

AUDIO AND MULTIMEDIA HIGHLIGHTS

Customers are sure to appreciate the top-shelf audio and multimedia features available in the all-new Telluride. For audiophiles, Telluride offers optional, high-end Harman Kardon®² speakers that emit a rich, full sound. Whether it's the standard or available head unit, the multimedia system provides intuitive menu controls and a straight-forward user experience.

SEAMLESS CONNECTIVITY

With Apple CarPlay®³ and Android Auto™⁴, the vehicle touchscreen display mirrors compatible smartphone functionality, including navigation, but in a driver-friendly format. This helps keep the driver focused on traffic instead of fiddling with a phone. Another premium connectivity feature in Telluride is the available multi-Bluetooth®⁵ function, which allows users to connect two compatible phones—at the same time—and effortlessly switch between streaming audio from one to another.

FEATURES & SPECS

Make sure to spend time coaching customers on how to use these key multimedia features, as they are important to overall vehicle satisfaction.
