

2016

HIGHLANDER

TOYOTA

Go wherever your imagination takes you.

The 2016 Highlander offers the styling, capability, and versatility that lets you go wherever your curiosity takes you. It comes equipped for just about anything, with features to make your drive easier and keep you connected. You can take whatever you want – and whomever you want – with cargo space and roomy seating for up to eight passengers. Highlander's sleek and premium interior feels impressive every time you step inside. It has the strength and power of an SUV to get you wherever you want to go, today and tomorrow.

*FRONT COVER
Hybrid Limited shown in
Ooh La La Rouge Mica.*

Comfort and style, inside and out.

The 2016 Highlander offers an exciting and stylish design thanks to its sleek streamlined profile and aggressive wide rear stance. But that beauty doesn't fade once you step inside. The interior marries function and style with a variety of sleek and sophisticated features that are designed to impress. Premium materials and textures are featured throughout the cabin, including a soft-touch instrument panel, available heated leather steering wheel, and available leather-trimmed seats. The interior was thoughtfully designed to make sure that every seat offers the utmost comfort, style, and convenience.

Limited AWD shown in Ooh La La Rouge Mica.

Technologically advanced from head to tail lamp.

Even those who can do it all appreciate a little help now and again. Highlander features an array of advanced technology that lets you stay connected, especially when you need it most. Whether it's innovations like the Display Audio System⁴ with available Navigation⁵ that take the guesswork out of getting to where you're going, or handy features like an available auxiliary outlet on the second-row seats for electronic devices, Highlander has something for everyone. With a host of standard and available technology that are not only convenient but also incredibly easy to use, getting to your destination is half the fun.

ALL AROUND CONVENIENCE Parents will appreciate the standard Conversation Mirror that lets you see what the kids are up to in the back. For added convenience, activate the available Driver Easy Speak and a hands-free microphone in the overhead console allows the driver's voice to be heard clearly through the rear speakers.

THREE-ZONE AUTOMATIC CLIMATE CONTROL Highlander comes with available Three-Zone Automatic Climate Control that lets the driver, front passenger, and rear seat passengers select individual temperature settings.

MULTI-INFORMATION DISPLAY The Multi-Information Display provides valuable information on a variety of vehicle functions and systems, including fuel consumption history, average fuel economy, distance to empty, average speed, trip distance, and much more.

IN-DASH SHELF Conveniently access your electronic devices by storing them neatly in the large capacity In-Dash Shelf. For better visibility, it also features available blue-coloured ambient lighting.

DISPLAY AUDIO SYSTEM⁴ WITH NAVIGATION⁵ The Display Audio System⁴ with available Navigation⁵ offers a seamless way to stay connected. The system features an 8-inch touch-screen with Bluetooth^{®3} wireless music streaming, and a unique "text-to-speech" feature that converts text messages from your phone into voice messages that play through the vehicle's speaker system.

Limited AWD shown in Ooh La La Rouge Mica.

Designed for whatever you happen to have in mind.

Highlander is exceptionally versatile, adapting to your ever-changing plans with ease. For starters, the available power liftgate has an innovative height-adjustment memory feature that can be easily set to open to your preferred height every time. Inside, it comfortably seats up to 8 passengers, while the Limited models seat up to 7. The 1-step second-row sliding seat function makes it incredibly easy for third-row seat passengers to enter and exit the vehicle. The second and third-row seatbacks also recline so passengers can unwind on those especially long trips. We've even left enough room for a convenient foldable side table on the available second-row captain seats. Wherever your imagination takes you today, Highlander is ready to get you there.

2,300 litres of cargo space

Available flip-up rear glass hatch window

**Useful, versatile,
and capable
just met beautiful.**

The hybrid that hauls.

Like all the Toyota Hybrids, the Highlander Hybrid has an impressive and proven track record. With a combined fuel efficiency rating of 8.4 L/100 km (LE), constantly having to search for a fuel pump is a thing of the past. And we didn't have to sacrifice power or performance in the process. It has an impressive 1,587 kg (3,500 lb.) of towing power and is equipped with Electronic On Demand AWD-i. Highlander Hybrid generates as much as 280 hybrid system net horsepower,¹⁵ which is more than many gas models on the road today. Highlander Hybrid proves that being friendlier to the environment doesn't mean having to give up the thrill of the drive.

EV OR ECO MODES EV mode uses only the electric motors for situations where you're driving at low speeds for short distances. For more economical operation in normal driving situations, ECO mode modifies throttle response to help reduce fuel consumption.

HYBRID SYSTEM INDICATOR Located in the instrument gauge panel is the Hybrid System Indicator, which provides the driver with a guideline to help optimize fuel efficiency.

Hybrid Limited shown in Blizzard Pearl.

Sustainability. It's more than just a word to us.

Toyota's commitment to sustainability extends well beyond what we do on the road. It also lives in our commitment to improving Canadian communities. Since 2000, the Toyota Evergreen Learning Grounds has provided funds to over 2,000 schools across the country, transforming school grounds into natural learning environments so that students can engage with nature. It's a way to help create greener environments and more sustainable cities. And the 2016 Highlander continues Toyota's commitment to sustainable mobility. Highlander was designed with these same values in mind, with its focus on fuel-efficient technology (including a hybrid option), and by being a vehicle that takes today's youth toward tomorrow.

