BUILT RIGHT. BACKED RIGHT.

If you're looking for a great used vehicle, there's no better choice than GM Certified Used. These cars, trucks and SUVs from trusted brands like Chevrolet, Buick, Pontiac and GMC offer the quality you can trust. After all, they were built by General Motors to provide years and years of dependable performance. And when they enter the certification program, each of these vehicles undergoes a rigorous 117-Point Inspection, is reconditioned to factory specs and basically becomes as close to "new" as "used" can get.

And GM Certified Used Vehicles is proud to offer like-new vehicle financing on select vehicles for qualified buyers using GMAC financing. But we don't stop there. Because when you buy GM Certified Used, you'll get a vehicle that's backed by a 100,000-Mile/5-Year Powertrain Limited Warranty* and a nationwide network of over 3,800 dealers. Our goal is simple: to have you driving a car, truck or SUV that truly embodies the words, "No worries.™"

A 12-Month/12,000-Mile** Bumper-to-Bumper Warranty protects you beginning the minute you leave the lot. This is bumper-to-bumper coverage above and beyond any remaining factory warranty. It's not just protection for your car, but for your peace of mind.

GM quality. The largest selection out there. And a certification program that ensures you're getting a "worry-free" vehicle. Is it any wonder we're the #1 selling certified used brand?

While it's important for a GM Certified Used Vehicle to look good, it's even more important that it runs perfectly. So we have strict eligibility requirements to ensure that every certified vehicle we sell has been taken care of properly and is in superb operating condition.

SO WHAT ARE OUR ELIGIBILITY REQUIREMENTS?

INSPECTED INSIDE AND OUT.

Qualifying to become a GM Certified Used Vehicle isn't the end of the process. It's the beginning. Next comes an exhaustive 117-Point Comprehensive Inspection and Reconditioning Process, where GM-trained technicians check it out top to bottom, bumper-to-bumper, inside and out. Only after ensuring that original, factory-installed items on the vehicle have been inspected and reconditioned, can it be sold as a GM Certified Used Vehicle. So what gets looked at? Here are some highlights:
