TUNDRA

2012 ACCESSORIES

THINK OF IT AS A REMODELING CATALOG. FOR YOUR TRUCK.

From the ground up, your Tundra was built to be rugged, capable and long lasting. That's why you bought it. Now that you own the truck that's right for you, it's easy to make it your own with Genuine Toyota Accessories. Whether you want to boost performance or boost your image, you'll find everything you need within these pages.

Genuine Toyota Accessories give you the confidence to customize your Tundra, because only Genuine Toyota Accessories are designed, tested and approved specifically for your Tundra. And when purchased at the same time as your new vehicle, Genuine Toyota Accessories are backed by Toyota's 3-year/36,000-mile New Vehicle Limited Warranty, valid at any Toyota dealership nationwide.¹

EXTERIOR

When it comes to equipment engineered to pull a trailer or haul a load, going with Genuine Toyota Accessories is the right call to make. But these exterior accessory pages are loaded with gear designed to turn a few heads too.

4

[A]

[A] 7-PIN TO 4-PIN ADAPTER²

When your towing needs are on the small side, this adapter allows you to easily convert your 7-pin connector to a 4-pin connector. Formed from strong ABS plastic, this durable adapter gives you a high level of towing flexibility. The adapter is specifically designed for use with your Genuine Toyota wiring harness, ensuring easy connectivity to standard four-way flat trailer connections.

[E]

[B] BALL MOUNT²

Designed for use with a Genuine Toyota towing receiver hitch and to help you match it to your trailer, this ball mount meets your Tundra's exact towing capacity. The Genuine Toyota ball mount undergoes rigorous lab and on-road testing in conjunction with the tow hitch to ensure it meets Genuine Toyota performance standards.

[C] TRAILER BALL²

Specifically designed for use with your Genuine Toyota ball mount, the trailer ball is engineered to complete the connection between your towing receiver hitch and your trailer. Crafted of cold-forged steel for superior strength, the trailer ball meets or exceeds all industry towing standards and includes built-in wrench flats for easy installation and torquing.

[B,C]

[D]

[D] TRAILER WIRING HARNESS

Designed to work with the existing electrical system, this harness features a 4-pin connector on the trailer hitch to power your trailer's taillights, turn and brake lights. Complete with converter assembly, fusing, cables and connectors, it offers reliable performance and simple installation.

[E] TOWING RECEIVER HITCH²

Our two towing receiver hitches are designed, manufactured and tested for the long haul. Our Class-III hitch is made for trucks with color-keyed bumpers, has a 5000-lb. towing capacity and uses a 4-pin wire harness. For big jobs, our Class-IV hitch is made for trucks with steel-chromed bumpers, has an 8000-lb. towing capacity and uses a 7-pin harness. Both have dual-layer paint (e-coat and powder coat) to fight the elements.

5

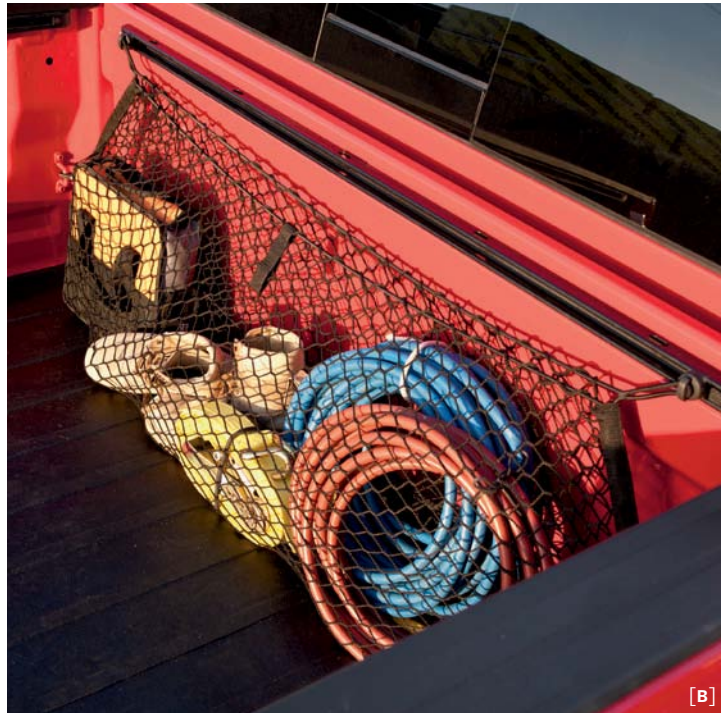

[A] CARGO DIVIDER³

Whether to keep furniture from sliding or different types of roof tiles from mixing together, our cargo divider has you covered. Engineered to work with your Tundra's Deck Rail System, the versatile divider can also be used as a cargo cover when it's rotated and positioned flat over your cargo. With lightweight aluminum construction and a corrosion-resistant, black powder coating, the divider boasts a 400-lb. load capacity.

