

CANYON MODELS

2024 FEATURES, SPECS AND OPTIONS

We have tried to make this guide comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this guide and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of publication, please check with your GMC dealer for complete details.

¹Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for important feature limitations and information. ²Functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. ³Google built-in services are subject to limitations, and availability may vary by vehicle, infotainment system and location. Select service plan required. Certain Google actions and functionality may require account linking. User terms and privacy statements apply. Google, Android, Android Auto, Google Play, Google Maps and other marks are trademarks of Google LLC. ⁴The Bluetooth[®] word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by General Motors is under license. Other trademarks and trade names are those of their respective owners. Go to gmc.com/learnabout/bluetooth to find out which phones are compatible with the vehicle. Full Bluetooth feature functionality varies by device, model and software version. ⁵Vehicle user interface is a product of Apple[®] and its terms and privacy statements apply. Requires compatible iPhone[®] and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and iTunes are trademarks of Apple, Inc., registered in the U.S. and other countries. ⁶Vehicle user interface is a product of Google, and its terms and privacy statements apply. Wireless use of Android Auto requires a compatible Android 11.0+ phone and compatible active data plan. Check g.co/androidauto/requirements for compatibility. ⁷Available on select 2017 model year and newer GM vehicles with compatible hardware. Third-party trademarks are the property of their respective third-party owners and used under agreement. Requires active service plan and paid AT&T[®] vehicle data plan. See onstar.com for details and limitations. ⁸Certain features require a SiriusXM subscription and the GMC Connected Access plan. See siriusxm.com and onstar.com for details and limitations. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. See the SiriusXM Customer Agreement at siriusxm.com for complete terms and how to cancel. All fees, content, features and availability are subject to change. ⁹App functionality and features vary with vehicle equipment and trim level. Data connection may be required. Some features require active service plan and working electrical system. Terms and limitations apply.

SELECT PACKAGES

See your GMC dealer or gmc.com for more feature details and requirements.

KEY TRAILERING FEATURES

- | StabiliTrak with Trailer Sway Control
- | Available Tow/Haul mode
- | Available automatic-locking rear differential
- | Available in-vehicle Trailering App¹
- | Available predeparture checklist
- | Available Trailer Light Sequence Test and diagnostics
- | Available trailer theft detection²
- | Available Blind Zone Steering Assist with Trailering³
- | Up to 10 available camera views³
- | Hitch View³ and Hitch Guidance³
- | Available integrated trailer brake controller

KEY SPECIFICATIONS

- | Maximum available conventional trailering: 7,700 lbs⁴ (6,000 lbs⁴ as shown)
- | Maximum horsepower: 310
- | Maximum torque: 430 lb-ft
- | Maximum available payload: 1,640 lbs⁵ (1,250 lbs⁵ as shown)
- | Maximum cargo bed volume: 41.9 cu. ft.⁶
- | Maximum seating capacity: 5

POWERTRAIN

- | TurboMax engine paired with an 8-speed automatic transmission

¹App functionality and features vary with vehicle equipment and trim level. Data connection may be required. Some features require active service plan and working electrical system. Terms and limitations apply. ²OnStar Safety & Security Plan, working electrical system, cell reception, GPS signal and armed GM factory-installed theft-deterrent system required. Requires contact method on file and enrollment to receive alerts. Message and data rates may apply. Service availability, features and functionality vary by vehicle. Services do not prevent theft or protect against damage or loss. OnStar links to emergency services. See onstar.com for details and limitations. ³Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for important feature limitations and information. ⁴7,700-lb rating requires properly equipped Canyon Elevation, AT4 or Denali with available ProGrade Trailering System. Maximum trailering ratings are intended for comparison purposes only. Before you buy a vehicle or use it for trailering, carefully review the trailering section of the Owner's Manual. The trailering capacity of your specific vehicle may vary. The weight of passengers, cargo and options or accessories may reduce the amount you can trailer. ⁵1,640-lb rating requires properly equipped 2WD Elevation. These maximum payload ratings are intended for comparison purposes only. Before you buy a vehicle or use it to haul people or cargo, carefully review the vehicle loading section of the Owner's Manual and check the carrying capacity of your specific vehicle on the label on the inside of the driver's doorjamb. ⁶Cargo and load capacity limited by weight and distribution.

¹Maximum Gross Vehicle Weight Rating (GVWR). When properly equipped; includes weight of vehicle, passengers, cargo and equipment. ²Gross Combination Weight Rating (GCWR). When properly equipped; includes weight of vehicle and trailer combination, including the weight of driver, passengers, fuel, optional equipment and cargo in the vehicle and trailer. ³Requires properly equipped vehicle with available ProGrade Trailering System. Maximum trailering ratings are intended for comparison purposes only. Before you buy a vehicle or use it for trailering, carefully review the trailering section of the Owner's Manual. The trailering capacity of your specific vehicle may vary. The weight of passengers, cargo and options or accessories may reduce the amount you can trailer. ⁴These maximum payload ratings are intended for comparison purposes only. Before you buy a vehicle or use it to haul people or cargo, carefully review the vehicle loading section of the Owner's Manual and check the carrying capacity of your specific vehicle on the label on the inside of the driver's doorjamb. ⁵AT4X AEV Edition max trailering capacity is 5,500 lbs.

PROGRADE TRAILERING SYSTEM

GMC's available ProGrade Trailering System includes advanced technologies for increased views and confidence. It helps when hooking up your trailer, while on the road and when backing your trailer into place.

myGMC MOBILE APP³

The available myGMC Mobile App³ allows you to create and manage trailer profiles (shareable with other compatible owners), run a Trailer Light Sequence Test to help ensure trailer lights are in working order and reference a predeparture checklist. You can view and receive alerts on key components of your trailer such as trailer miles. There's also a glossary filled with trailering-related materials.

IN-VEHICLE TRAILERING APP¹

The available in-vehicle Trailering App¹ is integrated into the infotainment system² and includes the ability to create five defined trailer profiles based on trailer name, trailer type and trailer hitch type. There are also maintenance reminders, a predeparture checklist, a Trailer Light Sequence Test and a counter for trailer mileage and fuel economy.

HITCH VIEW AND HITCH GUIDANCE

This standard trailering-assistance technology helps when backing up to a trailer. Hitch View⁴ displays a zoomed-in view of the hitch area to assist with aligning the vehicle's hitch ball with the trailer coupler and monitoring the trailer connection. In addition, Hitch Guidance⁴ displays a single centered guidance line on the infotainment display to assist in aligning the vehicle's hitch with a trailer coupler. When driving, it allows you to check your trailer using the Rear Vision Camera view.⁴

¹App functionality and features vary with vehicle equipment and trim level. Data connection may be required. Some features require active service plan and working electrical system. Terms and limitations apply. ²Functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. ³Available on select Apple® and Android™ devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. Terms apply. Device data connection required. See onstar.com for details and limitations. ⁴Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

Sierra Light Duty shown.

NEW AND INNOVATIVE WAYS TO TAKE CONTROL

The available myGMC Mobile App¹ helps elevate your ownership experience in many ways. It's also a powerful and useful tool when it comes to trailering.

IN A PROPERLY EQUIPPED VEHICLE, YOU'LL HAVE THESE USEFUL FUNCTIONS AT YOUR FINGERTIPS:

- | Trailer Light Sequence Test
- | Predeparture checklist
- | Profile sharing
- | Glossary of terms
- | Maintenance reminders
- | Mileage and fuel economy counter

¹Available on select Apple® and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. Terms apply. Device data connection required. See onstar.com for details and limitations.

UP TO 10 AVAILABLE CAMERA VIEWS

1. Front camera view
2. Rear camera view
3. Surround view
4. Front side view
5. Rear side view
6. Front top-down view
7. Rear top-down view
8. Hitch View
9. Front underbody view
10. Rear underbody view

Canyon offers up to 10 available camera views, including first-in-class front and rear underbody cameras to help provide more views around and under your truck.

GUIDANCE LINES When selected, guidance lines show the current and intended vehicle path, and are available in front/rear camera views, front/rear top-down views and surround view.

HITCH GUIDANCE When Hitch Guidance is selected, a single centered guidance line will display within the rear camera view on the infotainment display. To assist with aligning the vehicle's hitch with a trailer coupler, align the Hitch Guidance line with the trailer coupler by continuously steering the vehicle to keep the guidance line centered. Park Assist overlays will not display when the Hitch Guidance line is active.

Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

IMPORTANT TERMS

CURB WEIGHT

The weight of a vehicle with all of the standard and optional equipment and a full tank of fuel, but without any passengers or cargo.

GROSS VEHICLE WEIGHT (GVW)

The combined weight of the vehicle and all passengers and cargo.

GROSS VEHICLE WEIGHT RATING (GVWR)

This number is the maximum amount a tow vehicle may weigh. Everything that contributes to the weight of the tow vehicle is featured in this rating, including the weight of the vehicle, driver and all passengers, fuel, payload, tongue load of the trailer, the weight of the hitch and all optional equipment. The GVWR is displayed on the driver's door or door-lock pillar label of your GMC vehicle. The GVW must never exceed the GVWR.

GROSS COMBINED WEIGHT (GCW)

The GVW plus the loaded trailer weight.

GROSS COMBINED WEIGHT RATING (GCWR)

The total allowable weight of the completely loaded vehicle and trailer, including any fuel, passengers, cargo, equipment and accessories.

CARGO WEIGHT

The weight of all items added to the curb weight of the vehicle, including cargo and optional equipment. When towing, cargo weight also includes the trailer tongue or hitch weight.

MAX PAYLOAD

The maximum allowable weight of passengers plus cargo that the vehicle is designed to carry.

GROSS AXLE WEIGHT (GAW)

The total weight placed on a single axle (front or rear).

GROSS AXLE WEIGHT RATING (GAWR)

This is the weight that each axle is capable of supporting. The load on each axle must not exceed the GAWR. The GAWR for each GMC vehicle is displayed on the driver's door or door-lock pillar label.

GROSS TRAILER WEIGHT

The weight of a loaded trailer.

TONGUE (OR HITCH) WEIGHT

The tongue weight is the total amount of trailer weight that is pressing down on the trailer hitch. Keep in mind that the way a trailer is loaded affects the overall tongue weight and will also affect the handling of the tow vehicle when trailering.

TRAILER HITCH STYLES

SELECTING THE RIGHT HITCH

Choosing the right hitch, while ensuring proper electrical connections are made, affects how your vehicle handles, corners and brakes, and allows you to alert other drivers of your intentions. Before selecting a hitch or trailering package, you should be familiar with the weight ratings specific to your GMC vehicle.

WEIGHT-CARRYING HITCH

This consists of a hitch ball mounted on a step bumper or draw bar, or a tow eye latched to a pintle hook. Hitch balls are available in a range of sizes. Make sure that the diameter of your hitch ball matches your trailer coupler. Also check that the ball and ball mount meet or exceed the Gross Trailer Weight Rating.

HITCH BALL ON STEP BUMPER

HITCH BALL ON DRAW BAR

WEIGHT-DISTRIBUTING HITCH

WEIGHT-DISTRIBUTING HITCH

This is most often used for heavier trailering. This hitch type more evenly distributes the trailer load by using spring bars to shift some of the hitch weight forward onto the tow vehicle's front axle and rearward to the trailer's axles.
