

2013 **ALL-NEW ESCAPE**

Go Further

Sleek. Smart. More fun than ever.

The all-new 2013 Ford Escape, Canada's #1 SUV,¹ just got better. We put more into it so you can get more out of it. EcoBoost® engines² employ turbocharging and direct injection to help it deliver a remarkable balance of power and fuel efficiency. Our class-exclusive³ hands-free liftgate² utilizes motion-sensing technology to provide easy access to the cargo area. The carefully crafted interior offers more cargo space than ever – up to 1,920 litres (67.8 cu. ft.). And you'll be connecting, navigating and manoeuvring with the utmost ease and confidence thanks to some of its most advanced features ever. Introducing modern capability and functional technology. Go further in a 2013 Escape.

Titanium. Ginger Ale Metallic. Available equipment.

¹Based on YTD December 2011 R.L. Polk vehicle registrations data for Canada in the Large Premium Utility, Large Traditional Utility, Large Utility, Medium Premium Utility, Medium Utility, Small Premium Utility and Small Utility segments. ²Available feature. ³Class is Small Utilities vs. 2012/2013 competitors.

2013 **ALL-NEW ESCAPE**
ford.ca

Powers each drive with exhilarating efficiency.

Delivers the best of both worlds: EcoBoost.

Get plenty of power out of every drop of fuel with EcoBoost® technology that helps to produce a cooler, denser fuel injection charge. Available in 1.6L or 2.0L, EcoBoost engines maximize performance with twin independent variable camshaft timing (Ti-VCT), while 2 different technologies – turbocharging and direct injection – work together to deliver plenty of low-end torque for acceleration and passing.

Offers you 3 powerful options.

Choose the 1.6L EcoBoost 4-cylinder engine¹ for the most efficient Escape: 9.1L/100 km city and 6.0L/100 km hwy (31 mpg city/47 hwy).² Or go for power and performance with the 2.0L EcoBoost 4-cylinder engine,¹ which delivers 240 hp and 270 lb.-ft. of torque, plus an impressive 9.5L/100 km city and 6.7L/100 km hwy (30 mpg city/42 hwy).² The 2.0L easily enables Escape to tow up to 1,588 kg (3,500 lbs.) when properly equipped. Both EcoBoost engines and the standard 168-hp 2.5L Duratec® 4-cylinder are mated to our 6-speed SelectShift Automatic® transmission with Sport Mode.

Engages the road. Cheats the wind.

As you accelerate through corners, Torque Vectoring Control seamlessly enhances your hold on the road. Electric power-assisted steering enables pull-drift compensation to help correct for road irregularities and improve overall steering feel, plus active nibble control to help smooth out minor vibrations. The all-new Escape can even make itself more aerodynamic and fuel efficient with its class-exclusive active grille shutters.³ When closed, they help to reduce vehicle drag caused by air travelling through the engine compartment.

6.0L/100 km (**47**MPG) HWY²
9.1L/100 km (**31**MPG) CITY²

Titanium. Ginger Ale Metallic. Available equipment.

¹Available feature. ²9.1L/100 km city and 6.0L/100 km hwy (31 mpg city/47 hwy), 1.6L EcoBoost FWD. 9.5L/100 km city and 6.7L/100 km hwy (30 mpg city/42 hwy), 2.0L EcoBoost FWD. Fuel consumption ratings based on Transport Canada approved test methods. Actual fuel consumption will vary. See specifications for details. ³Standard on 1.6L EcoBoost and 2.5L 4-cylinder engines.

2013 **ALL-NEW ESCAPE**
 ford.ca

Comforts with increased space. Ready to lend you a hand.

The spacious, all-new Escape features more hip room, more 2nd-row leg room and more rear cargo room than ever before. Heated front seats are standard on SE, SEL and Titanium for extra comfort when it's cool outside. A variety of environmentally friendly materials are used throughout, including recycled plastic bottles that go into the carpeting. Scrap cotton from jeans, sweaters, T-shirts and the like are used in the sound-absorption material. Plus, the vehicle itself is over 85% recyclable after it's been driven its last kilometre. Escape also offers up to 1,920 litres (67.8 cu. ft.) of cargo space and a class-exclusive, hands-free liftgate.¹ Simply move your foot under the rear bumper in a gentle kicking motion while the Intelligent Access¹ key fob stays tucked away in your pocket or purse. Sensors detect your leg and the motion, triggering the liftgate to open. The same action triggers it to close. Ease your day with smart technology in the 2013 Ford Escape.

Titanium. Charcoal Black full leather trim. Available equipment.

¹Available feature.

2013 **ALL-NEW ESCAPE**
ford.ca

Keeps you connected on the go.

No more searching for your phone. No device on your ear. Once paired, voice-activated Ford SYNC^{®1} recognizes your phone and automatically transfers your contacts to support voice calling. It also plays music from your phone, MP3, USB or iPod.[®] Just touch a button on the steering wheel and say things like “Call: John at work,” or “Play playlist: roadtrip.” SYNC also includes 911 Assist[®] with GPS location reporting. SYNC. Say the word.

With SiriusXM[®] Satellite Radio,² you can listen to your favourites all across Canada. Your 6-month prepaid subscription gets you the best in audio entertainment including 100% commercial-free music from every genre, world-class news, sports, comedy and entertainment.

Titanium. Charcoal Black full leather trim. SYNC with MyFord Touch.[™] Available equipment.

¹Available feature. Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so. SYNC with MyFord Touch offers voice recognition and screens in English, French and Spanish. Some features may be locked out while the vehicle is in gear. ²Available feature. SiriusXM Satellite Radio subscriptions sold after 6-month prepaid period expires. Subscriptions are governed by SiriusXM Customer Agreement; see sirius.ca.

