INTRODUCING THE SERVICE REWARDS PROGRAM

In addition to offering customers high quality, affordable Kia vehicles, West Hills Kia gives you a great reason to visit its best in class service department.

What is the Service Rewards Program?

The Service Rewards Program is our way of saying “thank you” for your continued service business. We hope that you will make West Hills Kia your only choice for all your vehicle service needs.

Program Description: The West Hills Auto Plex Service Rewards Program offers you an opportunity to earn discounts towards a variety of dealership services and benefits. Additional services and benefits will be announced on an ongoing basis. Check your online account at any time to see your earned awards and discount benefits.

How it works: For each retail dollar you spend with our Service Department we will automatically credit 1 point to your account. You can redeem your points at any time by presenting your card to the cashier and requesting a benefit. The cashier will subtract from your account number of points required to redeem the benefit you have selected. It's just that easy!

See your Service Advisor for details.

GAS SAVERS

1. Vehicle Gas Caps: About 17% of the vehicles on the road have gas caps that are either damaged, loose, or are missing altogether, causing 147 million gallons of gas to vaporize every year.

2. Under inflated Tires: When tires aren't inflated properly it's like driving with the parking brake on and can cost a mile or two per gallon!

3. Worn Spark Plugs: A vehicle can have four, six or

eight spark plugs, which fire as many as 3 million times every 1000 miles, resulting in a lot of heat and electrical and chemical erosion. A dirty spark plug causes misfiring which wastes fuel. Spark plugs need to be replaced as recommended by the manufacturer.

4. Dirty Air Filters: An air filter that is clogged with dirt, dust and bugs chokes off the air and creates a "rich" mixture - too much gas being burned for the amount of air, which wastes gas and causes the engine to lose power. Replacing a clogged air filter can improve gas mileage by as much as 10%, saving about 40 cents a gallon.
