PRODUCT SHOWCASE

2014 CHRYSLER FLEET 2015 PRODUCT SHOWCASE

To our Valued Fleet Colleagues,

We are pleased to present the latest product offerings from Chrysler Group LLC. In the past year, we have made several key additions to our lineup that address the specific needs of the fleet market. We now offer the most complete lineup in our history, including the full-size Ram ProMaster van – an ideal design for commercial use. The Ram ProMaster 1500 was recently awarded the Vincentric “Best Fleet Value in America.” We also announced the start of production later this year of the ProMaster City, an all-new small commercial van.

Our truck lineup now includes: eight-speed transmissions, the new 6.4L HEMI® gas engine, the new 3.0L EcoDiesel engine in our 1500 Series Ram which has won *Motor Trend's* “Truck of the Year” for 2013 and 2014, a two year-in-a-row distinction, and best-in-class towing on our 3500 Series truck.

In addition to our outstanding trucks, we introduced the all-new 2014 Jeep® Cherokee, a compact sport utility delivering all of our latest technologies to a large segment of the fleet market. We're kicking off the 2015 model year with the production of the all-new Chrysler 200 mid-size sedan, offering the perfect combination of style, comfort, safety, value and fuel efficiency (36 mpg hwy), that makes it the perfect choice for many fleets. During the year, we will add a new Jeep Renegade to our lineup, begin production of a redesigned Dodge Charger and offer AWD on Charger Pursuit to enhance all-weather performance for law enforcement agencies.

In addition to our best-in-class products, we're committed to providing the most responsive sales and service team in the industry. We recently have added several members to our team, including a dedicated team to better serve Fleet Management Companies and experienced regional truck managers who will ensure we match the right trucks to the right jobs. We have also substantially increased the number of **BusinessLink** dealers who have made a very specific commitment to the fast and efficient care of our fleet customers. We will continue to back up our vehicles with the unsurpassed 5-Year/100,000-Mile Powertrain Limited Warranty.

Let us show you how these vehicles meet the needs of your fleet. Please visit our Web site at fleet.chrysler.com or you can reach our team directly using the enclosed contact information.

As always, we welcome the opportunity to earn your business.