[B] CARGO NET (EXTERIOR)

Prevent lighter equipment from sliding around with our exterior cargo net. Made of durable elastic-mesh netting, this hammock-style cargo net attaches to defined points at the front of Tundra's bed. The net installs and detaches in seconds and folds flat for easy storage.

[C] 20-INCH MACHINED STAR 5-SPOKE ALLOY WHEELS⁴

Make your Tundra even more impressive with 20-inch machined star 5-spoke alloy wheels. Machined from cast aluminum alloy, these wheels meet all of Toyota's fit, finish and reliability standards. They not only complement your Tundra's rugged stance, but also enhance performance with superior heat dissipation and greater rigidity under hard cornering.

[D] SPARE TIRE LOCK

Just because it's called a "spare" tire doesn't mean you want to give it away. Help keep it safe with a custom spare tire lock. Forged from hardened steel with triple-nickel plating, the lock is an effective yet inexpensive way to secure your spare tire from theft. The lock attaches to your spare tire's crank-down mechanism, while the key attaches to the crank-down tool in your Tundra toolkit.

[E] ALLOY WHEEL LOCKS

Now that you've found the right wheels for your Tundra, help protect them from theft with a set of wheel locks. Triple-nickel chrome-plated for superior corrosion resistance, these locks are precision-machined and weight-balanced to the stock lug nut weight. They're also through-hardened to help prevent removal by gripping tools and feature unique machined security patterns that require a special key to unlock.

[B]

[A] BedStep®

Get a boost into or down from Tundra's bed with a convenient BedStep®. Got your hands full? This ingenious retractable step is easily accessed or retracted with the touch of a foot. Built to support up to 300 pounds, the BedStep® is engineered with a die-cast aluminum alloy pivot that's anodized and Teflon®-coated to resist corrosion, and a nonslip composite step that's fiberglass-reinforced for added strength. The step also offers easy no-drill installation, mounting directly to the truck frame with two sturdy bolts.

[A]

[D]

[D] SKID RESISTOR™ BEDLINER

Whether you're hauling heavy lumber or bags of cement, our Skid Resistor™ Bedliner provides the ultimate in protection for your Tundra's bed, while preventing cargo from sliding around. Precision-crafted with an I-beam design and employing high-density polyethylene co-extrusion technology, the Skid Resistor™ Bedliner is designed to take whatever you can dish out.

[E] BRUSHED STAINLESS STEEL STEP BOARDS

Gain easy entrance to and exit from your Tundra, as well as access to the roof or windshield, with brushed stainless steel step boards. Featuring injection-molded skid-resistant pads, these heavy-duty step boards provide a secure step just outside each door. Designed to integrate with your Tundra's styling, they also match your Tundra's rear bumper pattern.

[E]

[B] BED MAT

Protect your hardworking truck bed with our durable bed mat. Custom-molded to Tundra's bed floor, this heavy-duty mat provides superior abrasion, tear and extreme-weather resistance. Its pebble texture is not only stylish, but also helps keep cargo from sliding around. Plus, raised ribs run the length of the mat to ease loading and unloading.

[C] BED EXTENDER

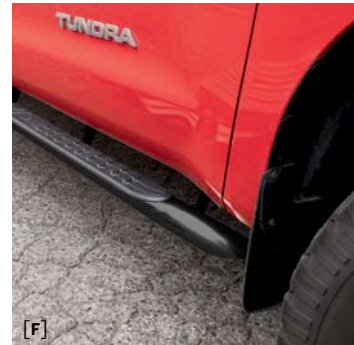

This versatile bed extender adds almost two feet of cargo length to your truck bed with the tailgate open and provides an enclosed cargo area to secure smaller items with the tailgate closed. Made with lightweight, high-strength aluminum tube construction, the extender is easy to install with the hardware provided.

[C]

[F]

[F]

[F] TUBE STEPS

Gain easy access into your truck's cab while enhancing its exterior with a set of tube steps. These sharp-looking steps feature injection-molded full-length skid-resistant pads on top of each tube to provide you with sure footing every time you get in or out of your truck. The steps integrate with your Tundra's styling and the step pads match the rear bumper step pattern. Available in either bright polished stainless steel or black powder-coat finishes.

[A] FRONT SKID PLATE

Shield your Tundra's underbelly from rough off-road terrain with a sturdy aluminum front skid plate. Precision-engineered for your Tundra's frame, the 1/8-inch stamped, silver powder-coated aluminum plate helps protect the front-end chassis components from rocks and debris. Black powder-coated steel brackets offer easy, no-drill installation to existing frame mounts.

[B] HOOD PROTECTOR

Protect your hood's factory paint finish from airborne debris with this durable hood protector. Constructed from highly impact-resistant polycarbonate material, the protector offers superior strength and flexibility. Mounting hardware and simple, no-drill installation instructions are included.

