

TEN WAYS TO SAVE FUEL

- 1. Don't warm up your car in the morning.** It wastes fuel.
- 2. Change the way you drive.** Start up and accelerate smoothly. Don't speed and don't keep changing lanes. Decelerate instead of braking.
- 3. Keep cool, but not too cool.** Use interior vents, the sunroof or windows instead of air conditioning.
- 4. Fill your gas tank properly.** Don't overfill your tank and fill up during cooler hours of the day.
- 5. Check your tires.** Underinflated and/or over-inflated tires wear out faster. Consider filling your tires with nitrogen to help keep tire pressure constant for better mileage and tire wear.
- 6. Change your shopping habits.** Combine several short trips into one longer one. Carpool.
- 7. Clean out your trunk.** Every 500 pounds you haul costs you from 2 to 5 mpg.
- 8. Check under the hood.** A dirty air filter can cost a mile per gallon at 50 mph. Misfiring spark plugs can increase fuel consumption by 25%.
- 9. Change your oil and filter.** Fresh filters help provide better fuel economy, smoother running and optimum power. Oil is your engine's lifeblood. It is extremely important that the engine oil and filter be changed regularly, especially before a long trip.
- 10. Buy a Subaru.** Subaru is one of the most environmentally friendly cars on the road. From a zero landfill assembly plant in Indiana to super low emission vehicles that provide highway mileage ratings over 30 mpg... Subaru saves fuel...and the environment.

A reminder from Subaru about **MPG...** that **Maintenance Preserves Gas.** Next time you are at the pump, think about this: better fuel economy starts with better vehicle maintenance. Why? Because neglect of basic maintenance items can have a significant effect on fuel consumption... and the amount of money you spend to "fill it up".

Welcome to one of the nation's
top Subaru dealers

Yes, we are proud of our professional sales force, our commitment to finding the exact Subaru model to fit your driving needs and our comfortable sales environment where:

EVERYONE PAYS
the SAME LOW PRICESM

All of these attributes have contributed to making us one of the top Subaru dealers in the nation ... consistently... **year after year.** But another essential element that keeps our customers coming back is a **service department** second to none.

Our service department offers:

- Subaru factory-trained service professionals
- A.S.E. certified technicians
- State-of-the-art diagnostic equipment
- Hunter alignment equipment
- Genuine Subaru replacement parts and accessories

Please visit our web site at:

www.vanbortelsubaru.net

for more information about our service department and all other award-winning aspects of our dealership.

For your convenience, you can make your **service appointment** via the web site or call us at (585) 924-5230. We look forward to serving you soon!

- Subaru 24 Hour Roadside Assistance
1 (800) 261-2155
- Local Towing & Lockout Assistance
(585) 924-3470

SERVICE & PARTS DEPT. HOURS

7:30 AM to 9:00 PM

Monday - Saturday

In general, this maintenance schedule is based upon having your Subaru serviced every **7,500 miles** or **7.5 months**. Conventional oil changes are **recommended** every 3,750 miles or 3 months due to our area's climate. Synthetic oil changes are recommended every 7,500 miles or 7.5 months. Although the various services detailed show mileage intervals only, the time element is important as well and should be a consideration as you schedule your preventive maintenance visits. As always, we recommend checking fluids between services.

OIL & FILTER SERVICE

First new vehicle oil change is due by **3,750 miles** or **3 months**.

Regular Oil (available in all models) **\$24.95***
Synthetic Oil (optional in all models) **\$59.95***

*Includes parts and labor. Tax and hazardous waste removal additional.

- Oil & filter
- Lube locks & hinges
- Check air filter
- Set tire pressure
- Check fluid levels

Please see chart below for Service 3 pricing

TRIBECA Service 3 Pricing (All 6 Cylinder Engines)

ENGINE SIZE/YEARS	MILEAGE INTERVALS				(see footnotes below)				
	30,000 miles	60,000 miles	90,000 miles	120,000 miles	1	2	3	4	5
6 Cyl./prior to 2009	\$395.95	\$585.95	\$395.95	\$585.95	x	x			x
6 Cyl./2009-Current	\$360.95	\$597.95	\$420.95	\$647.95	x		x	x	x

- After year 2004, the **fuel filter** and **PCV valve** no longer have to be replaced as preventive maintenance.
- Platinum** spark plugs are replaced at 60,000 mile intervals.
- Iridium** spark plugs are replaced at 60,000 mile intervals.
- Super Coolant** is flushed at 120,000 miles.
- \$31.00 up charge for optional synthetic oil.

Prices subject to change

Prices include synthetic oil for those models that require synthetic oil.

Pricing shown includes parts and labor. Tax and hazardous waste removal charges are additional.

Timing Chain Replacement

The **6 cylinder** engine is equipped with a **timing chain** instead of a timing belt. The timing chain should not need to be replaced for the life of the vehicle with proper oil change maintenance.