Makes it easy to make plans.

Incoming text? Let SYNC^{®1} with MyFord Touch^{™1} read it aloud from your paired phone. The system even translates common emoticons and abbreviations, like :-) and LOL. Simple graphics and fast touch-screen responses make it easy to control your phone, entertainment, navigation² and climate with this voice-activated system. SYNC with MyFord Touch includes a class-exclusive 8" LCD touch screen, an LCD screen in the gauge cluster, 5-way controls on the steering wheel, and a media hub with class-exclusive dual USB ports.

Upgrade to the Navigation System² for interactive maps you can zoom and scroll – complete with 3D landmarks. Choose Eco Route on the voice-guided turn-by-turn directions for a recommendation on the most efficient way to travel.

This remarkable system recognizes literally thousands of voice commands, everything from “set temperature to 20 degrees” to “destination nearest park.” It’ll help you make the most of every day and every drive – while keeping both hands on the wheel and your eyes on the road. Simple, safe and smart.

¹Available feature. Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so. SYNC with MyFord Touch offers voice recognition and screens in English, French and Spanish. Some features may be locked out while the vehicle is in gear. ²Available feature.

Intelligently adapts to your day.

Escape with Intelligent 4WD¹ is always ready for adventure. Assessing conditions about 20 times faster than the blink of an eye, the system readjusts as needed to deliver the right blend of handling and traction at all times. It's beneficial in all weather conditions, and provides excellent off-road traction. Plus, it's already proven itself in challenging test environments around the globe, from North America to Austria to New Zealand and beyond. This seamless, on-demand system is our most advanced Intelligent 4WD ever. Make your Escape.

SEL. Ruby Red Metallic Tinted Clearcoat. Titanium. Ginger Ale Metallic. Available equipment.

¹Available feature.

2013 **ALL-NEW ESCAPE**
ford.ca

Steers itself into parallel spots.

One of the most challenging and avoided driving manoeuvres is no longer a problem. Just press a button and listen for active park assist¹ to alert you when it has located an appropriate parallel parking spot. Then, take your hands off the wheel and Escape will literally steer itself into place. You simply follow system prompts to shift gears and control the brake and accelerator pedals. You'll be parked and on with the day's adventure in practically no time at all. Class-exclusive active park assist is part of our comprehensive Parking Technology Package² which also includes a class-exclusive Forward Sensing System, BLIS[®] with cross-traffic alert, a rear view camera and rain-sensing windshield wipers.

Warns of traffic you may not notice. Displays your rear view on screen.

As you slowly back out of a parking spot or driveway, BLIS (Blind Spot Information System) with cross-traffic alert¹ is designed to scan for vehicles approaching from either side. If any are detected, the system alerts you with a chime, a message centre warning and an amber light in the corresponding sideview mirror.² While you're driving, BLIS uses the same amber lights to alert you if traffic is detected in your blind spots. The rear view camera¹ also shows you what's behind the vehicle whenever you're in Reverse. Its built-in distance guide and dotted centre line really come in handy when you need to hook up a trailer.

¹Available feature. ²BLIS replaces standard integrated blind spot mirrors. Driver-assist features are supplemental and do not replace the driver's judgment.

Maximizes grip to keep adventures on track.

If it senses you're taking a curve too quickly, Curve Control can help slow the vehicle by as much as 16 km/h in approximately one second! It's the latest enhancement to our AdvanceTrac® with RSC® (Roll Stability Control™) – standard on every new Escape. Curve Control is effective on dry or wet pavement and is particularly useful on highway off ramps. Trailer sway control (TSC), included with the Class II Trailer Tow Prep Package,² monitors the motion of the vehicle and detects trailer sway. If needed, TSC reduces engine speed and selectively applies the brakes to help you maintain control of both the vehicle and the trailer.¹ In addition, there are 7 airbags standard on every Escape, including a driver's knee airbag and new front-seat side airbags that use innovative tunnel-vent technology to adjust airbag pressure based on the stature of the occupant.

SEL. Ruby Red Metallic Tinted Clearcoat. Available equipment.

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ²Available feature.

2013 **ALL-NEW ESCAPE**
ford.ca

Takes tech to new heights.

The all-new Escape offers many of our latest advancements. For entertaining, there's the full-bodied sound of the 10-speaker 390-watt Audio System from Sony.[®] Push-button start works with the Intelligent Access key fob tucked away in your pocket or purse. Standard MyKey[®] enables parents of young drivers to block calls and reduce audio volume while driving. Up top, a fabric mesh deflector on the panoramic Vista Roof[®] helps provide quiet performance along with fresh air.

Audio System from Sony[®]

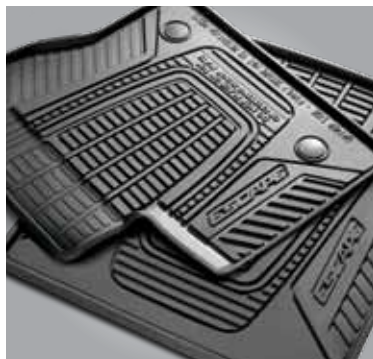

Class-exclusive MyKey

110-volt power outlet¹

Intelligent Access with push-button start¹

Power panoramic Vista Roof¹

¹Available feature.

Create a more meaningful driving experience: Connect with Ford Custom Accessories for authentic personalization possibilities. The cost of select accessories – ordered and paid for at the time you buy or lease your Escape – can be rolled into your monthly payment. And coverage for select accessories falls under the New Vehicle Limited Warranty. See your Ford of Canada Dealer for details.