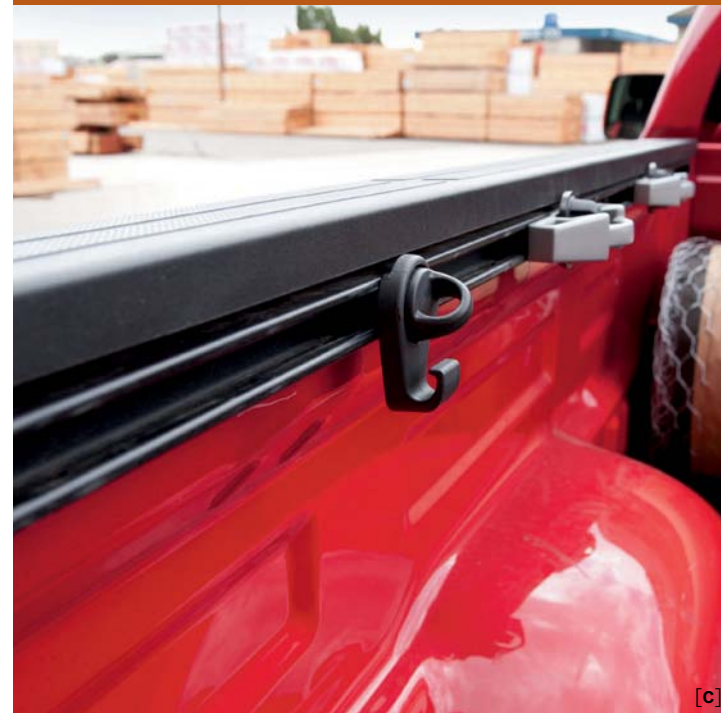

[C] DECK RAIL SYSTEM KIT

Add even more versatility to your Tundra with the Deck Rail System. Constructed from galvanized steel for superior strength, the tough deck rails feature a black powder coating for lasting corrosion resistance. The Deck Rail System includes four die-cast aluminum tie-down cleats rated for loads of up to 880 pounds (220 pounds each) and offers instant access to secure tie-down points.

[D] MINI TIE-DOWNS WITH HOOK³

Maximize your Tundra's functionality with a set of two fully adjustable mini tie-downs with utility hook. Manufactured from durable black nylon, the tie-downs slide along Tundra's Deck Rail System to your desired location and anchor in place with a steel locking plate and screw knob. Each mini tie-down is rated for a maximum load of 110 pounds, while the hooks are rated for up to 50 pounds.

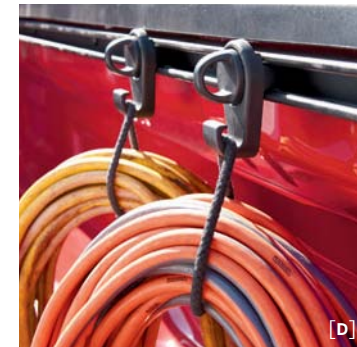

[E] TIE-DOWN CLEATS³

Instantly enhance the functionality and versatility of your Tundra's bed with an additional set of tie-down cleats. Constructed of sturdy die-cast aluminum, each fully adjustable cleat is rated for a maximum load of 220 pounds. The cleats slide along Tundra's Deck Rail System and are anchored where needed using a steel locking plate and large screw knob.

[F] LOCKING FORK MOUNT BIKE RACK³

Transporting your bike to the trailhead is easy with a Locking Fork Mount Bike Rack. Precision-crafted to work with your Tundra's Deck Rail System, the rack helps protect your bicycle from theft and from sliding in the truck bed on the way to your destination. Simply remove your bike's front wheel, position its forks into the skewer and lock it in place.

[A]

[A] COLOR-MATCHED HARD TONNEAU COVER⁵
Secure and protect your cargo with a sleek tonneau cover. Its exclusive V-Tech™ honeycomb-layered composite construction makes for a cover that's strong and extremely durable yet lightweight. A center-mount locking system guards against theft, while allowing the cover to be locked or unlocked in a single step. Plus, its patented V-Hinge™ Quick-Release hinge system allows for easy removal and reinstallation. Color-keyed to your Tundra's exterior, the cover offers a superior finish with molded-in color thermoplastic technology.

[B]

[B] PAINT PROTECTION FILM
Keep your Tundra pristine with our paint protection film. Made of a durable, clear urethane material, this nearly invisible film helps guard against the damaging effects of sand, stones, insects and other airborne debris encountered every day. Applied at the factory or by a trained technician at your dealership, the film covers all your Tundra's frontal impact areas, including the hood and fenders.

[A]

[c]

[c] EXHAUST TIP
Put the finishing touch on your Tundra's exterior look with a custom exhaust tip. V6 models get a corrosion-resistant polished stainless steel exhaust tip (pictured), while V8 models sport a single-wall chrome tip with an angled end cut and a Toyota logo. Both offer easy bolt-on installation.

INTERIOR

Even straight from the factory, your Tundra's interior is extremely well equipped. Still, you might have specific plans for your full-size truck. Count on Genuine Toyota Accessories to help you fully customize your cab.

