**FordPass Connect (optional on select vehicles), the FordPass App., and complimentary Connected Service (excluding Wi-Fi Hotspot) are required for remote features (see FordPass Terms for details). Connected service and features depend on compatible Bell network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Certain restrictions, 3rd-party terms or message/data rates may apply. At purchase, the FordPass Connect modem is connected and sending vehicle data (e.g., diagnostics) to Ford (excludes F150, F650/F750, E-Series, Ford GT). Vehicle data is stored by Ford Motor Company in the United States and may be accessible by US governmental authorities. To disable, or for more information, see in-vehicle connectivity settings. Learn more at www.FordConnected.com.

*Wi-Fi hotspot includes wireless data trial that begins at time of activation and expires at the end of 3 months or when 3GB of data is used, whichever comes first (after which, data plan required).

†Hotspot can connect up to 10 Wi-Fi-capable devices, using data from the additional data plan. Once a device connects, it can automatically reconnect and use data from this additional data plan unless hotspot is removed from returning device settings or hotspot password is changed. Performance varies based on number of devices connected and other factors.

‡Available in select cities.

§Where available. Some restrictions apply.

*Roadside assistance is subject to your vehicle's coverage and may not be available for all makes and models of vehicles.
