that can sense wheelspin and automatically transfer power between the front and rear wheels. Autotrac™ is standard on 1500 LT, LTZ and Hybrid 4x4 models.

GM OIL LIFE MONITORING SYSTEM

This computer-based system assesses engine oil condition and optimizes oil change intervals based on vehicle and environmental operating conditions. The benefits include reduced oil change frequency and lower overall operating costs.

QUIET, STRONG AXLES

The front and rear axles provide smooth operation and excellent durability. A thick rear housing cover provides added strength, while stiff mounting brackets help reduce noise and vibration.

EZ LIFT TAILGATE

Easy does it. The available EZ Lift tailgate requires only about 7.25 kg (16 lb.) of effort to operate. That makes it easier than ever to gain access to the pickup box. The tailgate can be easily removed – and it locks to reduce the possibility of theft.

CONFIGURABILITY

With six engines, three cab types and three box lengths, Silverado offers a remarkable range of combinations, helping you find the right one to meet your needs.

TIRE PRESSURE MONITORING SYSTEM

The standard tire pressure monitoring system uses sensors to detect whether the tire pressure is too low in any tire, except the spare. If low pressure is detected, it displays a warning on the Driver Information Centre.

* Maintenance needs vary with different uses and driving conditions. Please refer to the vehicle Owner's Manual for more information.

IT'S TIME TO ACCESSORIZE.

Now's the time to put your personal stamp on your Silverado with the addition of Chevrolet Accessories. They are the only accessories that were created as part of Silverado's development process. That ensures they offer the same quality of fit, finish and function as the rest of your vehicle. They are backed by the 3-year/60,000 km New Vehicle Limited Warranty* and can be included in your finance or lease agreement. Ask your dealer for a complete list of the Chevrolet Accessories available for Silverado, or visit gm.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchased your new vehicle, or for the remainder of the New Vehicle Limited Warranty if installed after the time of your vehicle purchase, but no less than 12 months.

Selected GM Accessories available for Silverado include:

- Sliding box divider
- Bed extender
- Overhead utility rack
- Bedliner
- Dual headrest DVD player
- Doorsill plates and step shields
- Hard folding tonneau cover
- Soft folding tonneau cover
- Soft roll-up tonneau cover
- Hard shell tonneau cover
- Tubular assist steps in 3-in. round or 6-in. oval (black or chrome)
- 20-in. wheels
- Recovery hooks
- Chrome fuel door, door handles and mirror covers.

1 – Requires Heavy-Duty Enhanced Cooling Package (K5L).
2 – XFE model (eXtra Fuel Efficiency).
3 – Requires MAX Trailering Package (NHT).

• Weight-carrying Hitch Limit: 2268 kg (5000 lb.) trailer with 272 kg (600 lb.) tongue weight.
• A weight-distributing hitch and sway control is required over a 2268 kg (5000 lb.) trailer weight.
• Ball hitch trailers over 2268 kg (5000 lb.) require the optional Trailering Special Equipment Package (Z82) plus Handling/Trailer suspension (Z85), High-Performance suspension (Z60) or Off Road Suspension Package (Z71).
• Trailer tongue load weight should be 10 – 15% of the loaded trailer weight up to 454 kg (1000 lb.) – 543 kg (1200 lb.) on models with MAX Trailering Package (NHT).

• The addition of trailer tongue weight or kingpin weight must not cause the vehicle weights to exceed the Rear Gross Axle Weight Rating (RGAWR) or Gross Vehicle Weight Rating (GVWR).
• 1500 Short Box Crew Cab models are not designed or intended to tow 5th-wheel (gooseneck) trailers.
• For 5th-wheel trailer ratings and Gross Combination Weight Rating (GCWR) information please refer to chevrolet.ca or see your Chevrolet dealer.

SILVERADO 1500 MODEL OVERVIEW

SILVERADO WT

Silverado WT is available in Regular Cab, Extended Cab, and Crew Cab configurations and includes these standard features:

- 195 hp Vortec™ 4.3L V6 engine (except Extended Cab Long Box)
- 4-speed automatic transmission
- GM Oil Life Monitoring System
- 4-wheel anti-lock braking system
- StabiliTrak® electronic stability control system with Proactive Roll Avoidance and Traction Control, plus Trailer Sway Control and new Hill Hold Assist features
- Z83 Solid Smooth Ride Suspension
- 2-speed transfer case with floor-mounted shifter (4x4 models)
- 17" painted steel wheels with centre caps
- Spare tire lock
- Intermittent windshield wipers
- Tire pressure monitoring system
- Black front bumper
- Chrome rear bumper with step pad
- Front recovery hooks (4x4 models)
- Automatic headlight control
- Solar-Ray tinted glass (all windows)
- Black manual folding exterior mirrors
- Driver and front passenger frontal airbags with Passenger Detecting System