[A] CARPET FLOOR MATS⁶

Add style to your interior while protecting your original carpet from wear and stains with a set of four custom-tailored floor mats. Featuring an embroidered Tundra logo on the front two, these plush carpet mats are crafted with durable nylon fiber and feature a no-slip backing to keep them in place. As with all Genuine Toyota floor mats, the driver's-side mat is engineered to work with the vehicle's position retention hooks to keep these mats in place during normal everyday use.

[B] ALL-WEATHER FLOOR MATS⁶

Constructed from a high-quality thermoplastic polymer, these lightweight and durable Genuine Toyota all-weather floor mats help protect your Tundra's original factory carpet. Their distinctive ribbed channel design helps contain moisture, dirt and other debris, yet they are easy to clean. Sturdy retention hooks, along with ribbed backing, help keep them anchored in place. Each of the four black mats features a debossed gray Tundra logo and is 100% recyclable.

[C] DOORSILL PROTECTORS

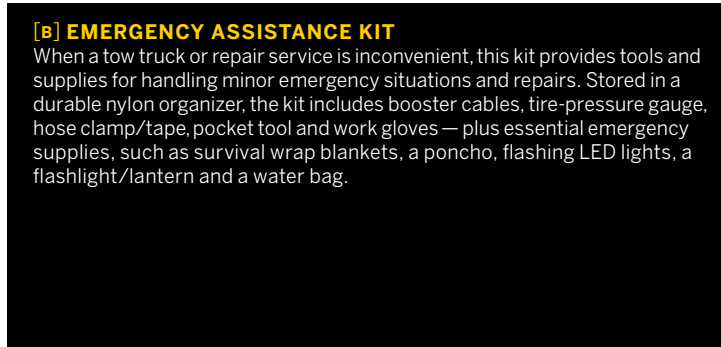

Help protect your doorsills from scuffs and scratches with a set of black doorsill protectors. Molded from durable vinyl and easy to install, the protectors provide a skid-resistant surface that helps keep your truck looking sharp. Plus, they feature a Tundra logo to further complement your truck's appearance.

[A] FIRST AID KIT

Featuring a soft-sided black PVC zipper case, this first aid kit is designed to mount inside the cabin or cargo area, ensuring that first aid supplies are always close at hand. The kit includes tweezers/magnifier, insect sting pads, towelettes, adhesive bandages, butterfly strips, sterile gauze, a stretch bandage with metal clips, a muslin sling, adhesive tape, scissors and an emergency blanket.

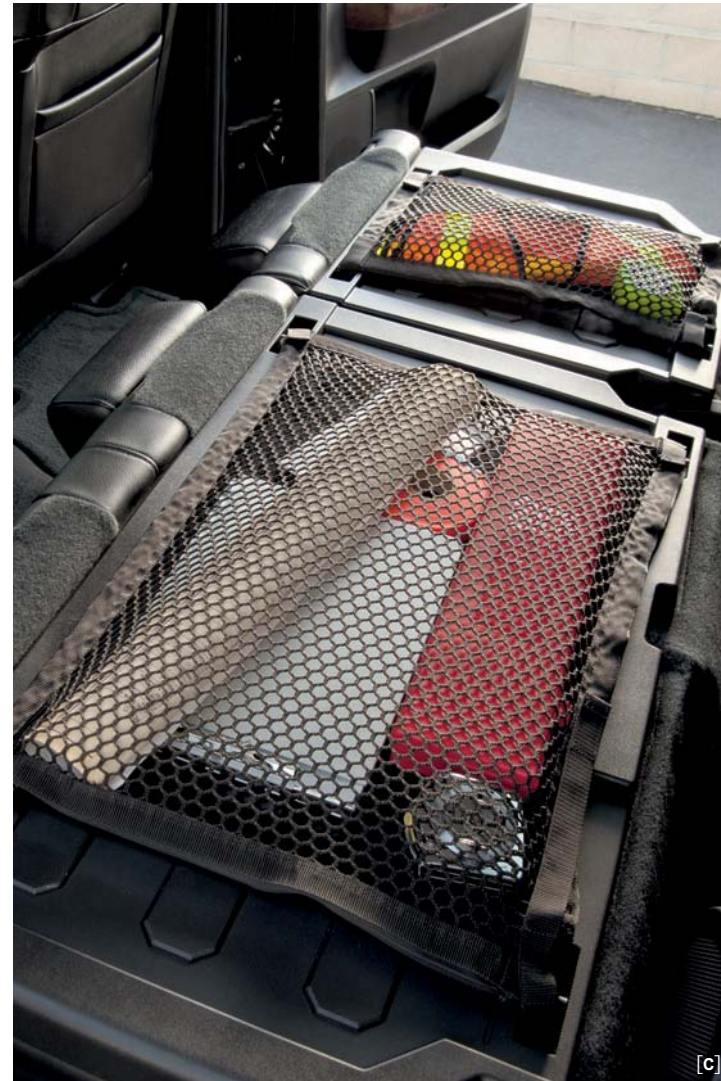

[B] EMERGENCY ASSISTANCE KIT

When a tow truck or repair service is inconvenient, this kit provides tools and supplies for handling minor emergency situations and repairs. Stored in a durable nylon organizer, the kit includes booster cables, tire-pressure gauge, hose clamp/tape, pocket tool and work gloves — plus essential emergency supplies, such as survival wrap blankets, a poncho, flashing LED lights, a flashlight/lantern and a water bag.