Strength and power. With comfort and control to match.

Whether you're heading out on a long trip or just taking a spin around the block, the rugged and capable Highlander delivers an impressively smooth and comfortable ride – every time. Mated to its strong, stiff body structure is a retuned suspension system with optimized spring rates and shock absorbers. The MacPherson strut suspension up front is paired with a double-wishbone type suspension in the rear that enhances Highlander's handling, stability, performance, and overall ride quality and comfort. In addition to the impressive fuel efficiency you've come to expect from Toyota, is our reputation for reliability and durability, which is proven by the fact that over 85% of Toyotas sold in Canada in the last 20 years are still on the road today.* With the 2016 Highlander, taking the long, scenic route is now more rewarding than ever.

IMPRESSIVE TOWING Your experiences should never feel limited. With a towing capacity of up to 1,587 kg (3,500 lb.) on Highlander Hybrid, and up to 2,268 kg (5,000 lb.) on Highlander – you'll have more than enough power to pull a camping trailer with ease, or whatever else you may need while you're away.

6-SPEED AUTOMATIC TRANSMISSION Highlander features a 6-speed Electronically Controlled Automatic Transmission that improves fuel efficiency, while also enhancing acceleration performance. (Not available on Hybrid models.)

AVAILABLE DYNAMIC TORQUE-CONTROL AWD With the Highlander Dynamic Torque-Control AWD system, engine power is distributed from front-to-rear, giving the driver maximum control on a variety of surfaces. Highlander Hybrid offers Electronic On Demand AWD with intelligence. When additional traction is required, it automatically switches to AWD, utilizing an additional motor to drive the rear wheels.

Peace of mind is the greatest feature of all.

Keeping your family safe is our top priority. That's why the 2016 Highlander includes a long list of active and passive safety features designed to help give you the confidence you need to get to your destination safely. Its impact-absorbing body structure efficiently distributes impact energy in the event of a collision, along with a high-strength body framework that reduces cabin deformation. That's peace of mind you can count on wherever you go. And that's not all. Highlander comes standard with the Star Safety System™, our advanced integration of safety technologies that includes Vehicle Stability Control,⁶ Traction Control, Anti-Lock Brake System, Electronic Brake-Force Distribution, Brake Assist,⁷ and Smart Stop Technology.⁸

DYNAMIC RADAR CRUISE CONTROL¹³/PRE-COLLISION SYSTEM¹⁰
Highlander Hybrid is available with Dynamic Radar Cruise Control,¹³ which senses a vehicle ahead and automatically adjusts your vehicle speed to allow for a safe and comfortable distance between vehicles. Also available on Highlander Hybrid, the Pre-Collision System (PCS)¹⁰ is designed to help recognize and anticipate unavoidable frontal collisions by automatically applying the brakes and retracting the front seatbelts to help you prepare for such a scenario.

XLE AWD shown in Nautical Blue Metallic.

LANE DEPARTURE ALERT¹⁴ The available Lane Departure Alert (LDA)¹⁴ on Highlander Hybrid uses a camera to monitor visible lane markings, alerting you if you are drifting.

BLIND SPOT MONITOR⁹ W/REAR CROSS-TRAFFIC ALERT⁹ Highlander comes with an available Blind Spot Monitor (BSM)⁹ with Rear Cross-Traffic Alert (RCTA),⁹ which uses radar technology to help identify vehicles that may not be visible when changing lanes or backing out of a parking space. When a vehicle is detected, a warning indicator illuminates on the appropriate side view mirror.

BACKUP CAMERA When reversing, the 6.1-inch or available 8-inch touch-screen on the dash displays an image of what the camera sees behind you.

8 AIRBAGS¹ Highlander comes standard with eight airbags,¹ which include dual-stage driver and front passenger airbags, driver's knee airbag, front passenger seat cushion airbag, driver and front passenger seat-mounted side airbags, and roll-sensing front and rear head/side curtain airbags.

New Vehicle Warranty Summary – No deductibles – no transfer fees

COMPREHENSIVE COVERAGE 3 years or 60,000 km.
This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS 5 years or 100,000 km.
This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS 8 years or 130,000 km.
This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION 5 years/unlimited distance.
This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

HYBRID-RELATED COMPONENTS** 8 years or 160,000 km.
This warranty covers repairs to hybrid-related components that are defective in material or workmanship under normal use and maintenance.

**Includes: HV Battery, Battery Control Module, Hybrid Control Module and Inverter with Converter.

Disclaimers

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Do not use the hands-free phone system if it will distract you. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends upon software, coverage and carrier. (4) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (5) Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your Dealer. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. (7) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. (9) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (10) The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system or a substitute for safe and attentive driving. (11) Lane Departure Alert is not a collision-avoidance system or a substitute for safe and attentive driving. (12) Automatic High Beam system operates at speeds above 40 km/h. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. (13) Dynamic Radar Cruise Control is not a collision-avoidance system or a substitute for safe and attentive driving practices. (14) DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. (15) The maximum output indicates engine plus HV battery output. (16) *Aeroplan and the Aeroplan logo are registered trademarks of Aimia Canada Inc.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
