Platinum Shield

Protect your Investment

Primary Paint Protection

- Protects & enhances the clear coat finish
- Eliminates waxing
- Protects against Fading, Oxidation, Corrosion and Cracking caused by UV rays, road salt, sand, dirt, grime, ice, air pollution and humidity
- Easier to clean and maintain clean
- Adds longer life to the vehicle's paint

Primary Interior Protection

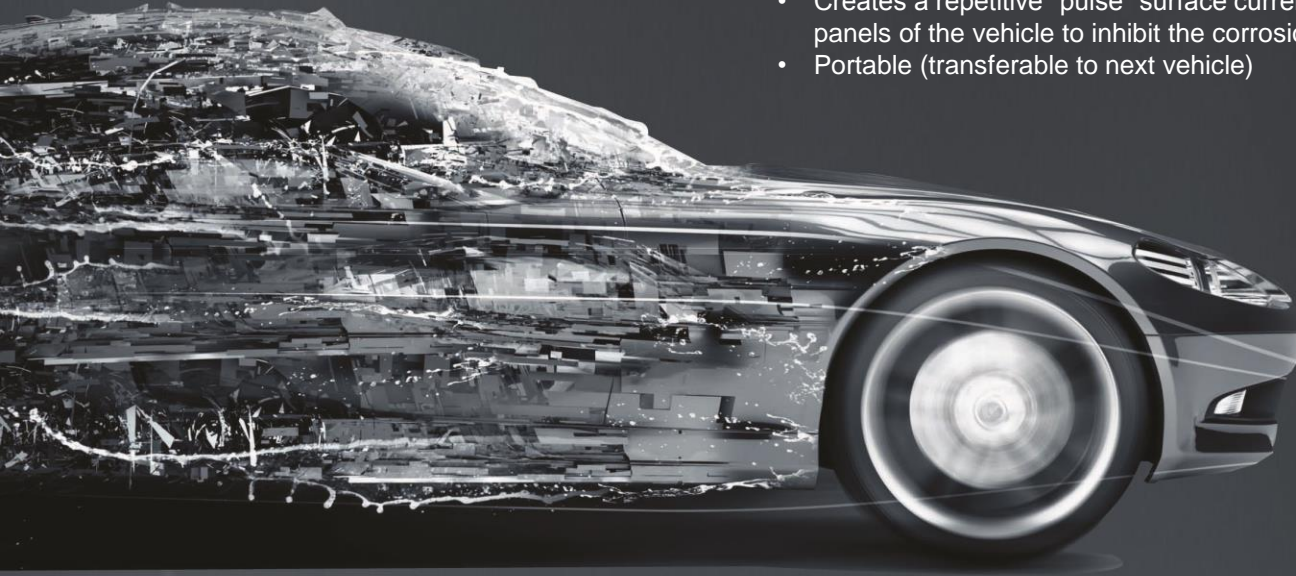

- Specially formulated to coat each individual fiber to repel spills and stains caused by liquids
- Superior formula allows for easy clean-up
- Invisible barrier prolongs fabric/leather life and helps prevent fading, staining and cracking even from ultra violet rays
- Retains its effectiveness, even after numerous spills
- Resist mold, mildew and some odors

Undercoating

- Pliable sealant that will not peel, flake, blister, crack, or freeze
- Protects vulnerable high impact areas against road salt, dirt, ice, snow and humidity
- Reduces road noise and helps insulate vehicle from heat and cold

Corrosion Control Module

- Protects all grounded body panels of the vehicle from salt, humidity, acidity, and exposed metal (spot welds, stone chips where rust usually starts)
- Creates a repetitive "pulse" surface current which is distributed to grounded body panels of the vehicle to inhibit the corrosion process
- Portable (transferable to next vehicle)