[B]

[C]

[C] SEATBACK CARGO NET

Designed for use in your Tundra CrewMax, this pair of seatback cargo nets helps you keep gear in place when the going gets rough. Manufactured from strong nylon netting, they feature zippered side openings on their outer edges to make them easily accessible. Simply tilt the rear seats forward or fold the seats down. Plus, they're easy to attach and remove thanks to the Velcro® straps provided.

[D]

[D] UNDER-SEAT STORAGE

Now you can keep everything from tow chains to small sports equipment from rolling around the cabin of your truck. Made exclusively for Tundra Double Cab, this custom under-seat compartment is molded from durable ABS plastic and designed to maximize the storage capacity of your Double Cab by utilizing the space beneath the rear bench seat. It also includes a lid to help make sure the contents stay put, no matter what the road dishes out.

ELECTRONICS

Adding advanced electronic features to your truck is nothing to mess around with. When it comes to your Tundra, don't take a chance on third-party manufacturers. Always rely on Genuine Toyota Accessories.

[A] WIRELESS HEADPHONES⁷

When your passengers' entertainment tastes don't match your own, our stylish wireless headphones can restore harmony to the cabin. Fully adjustable and cushioned for comfort, these lightweight headphones link to the rear-seat DVD entertainment system, providing rich, dynamic sound. Individual volume controls allow each passenger to set the sound to their own levels. Plus, an auto-off mode helps extend battery life.

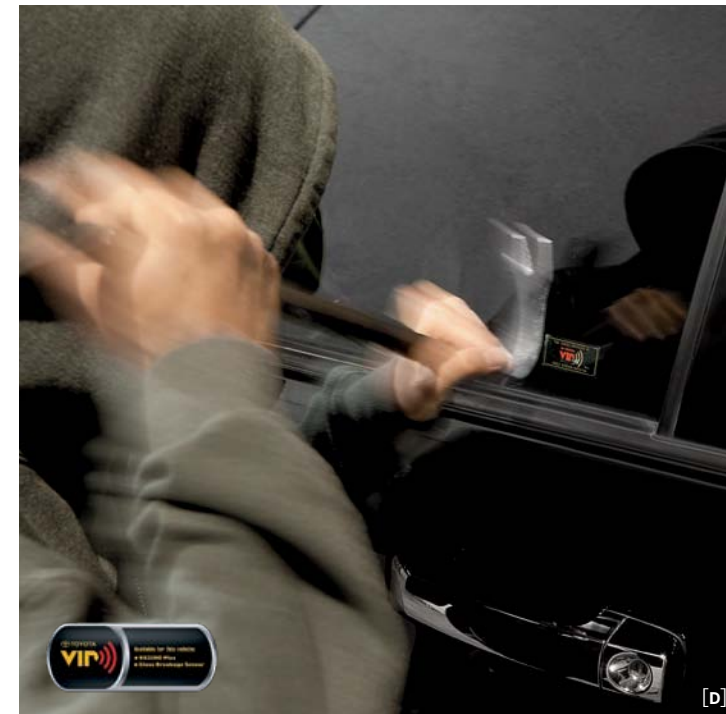

[B] SiriusXM SATELLITE RADIO⁸

Make your driving soundtrack commercial-free with SiriusXM Satellite Radio capability. You'll enjoy more than 170 channels of your favorite music, sports, news, talk and entertainment programming. Plus, you'll get dedicated channels for instant traffic and weather reports to help keep you informed of what the road ahead may bring.

[C] REMOTE ENGINE STARTER

When the weather outside is less than accommodating, a Remote Engine Starter allows you to set your Tundra's cabin to the ideal temperature before it's time to get in. This convenient accessory lets you start the engine and activate the air conditioner, heater, defroster and defogger at their last settings, all from a more comfortable location. It's fully integrated into your factory security/keyless entry system, so there's no need for an additional remote.

[D] VIP SECURITY⁹

The Vehicle Intrusion Protection (VIP) RS3200 Plus is a complete vehicle security system with alarm and Glass Breakage Sensor (GBS) for vehicles that have factory keyless entry. The system is activated immediately if glass is broken or if a forced door entry is attempted. Its wide range of security and convenience features includes: automatic rearming and relocking, door-ajar warning, interior light activation, panic alarm, warn-away alarm, rolling code technology and starter disabling.

