A NOTE ABOUT YOUR FOX SHOCKS

YOUR NEW SHELBY BAJA RAPTOR IS EQUIPPED WITH A HIGH-PERFORMANCE FOX EXTERNAL BYPASS SHOCK SYSTEM. DEVELOPED FOR OFF-ROAD RACING, THESE FOX EXTERNAL BYPASS SHOCKS ARE DESIGNED TO OFFER YOU THE PERFORMANCE AND ADJUSTABILITY TO TAKE YOUR VEHICLE TO THE NEXT LEVEL. DUE TO THE EXTERNAL BYPASS SYSTEM, YOU MAY HEAR A NOISE COMING FROM UNDERNEATH THE BACK OF THE TRUCK WHEN DRIVING AT LOW SPEEDS. THIS IS THE SOUND OF THE VALVES OPENING AND CLOSING ON THE REAR BYPASS SHOCKS. THIS IS A NORMAL CHARACTERISTIC OF THIS TYPE OF HIGH PERFORMANCE EXTERNAL BYPASS SHOCK SYSTEM.

Due to constant product improvement and innovations, standard features and available options are subject to change without further notice.
