

SIERRA HD MODELS

2024 FEATURES, SPECS AND OPTIONS

We have tried to make this guide comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this guide and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of publication, please check with your GMC dealer for complete details.

¹Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for important feature limitations and information. ²Functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices. ³Google built-in services are subject to limitations, and availability may vary by vehicle, infotainment system and location. Select service plan required. Certain Google actions and functionality may require account linking. User terms and privacy statements apply. Google, Google Play and Google Maps are trademarks of Google LLC. ⁴OnStar plan, working electrical system, cell reception and GPS signal required. OnStar links to emergency services. Service coverage varies with conditions and location. Service availability, features and functionality vary by device and software version. Data plans provided by AT&T. See onstar.com for details and limitations. ⁵The system wirelessly charges one compatible mobile device. Some phones have built-in wireless charging technology and others require a special adapter/back cover. To check for phone or other device compatibility, see gmc.com/support/vehicle/phone-connect or consult your carrier.

PROGRADE TRAILERING SYSTEM

GMC's available ProGrade Trailing System includes advanced technologies for increased views and confidence. It helps when hooking up your trailer, while on the road and when backing your trailer into place.

IN-VEHICLE TRAILERING APP¹

The available in-vehicle Trailing App¹ is integrated into the infotainment system² and includes the ability to create five defined trailer profiles based on trailer name, trailer type and trailer hitch type. There are also maintenance reminders, predeparture checklists, a Trailer Light Sequence Test, a Trailer Tire Pressure Monitoring System³ and a counter for trailer mileage and fuel economy.

myGMC MOBILE APP⁴

The available myGMC Mobile App⁴ allows you to create and manage trailer profiles (shareable with other compatible Sierra owners), run a Trailer Light Sequence Test to help ensure trailer lights are in working order, reference predeparture checklists and use a Trailer Load Calculator to determine the combined weight of your vehicle and trailer. You can view and receive alerts on key components of your trailer such as tire pressure monitoring³ and trailer miles. There's also a glossary filled with trailering-related materials.

SMART TRAILER INTEGRATION

The available ASA Electronics iN•Command[®] Control System⁵ is designed to integrate with and be accessible through the myGMC Mobile App⁴ (on compatible iPhones[®] and Android[™] smartphones) or on the infotainment system via Apple CarPlay^{®6} and Android Auto⁷ compatibility. The iN•Command Control System allows you to monitor and control a range of smart system functions such as water tank levels, climate controls and power slide-outs in recreational trailers equipped with GlobalConnect technology.

¹App functionality and features vary with vehicle equipment and trim level. Data connection may be required. Some features require active service plan and working electrical system. Terms and limitations apply. ²Functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. ³Requires available Trailer Tire Pressure Monitoring System and installation of trailer tire pressure monitor sensors. ⁴Available on select Apple[®] and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. Terms apply. Device data connection required. See onstar.com for details and limitations. ⁵iN•Command is provided by ASA Electronics and is designed to operate within 30 feet of the trailer. Works with trailers equipped with iN•Command Control System with GlobalConnect via Bluetooth connection. Control and monitoring functionality varies by trailer manufacturer model and installed options. Use of the iN•Command Control System feature through the myGMC Mobile App requires an active service plan. User terms apply. See onstar.com for details and limitations. ⁶Vehicle user interface is a product of Apple[®] and its terms and privacy statements apply. Requires compatible iPhone[®] and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and iTunes are trademarks of Apple, Inc., registered in the U.S. and other countries. ⁷Vehicle user interface is a product of Google, and its terms and privacy statements apply. Wireless use of Android Auto requires a compatible Android 11.0+ phone and compatible active data plan. Check g.co/androidauto/requirements for compatibility. Android and Android Auto are trademarks of Google LLC.

INNOVATIVE WAYS TO TAKE CONTROL

The available myGMC Mobile App¹ helps elevate your ownership experience in many ways. It's also a powerful and useful tool when it comes to trailering.