Toyota Racing Development (TRD) offers a rugged line of products designed to enhance performance without compromising the integrity of your Tundra. Available exclusively through Toyota dealers and backed by a factory warranty, TRD products are specifically engineered to meet Genuine Toyota quality and performance standards.

[A]

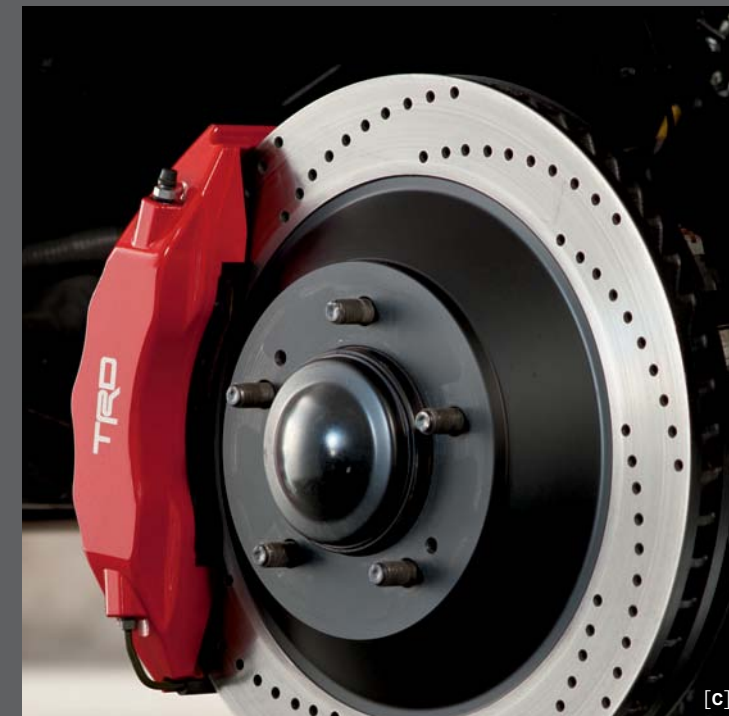

[B]

[A] TRD 17-INCH FORGED OFF-ROAD ALLOY WHEELS

Our TRD 17-inch forged off-road alloy wheels are the ideal upgrade for any off-road enthusiast. Lighter than their cast counterparts, hot forged wheels have a superior strength-to-weight ratio, helping keep corner weight down while maintaining original unsprung weight dynamics. The race-inspired wheels feature a 6-spoke design, silver-painted finish and machined outer lip with beadlock styling.

[B] TRD WHEEL INSTALLATION KIT

Treat your Tundra to a set of TRD wheels with the help of a TRD wheel installation kit. Designed for use with 14-millimeter conical-seat lug nut applications, the kit includes 16 spline-drive lug nuts, a socket, four TRD wheel locks and a unique wheel-lock key.

[C]

