

EXTERIOR AND INTERIOR HIGHLIGHTS

When creating the all-new Telluride, designers wanted to mix sophisticated, modern styling with the iconic, muscular look of adventure vehicles from previous eras. The result is a distinguished, eye-catching midsize SUV that boldly stands out from the competition.

Stepping inside, Telluride is guaranteed to “wow” customers with its abundant space, premium features, and luxury feel.

TWO-TRACK GRADE STRATEGY

Telluride offers two distinct grade strategies: the “Convenience Line” and the “Design Line.” The Convenience Line is aimed at value- and feature-driven customers, and the Design Line is tailored to those who want the ultimate in exterior styling and refinement.

Here’s a quick breakdown:

Convenience Line:

Design Line:

FEATURES & SPECS
