Rear Spoiler¹

Add a touch of understated attitude to your Avalon, with a rear spoiler. This spoiler mounts to the rear deck lid, is color-coordinated to match your Avalon and compliments its sleek lines.

A | Alloy Wheel Locks

Constructed of forged, hardened steel with triple-nickel and zinc plating, these inexpensive and easy-to-install wheel locks help provide dependable protection against theft. In addition to saving the potential time and expense of replacing wheels and tires, these locks also help avoid additional damage that can occur during theft.

B | Door Edge Guards

Help protect your Avalon's vertical door edges from dings and paint chips with exclusive, body color-matched Genuine Toyota door edge guards. They help preserve your Avalon's like-new appearance while seamlessly blending into its sophisticated styling.

C | Paint Protection Film²

Like a clear suit of armor, this paint protection film helps guard your Avalon's paint from sand, small stones, insects and other debris. Made from nearly invisible urethane material, the film resists discoloration and is available for the leading edge of the hood, fenders and front bumper. Must be applied at the factory or your dealership by a trained technician.

D | Mudguards

Help protect your paint from damaging stones, tar, and yes – mud – with a set of front and rear mudguards. Designed to integrate with your Avalon's styling, these durable mudguards feature corrosion-resistant hardware and are constructed from material that stands up to the rigors of everyday driving.

A | Cargo Tote

The collapsible soft-sided cargo tote is designed to hold a variety of smaller everyday items, helping to ensure they don't shift around or tip over in your cargo area. For added convenience, the tote includes removable divider panels that hold items upright. It also features two carrying handles for easy loading and unloading, folds flat when not in use, and pops up easily when needed.

B | Cargo Net - Envelope

The stretchy mesh netting of this cargo net helps keep all sorts of everyday items from rolling around or tipping over during transit. The envelope-style net can be quickly attached to or detached from defined points in the trunk, and it stores flat when not in use.

C | Trunk Mat

Considering everything that gets tossed in the trunk, it's wise to help protect the trunk area from premature wear and stains. This trunk mat is made from durable nylon carpet that resists fading. It's color-coordinated to your vehicle's interior and features an embroidered Avalon logo.

A | First Aid Kit

This handy first aid kit can help you tend to many minor injuries. The kit includes insect-sting pads, adhesive bandages, butterfly strips, stretch bandage with fasteners, scissors, an emergency blanket and more. Designed with Velcro® mounting strips, the soft, zippered case can be placed inside the cabin or trunk and will remain firmly and quietly in place during normal driving.

B | Emergency Assistance Kit

Don't let minor problems stop you in your tracks. This ultra-functional emergency assistance kit contains tools and supplies to help you handle minor situations that may occur on the road. The kit includes booster cables, a hose clamp and tape, work gloves, survival blankets, a flashlight/lantern, a water bag and more. The kit also features a retention strap to help keep it secure and is specially packaged to eliminate rattling while driving.

C | Carpet Floor Mats³

Custom-tailored for an exact fit, this set of four carpet floor mats helps protect the Avalon's original carpet from wear and tear. The mats are constructed of durable nylon and include an embroidered Avalon logo patch. Retention clips (on the driver's side) and nibbed backing help keep them in position. The mats are also removable and easy to clean.

A | VIP Security⁴

The Glass Breakage Sensor (GBS) uses a highly sensitive microphone that can detect the specific frequencies of glass being struck or broken. If the GBS detects an object striking the glass, a warn-away alarm will sound. In the event glass breakage is detected, the security system will be activated immediately and disable the starter. The GBS is capable of ignoring noises other than those associated with glass, and the sensitivity is adjustable, helping reduce false alarms.

B | Remote Engine Starter

Enjoy the luxury of having your vehicle ready and waiting with a comfortable interior temperature on cold winter mornings or hot summer afternoons, courtesy of the Remote Engine Starter. This clever accessory allows you to start the engine—and to activate the preset air conditioner, heater, defroster and defogger functions—before entering your vehicle. It's fully integrated into your factory security/keyless entry system, so there's no need for an additional remote control key fob.