[C] TRD HIGH-PERFORMANCE BRAKE KIT

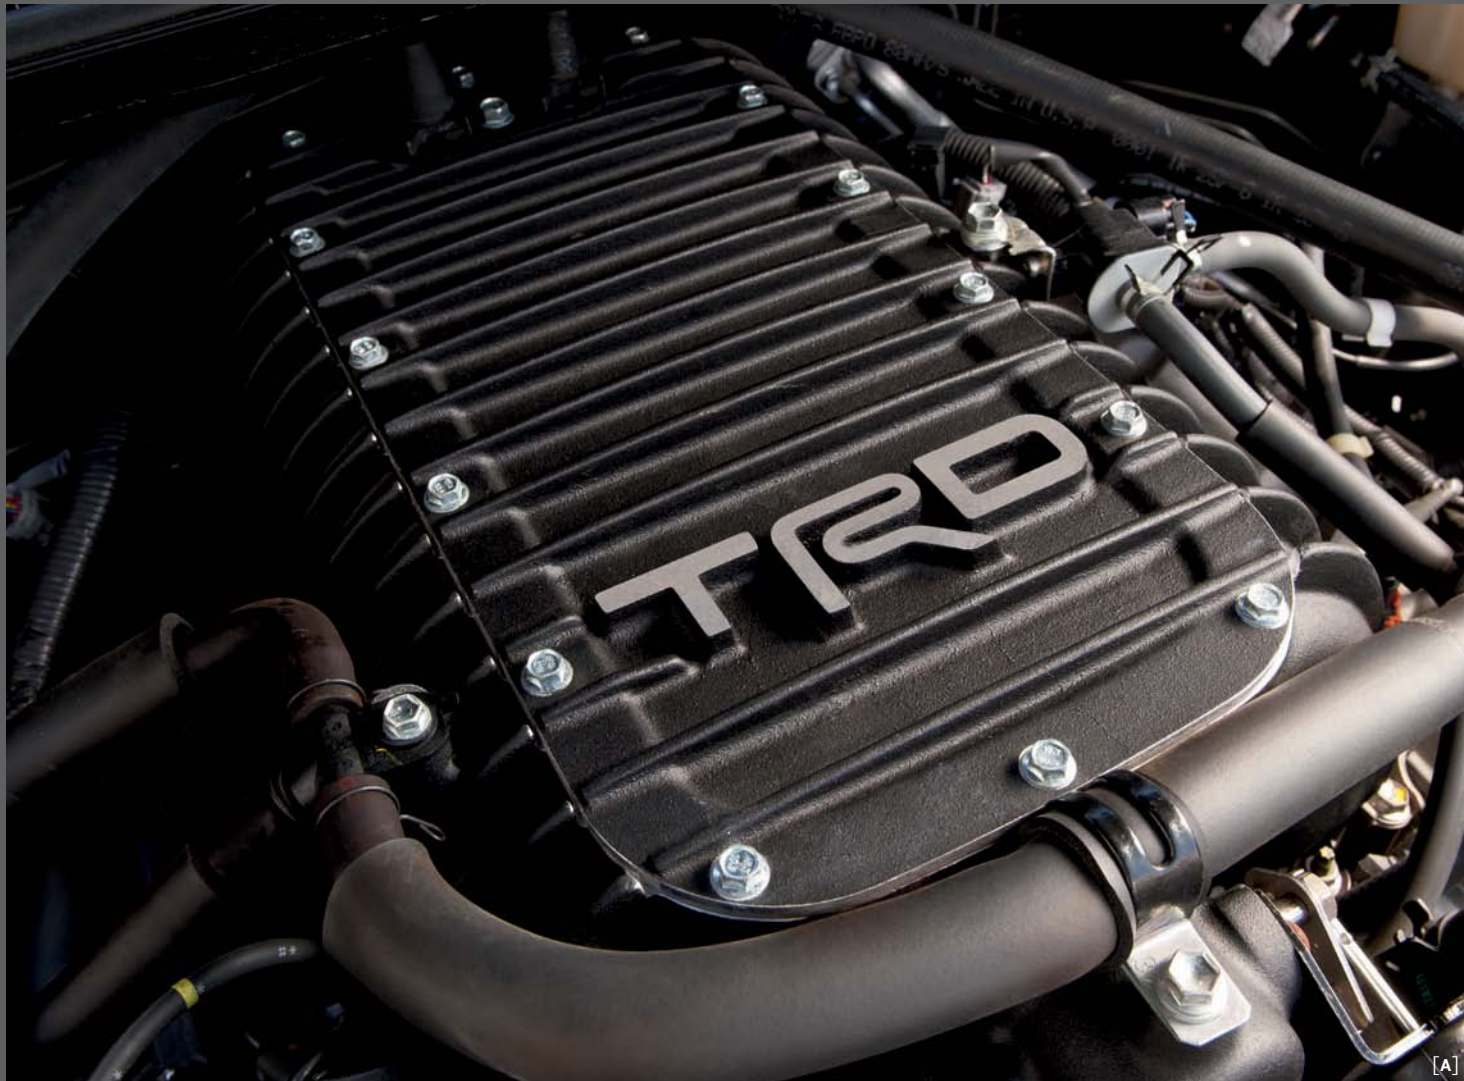

Realize your Tundra's maximum stopping power with a TRD high-performance brake kit. Designed specifically for your Tundra, the kit features a six-piston opposed, fixed caliper, performance brake pads and stainless steel braided brake lines. Its one-piece rotor design ensures durability under the harshest conditions with no special maintenance required.

[D] TRD PERFORMANCE BRAKE PADS

Boost your braking performance with a set of TRD performance brake pads. Made from an aramid- and ceramic-strengthened compound, TRD brake pads deliver an optimum combination of cold and hot friction with minimal brake noise and reduced fade during repeated stops or extended downhill driving. They offer an excellent price-to-performance ratio for high-performance street pads.

[D]

[A]

[A] TRD SUPERCHARGER¹

Engineered for the 5.7-liter V8, this TRD supercharger kit features an air-to-liquid intercooled system that substantially increases torque and horsepower from idle to redline. Emissions-legal in all 50 states, the kit produces 504 hp at 5500 rpm and 550 lb.-ft. of torque at 5400 rpm (from 381 hp at 5600 rpm and 401 lb.-ft. of torque at 3600 rpm).

[B] TRD CAT-BACK EXHAUST SYSTEM

Upgrade your Tundra's appearance as well as its performance. Constructed of durable grade 304 stainless steel, this system helps reduce exhaust back pressure for improved horsepower and added low- to mid-range torque. It uses the factory hangers and features polished tips with a stamped TRD logo.

[B]

[C]

[C] TRD PERFORMANCE AIR INTAKE¹

Boost your Tundra's engine output with a TRD Performance Air Intake. This system helps create more power by channeling cooler, denser air to your engine from out in front of the vehicle, instead of hot air from the engine compartment. It replaces the upper half of your stock air box, air filter and inlet hose assembly, and features a unique Intake Flow Accelerator (IFA), an injection-molded, larger-volume upper air box and a reusable TRD high-flow conical air filter. The TRD Performance Air Intake system is emissions-legal in all 50 states.

