VIP SECURITY – GLASS BREAKAGE SENSOR

Designed to integrate seamlessly with your existing factory security/keyless entry system, the glass breakage sensor (GBS) uses a highly sensitive microphone to detect the specific frequencies of glass being struck or broken. If the GBS detects glass breakage, it immediately activates the vehicle security system, sounding the alarm and disabling the starter. The GBS is capable of ignoring noises other than those associated with glass, ensuring you're not inconvenienced by "false alarms." Features one-touch arming/disarming.

REMOTE ENGINE STARTER

Enjoy the luxury of having your vehicle ready and waiting with a comfortable interior temperature on cold winter mornings or hot summer afternoons, courtesy of the Remote Engine Starter. This clever accessory allows you to start the engine—and to activate the air conditioner, heater, defroster and defogger functions—before entering your vehicle. It's fully integrated into your factory security/keyless entry system, so there's no need for an additional remote.
