SERVICE I MAINTENANCE

**7,500 • 22,500 • 37,500 • 52,500 • 67,500
• 82,500 • 97,500 • 112,500 • 127,500 and
142,000 Mile Services**

- Perform Valvoline Semi-synthetic Oil & Filter Change
- Add Fuel Injector Cleaner & Oil Additive
- Lubricate Hinges & Door Locks
- Adjust Rear Brakes & Hand Brake Cables
- Rotate Tires
- Top-off All Fluid Levels
- Set Tire Pressure
- Multi-point Inspection
- Free Car Wash and Vacuum

Regular Price **\$118.75**

VIP Price \$106.95

Dealer's recommendation. For some models, prices may vary. Hazardous waste disposal, shop supplies & taxes are additional.

Here is why we do it:

The 7,500 mile scheduled maintenance interval is designed to get the optimum ownership value from your Nissan while helping to maximize its performance, safety & reliability. How much maintenance your vehicle requires depends on how you drive, as well as the conditions in which you drive. Depending on time or mileage, your vehicle may require more frequent oil changes.

- Multi-point Inspection
- Free Car Wash and Vacuum

Regular Price.....	\$415.72
Regular Price Quest.....	\$515.72
VIP Price.....	\$376.64
VIP Price Quest.....	\$476.64

Dealer's recommendation. For some models, prices may vary. Hazardous waste disposal, shop supplies & taxes are additional.

Here is why we do it:

Keeping your Nissan vehicle in tip top condition & maintained according to factory requirements involves more than an oil change. As you can see, the 15,000 mile service includes the 7,500 mile interval. At this time, the rubber on your wiper inserts may have deteriorated because of weather. Also, your tires not only need to be rotated, but balanced, to maximize tire wear & performance. Exhaust pipes, mufflers & hangers are inspected for cracks, deterioration or damage.

SUPER SAVER

- Perform Valvoline Semi-synthetic Oil & Filter Change
- Add Fuel Injector Cleaner & Oil Additive
- Lubricate Hinges & Door Locks
- Rotate Tires
- Top-off All Fluid Levels
- Set Tire Pressure
- Replace In-cabin HEPA Filter*
- Replace Air Filter
- Test, Service & Seal Battery
- Multi-point Inspection
- Free Car Wash and Vacuum

Regular Price	\$250.80

ADDITIONAL SERVICES:

VPS Cooling System Service

Install Valvoline Professional Series Cooling System Flush to coolant; allow to circulate to remove scale and deposits. Perform computer controlled back flush, pressure test system, check hoses, cap and connections. Install Valvoline Professional Series Cooling System Protector.

\$119.95
(includes water pump sealer)

VPS Transmission Service

Using the latest in state-of-the-art technology, we'll install the Valvoline Professional Series cleaner to suspend harmful varnish and sludge from the transmission valve body, torque converter and lines. Install new high-tech Valvoline fluid with Valvoline Professional Series conditioners.

\$149.95
(CVT \$239.95)

VPS Brake Fluid Exchange

Flush entire brake system with Valvoline Professional Series Dot 4 Brake Fluid. Flushing your ABS or standard brake systems will extend the life of the internal hydraulic components through resistance to corrosion.

\$119.95

VPS Engine Flush

Using a detergent based cleaning solution that is circulated throughout your engine, sludge & contaminants are removed. This helps increase performance, mileage, prolong engine life and reduce emissions

\$129.95
(Armada or Titan \$169.95)

VPS Differential Service

A skilled technician will completely service your differential and/or transfer case by removing old contaminated fluid and installing fresh new fluid. This service will extend gear life, offer superior lubrication and increase gas mileage. Recommended every 30,000 miles.

\$99.95 each

VPS A/C Evaporator Cleaning Service

Using a unique cleansing solution, this service will restore your air conditioner's efficiency and freshens the interior air.

\$79.95

VPS Combination Cabin Air Filter & A/C Cleaning Service

Replaces the existing cabin air filter with a new cabin air filter.

\$129.95

VPS Battery Service

Corrosive build-up on the battery terminals reduces cranking capacity and shortens battery life. The anti-corrosion battery service helps restore cranking efficiency for easier starts and longer battery life. This service is backed by an Anti-Corrosion Lifetime Guarantee.

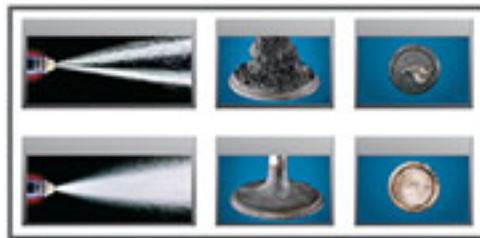

\$29.95

3 Part Fuel Service (Fuel Induction, Throttle & Decarb)

The 3-Part system is a 3-step professional service that cleans the entire fuel system (including the fuel injector, intake valve and combustion chamber) and the air intake system to help restore maximum power and performance. The premium synthetic products used in the 3-step process are:

- VPS Super Concentrated Fuel Injector Cleaner
- VPS Throttle Body Cleaner
- VPS Intake Cleaner

\$132.95
(includes idle air control)

VPS Power Steering Service

Our technicians use a powerful Valvoline Professional Series Cleaner to dissolve gum and varnish in your car's power steering unit. Next we will flush old, wornout, contaminated fluid and install fresh new Valvoline Professional Series synthetic fluid formulated with special antioxidants and anti-wear ingredients to prevent expensive mechanical failure.

WEST HILLS NISSAN

Mission Statement

At West Hills Nissan our goal is to enhance the professional image of our industry, through exceptional customer service. Delivering the highest level of customer service will always be the driving force behind our company.

Our philosophy of providing outstanding service and treating our customers and our fellow employees the way we ourselves wish to be treated will remain the cornerstone of our business. We understand that only by consistently exceeding our customers expectations can we earn their trust, confidence and our ultimate goal of lifetime owner loyalty.

We will remain committed to being a good partner by supporting and investing in our community. We understand that reputation is earned one customer at a time and we look forward to the opportunity to earn each customer and welcome him or her into our family.

WEST HILLS NISSAN

We Sell Tires!

WHEN TO REPLACE

This depends on several factors including road conditions you usually face, your style of driving, and how your tires are maintained. You should begin to consider replacing your tires when the tread is worn down to 4/32". Built-in tread wear indicators, which look like narrow strips of smooth rubber across the tread, will appear when it's time to replace the tire. In fact, in most states the law requires that tires be replaced when the tread is worn down to 2/32"