[A] TRD SHOCK ABSORBERS

Take your Tundra's handling to the next level with a set of TRD shock absorbers. These race-inspired shocks enhance performance by delivering a firm, well-managed ride without excessive harshness. The high-strength shocks and struts use more aggressive valving, helping to reduce body lean and providing better overall response and cornering performance.

[A]

[B] TRD PERFORMANCE HANDLING SUSPENSION KIT

Get a handle on the road with this complete performance-tuned handling package. Engineered specifically for 2WD Tundra applications, the kit includes TRD-tuned shocks, front coil springs, rear leaf springs, rear sway bar and all required hardware, including bump stops. The kit lowers the Regular Cab 40 millimeters in the front and 60 millimeters in the rear, and lowers the Double Cab and the CrewMax 60 millimeters in the front and 70 millimeters in the rear.

[B]

[C]

[C] TRD REAR SWAY BAR

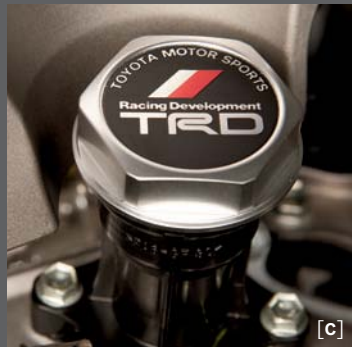

Enhance your Tundra's cornering capabilities with this TRD rear sway bar. Its high-quality spring steel construction adds stiffness and durability, while a corrosion-resistant, gloss-red powder-coat finish helps protect it from the elements and from road damage.

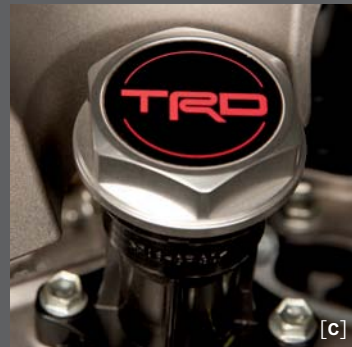

[A]

[A] TRD AIR FILTER

Enhance your Tundra's engine breathing with a TRD air filter. This high-performance filter employs a unique oiled four-ply cotton gauze that maximizes the media area for superb filtration and enhanced airflow. Its rugged polyurethane body encloses the filter element in a durable epoxy-coated mesh and includes an elastomeric seal for a leak-free fit. Designed to last the lifetime of your Tundra, it's washable, reusable and helps provide engine protection while ensuring maximum engine output.

[c]

[c]

[D]

[c] TRD FORGED OIL CAP

Get a custom, race-ready look with a TRD oil cap. Forged with highly polished billet aluminum and finished with a high-luster red coating, it will maintain its sharp appearance for years to come. Available in two styles.

[D] TRD RADIATOR CAP

Provide valuable protection for your engine under high rpm and high loads with a TRD high-pressure radiator cap. This radiator cap is designed to release at higher cooling-system pressures than stock radiator caps, raising the coolant boiling point and enhancing vehicle performance.

[B] TRD OIL FILTER

Give your engine state-of-the-art engine protection with a high-performance TRD oil filter. TRD oil filters use a 100% synthetic fiber filtration medium to provide the highest possible dirt-removal efficiency, along with the lowest possible flow restriction.

[B]

ALWAYS GO WITH GENUINE TOYOTA ACCESSORIES

When it comes time to make your Toyota your own, remember only Genuine Toyota Accessories are designed, tested and approved specifically for your Toyota vehicle. Plus, when you purchase them at the same time as your new vehicle, Genuine Toyota Accessories are backed by Toyota's 3-year/36,000-mile New Vehicle Limited Warranty, valid at any Toyota dealership nationwide.

To learn more about Genuine Toyota Accessories and to see how they'll look on your Tundra with our comprehensive Build Your Toyota feature, please visit toyota.com

DISCLAIMERS

1. The TRD Supercharger and/or TRD Performance Air Intake are to be sold as a dealer-installed or over-the-counter option, after the retail sale of the vehicle. The Supercharger and/or Performance Air Intake may not be sold to the customer at the same time as the new vehicle and may not be financed together with the new vehicle. The TRD Supercharger is not compatible with Flex Fuel Vehicles. Emissions-legal for aftermarket sale via C.A.R.B. Executive Order. **2.** Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with new SAE J2807 method. **3.** Requires Deck Rail System kit. **4.** 20-inch performance tires are often expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy, depending upon tires used and driving conditions. **5.** See dealer for specific color availability. **6.** This floor mat was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat must be secured with retention hooks/clips. Do not install a floor mat on top of an existing floor mat. **7.** Headphones are for passenger use only. Do not use while operating vehicle. **8.** XM services require a subscription after trial period, and are sold separately or as a package. **Subscriptions governed by SiriusXM Customer Agreement; see www.siriusxm.com. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. **9.** Available for vehicles with factory remote keyless entry.
