

LuxcareXT[®] Protection

Appearance protection.
Inside and out.

ASSURANT[®]

Help your car keep that showroom finish.

One of the best things about your new car is that dazzling showroom shine. Sadly, that dazzling shine can fade, affecting your vehicle's appearance.

Outside factors like sun, salt and bird droppings can damage your paint and inside factors can pile on with stains, odors and rips in your leather or fabric upholstery. These things can be expensive to repair and they can tarnish your car's resale value.

On the outside, LuxcareXT penetrates your vehicle's clear coat to create a barrier against harmful elements. It also helps prevent brake dust stains on your alloy wheels and dulling of your headlight lenses. On the inside, LuxcareXT helps preserve your upholstery and carpets and helps protect against stains from spilled drinks, pets, ink and crayons. It even covers repairs for small tears and loose stitches.

Keep your car looking newer longer with LuxcareXT®.