IN A PROPERLY EQUIPPED VEHICLE, YOU'LL HAVE THESE USEFUL FUNCTIONS AT YOUR FINGERTIPS:

- | Trailer Light Sequence Test
- | Load calculator
- | Predeparture checklists
- | Profile sharing
- | Glossary of terms
- | Trailer tire pressure alerts²
- | Maintenance reminders
- | Mileage and fuel economy counter
- | Smart trailer controls

¹Available on select Apple® and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. Terms apply. Device data connection required. See onstar.com for details and limitations. ²Requires available Trailer Tire Pressure Monitoring System and installation of trailer tire pressure monitor sensors.

PUTTING YOU IN COMMAND LIKE NEVER BEFORE

The available Smart Trailer Control System effectively turns your smartphone into a remote control. Accessible through the available myGMC Mobile App¹ or through the infotainment system (via Apple CarPlay^{®2} and Android Auto³ compatibility), the Smart Trailer Control System allows you to control many of your compatibly equipped iN•Command Control System⁴ trailer functions through a Bluetooth⁵ connection. It's a seamless way to stay informed and in command.

TAKE CONTROL OF THE FOLLOWING FUNCTIONS AND SYSTEMS IN YOUR COMPATIBLE ATTACHED TRAILER:

- | Adjust climate controls
- | Turn the water pump on/off
- | Turn the heater on/off
- | Turn interior lights on/off
- | Turn exterior lights on/off
- | Check real-time status of the water tank level
- | Check real-time status of the battery life
- | Check fuel level of the generator
- | Prime and start the generator
- | Open and close slide-outs (vehicle and trailer must be parked)
- | Open and close awnings (vehicle and trailer must be parked)
- | Adjust jacks (vehicle and trailer must be parked)

¹Available on select Apple[®] and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. Terms apply. Device data connection required. See onstar.com for details and limitations. ²Vehicle user interface is a product of Apple[®] and its terms and privacy statements apply. Requires compatible iPhone[®] and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and iTunes are trademarks of Apple, Inc., registered in the U.S. and other countries. ³Vehicle user interface is a product of Google, and its terms and privacy statements apply. Wireless use of Android Auto requires a compatible Android 11.0+ phone and compatible active data plan. Check g.co/androidauto/requirements for compatibility. Android and Android Auto are trademarks of Google LLC. ⁴iN•Command is provided by ASA Electronics and is designed to operate within 30 feet of the trailer. Works with trailers equipped with iN•Command Control System with GlobalConnect via Bluetooth connection. Control and monitoring functionality varies by trailer manufacturer model and installed options. Use of the iN•Command Control System feature through the myGMC Mobile App requires an active service plan. User terms apply. See onstar.com for details and limitations. ⁵The Bluetooth[®] word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by General Motors is under license. Other trademarks and trade names are those of their respective owners. Go to my.gmc.com/learnabout/bluetooth to find out which phones are compatible with the vehicle. Full Bluetooth feature functionality varies by device, model and software version.

UP TO 14 AVAILABLE CAMERA VIEWS¹

1. Transparent trailer view (requires compatible trailer)
2. Hitch View
3. Cargo bed view (with zoom view and Hitch Guidance)

4. Front camera view
5. Rear camera view
6. Surround view
7. Front top-down view
8. Rear top-down view
9. Front side view

10. Rear side view (with trailer biasing)
(requires compatible trailer)
11. Rear trailer view (with guidelines and Trailer Angle Indicator) (requires compatible trailer)
12. Inside trailer view
13. Picture-in-picture side view
14. Rear Camera Mirror

¹Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for important feature limitations and information. Some camera views require available accessory camera and installation. Not compatible with all trailers. See your dealer for details.

CAMERA-VIEW COMPATIBILITY

ALL TRAILERS MAY NOT BE COMPATIBLE. THIS CHART IS FOR REFERENCE ONLY.

