THE 2021 TACOMA

Powerful in every way.

Style, muscle, performance. Check, check, and check.

From serious payloads to serious adventure, the 2021 Tacoma is ready whenever you are - because this is not a truck to be taken lightly. It's a piece of serious engineering, built to take everything you and the world can throw at it, and still come back for more. Backed by 80 years of truck heritage, Tacoma has the power and capability to conquer the toughest jobs and the most extreme terrain with ease. It's a pickup that outperforms expectations, while demanding attention with its sculpted, athletic lines and premium interior accents. Feature for feature, and pound for pound, there's no other truck as capable of turning heads as it is of moving mountains.

[TRD PRO: Learn More](#)

INGENIOUS CAPABILITY

Design that goes deep.

Capability that goes beyond the expected.

Toyota Pickups are ingeniously capable and built for serious adventure. Tacoma delivers beyond your expectations not just in how it looks, but in how it's actually built and designed. The Tacoma has a high strength, triple tech frame to improve rigidity as well as ride and handling. The bed itself is made of an ultra-durable, fibre-reinforced sheet-moulded composite surface that is dent-resistant and corrosion-free, with a greater impact strength than steel. The convenient deck rail system lets you quickly secure your loads, while the easy access 120 V/400 W power outlet in the bed gives you the power you need for onsite projects. More than you expected? Perfect – that's just how we planned it.

STYLISH DESIGN

Comfort meets cool.

It's capable on the inside too.

As rugged and powerful as it is, the 2021 Tacoma also makes plenty of room for comfort and style. The sporty interior was designed with sophisticated soft-touch materials to enrich your driving experience. And while you maintain your grip on the road, you don't have to lose touch with anything in the outside world, thanks to an array of intuitive tech like standard Apple CarPlay™¹ and Android Auto™¹ compatibility, 4.2" TFT Multi-Information Display, Backup Camera and available features such as Qi Wireless Charging, Blind Spot Monitor with Rear Cross Traffic Alert and Intelligent Clearance Sonar.

2021 TACOMA

TOWING & PAYLOAD

Overbuilt to perform.

Toughness. It's built right in.

Tacoma's ingenious pairing of sheer power and brute strength make it the most exciting truck on and off the road today. The 3.5 L Atkinson cycle V6 engine with D-4S Fuel Injection is particularly impressive, offering 278 hp at 6,000 rpm and 265 lb.ft. of torque at 4,600 rpm. The 6-speed automatic transmission with available electronic shift helps to deliver quick and easy shifting, while also improving fuel economy. Couple that with a towing capacity of up to 6,500 lbs² and a finely-tuned suspension for smooth on-road and "go anywhere" off-road performance, and you'll be able to make the most out of any obstacle. That's not just strong. That's Tacoma strong.

Ready for everything.

TRAILER-SWAY CONTROL (TSC)

Weather, road, and steering conditions can result in dangerous trailer sway. Tacoma's TSC is a system that detects trailer sway and applies brake pressure at individual wheels and controls engine torque to help stabilize the trailer. The system also illuminates the stop lamps to alert you to the fact that your vehicle is decelerating.

BILSTEIN SHOCKS AND ABSORBERS

Available Bilstein shocks help soak up the heavy dips and bumps to deliver a ride so comfortable, you'll mistake the off-road for the blacktop. Tacoma also offers ventilated front disc brakes that deliver confident stopping power no matter how bad the road or weather conditions are.

CRAWL CONTROL

Available Crawl Control automatically adjusts acceleration and braking when driving over jagged off road terrain or on slippery surfaces and minimizes wheelspin and wheel lock-up.

MULTI-TERRAIN SELECT

The available Multi-Terrain Select system regulates wheelspin by automatically adjusting the engine throttle and brakes, helping improve traction.

SAFETY

[Click to Learn More](#)

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™³ (TSS-P) is always there to help keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2021 Tacoma, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

DYNAMIC RADAR CRUISE CONTROL⁴

Using forward sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

LANE DEPARTURE ALERT WITH STEERING ASSIST⁵

Alerts you if you start to drift out of your lane when visible lane markings are detected. The Steering Assist function may also provide small corrective steering inputs.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION⁶

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection may also help to detect pedestrians and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS⁷

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

— NEW VEHICLE WARRANTY COVERAGE —

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

BASIC

36 months/60,000 kms whichever comes first (all components that are defective in material or workmanship excluding normal wear and maintenance items).

36 MONTHS

OR

60,000 km

POWERTRAIN

60 months/100,000 kms (engine, transmission/transaxle, front-wheel-drive system, rear-wheel drive, seatbelts and airbags).

60 MONTHS

OR

100,000 km

CORROSION PERFORATION

60 months/unlimited kms (corrosion perforation of sheet metal).

60 MONTHS

OR

UNLIMITED km

EMISSIONS

Coverages vary under Federal and Provincial regulations. Refer to applicable Owner's Manual Supplement for details.

REFER TO APPLICABLE OWNER'S MANUAL SUPPLEMENT FOR DETAILS.

— D I S C L A I M E R S —

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (2) Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. Installation of a tow hitch receiver or other accessories located near the rear bumper may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. See Owner's Manual for limitations. (3) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (4) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (5) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (6) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (7) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (8) Not all exterior and interior colour options are available for every model. (9) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