- Head curtain side-impact air bags
- Driver and front passenger seat-mounted side-impact air bags
- Driver Information Centre (DIC)
- Instrumentation – speedometer, tachometer, odometer with trip odometer, fuel level and engine temperature gauges
- Climate Control, manual air conditioning, single zone
- Tilt adjustable steering column
- Programmable power door locks with remote keyless entry (Crew Cab models)
- Cruise control
- Black vinyl floor covering
- Overhead deluxe console
- Accessory power outlets
- Front seats – vinyl or cloth 40/20/40 split bench with fold-down centre armrest
- Rear seat – fold-up bench (Extended and Crew Cab models)
- AM/FM stereo with seek/scan and clock
- OnStar® with 6 months of the Directions & Connections Plan with Turn-by-Turn Navigation* and OnStar® RemoteLink™.

SILVERADO CHEYENNE EDITION

Silverado Extended and Crew Cabs with the Cheyenne Edition enhance WT features with:

- 302 hp Vortec™ 4.8L V8 engine
- Z85 handling/trailer suspension
- 17" chrome appearance steel wheels with chrome centre cap
- Chrome front bumper with chrome end caps
- Chrome grille surround
- Deep-tinted glass on all windows behind front doors
- Heated power exterior mirrors
- Body-coloured side mouldings
- Power windows
- Power door locks with remote keyless entry system
- Colour-keyed carpeting with vinyl mats
- CD player and MP3 playback.

SILVERADO LT

Silverado LT enhances Cheyenne Edition features with:

- Autotrac™ transfer case (4x4 models)
- Instrumentation includes voltmeter and oil pressure gauge
- Compass and exterior temperature display added to Driver Information Centre
- Leather-wrapped sport steering wheel
- Sunshades with lighted visor mirror
- Front seats – premium cloth 40/20/40 split-bench with centre armrest and under-seat storage
- Auxiliary audio input jack.

SILVERADO LTZ

Silverado LTZ enhances LT features with:

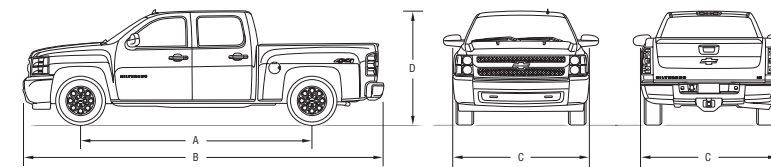

- 326 hp Vortec™ 5.3L V8 engine
- 6-speed automatic transmission
- Heavy-duty enhanced cooling system
- Locking rear differential
- Trailering Special Equipment Package
- 18" chrome-clad aluminum wheels
- Remote vehicle starter system
- Body-coloured front bumper and end caps
- Fog lights
- Power folding, auto-dimming, body-coloured power exterior mirrors with integral turn signal indicators
- Rear-window electric defogger
- Passenger-side power window express-down feature

- Dual-zone automatic climate control
- Auto-dimming interior rear-view mirror
- Premium instrument panel
- Upgraded full-function Driver Information Centre (DIC)
- Programmable personalization for comfort and convenience features
- Full-feature heated power 10-way front bucket seats with leather seat inserts
- Steering wheel-mounted sound system and cruise controls
- Bose® premium speaker system with subwoofer
- Bluetooth® hands-free phone connectivity
- USB port
- SiriusXM Satellite Radio™.**

- **The GM Card** – GM cardholders may redeem up to \$3500 GM Card® Earnings (subject to vehicle Redemption Allowances) toward the Total Purchase Price on eligible new GM vehicles^{††}. For full program details please visit thegmcard.ca

[†]Subject to eligibility. ^{††}Program subject to change. ^{**}Conditions and limitations apply.

INFORMATION RESOURCES:

You can find more information about these programs from your GM dealer, or at these information centres:

- The GM website at gm.ca
- The GM Customer Care Centre at **1-800-GM-DRIVE (1-800-463-7483 or 1-800-263-3830** for TDD users).

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, Chevrolet, the Chevrolet emblem, Silverado, Z71 and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Active Fuel Management, Autotrac, Dexron V, StabiliTrak and Vortec are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.