CAMERA VIEW	HITCH TYPE	TRAILER TYPE	DIMENSIONS REQUIRED
Rear trailer view with Trailer Angle Indicator ¹	Conventional ²	Box/enclosed ³	Yes
Rear trailer view ¹	Most	Most	N/A
Rear side view	Most	Most	N/A
Rear side view with trailer biasing	Most	Box/enclosed ³	Yes
Rear side view with Trailer Length Indicator (turn-signal activated)	Most	Most	Yes
Transparent trailer view ⁴	Most	Box/enclosed ³	Yes
Jack-Knife Alert	Conventional ²	Box/enclosed ³	Yes
Picture-in-picture side view ¹	Most	Most	N/A
Inside trailer view ¹	N/A	Most	N/A
Bed view	N/A	N/A	N/A
Bed view with zoom and Hitch Guidance	Fifth-wheel/gooseneck	Most	N/A
Hitch View	Conventional ²	Most	N/A

Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

¹Requires available accessory camera and installation. Not compatible with all trailers. See your dealer for details.
is a type of trailer that has walls and a roof to completely enclose cargo and keep it protected from the elements.

²Conventional trailer hitch type is any trailer that connects to a trailer hitch using a coupler and ball mount, as opposed to a fifth-wheel or gooseneck connection.
⁴Requires available accessory camera and installation. Not compatible with all trailers. This camera view has a trailer-length limitation. See your dealer for details.

³Box/enclosed trailer

FOLLOW THESE CALIBRATION TIPS FOR SUCCESSFUL SETUP:**01.****DRIVE BELOW 31 MPH**

Driving faster may delay calibration.

02.**DRIVE STRAIGHT**

Excessive steering may extend calibration time.

03.**USE GOOD LIGHT**

Calibration should be attempted when there is enough light.

04.**SET UP IN GOOD WEATHER**

Calibration during snow or heavy rain should be avoided.

05.**USE A FLAT, DEFINED ROAD**

Avoid gravel, dirt or unmarked roads.

06.**USE THE PROPER CONNECTION**

Ensure that the camera is connected to the correct input.

07.**USE THE CORRECT LOCATION**

The accessory camera should be mounted and angled inside the defined mounting location (see camera installation instructions).

08.**CHECK FOR A CLEAN LENS**

Cameras obstructed by dirt or debris may hinder calibration.

09.**CHECK FOR A CLEAR VIEW**

The accessory trailer camera should have an unobstructed view (no spare tire, bike/cargo racks, etc.). Shadows may be perceived as obstructions. Attempt to calibrate while driving in an alternate direction if possible.

10.**ENSURE DIMENSIONS ARE CORRECT**

Enter accurate measurements made to the nearest inch.

11.**MEASURE CORRECTLY**

Use the width of the box of the trailer. Do not include the width of the wheels. This helps transparent trailer view and Jack-Knife Alert to work accurately.

12.**MEASURE V-NOSE TRAILERS CORRECTLY**

For V-nose trailers, when measuring the distance between the ball and the front of the trailer, you should measure the distance to the widest part of the trailer, not to the point on the nose.

IMPORTANT TERMS

CURB WEIGHT

The weight of a vehicle with all of the standard and optional equipment and a full tank of fuel, but without any passengers or cargo.

GROSS VEHICLE WEIGHT (GVW)

The combined weight of the vehicle and all passengers and cargo.

GROSS VEHICLE WEIGHT RATING (GVWR)

This number is the maximum amount a tow vehicle may weigh. Everything that contributes to the weight of the tow vehicle is featured in this rating, including the weight of the vehicle, driver and all passengers, fuel, payload, tongue load of the trailer, the weight of the hitch and all optional equipment. The GVWR is displayed on the driver's door or door-lock pillar label of your GMC vehicle. The GVW must never exceed the GVWR.

GROSS COMBINED WEIGHT (GCW)

The GVW plus the loaded trailer weight.

GROSS COMBINED WEIGHT RATING (GCWR)

The total allowable weight of the completely loaded vehicle and trailer, including any fuel, passengers, cargo, equipment and accessories.

CARGO WEIGHT

The weight of all items added to the curb weight of the vehicle, including cargo and optional equipment. When towing, cargo weight also includes the trailer tongue or hitch weight.

MAX PAYLOAD

The maximum allowable weight of passengers plus cargo that the vehicle is designed to carry.

GROSS AXLE WEIGHT (GAW)

The total weight placed on a single axle (front or rear).

GROSS AXLE WEIGHT RATING (GAWR)

This is the weight that each axle is capable of supporting. The load on each axle must not exceed the GAWR. The GAWR for each GMC vehicle is displayed on the driver's door or door-lock pillar label.

GROSS TRAILER WEIGHT

The weight of a loaded trailer.

TONGUE (OR HITCH) WEIGHT

The tongue weight is the total amount of trailer weight that is pressing down on the trailer hitch. Keep in mind that the way a trailer is loaded affects the overall tongue weight and will also affect the handling of the tow vehicle when trailering.

TRAILER HITCH STYLES

SELECTING THE RIGHT HITCH

Choosing the right hitch, while ensuring proper electrical connections are made, affects how your vehicle handles, corners and brakes, and allows you to alert other drivers of your intentions. Before selecting a hitch or trailering package, you should be familiar with the weight ratings specific to your GMC vehicle.

WEIGHT-CARRYING HITCH

This consists of a hitch ball mounted on a step bumper or draw bar, or a tow eye latched to a pintle hook. Hitch balls are available in a range of sizes. Make sure that the diameter of your hitch ball matches your trailer coupler. Also check that the ball and ball mount meet or exceed the Gross Trailer Weight Rating.

HITCH BALL ON STEP BUMPER

HITCH BALL ON DRAW BAR

WEIGHT-DISTRIBUTING HITCH

FIFTH-WHEEL HITCH

GOOSENECK HITCH

WEIGHT-DISTRIBUTING HITCH

This is most often used for heavier trailering. This hitch type more evenly distributes the trailer load by using spring bars to shift some of the hitch weight forward onto the tow vehicle's front axle and rearward to the trailer's axles.

FIFTH-WHEEL HITCH AND GOOSENECK HITCH

These are designed for heavy trailering. Located in the bed of the truck, these hitch types are most frequently used with travel trailers, horse trailers and other large trailers.

TRAILERING ON THE ROAD

CONVENTIONAL TRAILER

While typically used to describe recreational trailers, such as campers or boat trailers, conventional trailers generally utilize a ball-type hitch.

FIFTH-WHEEL TRAILER

Fifth-wheel trailers can be slightly larger than conventional trailers and offer a wide range of configurations. These trailers are designed specifically for pickups equipped with a fifth-wheel hitch.

GOOSENECK TRAILER

Gooseneck trailers place the hitch weight of the trailer over the rear axle of the truck rather than the rear bumper.

HOW TO READ A TRAILERING LABEL

GVWR:	4972 KG / 10960 LBS
GCWR:	11793 KG / 26000 LBS
RGAWR:	2994 KG / 6600 LBS
CURB WEIGHT:	3397 KG / 7488 LBS
MAX PAYLOAD:	1575 KG / 3472 LBS

SAE J2807 TRAILER WEIGHT RATING (TWR) FOR VEHICLE CONFIGURATION.

CONVENTIONAL TWR:	6577 KG / 14500 LBS
MAX TONGUE WEIGHT:	658 KG / 1450 LBS
GOOSENECK TWR:	8237 KG / 18160 LBS
MAX TONGUE WEIGHT:	1238 KG / 2730 LBS

SEE OWNER'S MANUAL  FOR MORE INFORMATION

Included on all Sierra Heavy Duty models is a Trailering Information label.

A GVWR = GROSS VEHICLE WEIGHT RATING

This number is the maximum amount a tow vehicle may weigh. Everything that contributes to the weight of the tow vehicle is featured in this rating, including the weight of the vehicle, driver and all passengers, fuel, payload, tongue load of the trailer, the weight of the hitch and all optional equipment. The GVWR is displayed on the driver's door or door-lock pillar label of your GMC vehicle. The Gross Vehicle Weight must never exceed the GVWR.

B GCWR = GROSS COMBINED WEIGHT RATING

The total allowable weight of the completely loaded vehicle and trailer, including any fuel, passengers, cargo, equipment and accessories.

C RGAWR = REAR GROSS AXLE WEIGHT RATING

This is the weight that the rear axle is capable of supporting. The load on the axle must not exceed the RGAWR. The RGAWR for each GMC vehicle is displayed on the driver's door or door-lock pillar label.

D MAX PAYLOAD

The maximum allowable weight of passengers plus cargo that the vehicle is designed to carry.

E TWR = TRAILER WEIGHT RATING

This section of the label provides the ratings for your vehicle's specific configuration.
